Notice is hereby given, that the Copartnership heretofore existing between John M. Davis, John Wood and Francis F. Pettigrew, under the name and firm of JOHN M. DAVIS & CO., was dissolved by mutual consent on the first day of October, 1859.

All persons having claims against said firm are requested to present them for settlement, and all those indebted to make payment to John M Davis who is authorized to settle the same.

FRANCIS F. PETTIGREW,

NOTICE.

The Wood business heretofore carried on under the firm name of JOHN M. DAVIS & CO., will be continued at the old stand on CORNWALL STREET, by **JOHN M. DAVIS.**

☞ A blooming young damsel, named Rosa Johnson, recently made her complaint in the Detroit Police Court against another equally attractive maiden, one Miss O'Brien, charging her with having stolen her garters. It appeared that the garters were the gift of a seafaring lover, who had brought them all the way from Buenos Ayres. They were figured with elaborate devices, and inscribed with a pretty motto in Spanish, and had a Cupid on one end, which embraced a heart on the other when the article was clasped. She missed them on a Sunday morning, and made such grief about it that there was no peace in the family until all the girls—it was some sort of a feminine manufacturing institution—agreed to a search. When it came the O'Brien's turn, however, she demurred on the ground of extreme delicacy, whereupon they all set upon her, and threw her down, and then made a forcible inspection, which revealed the stolen property in pristine and unblemished beauty. Martha Jane plead the great temptation and the instinctive weakness of her sex for the little vanities of the world, and maintained that she only wanted to borrow them. She got off with only a fatherly admonition to better conduct in future.

INSANITY.—In politics men become mad. One ideaism is madness, and the politician sees nothing but his party. The sectarian is but a politician with a religious kink, and he can think of nothing, and speak of nothing but our church. In this he is not any different from the man who always talks horse, or the theatrical madman who regards the world as a stage, and sees in men and women but merely players. The devotee of fashion is very mad, and the snob a most ridiculous madman at the best. All are mad but editors, who are kept sane by Providence to look after the insanities of others.—*Sat. Eve. Gazette.*

A New York paper considers it logical and just in a Southern paper to say thal "the South will *demand* that *any man whose* position commits him to the position that *the negro has a right to his freedom,* and ought to have it, *shall not be elected President of the United States!"* No more Jeffersons or Madisons can ever be President if the South can prevent it, and to secure Southern votes a man must worship negro slavery! Such sentiments do more to develope "Old Browns," than all the abolitionists in Chistendom.—*Bath Times.*

The News.

HARPER'S FERRY, VA., Nov. 11.—When the prisoners were brought out for sentence, the negro Copeland, and Green declined to say anything, and Cook and Coppie both addressed the Court, denying that they had any knowledge of Brown's intentions to seize the Ferry until the Sunday previous, when they were called upon to take the oath of obedience to the Commander. They expected to be punished, but did not think they should be hung.

Hazlett will not be tried until the May term of the Court.

The negroes are to be hung on the Morning of the 16th of December, and the whites during the afternoon of the same day.

☞ In the case of Geo. P. Burnham, State Liquor Agent for Massachusetts, under arrest for contempt, in refusing to present his books for inspection to the Legislature, and brought before the Supreme Court in Boston, on a writ of habeas corpus, on Saturday, Chief Justice Shaw spoke for the Court. He said the Court had arrived at a conclusion which had been concurred in by all the justices, but that no member of the Court was ready now, to present a full view of the grounds on which the decision of the Court had been made.

He held that it was not competent for courts of law to inquire into the grounds on which the House of Representatives acted. The importance of the question involved could scarcely be over-rated. That the Legislature had the power to imprison was settled; and the question was whether they had exercised it properly in the present case. It was a case fit to be inquired into, and requiring the attendance of witnesses. Meanwhile, Mr. Burnham remains in the custody of the Sheriff.

☞ The St. Louis Bulletin gives the closing portion of a sermon delivered at Salt Lake City by Elder Middlemas, a Mormon Saint, where it is asserted that there are printing offices, electric telegraphs and phonographic reporters in heaven!

☞ Hon. M. J. Parrott is elected in Kansas as Delegate to Congress by more than three thousand majority. The Republicans have a majority in both branches of the Legislature.

☞ A professedly religious paper, called the New York Observer, goes for hanging Ossawatomie Brown. The Buchanan papers, like the Journal of Commerce and the Boston Post, ask to have the old man spared.

☞ The system of holding political conventions is about to be tried in Canada. This institution is an American notion; wares which are becoming popular with our neighbors.

☞ The Fall Session of the Teachers' Institute for Rockingham County, commences at the Town Hall in Hampstead, to-day, at 10 o'clock, and continues through the week.

☞ A lady correspondent, writing from Kansas to the Muscatine, Iowa, Journal, says many families in that territory will starve for want of bread the coming winter.

Old Brown has been guilty of iniquity enough to damn a city.—*Boston Post.*

"The Saint, whose fate yet hangs in suspense, but whose martyrdom, if it shall be perfected, will make the gallows as glorious as the cross."—*Ralph Waldo Emerson.*

The quantity of wheat brought into La Crosse, Wis., is so great that there are scarcely enough freight cars on the road to carry it to Milwaukie.

WASHINGTON, Nov. 11.—It was thought last night that Senator Douglas was recovering from his attack of bilious fever, but to-day he is dangerously ill again.

Gov. Willard is here at the National Hotel.

ST. LOUIS, Nov. 11.—Jos. W. Thomson, who shot Mr. Joseph Charles in the street in June last, was hung this afternoon.

NEW YORK, Nov. 11.—It is believed that the whole Republican State ticket is elected by from 1000 to 5000 majority.

From the Journal.

SAVINGS BANKS.—There is quite a discussion in the Boston journals, with regard to the securities required for Savings Bank's Loans. An important subject truly, when it is remembered that many industrious but poor families have invested all their little store of cash in these institutions. The question at issue is, whether the deposits in Savings Banks should be loaned out on commercial paper; and the general sentiment appears to be in favor of lending on mortgages and other equally substantial investments, and none other. The *Daily Advertiser* contends that such was plainly the principle on which the present savings bank system was established, since it contemplates and allows the investment of three-fourths of the deposits in mortgages upon real estates, thus apparently proposing no greater share of investments easily convertible and frequently changed, than should be required as a security against the sudden withdrawal of deposits.

The Portsmouth Savings Bank, which now has deposits of not far from a million dollars, has never loaned upon commercial paper, or even upon mortgages. Its investments are in state, county and city bonds of undoubted security, which can at any time be turned into cash. This bank, which was incorporated in 1823, has never met with any losses, and has paid to some depositors of long continuance ten per cent. on their investments.

The Christian Society, now worshipping at the Temple, have extended to Rev. Moses Howe of New Bedford, who has been with them a few weeks, an invitation to become their pastor. Mr. Howe was for many years a very acceptable pastor in this city, and his return would be joyfully greeted by many old friends.

Should the old and highly esteemed pastor of the North Church, Rev. Dr. Putnam, be invited to return after his absence of a quarter of a century, the case would be parallel. Dr. Putnam's recent letter to his old church shows that he has lost nothing of the energy of his early years.

The new Vestry of the Methodist Society, now nearly completed, at a cost of $1300, is to be dedicated on Thanksgiving Day, with appropriate and interesting services.

On Monday evening next the ladies of the Society are to give a Tea Party in the new chapel, the proceeds of which are to be used in defraying the expenses of the erection of the building.

The ladies connected with the Broadhead Methodist Society are to hold a Fair or Social Festival at Jefferson Hall on the 17th, 18th and 19th inst.

A NATURAL CURIOSITY.—Mr. Frederick Rowe exhibits to us a ball, nearly round, measuring 7 inches in circumference, taken from the first stomach of an ox butchered last week in this city. It is dark brown, nearly black, as hard and as smooth as a cocoanut shell, and without smell. On boring a hole in one end, it was found full of hair. It appears to have been formed of hair, although there is not the least appearance of it on the surface, which is hard as horn. In his long experience in butchering, Mr. Rowe never met with a like substance before.

We learn from the Colonization Herald that by advices from Monrovia, intelligence has been received to the 3d of August. The affairs, political and agricultural, were moving on most encouragingly. Three vessels arrived during the month of July, with emigrants; the Rebecca, from New Orleans, with forty-two of the McDonough household; the packet Mary Caroline Stevens, with ninety-nine, among whom were several families from Philladelphia and Chester Co.; and the Mendi, with forty-five; making a total of one hundred and eighty-six passengers. The Liberia Herald speaks of these accessions as comprising ministers, teachers, carpenters, blacksmiths farmers and traders. The Quail, a war vessel presented by the British Government to the Republic, had reached Monrovia in charge of a Liberian officer. This donation is most a valuable and acceptable one. Its money value is estimated at $15,000, while as a guarda costa revenue cutter, and suppressor of the slave trade, it will be in inestimable. President Benson had started in her on a visit to the chiefs to the leeward. The liberated Africans from the Slaver *Echo*, are doing well. Many are distributed among private families, and learn fast the habits and customs of civilized life. The intelligent colored people that have emigrated from the United States to Liberia, speak in the highest terms of the latter country.

"THE HARMONIOUS DEMOCRACY.'—The Portsmouth Gazette and the Dover Gazette, both democratic organs, have got into a violent quarrels though what it is all about is somewhat difficult to tell. The Portsmouth organ calls its Dover brother, in substance, swoon-poop, who knows nothing about democracy, it being too too strong for his stomach, while Dover reports that Portsmouth is a hyena, or a turkey buzzard, or some varmint of that sort, living on custom house offal, and begs as a special favor that so long as he continues to advocate the doctrines which he now does, he will not call him "dear brother." Yet both of them, according to their own showing, stand on precisely the same platform, or at least are delighted with the straddle bug resolutions passed by the State Convention. The Portsmouth Gazette says of the resolutions and the doings of the Convention:

"Henceforth the Democracy of New Hampshire are to stand on the solid and pure platform of the Constitution and the Dred Scott Decision, in reference to the great issue of the Territories, and not upon the rotten and treacherous foundation of inherent squatter sovereignty."

The Dover Gazette says of the same:

"There is no mistaking the position of the Democracy of this State now. The great principle POPULAR SOVEREIGNTY is emblazoned on our banners, and we once more declare our steadfast adherence to the doctrine of Non-Intervention, as expressed in the resolutions adopted."

We repeat, can anybody tell what these fellows are quarelling about?—*Dover Enquirer.*

BROWN'S CONDITION.—A Charlestown, Va. correspondent of the N. Y. Tribune writes that "Brown's wounds, excepting one cut on the back of the head, have all now healed, without suppuration, and the scars are scarcely visible. He attributes his very rapid recovery to his strict abstemious habits through life. His appearance is very much the same as usual, which is decidedly unlike all the portraits of him that have of late appeared. He is really a man of imposing appearance, and neither his tattered garments, the rents which were caused by sword thrusts, nor his scarred face, can detract from the manliness of his mein. He is always composed, and every trace of disquietude has left him."

AMERICAN & FOREIGN PATENTS.

R. H. EDDY, Solicitor of Patents,

Late Agent of U. S. Patent Office, Washington, 8 years past of 1837.

76 STATE, OPPOSITE KILBY ST., BOSTON.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other Foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions, and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove that at no other office of the kind are the charges for professional services so moderate. The immense number of patents obtained during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

I have no hesitation in assuring inventors they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.

BOSTON, February 8, 1858.

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that one is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART.

From Sept. 17, 1857, to June 17, 1858, the subscriber, in the course of his large practice, made on TWICE rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in EVERY FAVOR, by the Commissioner of Patents.

HOME AND EUROPEAN DEMAND.

The reason why, is that by Nature's own process it restores the natural color permanently after the hair becomes gray; supplies the natural fluids, and thus makes it grow on bald heads, removes all dandruff, itching, and heat from the head, quiets and tones up the nerves, and thus cures all nervous headache, and may be relied upon to cure all diseases of the scalp and hair; it will stop and keep it from falling off; *makes it soft, glossy, healthy and beautiful*, and if used by the young two or three times a week it will never fall or become gray; then, reader, read the following and judge for yourselves:

NEW YORK, Jan. 8, 1858.

MESSRS. O. J. WOOD & CO.,

Gentlemen: Having heard a good deal about Professor Wood's Hair Restorative, and my hair being quite gray, I made up my mind to lay aside its prejudices which I, in common with a great many persons, had against all manner of patent medicines, and a short time ago I commenced using your article, to test it for myself.

The result has been so very satisfactory that I am very glad I did so, and in justice to you, as well as for the encouragement of others who may be as gray as I was but who having my prejudice without my reasons for setting it aside, are unwilling to give your Restorative a trial till they have further proof, and the best proof being occular demonstration, I write you this letter, which you may show to any such, and also direct them to me for further proof, who am in and out of the N. Y. City selling establishment every day.

My hair is now its natural color and much improved in appearance every way, being glossier and thicker and much more healthy looking. I am, yours respectfully, EMORY JENKINS.

Cor. Columbia and Carroll Sts., Brooklyn.

LIVINGSTON, Ala., Feb. 14, 1858.

PROF. WOOD—Dear Sir: Your Hair Restorative has done much good in this part of the country. My hair has been slightly thinning for several years, caused, I suppose, from a slight burn when I was quite an infant. I have been using your Hair Restorative for six weeks and I find that I have a fine head of hair now growing, after having used all other remedies known, to no effect. I think it the most valuable remedy now extant, and advise all who are afflicted that way to use your remedy.

You can publish this if you think proper.

Yours, &c. S. W. MIDDLETON.

PHILADELPHIA, Sept. 9, 1857.

PROF. WOOD—Dear Sir: Your Hair Restorative is proving itself beneficial to me. The front, and also the back part of my head almost lost its covering—was in fact BALD. I have used but 2 half pint bottles of your Restorative, and now the top of my head is well studded with a promising crop of young hair, and the front is also receiving its benefit. I have tried other preparations without any benefit whatever. I think from my own personal recommendation, I can induce many others to try it. Yours, respectfully,

D. R. THOMAS, M. D.,
No. 464 Vine Street.

The Restorative is put up in bottles of three sizes, viz: large, medium, and small; the small holds half a pint, and retails for one dollar per bottle; the medium holds at least twenty ounces, and is in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent. more in proportion, and retails for $3 a bottle.

AYER'S SARSAPARILLA.

A compound remedy in which we have labored to produce the most effectual alterative that can be made. It is a concentrated extract of Para Sarsaparilla, of combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will a complish their cure must be of immense service to this large class of our afflicted fellow citizens. How completely this compound will do it, has been proven by experiment on many of the worst cases to be found in the following complaints:—

SCROFULA AND SCROFULOUS COMPLAINTS, ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUMS, SCALD HEAD, SYPHILIS AND SYPHILITIC AFFECTIONS, MERCURIAL DISEASE, DROPSY, NEURALGIA OR TIC DOULOUREUX, DEBILITY, DYSPEPSIA AND INDIGESTION, ERYSIPELAS, ROSE OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD.

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud.—Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and pleurous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions or sores—cleanse it when you find it is obstructed or sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.

Sarsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it contain but little of the virtue of Sarsaparilla, or anything else.

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Acne bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have grounds for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.

DR. J. B. HUGHES,

Knowing that there are at this moment thousands of persons in the surrounding towns, suffering and rendering their lives to the insidious inroads of certain dangerous maladies, who still suffer from the reluctance to make known their complaints and consult a physician, he would state that some of his medicines will be sent by express or other wise, to all who may order them, provided the true description of the disease be sent by letter and directed as above.

Full and explicit directions will accompany every package, and the most inviolable secresy preserved.

DR. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of disease which have been improperly treated by empyrics have come under his care, and more than three-fourths of this number have therefore upon his books as perfect cures.

Patients treated by letter by addressing Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed from scrutinizing friends.

GOOD READING.—To a cultivated, appreciative person, there are few more agreeable entertainments than *good* reading. To those of our readers who heard and saw Hon. Hampden Cutts, when he read Shakspeare in Portsmouth, last winter, we have nothing to say. Either they have been more favored than we in hearing good reading, or else we differ in opinion—if they do not pronounce him the best reader they ever heard. To those who have not heard him, we commend the following favorable notices—which express what we thought of him them, (and he is said to have much improved since,) and what others think of him:

The Chronicle said then and now says—Mr. Cutts is a gentlemen of fine appearance, good voice, and easy and agreeable manners. So entirely easy and natural is his reading—so free from any approach to the stage-struck rant, which to our apprehension mars and almost destroys the effect of such entertainments generally—that the interested listener will often forget himself and fancy the characters personated are all actually before him, engaged in familiar colloquy. Most public readers of Shakspeare are those accustomed to its stage performance, and carry with them much of constrained manner that is not agreeable: Mr. Cutts is one of the most natural, if not *the* most natural, free and life-like reader we ever listened to.

The Burlington Times says:—In the same vocation Mrs. Butler exhibits more of stage effect, perhaps, and very effectively; but in genuine *appreciative* rendering of the great master, we are unwilling to concede to her any superiority over Mr. Cutts. *He* never heard any of the "famous" Shakspeare readers, but reads with a fresh, individual interpretation of the text, which, to our mind, is better than the trained and somewhat conventional reading of the best dramatic "artists." It is the difference, as near as we can express it inoffensively, between intellectual and physical reading.

"COSMOPOLITAN ART ASSOCIATION" 1859-'60.—The Subscription Books for the sixth year of the Cosmopolitan are now open, and subscriptions ($3) are daily being received from all sections of the country, in a ratio unparallelled with that of any previous year. The collection of works of art, to be awarded in premiums among subscribers in January next, will exceed in number and value that of any year since the founding of the Association, embracing, as it will, choice paintings from the easels of the first American and foreign artists, sculptures, bronzes, outlines, bas-reliefs, &c. The superb engraving, which every subscriber will receive immediately on receipt of subscription, entitled "Shakspeare and his Friends," is of a character to give unqualified pleasure and satisfaction; besides which, some of the splendid and valuable works of art, at the distribution. Names forwarded by Frank W. Miller, at the Chronicle Office, who is Honorary Secretary for Portsmouth and vicinity.

THE WEEKLY CHRONICLE,
Containing the news of the week, at home and abroad, as published in the six previous issues of the Daily Chronicle,—is printed on *Friday* morning, and immediately delivered by our carriers to subscribers in the city, or sent by mail to any part of the State or the world.
As the Weekly Chronicle contains most of the matter from our "local" Daily columns, it will be found an attractive paper for natives of Portsmouth living abroad, and all others interested in our city.
Terms of subscription to the Weekly Chronicle, only $1 per year in advance—sent by carrier without extra charge, to any part of the city and vicinity; or by mail, postage free, to any part of Rockingham County. Direct letters, "Chronicle, Portsmouth, N. H."

Morning Chronicle.

Portsmouth, N. H.

TUESDAY, NOV. 15, 1859.

LETTER FROM KEENE.

KEENE, Nov. 7, 1859.

Dear Chronicle:—Quite a winter morning this—all that is wanting to make it so, seems to be the white carpet of winter;—though, indeed, the frost partially supplies that. The mercury about 7 o'clock this morning indicated only 16 above zero. So you see we have quite a foretaste of winter. And, speaking of winter, do you know that its long dark evenings are to be made light and cheerful to the people of Keene by the burning of *gas*? It is really so.—Gas pipes have been laid in various directions in our streets, and the gas works are in process of erection. Quite a number of our citizens have had their houses prepared for it, and probably most of our shops and stores will be lighted with it.

You probably know that the church and society over which Dr. Barstow is pastor, have been holding two meetings during the past year—one in the church and one in the Town Hall. Mr. J. A. Hamilton preached at the Hall. The church and society have given him a call to settle as colleague with Rev. Dr. Barstow. He is now on a visit out West, and his answer is not yet received. He is a young men, and finished his theological course at Andover, Ms., a little more than a year ago.

There is now but one meeting held on the Sabbath by this church and society.—They come together, again, and worship in the Town Hall at this present writing, and intend to do so until the church is enlarged and repaired. There has been a long and tedious siege upon this same church repairing business, and it did seem for a while as though the society would in the end be rent asunder. Individuals owned the pews, and it was desired that these pews should, on certain conditions, be relinquished to the society, and new pews be taken in their stead, when the house should be completed. It was also intended to raise the salaries of pastor and colleague by taking the pews. Some were very unwilling to give up their pews. Some would not give them up on any terms, and a committee of three disinterested persons was chosen to appraise these pews, and then the sum at which they were valued was tendered to the owners. It has been an exceedingly anxious time, and things have at times looked dark. But it is hoped that God has not forsaken his people, and things now look fair for a happy termination of these "troublesome times." When the house of worship is remodelled, and the society have returned to it, it would seem as though, in point of numbers and efficiency, this society might stand second to none in the State. May the religious prosperity of this church be also increased—and in her may many be found who love the Lord.

The Keene Public Library is open, and its contents are in great demand, especially the works of fiction and romance. These seem to go like hot cakes, that is, judging by the largest vacancies on the shelves, where the few books left tell what kind of books occupied that spot. This mania for light reading seems to hold possession of many minds. I hope the Trustees will not cater too much to this craving for works of the imagination. We have already the best works of the best writers in that field, and I hope we shall not have too many such books added hereafter. QUI.

☞ Joshua R. Giddings says he would go down to Virginia and bag that $10,000 reward for him, provided he had confidence in the good faith and responsibility of the advertiser.

We remember that when a Mr. Batchelder was killed in Boston, in opposing the rescue of a claimed slave, there were large stories of Southern subscriptions of $2000 or so for Batchelder's widow—but all she got was a mere trifle.

It is said that Francis Jackson Merriam of Boston, who was reported to have joined the Harper's Ferry insurrectionists, and fallen a victim to the mad enterprise, is alive, and at present in Canada.

☞ The Washington correspondent of the New York Times states that important dispatches have been received by our government, relative to the San Juan dispute. It is said Great Britain expresses an earnest desire to settle amicably the difficulties which now exist, and she has no doubt, moreover, that this result will be accomplished.

☞ The New York Courier intimates that Thurlow Weed, of the Albany Journal, is about to commence a libel suit against the editor of the New York Herald—the alleged libel being the articles which have recently appeared in that paper, charging Weed with complicity in the African slave trade.

☞ John C. Fremont headed the list of subscribers in Bear Valley to the proposed monument to the late Senator Broderick. The figure he puts down is $500.

GOVERNOR'S HORSE GUARDS.—The plan is to have a body of cavalry, from 200 to 250 men, to escort the Governor at the inauguration in Concord in June, and to meet for parade on other occasions. It will doubtless be one of the finest military organizations in New England.

The meeting in Concord, on Thursday evening last, besides being attended by many of the old military men of Concord, embraced gentlemen from all parts of the State, among whom the Manchester Mirror mentions Gen. Geo. Stark, Col. John H. Gage, and Col. Bowers of Nashua, Gen. J. C. Abbott, Capt. Paul R. George of Contoocook, Hon. E. H. Rollins, Hon. Geo. W. Kittredge, Judge Butler of Nottingham, Col. H. O. Kent of Lancaster, Capt. Walker of the "Lady of the Lake," Aaron Young of Dover, Dr. Frank Fuller and Frank W. Miller of Portsmouth, and a large number of the leading citizens of Concord and other places. Letters had been received from other gentlemen from different parts of the State, announcing their willingness to cooperate in the enterprise. Among those who it is expected will become members, is Col. Joseph Cilley, of Nottingham, who was an officer at the battle of Lundy's Lane.

The call for the meeting and the charter being read, on motion of Gen. Stark, the charter was accepted, and the several persons present who were ready to put their names to the agreement were voted in as members of the corporation.

A discussion concerning the best means of proceeding followed, in which Capt. Paul R. George, Gen. Stark, Gen. Abbott, Hon. E. H. Rollins, Mr. Humphrey of Concord, Judge Butler, Col. Gage, and others took part.

It was then voted to appoint the following Committees, who should report at a subsequent meeting of the corporation:

On Organization—Col. Gage, Hon. E. H. Rollins, and Capt. George.

On Uniform—A. H. Bellows, Gen. Abbott and Gen. Stark.

On Constitution and By-Laws—Dr. Frank Fuller, C. C. Webster and Col. H. O. Kent.

On Armory—Col. Benjamin Gover, Capt. Walker and N. G. Ordway, all of Concord.

These Committees are to report at an adjourned meeting of the corporation to be holden at the Council Chamber on the 8th day of December, at 2 o'clock.

After some other preliminary business and discussion, the corporation adjourned.

The matter of uniforms was discussed at some length, and various gentlemen expressed their views upon the subject. It is not unlikely that the French Hussar uniform will be the style adopted.

☞ In a plea for mercy, the Pennsylvania State Sentinel, an able democratic paper says, in speaking of the sentence Old Ossawottamie Brown:—

Death is the penalty which the law attaches to his crime. It is a fearful penalty, but, as the world judges, a just one. As he sowed so will he reap. But now, the trial over, the sentence passed, where is the manly heart that does not sympathize with the bold, brave, daring, old enthusiast?—We attribute to others, more than himself, the crime for which he is to suffer—and if we dared hope that a plea for Executive clemency would now avail, we would ask Gov. Wise to spare the brave old man, and not bring down ignominiously, his gray hairs to the grave. A great crime has been committed, and he was the chief instrument. That is true. But still he was an instrument in the hands of others, too cowardly themselves to share with him the perils of the enterprise. Now, the question is, does the law, does justice, do the peace and security of the South require a sacrifice? And if so *must* Brown be the victim?—Gov. Wise is a brave as well as a humane man, and he will not, we are persuaded, affix his signature to a death warrant without due reflection. In the case of Brown we are persuaded he will not. That "bundle of nerves, cut, wounded, bleeding, and in bonds," he will not utterly crush unless thoroughly persuaded that justice and public safety require the sacrifice. We believe that "Old Ossawottamie" has learned a lesson—that he has profited by experience—and that, if permitted to live, his life, henceforth, would be a bright example to others. In this belief we trust that Gov. Wise will coincide, and that the end of Capt. John Brown is not yet.

Per contra, the Dover Gazette says:

We think him too bad a man to live, and should have suffered death long ago. He made a short speech before receiving the sentence of the Court. We pronounce it, all things considered, the most infamous speech ever uttered. It shows its author to be the most abandoned and hardened wretch that ever existed. A man who can stand up and plead the Golden Rule in extenuation of the crimes of which Old Brown is guilty, by his own confessions, has sunk to a depth of depravity hardly possible to conceive of.

We have as much repugnance to taking life as any other man. But the good and the safety of society demands that *all such* men as Old Brown should be *removed* from the world.

THEATRICAL.—"Before the appearance of the wonderful Ravel troup," says the True Flag, "theatricals were at a low ebb in Boston. The opera, even, failed to draw. But now the Boston Theatre is thronged, nightly, with an intelligent, and it is hardly necessary to add, amused audience. Saints as well as sinners patronise the Ravels, and both are amply recompensed for the time and money expended. If you desire good seats secure them in the day time, for the best are always engaged in advance."

Catarrhal Cough.

This insidious and annoying symptom, so difficult to treat, depends on a subacute inflammation of the air-passages, which is apt to end in chronic ulceration and a form of consumption, The mucous membrane of the air-passages is peculiarly susceptible to the healing influences of the PERUVIAN SYRUP, as the testimonials of some of our first citizens show.

There is no known remedy can exceed in speediness of cure, and certainty of effect, that which has become world famous as DR. HOSTETTER'S STOMACH BITTERS. In all diseases of the stomach, which are of a morbid nature, the Bitters have effected most remarkable cures when many other remedies have failed. Hundreds of certificates have been given by those who have thoroughly tested its efficacy, all of which corroborate its efficiency, when it is administered according to the directions on each bottle.

Some of the worst cases of Dyspepsia, Diarrhea and Costiveness, have been permanently cured by the use of the Bitters.

Sold by druggists and dealers generally, everywhere.

R. R. R.

On the 1st day of September, 1853, Mr. Charles Randolph called at the R. R. R. office, and stated that for ten years he had not enjoyed a single meal. He had not, for five years, had a natural discharge from his bowels; but was obliged to resort to Injections, &c. He was pale, haggard, and thin. We ordered Radway's Regulators, one each night, and Radway's Resolvent, three times per day. On the eighth of September he called upon us.

HE WAS SO ALTERED THAT WE KNEW HIM NOT.

His appetite is good—his digestion easy—his skin moist and healthy—his step elastic and buoyant—his body vigorous, and his eye indicates a man of health and energy.

For Liver Complaint, Dyspepsia, Difficulties of the Urethra and Bladder, Radway's Regulator and Renovating Resolvent are a quick and positive cure. For all Aches and Pains, for Neuralgia and Rheumatism, for Nervous and Bilious Complaints, Radway's Ready Relief is quick and effectual. In five minutes' time after its application, the patient is free from pain.

Sold by Druggists everywhere.

THE OXYGENATED BITTERS.

Such research and investigation has succeeded in discovering a remedy for that most afflictive dispensation, the

DYSPEPSIA!

With all its lesser and numerous evils; and it may be safely asserted that until the appearance of the *Oxygenated Bitters*, a case of Dyspepsia cured was a rare experience in medical practice. Now, under the influence of these Bitters the rule is to *cure*, the rare exception, failure to cure.

Read the following, which the subscriber requests us to publish for the benefit of the afflicted:

Obdurate and Inveterate Case of Dyspepsia cured by the Oxygenated Bitters.

The following from a gentleman well known in the region in which he lives ought to satisfy all those of little faith:

WATERTOWN, N. Y., July 28, 1858.

S. W. FOWLE & CO., Boston.—*Sirs*;—Nine years since I was attacked by that curse of all diseases, *Dyspepsia*, which so affected me as to cause great oppression, fullness, and bloating of the bowels, immediately after eating, accompanied with terrible pains in the stomach, often occasioning nausea, vomiting, acidity, and headache, together with general debility and suffering, altogether rendering life a burthen.

After having tried every known remedy without effect, and despairing of ever regaining my lost health, I was induced to make use of the Oxygenated Bitters, the good effects of which were immediately visible on my health and system. Before using a whole bottle I was entirely cured; and I feel a pleasure inducing all like sufferers as myself to make use of this remedy.

☞ At the recent term of the Supreme Judicial Court, held in this city, the suit Drew vs. Wm. Claggett, was transferred to the law term, with a bill of exceptions to the verdict, which was given to plaintiff on Saturday, when the court and jury seemed anxious to close the week's work.

The reader may remark that the Selectmen of Epping were tried two or three years ago, for refusing to put a name on the check-list,—that the Court charged the jury not to find a verdict against them, unless there was proof of malice or wilful injury,—and that the verdict accordingly was given in their favor. These selectmen had spent a large sum of money in their defence, and called upon the town to pay them. Last spring the town voted to pay them $200. But when they called for the money, the new board refused to pay over, as they deemed the vote illegal. The old board sued them for the payment. A verdict was agreed upon in favor of the claim, and then carried up to the full bench, for a settlement of the law question.

EXETER STAGE.—By an advertisement in this morning's paper, it will be seen that Mr. Sides will start a daily stage from this city, to-morrow morning, for Exeter, and return in the evening. This is designed to accommodate persons who wish to go from this city to Exeter and intermediate towns, and come back at the close of the day,—in place of the trains laid up for the winter.

If sufficient business should be done on the road, this line is intended to be permanent.

PEOPLE'S LYCEUM. — Hon. Hampden Cutts is to read selections from Shakespeare and other poets this evening. The following is his programme :—

From Shakspeare's "King Henry IV," Part of Scene 4, Act 2d.
"Nothing to Wear," by Wm. Allen Butler.
"The Bachelor's Dream," by Thomas Hood.
"Dream of Eugene Aram," " "
"Pain in a Pleasure Boat," " "
"The Fall," " "
"The Lost Heir," " "

The Portsmouth Cornet Band will give one of their grand Concerts, on some evening of the Course.

Rev. J. G. Adams of Worcester, will lecture.

Application has been made to Mr. Stark, the Poet-Lecturer, of Manchester, to read a Poem. He will be remembered by Lyceum-goers, as the author of the inimitable poetical satire, "Toddlejob 's Rich," which he read in such fine style at the Mercantile Lyceum, a couple of years ago.

And there will be one other Lecture or Concert—to supply which, Mrs. Lippincott ("Grace Greenwood") has been applied to, to lecture.

Tickets for the whole, only 50 cts.

As Thanksgiving and our City Election occur in the next two weeks, the Lyceum may be omitted—concerning which due notice will be given.

☞ We infer, from a paragraph in the North Adams, (Mass.) Transcript, that it is still customary there, to toll a passing bell, (i. e. a bell tolling just when the person is dying, or just after he is dead.)

The Transcript advises the people there, to leave off this foolish old custom. The Transcript says truly,—

The origin of this usage is not such as to entitle it to respect from an intelligent Christian people. History informs us that the custom of tolling bells at the death of individuals, originated in the dark ages, it being a superstitious expedient to frighten away demons that were supposed to be hovering around the spirits of the deceased.

The tolling of our funeral bells, no doubt had a similar origin, viz. the fear of devils, and the desire to drive them away. It may be worth while to enquire, whether this old custom might not also be dispensed with, without injury to anybody, and to the great relief of the sick in some cases, where the poor nervous patient hears his or her own knell *in advance*, in that of a deceased neighbor.

The Irish wakes had their origin in the fear of devils and in the idea that the body must be watched till buried, so that the devils should not carry off the soul:—but the Irish wake does not, like our funeral bell, disturb and alarm all the sick people in town.

EXCURSION TO BOSTON.—Josiah Perham has arranged for a grand extra train excursion party from Portsmouth and Way Stations as far as Wenham, to Boston and return, on Saturday, Nov. 19th, for the purpose of visiting the renowned Ravel Family, Boston Theatre, and also the Aquarial Gardens and other places of interest.

The Train will leave Portsmouth at half-past 7, A M ; Returning, leave Boston at quarter past 6, P M. Tickets (carrying to Boston and back,) $1.50, to be had at the depots. Secure your tickets early—the train will run, rain or shine, as the Ravels perform on no afternoon but Saturday.

The surprising performances of the Ravels at Boston Theatre commence at half-past 2. Tickets at the door—balcony and first tier of boxes 50 cents, family circle 25c, amphitheatre 15 cts. Dinner can be procured at the Adams House, two doors from the Theatre.

☞ We understand that the Board of Aldermen, by a majority of one, refused to adopt and use the snow-plough for sidewalks, on the ground chiefly that the travel of the horses on the sidewalk would break the bricks with which they are paved: an injury not very likely to be sustained when the walks are covered with snow.

☞ Rev. Dr. Lamson, pastor of the Middle street Baptist church, has received a call from Brookline, Mass., with an offer of $2000 salary.

Tho High Street Church, Providence, (late Mr. Wolcott's) have made a unanimous call to Rev. L. Whiting, late of Portsmouth, to become their pastor.

☞ We learn that the members of the Brodhead M. E. Society have leased the lot of land on Court street, front of W. P. Jones' residence, and intend to erect a new Chapel thereon forthwith. It will be of the same size of the Freewill Baptist meeting house.

☞ The Social Festival at the new Methodist Vestry on Monday evening, passed off pleasantly, and the remaining portion of unbroken edibles will be sold at Public Auction, this morning, at 10 o'clock, at the Vestry.

☞ Five persons are already under sentence of death for their participation in the Harper's Ferry "war"—Brown, Green, Coppie, Copeland and Cook. Should they all be hanged, the number of executions will be greater than was ever before known in any similar business.

Fousel's Pabulum Vitæ.

☞ THE GREAT FRENCH REMEDY possesses extraordinary properties for the speedy and permanent cure of CONSUMPTION, BRONCHITIS, COUGHS, COLDS, and all PULMONARY DISEASE.

This celebrated specific is now universally acknowledged to be infinitely superior to all other preparations for the cure of Pulmonary Disease, both from its innocent nature and most astonishing curative properties; *it being the only remedy known that will arrest the development of Tubercles in the Lungs or restore the vital functions of the pulmonary organs to their normal condition.* Its invaluable properties have obtained for it the highest recommendation and praise from some of the most eminent physicians and chemists in the country: while the best and surest proof of its merits are afforded by the numerous testimonials of its great efficacy in conquering disease, which are constantly received from our most respectable citizens. Invalids in all stages of pulmonary disease should not fail to give it a trial, as it can be administered to the most delicate and feeble with perfect safety and certain relief; and we herewith insert a few testimonials for their encouragement, selected from hundreds of like import.

Certificate of Dr. A. A. HAYES, in reference to the unequalled virtues of this great discovery.

This preparation, by chemical analysis, was proved to be free from opium, or any of its compounds; nor were any of the alkaloids present. It does not contain any mercurial or mineral substance, but consists wholly of volatile, diffusible agents, which afford vapors freely at a moderate temperature. Most of the substances present are officinally used in alleviating pulmonary disease; but the device by which they are combined is new and original, and adapts the compound to inhalation, or other modes of administration.

Respectfully,
A. A. HAYES, M. D., State Assayer.
10 Boylston St., Boston, Dec. 1857.

In the Boston Transcript of December 11, 1858, the editor says:—

"We have seen a letter from an eminent physician of this city, in which he says:—'I have used *Fousel's Pabulum Vitæ* in several cases of Bronchial disease, and in some with great benefit. I know of no remedy equal to it for children, where a minute dose is essential; or for adults of irritable stomachs, or having a tendency to reject ordinary medicines given for coughs, etc. I shall continue to use it in my practice.'"

Testimonial from the Sisters of Charity, of the St. Vincent's Orphan Asylum, in Boston.
BOSTON, July 31, 1858.

To Mr. F. LAFORME, Agent:

"The Sisters are happy to state that, having used *Fousel's Pabulum Vitæ*, they have found it efficacious in several instances, for bad coughs and colds. Signed by the SISTERS OF CHARITY.

Testimonial from a well-known Apothecary's Clerk.
BOSTON, March 10, 1859.

J. F. LAFORME, Esq.:

Dear SIR—I had been suffering for a considerable length of time from a severe cough, and had in vain had recourse to nearly all the remedies in use. My cough began to give me much uneasiness from its serious effects on my system, when three days' use of *Fousel's Pabulum Vitæ* restored me to complete health. The medicine being now in this market, I had recourse to it last; but I can now confidently recommend it as the best medicine I know of. Yours, truly,
CHAS. H. FOSTER.

At Fred Brown's, Washington, corner State St.

In the Boston Post, Sept. 24, 1858, the editor says:

"An extraordinary cure of Consumption has recently come to our knowledge, effected through the instrumentality of *Fousel's Pabulum Vitæ*; the evidence of which is in the handwriting of the subject, Mr. Wm. P. Brigham, No. 139 Albany st., in this city. It seems that for eighteen months he had been exhibiting all the usual symptoms of Consumption, and that after having had recourse to the skill of various physicians, without benefit, he had to abandon his business and be confined to his house. Hearing of *Fousel's Pabulum Vitæ*, and of several remarkable cures effected by it, in cases as desperate as his own, he concluded to try it as a forlorn hope. The result has been most happy—he has now entirely recovered, and is engaged in his usual pursuits. It is such well authenticated cases as this that we take pleasure in laying before our readers, since, by so doing, many valuable lives may be saved, and much good effected.

It is sold at the low price of 50 cents, and $1.00 per bottle, thus placing it within the reach of all classes. F. J. LAFORME, sole Agent, Boston. M. S. BURR & CO., General Agents, No. 26 Tremont street, Museum Building, Boston, and for sale by all druggists. Circulars with testimonials of its efficacy can be had of the Agents. nov7 1y

STOVES AND FURNACES.

FRANK JONES,

61 *MARKET ST., PORTSMOUTH,*

Having received a part of his Wintor Stock of

SUPERIOR COOKING STOVES,

would invite the attention of those about purchasing, to the largest and best selected stock of COOKING STOVES, of the most approved patterns and valuable kinds to be found in this market; among which may be found

THE CLIPPER, BOSTON & MAINE,
EMPIRE STATE, WHITE MOUNTAIN,
REPUBLIC, BANNER, &c.,

with many others, for wood or coal, which will be sold at such prices *as shall defy competition.*

The Combination Stove and Range.

One of the greatest inventions of the age, for Cooking purposes,—made expressly for large families, boarding houses, hotels, &c.; or wherever a great amount of Cooking is required in the shortest possible time, it having 3 large ovens, 6 boiler holes and *separate apartments* for baking, broiling, frying or roasting, requiring no more fuel than any ordinary Cooking Stove. It is warranted to give entire satisfaction in every particular in point of economy, convenience, or ease of management; as we believe it to be far ahead of anything of the kind yet introduced into this market. We therefore ask an examination of the "Combination Stove & Range," feeling confident that it supersedes *all* others for which it is intended, and will be sold at a very low price.

THE MAGEE.

The Calebrated Magee Patent
Ventilating Parlor Stove,

All sizes—acknowledged by every one to be the

BEST STOVE IN THE WORLD.

The fire can be kept through the entire season without once going out, giving the greatest amount of heat from the least fuel of any other Stove known.

The heat can be regulated to the mildest as well as the coldest weather, and at the same time perfectly ventilating the apartment in which they are used. We have sold hundreds of them the past year, and have testimonials of the highest order, acknowledging their superiority over every other Stove yet invented. To every one in search of the best Stove that can be found, we would say,

"Try the Magee."

P A R L O R S T O V E S
of the most approved kinds.

STORE, OFFICE & SHIP STOVES;

SHEET IRON STOVES, with and without ovens.

Parlor Cook Stoves.

New patterns this season—for wood or coal,—

warranted to be the best in the market, and will be sold at such prices as will convince every one that this is the place to buy cheap.

THE MAGEE FURNACES,
7 Sizes—Brick and Portable.

These Furnaces work on the same principle as the Magee Stoves. They are simple and easily operated, requiring only about half the coal of any other Furnace—will keep fire the whole season, and are not liable to get out of order.

We would invite the attention of those interested to an examination of the MAGEE FURNACE, and at the same time refer them to a number of places in this city where we have erected them the past year; and in *every* instance have given perfect satisfaction

The News.

☞ American diplomatic affairs with the "Celestial" government of China, seem to be in a muddle.

It seems the Emperor was very anxious to see our Commissioner Ward, but that he also insisted upon his performing the "Ko-Tow," i. e., prostrating himself nine times with his head to the ground, which being against the principles of his excellency was positively refused.

The correspondent of the London Times thinks the whole affair was humiliating for the great nation, and was intended to be so.

The British and French Ministers remained at Shanghae.

The American men-of-war were disposed of as follows: the Mississippi and Powhattan at Shanghae, Toey-Wan at the Gulf of Pecheli, and Germantown at Japan.

A large business had been done in tea at Foo-chow-foo for the United States at unchanged rates.

☞ Considerable excitement still exists at Charlestown, Va. The Mayor had issued a proclamation and appointed a committee to look after strangers, and bring them before a Justice of the Peace.

Mr. Hoyt and Mr. Jewett, the latter Frank Leslie's artist, received notice that they were not safe, and accordingly left.—Mr. Jewett was accused of being the correspondent of the New York Tribune, whose letters had caused much ill-feeling.

MANUFACTURED CHAMPAGNE.—Wilkes' Spirit is informed that there are at present, fourteen establishments in New York city, where the "best brands" of Champagne are daily manufactured, for the use of the intelligent, epicurian, fastidious, and critical people of the United States. This seems to be evidence of a praiseworthy spirit to meet the growing demands of the country for Champagne wines, without subjecting the country to the impertinent inteference of foreign merchants in our wine trade, "If we have so many institutions of this sort," says the Spirit, "why, in heaven's name, should we not sustain them in preference to the foreign ones? The same question may be put in favor of the industrious manufacturers of native French brandy. We trust there is some pure spirit and love of country left among us!"

☞ The Boston Atlas speaks out strongly against the summary imprisonment of Geo. P. Burnham, by a *vote* of the House of Representatives. It seems to be a dangerous precedent. The same paper says:—"Mr. Burnham is suffering such a pressure of public opinion and legislative power as no man ever before endured."

☞ The Boston papers state that is reported that the ex-Liquor Commissioner, Burnham, has been indicted by the Grand Jury. A warrant has also been issued against him in the Police Court, for selling adulterated Jamaica.

☞ We notice that at the Gloucester Lyceum, caurse tickets are $1,50 for gentlemen, and $1 for ladies; evening tickets 25 cts. These prices are low enough, to say the least. The old price of $1 for ten lectures, was established when the best speakers could be obtained, for a quarter of what they charge now. We doubt if the $1 ticket plan will be tried much longer.

☞ Prof. Lowe's mammoth balloon was dashed violently against a tent pole on Thursday evening by a furious gust of wind, breaking a hole in the middle, through which sixty thousand feet of gas escaped, completely collapsing the balloon. The rent has been repaired, and the balloon will be re-inflated.

The question in Boston is, "how long will the liquor agent stay in the *jug?*"

From the N. H. Gazette.

The Strafford Councillor Convention and Popular Sovereignty.

Our luminous and profound friend of the Dover Gazette, in his paper of two weeks ago, was very much pleased with the resolutions passed by the Democratic Councillor Convention of District No. 2, held at Alton Bay on the 19th ult. Indeed he was decidedly exultant over them—regarding them as "popular sovereignty" all over and all through, Douglas up to the hub and a little more, and himself the chief cause of the prevalence of sentiments so sound in District No. 2. The first three of these resolves are unobjectionable, avowing doctrines that all Democrats agree to, but the series as a whole present a specimen of the science of resolution-making rarely to be met with. The credit of producing them, beyond doubt we think, belongs to the Dover editor, for they are in every sense worthy of his clear, logical and brilliant mind. The first and fourth of these resolutions read as follows:

"Resolved, That we recognize in the plain and unmistakable interpretation of the Cincinnati platform, the true and only legitimate test of true National Democracy.

Resolved, That we regard with undissembled indignation and alarm, the attempt to mutilate or abridge the great principle of Popular Sovereignty and Non-Intervention—that we maintain with unshaken firmness the doctrine that the power of the people of a Territory, with respect to domestic legislation, is as plenary as that of a State, and stamp as unsound the theory which limits the right of the people of a Territory to act in reference to the institution of slavery to the one particular time when they come to organize their State government."

Now the perfect harmony and agreement which subsists between these two resolutions, to say nothing of the irrefragably sound doctrine of the second, cannot fail to strike the mind and excite the admiration of even the most casual and unappreciative reader. The first resolve declares "the *plain and unmistakable* interpretation of the Cincinnati platform" to be "the *true and only legitimate test of true National Democracy*." The Cincinnati platform reads thus in the part having a bearing here:

"*Resolved*, That we recognize the right of the people of all the Territories, including Kansas and Nebraska, acting through the legally and fairly expressed will of a majority of actual residents, and *whenever the number of their inhabitants justifies it, to form a constitution with or without domestic slavery*, and be admitted into the Union upon terms of perfect equality with the other States."

The language of this extract from the Cincinnati platform certainly does not admit of misconception. Its "plain and unmistakable interpretation"—because it directly and emphatically says so—is, that the inhabitants of a Territory, when they become sufficiently numerous to justify the formation of a constitution for admission into the Union as a State, then they may—at this time precisely, and no other—establish or prohibit slavery within their limits. This is the doctrine of the Cincinnati platform in reference to slavery in the Territories, expressed in language that admits of no doubt or double construction—the right of the inhabitants to say whether they will or will not have slavery, *at the time they form their constitutions for admission into the Union*, and at no previous period; and the first of the Alton resolves above quoted recognizes the plain interpretation of the Cincinnati platform as "the true and only legitimate test of true National Democracy." Yet the second of those resolves declares that the Democrats of the Strafford Councillor District regard this doctrine "with *undissembled indignation and alarm*," and "*stamp as unsound* the theory which limits the right of the people of a Territory to act in reference to the institution of slavery to the *one particular time when they come to organize their State government!*" By the one resolution the Cincinnati platform, plainly interpreted, is "the only true and legitimate test of true National Democracy;" by the other, the Cincinnati platform, plainly and unmistakably interpreted, is regarded with "indignation and alarm," and stamped as "unsound!" How charmingly harmonious—how profoundly sensible! Surely we cannot be in error in ascribing the authorship of these resolves to the Dover editor, for none but a mind of the depth and grasp of his could possibly have produced them.

But these resolutions are not more ridiculously inconsistent and confused than they are unsound in doctrine. The affirmation that the people of a Territory possess equal powers with those of a State with respect to domestic legislation is but the veriest absurdity, opposed to the plainest dictates of reason and common sense. The States are sovereign, except to a certain limited extent in which their sovereignty is surrendered to the general government; the Territories possess no single attribute of sovereignty. They are the possessions and property of the States, and the sovereignty over them resides in Congress, or in the people of the States acting through Congress. The federal government, in all its branches, is bound to guard and protect them as much as it is to guard and protect the several arsenals and dockyards, or even the national capital itself. The inhabitants of the Territories, therefore, derive whatever privileges of self-government they possess from Congress, under the Constitution; and these are privileges only, and not rights, which may be abridged or annulled at the pleasure of the granting power.

Hence, popular sovereignty as applied to the Territories is nothing more, and can be nothing more, than the power of the people to do in the way of self-government what Congress authorizes and permits. This is the principle of every Territorial bill that has been passed—Douglas's much talked of Kansas bill included—and must in the nature of things be the principle of every future Territorial bill. The Kansas bill is just like all other Territorial bills, only that it omits the Congressional review of the Territorial enactments. It vests the appointment of Governor, Judges, Marshal, &c., the same in the President and Senate, and allows the people to elect a Legislature to sit for forty days at a time and pass laws which, if not required to be submitted to Congress for revision, are liable to be vetoed by a Governor which the people have no voice in choosing, and which it is in the power of Congress at any time to repeal.

We therefore repeat that it is the rankest absurdity to claim for the people of a Territory equal legislative powers with the people of a State. In the one case the people are sovereign within the constitutional limit, and no power can control or interfere with them; in the other, they are subject, and can only exercise such powers as Congress confers and permits. This is the broad distinction which exists between the powers, legislative and all others, of the people of the States and Territories; and no amount of meaningless talk about "popular sovereignty"—of sophistry and subterfuge can efface it.

The Alton resolutions are evidently ridiculous and absurd, but their adoption was not the only remarkable act of the Convention.

AMERICAN & FOREIGN PATENTS.

R. H. EDDY, Solicitor of Patents,
Late Agent of U. S. Patent Office, Washington, Resident since 1837.
76 STATE, OPPOSITE KILBY ST., BOSTON.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on reasonable terms, and with despatch. Researches made into American and Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it Inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

I have no hesitation in assuring inventors they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.

Boston, February 8, 1858.

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that one is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART.

From Sept. 17, 1857, to June 17, 1858, the subscriber, in the course of his large practice, made on TWICE rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in HIS FAVOR, by the Commissioner of Patents.

The reason why, is that by Nature's own process it restores the natural color permanently after the hair becomes gray; supplies the natural fluids, and thus makes it grow on bald heads, removes all dandruff, itching, and heat from the scalp, quiets and tones up the nerves, and thus cures all nervous headache, and may be relied upon to cure all diseases of the scalp and hair; it will stop and keep it from falling off; *makes it soft, glossy, healthy and beautiful*, and if used by the young two or three times a week' it will never fall or become gray; then, reader, read the following and judge for yourselves:

NEW YORK, Jan. 8, 1858.

MESSRS. O. J. WOOD & CO.,

Gentlemen: Having heard a good deal about Professor Wood's Hair Restorative, and my hair being quite gray, I made up my mind to lay aside the prejudices which I, in common with a great many persons, had against all manner of patent medicines, and a short time ago I commenced using your article, to test it for myself.

The result has been so very satisfactory that I am very glad I did so, and in justice to you, as well as for the encouragement of others who may be as gray as I was but who having my prejudice without my reasons for setting it aside, are unwilling to give your Restorative a trial till they have further proof, and the best proof being oculardemonstration, I write you this letter, which you may show to any such, and also direct them to me for further proof, who am in and out of the N. Y. Wire Railing establishment every day.

My hair is now its natural color and much improved in appearance every way, being glossier and thicker and much more healthy looking. I am, yours respectfully, HENRY JENKINS.
Cor. Columbia and Carroll Sts., Brooklyn.

LIVINGSTON, Ala., Feb. 14, 1858.

PROF. WOOD—Dear Sir: Your Hair Restorative has done much good in this part of the country. My hair has been slightly diminishing for several years, caused, I suppose, from a slight burn when I was quite an infant. I have been using your Hair Restorative for six weeks and I find that I have a fine head of hair now growing, after having used all other remedies known, to no effect. I think it the most valuable remedy now extant, and advise all who are afflicted that way to use your remedy.

You can publish this if you think proper.
Yours, &c. S. W. MIDDLETON.

PHILADELPHIA, Sept. 9, 1857.

PROF. WOOD—Dear Sir: Your Hair Restorative is proving itself beneficial to me. The front, and also the back part of my head almost lost its covering—was in fact BALD. I have used but 2 half pint bottles of your Restorative, and now the top of my head is well studded with a fine growth of young hair, and the front is also receiving its benefit. I have tried other preparations without any benefit whatever. I think from my own personal recommendation, I can induce many others to try it. Yours, respectfully,
D. R. THOMAS, M. D.,
No. 464 Vine Street.

The Restorative is put up in bottles of three sizes, viz: large, medium, and small; the small holds half a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars, and the bottle; the large holds about 40 per cent more in proportion, and retails for $3 a bottle.

AYER'S SARSAPARILLA,

A compound remedy in which we have labored to produce the most effectual alterative that can be made. It is a concentrated extract of Para Sarsaparilla, of combined With other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will a complish their cure must be of immense service to this large class of our afflicted fellow citizens. How completely this compound will do it, has been proven by experiment on many of the worst cases to be found in the following complaints:

SCROFULA AND SCROFULOUS COMPLAINTS, ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT-RHEUM, SCALD HEAD, SYPHILIS AND SYPHILITIC AFFECTIONS, MERCURIAL DISEASES, DROPSY, NEURALGIA OR TIC DOULOUREUX, DEBILITY, DYSPEPSIA AND INDIGESTION, ERYSIPELAS, ROSE OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD.

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud.—Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and unsightly sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions or sores;—cleanse it when you find it is obstructed or sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.

Sarsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it contain but little of the virtue of Sarsaparilla, or anything else.

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but have no curative properties whatever. Hence bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have ground for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.

PROF. HUNTINGTON.—A Massachusetts correspondent of the New York Evening Post says:

Prof. Huntington, of Harvard College, has just written to his brother Theophilus, in Hadley, announcing that he has embraced the doctrine of Trinity, and indicating that he finds great peace and comfort in his new opinions. What denomination he will enter is not stated, but he evidently admires, like Dr. Bellows, the ceremonial system of the Episcopal Church.

FUNNY THINGS.—A new name for the Leviathan—"The Great Astern."

When the Muses stand side by side, they may be said to form a "long nine."

There are no men more sensitive than assayers, for you almost always find them in the melting mood.

The religion of indolence finds its truest expression in "Cant!"

The man who wedded an opinion, found himself married to a one-eyed dear (one idea.)

Argumentum ad Hominem.—Pugilism.

The "Belly Contract."—Supplying the eatables for the public institutions.

The peculiar malady of monarchial government—King's evil.

The stool of repentance has no cushion.

In these days of crinoline, the world of fashion is truly "wide, wide world."

A discarded lover says he cannot see anything funny in "Rejected Addresses."—*N. Y. Post.*

The revival mania is prevailing in Scotland, and it is related that a lady reproving her servant girl, when she returned for the third time, between one and two o'clock in the morning, reputedly from a revival meeting. "Don't speak to me, mem," said the girl, "I'm one o' the Lord's annointed!"

MOTHERS,
In presenting you with DR. EATON'S INFANTILE CORDIAL, we desire to state its superiority over every nostrum that nurse or quack has heretofore offered you.
First—It is the preparation of a regular physician, who is well qualified from much experience in infantile complaints to prescribe for them.—Secondly—It is entirely free from paregoric or opiate of any kind, and consequently relieves by removing the suffering of your child, instead of deadening its sensibilities. Thirdly—It is put up with great care, as a comparison of it with any other article for infantile complaints will show; the very roots from which it is distilled being dug from the forests under the direction of Dr. Eaton, many of them by his own hands. Fourthly—it is perfectly harmless and cannot injure the most delicate infant, and is a certain cure and relief in all the following cases, which is its chief merit over every other preparation.
FOR ALL COMPLAINTS ATTENDING TEETHING; such as DYSENTERY, COLIC, &c.; also, for softening the gums and relieving pain. For regulating the bowels it is unequalled. For Cold in the Head it is a sure relief. For CROUP, the most fatal and trying of diseases, it can be relied on with perfect confidence; and being a powerful anti-spasmodic in all cases of convulsions or fits, we earnestly recommend you to loose no time in procuring it—Lastly—it costs so much more than other preparations of the kind, that we cannot afford such long advertisements as can those whose whole expense is their advertising; for the same reason, it commends itself as the most reliable to all mothers. In all cases, the directions wrapped around each bottle, must be strictly followed. Price, 25 cents per bottle.

And by all respectable Druggists throughout the country.

Portsmouth, N. H.

WEDNESDAY, NOV. 16, 1859.

A NEW WORK.—The Cincinnati Gazette, through a printer's blunder, spoke of "Doddridge's Rise and Progress of Religion in the soul, as "Doddridge's Rise and *Fall* of Religion." W think that somebody could write a book on the fall of religion that would be appropriate and might do good.—*Atlas & Bee.*

The new book called "The Crucible," lately published by Gould & Lincoln, of Boston, comes as near to supplying this want, as any book we have seen; as it exposes an immense number of the cheats, shams and delusions which pass for religion. We are not prepared to assent to all the author's conclusions,—but he cuts up a large crop of common errors.

☞ A case recently tried in the Court of Common Pleas, at Lancaster, Pa., was decided upon principles which if followed up, would have a tendency to prevent the adulteration of liquors. The plaintiffs in this case sued the defendant for the recovery of a claim of $46 for a barrel of "old rye whiskey." The defence was that the liquor did not correspond with the saample by which it was sold, and that it contained corrosive or poisonous substances. This latter point was established by chemical test, and the verdict of the jury was in favor of the defendant, allowing the plaintiffs nothing for the whiskey.

THE JAFFA OUTRAGE.—A Beirut (Syria) correspondent writes, under date of Oct. 10, that through the energy of the American Consular authorities at Beirut, the perpetrators of the outrage upon the Dickinson (American) family, have at last been brought to justice. Four of the accused have been imprisoned for life, and the dead body of the fifth and principl criminal had been brought into Beirut. This promptness had caused a much higher estimate to be placed in Syria upon the American name and power.

LATER FROM HAYTI.— Advices from Hayti to Oct. 22d state that twenty individuals concerned in the recent conspiracy and the murder of the President's daughter, had been tried, convicted and sentenced to death. Sixteen of them had already been hung, one was respited, and three had escaped to France. General Ocean Ulysses, for having suppressed the facts connected with the insurrection of which he was previously aware, was sentenced to three years' imprisonment.

Port au Prince had been relieved from marshal law, and the country was quiet.

☞ The foundation of a new fort on Hog Island Ledge, Portland harbor, has just been completed. The foundations could only be worked at low water, and the process was a long and tedious one. These completed, the work of construction will be more rapid in future. Its cost is estimated at $480,000, and it is to be fitted to mount 93 guns. It will command all the entrances and all the anchorage ground of the harbor.

☞ The parish jail of Avoyelles, La., was set on fire recently by the only tenant of the jail, a negro who was confined as a runaway slave. Before the fire was discovered the iron door of his cell had become so much expanded by the heat that all efforts to force it open were unavailing, and the poor wretch was burned to death.

☞ The American Banner and Leader is the title of a new weekly paper devoted to the interests of working men, edited by Theophilus Fiske. It is a large, well filled, and handsomely printed sheet. It is published simultaneously in Boston, New York, Philadelphia and Baltimore.

NEW DEFINITIONS.—*Ledger*-demain—Burnham's refusal to produce his account books.

Coup-de-main—The General Court taking said Burnham prisoner.

☞ Mr. John R. Thompson, editor of the Southern Literary Messenger, lectured a few evenings since before the New York Mercantile Library Association, on "Fools and their uses." We are not informed whether the author gave personal illustrations.

☞ At a recent execution in Kentucky, the clergyman prayed that all present might be duly impressed with the "shortness of human life." The man on the platform seemed to be convinced of the fact already.

Where light wine is cheap and plenty, drunkards are scarce. The bar rooms of the "magnificent" St. Guzzle at New York, or of the St. Bibble at New Orleans (queer establishments for saintly patronage) turn out more drunkards in a year, than all the 6,000 wine shops of Paris.—*Paris Letter.*

☞ The latest invention in the interest of the ladies, is a family knitting machine, which will knit a pair of half-hose in about ten minutes, and a pair of ladies' long hose in eighteen or twenty minutes, mainly by simply turning a crank.

THOUGHTS BY THE WAY.

A trip for business and pleasure, (we always aim to combine both,) the other day, over the C. & P. Road to Concord, and thence to Boston and home, furnished incidents for reflections certainly pleasant to us, and perhaps of interest to some readers.

On our way up, we wondered how it was, that the Portsmouth & Concord Road, whose corporation managers have always been so roundly, and no doubt sometimes unjustly, berated,—should happen always to have the most gentlemanly and courteous of conductors, and men in charge of the trains generally—according to the opinion of everybody. Mr. Langley is a legitimate successor of Messrs. Brooks, Sanborn, and others, who have spared no pains to conduce to the comfort and convenience of passengers in their charge.

We were on a tour to join the soldiers, and thought we had better inure ourselves to some exposure at the outset. So, to enjoy better air and less heat, we took a seat in a baggage-car, which was inhabited by a hale old ex-lighthouse keeper, with his noble old dog, and two or three dirty smokers. They tried to smoke us out, but couldn't come that, though we and the dog were very much disgusted, as all neat animals must be with tobacco in any shape.

Our business was with the Governor's Horse Guard. So, having fortified ourselves, (there was quite a party of us in the train on the same bold errand—soldiers, doctors, lawyers, editors,) with a capital supper at the Phenix Hotel, we proceeded to the Council Chamber in the State House. But a word of that supper, and of that hotel, first. The Phenix is a new, large and elegant hotel; the rooms spacious, high, airy, and well-furnished and neatly kept; the table richly supplied with the best of the season—oh, the rich milk, new butter and melting honey-comb we enjoyed so much and so long at that supper!—and the landlords, Messrs. Corning & Dumas, are ably seconded in their endeavors to render guests comfortable and at home, by their clerks and waiters, one and all, so far as we had occasion to notice.

Of the meeting to organize the Horse Guards, we have already spoken. Enough was known before, and sufficient evidence was shown there, to prove that the most brilliant success of the enterprise is certain. The corps will comprise some of the best men in the State—which may or may not be construed into saying that all the men therein will be of the best in the State, or that all the best men in the State will be there. We shall see about that. The five-years' enlistment clause (under rules and restrictions yet to be made by the body itself) in the charter, rather startled some of the members; but there being no other way to join, of course all who feel interested in the matter will fall into the ranks, and feel honored in being allowed to "join the militia" under this flag.

We are indebted to Mr. McFarland, of the Statesman, for various courtesies, especially in pointing out the attractions and improvements of Concord, in a stroll about the city. The numerous and extensive "burnt districts" give fearful evidence of the need of more fire-proof buildings. Every where, evidences of thrift and enterprise were presented—new private and public buildings are going up in considerable numbers. More anon. F.

BOSTON THEATRE.—For an afternoon performance, the Boston Journal says, the one offered Saturday has never been surpassed. Gabriel Ravel, the best pantomimist, the most wonderful in physical power and agility, and one of the most perfect actors ever seen upon the stage, appeared in his great delineation of Jocko, the Ape, a powerful, interesting, and at the same time grotesque performance. The other entertainments of the afternoon consisted of the graceful evolutions of the tight-rope dancers, including Marietta and Zanfretta, and the skillfully worked-up pantomimic drama of the Contrabandists.

SWEET POTATOES.—We are indebted to Mr. George A. Hill, formerly of Greenland, now living in Mathews County, Virginia, for excellent specimens of the sweet potato—three varieties, and the best samples of each, we ever saw. One, which they call "yellow mang dang," is of a beautiful yellow, or golden color, and the finest of the lot; another, fully as large, and of a whiter color, but not so fair or inviting looking, is called "large white Queen Ann" variety; and the "Anguilla" is smaller, but bright red, and very fair and handsome. They are all from the farm of the Messrs. Hill and others, and Signor Blitz himself could not get either two of them into a man's hat at once.

STEALING NEWSPAPERS.—A small Irish boy was detected last evening in stealing newspapers on Beacon street and vicinity, and handed over to a police officer, who placed him in the lockup. Nine Transcripts were found in his possession, which he had taken as they were left by the carriers. The thefts of juvenile offenders will account for the non-receipt of the paper, in ninety-nine cases in a hundred.—*Boston Transcript.*

Bars in taverns are hereafter to be called *extension* tables.—*New Bedford Times.*

MUTTON.—A pound of lean, tender, juicy mutton can be produced at half the cost of the same quantity of fat pork; it is infinitely healthier food, and those who eat it become more muscular, and can do more work with greater ease to themselves than those who eat fat pork.

☞ A decree has been published, abolishing slavery from the Island of Java from Oct. 1. At the last accounts the slaves on the island were about five thousand in number.

Gen. Scott was at San Francisco on the 16th October, was bored with a "reception," and left the next day for San Juan, where he'll soon put things straight, and save us from the disagreeable necessity of conquering England.—*Trav.*

☞ Lady Peel, widow of the late Sir Robert Peel, is dead. She retired to rest in apparent good health, and was found, the next morning, dead in her bed.

Catarrhal Cough.

This insidious and annoying symptom, so difficult to treat, depends on a subacute inflammation of the air-passages, which is apt to end in chronic ulceration and a form of consumption. The mucous membrane of the air-passages is peculiarly susceptible to the healing influences of the PERUVIAN SYRUP, as the testimonials of some of our first citizens show.

There is no known remedy can exceed in speediness of cure, and certainty of effect, that which has become world famous as DR. HOSTETTER'S STOMACH BITTERS. In all diseases of the stomach, which are of a morbid nature, the Bitters have effected most remarkable cures when many other remedies have failed. Hundreds of certificates have been given by those who have thoroughly tested its efficacy, all of which corroborate its efficiency, when it is administered according to the directions on each bottle.

Some of the worst cases of Dyspepsia, Diarrhea and Costiveness, have been permanently cured by the use of the Bitters.

Sold by druggists and dealers generally, everywhere.

R. R. R.

On the 1st day of September, 1853, Mr. Charles Randolph called at the R. R. R. office, and stated that for ten years he had not enjoyed a single meal. He had not, for five years, had a natural discharge from his bowels; but was obliged to resort to Injections, &c. He was pale, haggard, and thin. We ordered Radway's Regulators, one each night, and Radway's Resolvent, three times per day. On the eighth of September he called upon us.

HE WAS SO ALTERED THAT WE KNEW HIM NOT.

His appetite is good—his digestion easy—his skin moist and healthy—his step elastic and buoyant—his body vigorous, and his eye indicates a man of health and energy.

For Liver Complaint, Dyspepsia, Difficulties of the Urethra and Bladder, Radway's Regulator and Renovating Resolvent are a quick and positive cure. For all Aches and Pains, for Neuralgia and Rheumatism, for Nervous and Bilious Complaints, Radway's Ready Relief is quick and effectual. In five minutes' time after its application, the patient is free from pain.

Sold by Druggists everywhere.

THE OXYGENATED BITTERS.

Nature, in her great laboratory, has stored some remedy adapted to every disease which "flesh is heir to." But it requires the investigation and research of the philosopher to discover and apply this remedy. Such research and investigation has succeeded in discovering a remedy for that most afflictive dispensation, the

DYSPEPSIA!

With all its lesser and numerous evils; and it may be safely asserted that until the appearance of the *Oxygenated Bitters*, a case of Dyspepsia cured was a rare experience in medical practice. Now, under the influence of these Bitters the rule is to *cure*, the rare exception, failure to cure.

Read the following, which the subscriber requests us to publish for the benefit of the afflicted:

Obdurate and Inveterate Case of Dyspepsia cured by the Oxygenated Bitters.

The following from a gentleman well known in the region in which he lives ought to satisfy all those of little faith:

WATERTOWN, N. Y., July 28, 1858.

S. W. FOWLE & CO., Boston.—*Sirs*:—Nine years since I was attacked by that curse of all diseases, *Dyspepsia*, which so affected me as to cause great oppression, fullness, and bloating of the bowels, immediately after eating, accompanied with terrible pains in the stomach, often occasioning nausea, vomiting, acidity, and headache, together with general debility and suffering, altogether rendering life a burthen.

After having tried every known remedy without effect, and despairing of ever regaining my lost health, I was induced to make use of the Oxgenated Bitters, the good effects of which were immediately visible on my health and system. Before using a whole bottle I was entirely cured; and I feel a pleasure inducing all like sufferers as myself to make use of this remedy.

THEO. CALDWELL.

GROVER & BAKER'S

Celebrated Family Sewing Machines

NEW STYLES. — PRICES FROM $50 TO $125.

HEMMERS, $5 EXTRA.

OVER THIRTY THOUSAND IN USE.

These Machines sew from two spools, as purchased from the store, requiring no rewinding of thread, and finishing each seam by their own operation, without recourse to the hand needle, as is required by other machines. On account of their simplicity, durability, ease of management and adaptation to all varieties of family sewing they execute either heavy or fine work with equal facility, and without special adjustment.

THE NEW MACHINES INTRODUCED BY THE

GROVER & BAKER

SEWING MACHINE COMPANY

Are of elegant finish, and their operation is rapid and very quiet. The ease with which they can be managed is a distinguishable feature, and the stitch is the strongest, handsomest, and most elastic of any made.

What is specially claimed for the "GROVER & BAKER" machine is—

That it makes a *stronger* and *handsomer* seam than is made by hand or by any other machine.

That it makes a more *elastic* seam, which will withstand the tests of wear, and washing and ironing, better than that made by any other machine.

That the speed at which it can be used is higher than any other, and the power required to operate it is less than that required by any other machine.

That it is nearly noiseless in its operation.

That its construction is more simple, and its liability to disarrangement less than any other.

That it can be quicker learned, more easily kept in order, got ready for use, and changed from one quality or grade of work, than any other.

Its applicability to the entire range of Family Sewing—from the finest and most delicate texture to the heavier and coarser fabrics.

That it uses thread or silk from the *original spools*—no re-winding—no shuttles or bobbins to fill.

That it finishes its work and fastens the end of every seam; each stitch is independent of its neighbor.

Is there a husband, father or brother, who will permit the drudgery of hand-sewing in his family, when a GROVER & BAKER Machine will do it better, more expeditiously, and cheaper than can possibly be done by hand?

TESTIMONIALS.

PORTSMOUTH, April 12, 1859

Having tested the merits of the various popular Sewing Machines, in the manufacture of our Capes and Raglans, we unhesitatingly recommend the Grover & Baker, as far superior to all others.

ALLEN & FAIRE.

PORTSMOUTH, July 16, 1859.

If you wish to purchase a machine that will do work handsomely and strongly, and will not be liable to get out of repair, call on Mr. Whittemore in Daniel street, see the operation of Grover & Baker's machine, and then place one in your family. They will never consent to part with it, after they understand its operation.

☞ Candidates for Mayor appear to be pretty numerous just now; but among the Democrats the talk seems to have narrowed down upon two well known and respected citizens: Dr. Frank Fuller and Henry F. Wendell, Esq. Probably either of these gentlemen would esteem the nomination a compliment, but that they could be induced to accept the *office*, is hardly probable.—The first named would doubtless refuse to surrender to its duties, the time which would be more amply remunerated by professional labors; and the latter draws a fat salary from the government, and apparently has his hands full of business already.

For the candidate of the Republicans, we hear Robert Lefavour, Esq., particularly mentioned. He would make a good Mayor, and would stand a fair chance of an election, if nominated. In fact, we hear the opinion very generally expressed among Democrats, that the republicans are pretty sure to carry the first ward, and thus the city.

If it were certain and understood that their success would ensure a complete reform in our police department, and the closing of a score or two of places where the worst of poison is retailed by the glass, the majority in their favor would be very large for the best citizens are agreed, that in these respects,

"The time is ripe, and rotten ripe, for change."

☞ Mr. Cutts' Readings, before the Lyceum, on Tuesday evening, was a finished and in every way satisfactory literary entertainment, as might well be expected from so able and accomplished a gentleman. The programme was made up of a variety of short selections, the better to suit all tastes in the audience—all of which selections were exceedingly well rendered;—though the greatest treat of the evening, to us, was the extract from Shakspeare's King Henry IV., and we only keep on wishing for more of the same sort.

☞ On Tuesday evening, the Granite State Engine Co., No. 1, with numerous invited guests and friends, and other lovers of a good time,—quite a large and cheerful assemblage,—sat down to an excellent Supper (A No. 1, of course) at the City Hotel. Other engagements prevented our acceptance of their polite invitation to be of the number. It was the usual annual gathering of this wide-awake and enterprising company; and the speeches and toasts were appropriate to the occasion, and referred to the fire department generally.

☞ The Excursion to Boston on Saturday next, offers a rare opportunity to visit "the City" for less than half fare, and allows a long day there to transact business, and to attend the Ravels astonishing performances, the delightful Aquarial Gardens, the old and popular Museum, or any other place of amusement or interest.

Tickets for the Excursion, $1,50, may be had at S. F. Cobb's Music Store, Exchange Block, on and after to-day.

Tickets to the Ravels' performances, 50 cts, 25 cents, or 15 cents, may also be had at Mr. Cobb's Store, on *Friday* only on which time a plan of the splendid Boston Theatre may be seen there, and reserved seats secured in any part of the house desired. This is done in order that those who wish and intend to attend can have the opportunity before all the seats are taken up—as is the case at most of their performances.

SMOKED SALMON.—Our citizens have been wondering of late, how it was that they could now buy this epicurean fish, and the best quality too, for a shilling per pound, when a quarter of a dollar has usually been the lowest figure for it heretofore. Salmon has rarely been sold in Boston, by the quantity, for less than 20 cts.; but Jeremiah Emerson of Kittery, having bought a lot of these delicious fish, which were caught to this port from the Straits by one of our fishing vessels, cured them in the manner, and had them smoked with apple bark, at Mr. Canney's smokery, near the Depot; and thus has been enabled to command the trade for a time.—Yes to Jerry, say we—he is sometimes called an "oil-eater;" we can't say as to that—but at any rate, he is so smooth that the ills of life seem to slide by or off from him as not to trouble him much. His salmon certainly can't be beat, nor the price.

☞ Remember O'Leary's Lecture in the Temple to-night. We would advise everybody to attend, as the "bill of fare" will seem to be a good on. Ladies should come early in order to have an opportunity to examine the paintings and secure good seats.

☞ A very beautiful Wood Duck (or Drake) may be seen in Mr. Shores's window, Congress Block, which was recently shot off this harbor, and stuffed by Mann & Conner, the Boston taxidermists, so as to look fully as well, if not better than when living.

☞ A large number of Wild Geese passed over this city on Sunday, in a southerly direction—flying very low, and squawking loudly, as if storm-wearied.

☞ A communication from a friend of Mr. Gove, which would seem to show conclusively that the fire at his house was incendiary, and not caused by accident, is received too late for publication this morning.

The Institution at East Andover, in this State, under the control of the denomination called Christians, has 30 students the present term.

Chester Academy has 32 students for the term just to close.

The Institution at Northfield has had in all for the year past 360 students, the largest number was at Sprid term, it being 179.

New Hampton Institute has had for the past year 413 different students, of which 25 were in the Theological Department.—The fullest term was the Spring, when 245 were in attendance.—*News Lettter.*

SHALL JOHN BROWN BE HUNG?—We desire to repeat, distinctly, just what we said in the first instance, to wit, that neither the Republicans nor the Democrats look upon poor Brown himself as a party in interest; but the Republicans want him hanged because his being hanged would serve their cause, and the Democrats want him respited because his not being hanged would serve theirs.

We do not say this of the Republicans and Democrats as men, but as politicians; and there is as much difference between a politician and a man, as between a sectarian and a Christian. The politician is a distinct animal by himself. Whatever will serve the interest of his party he goes in for. This is his whole creed. If the hanging of a whole township of Browns, or the release of a whole Sing-Sing of cutthroats, would "help along the cause," he would advocate the act with all his might, and with as much openness as the case admitted of.

Politicians, like corporations have no souls — especially American politicians, which are of the worst possible breed. In the great Presidential contest, now about opening, they will keep their eyes steadily on the flesh-pots of Washington, and "nothing else." Not one of them cares a red about the black man, or the white man, or the Brown man. Their contest is nothing but a vulgar struggle for the loaves and fishes of office. In a word, as we said last week, the great question with them is, which of two droves of pigs shall feed at the public trough for the next four years.—*N. Y. Saturday Press.*

☞ Information has been received that the British government intends superseding Gov. Douglas, at Vaucouver's Island, who has complicated our relations by his offensive course. Mr. Howe of Nova Scotia will probably succeed him.

☞ The physicians attending Senator Douglas have formally stated in writing, that his disease is gout in the stomach, to relieve themselves from the professional responsibility of a contradiction which some of his friends prompted.

Fousel's Pabulum Vitæ.

☞ THE GREAT FRENCH REMEDY possesses extraordinary properties for the speedy and permanent cure of CONSUMPTION, BRONCHITIS, COUGHS, COLDS, and all PULMONARY DISEASE.

This celebrated specific is now universally acknowledged to be infinitely superior to all other preparations for the cure of Pulmonary Disease, both from its innocent nature and most astonishing curative properties; *it being the only remedy known that will arrest the development of Tubercles in the Lungs or restore the vital functions of the pulmonary organs to their normal condition.* Its invaluable properties have obtained for it the highest recommendation and praise from some of the most eminent physicians and chemists in the country; while the best and surest proofs of its merits are afforded by the numerous testimonials of its great efficacy in conquering disease, which are constantly received from our most respectable citizens. Invalids in all stages of pulmonary disease should not fail to give it a trial, as it can be administered to the most delicate and feeble with perfect safety and certain relief; and we herewith insert a few testimonials for their encouragement, selected from hundreds of like import.

Certificate of Dr. A. A. HAYES, in reference to the unequalled virtues of this great discovery.

This preparation, by chemical analysis, was proved to be free from opium, or any of its compounds; nor were any of the alkaloids present. It does not contain any mercurial or mineral substance, but consists wholly of volatile, diffusible agents, which afford vapors freely at a moderate temperature. Most of the substances present are officinally used in alleviating pulmonary disease; but the device by which they are combined is new and original, and adapts the compound to inhalation, or other modes of administration.

Respectfully,
A. A. HAYES, M. D., State Assayer.
16 Boylston St., Boston, Dec. 1857.

In the Boston Transcript of December 11, 1858, the editor says:—

"We have seen a letter from an eminent physician of this city, in which he says:—'I have used *Fousel's Pabulum Vitæ* in several cases of Bronchial disease, and in some with great benefit. I know of no remedy equal to it for children, where a minute dose is essential; or for adults of irritable stomachs, or having a tendency to reject ordinary medicines given for coughs, etc. I shall continue to use it in my practice.'"

Testimonial from the Sisters of Charity, of the St. Vincent's Orphan Asylum, in Boston.
BOSTON, July 31, 1858.

To Mr. F. LAFORME, Agent:—

"The Sisters are happy to state that, having used *Fousel's Pabulum Vitæ*, they have found it efficacious in several instances, for bad coughs and colds. Signed by the SISTERS OF CHARITY.

Testimonial from a well-known Apothecary's Clerk.
BOSTON, March 10, 1859.

J. F. LAFORME, Esq.:

Dear Sir—I had been suffering for a considerable length of time from a severe cough, and had in vain had recourse to nearly all the remedies in use. My cough began to give me much uneasiness from its serious effects on my system, when three days' use of *Fousel's Pabulum Vitæ* restored me to complete health. The medicine being new in this market, I had recourse to it last; but I can now confidently recommend it as the best medicine I know of. Yours, truly,
CHAS. H. FOSTER.

At Fred Brown's, Washington, corner State St.

In the Boston Post, Sept. 24, 1858, the editor says:

"An extraordinary cure of Consumption has recently come to our knowledge, effected through the instrumentality of *Fousel's Pabulum Vitæ*; the evidence of which is in the handwriting of the subject, Mr. Wm. P. Brigham, No. 180 Albany st., in this city. It seems that for eighteen months he had been exhibiting all the usual symptoms of Consumption, and that after having had recourse to the skill of various physicians, without benefit, he had to abandon his business and be confined to his house. Hearing of *Fousel's Pabulum Vitæ*, and of several remarkable cures effected by it, in cases as desperate as his own, he concluded to try it as a forlorn hope. The result has been most happy—he has now entirely recovered, and is engaged in his usual pursuits. It is such well authenticated cases as this that we take pleasure in laying before our readers, since, by so doing, many valuable lives may be saved, and much good effected.

It is sold at the low price of 50 cents, and $1.00 per bottle, thus placing it within the reach of all classes. F. J. LAFORME, sole Agent, Boston. M. S. BURR & CO., General Agents, No. 26 Tremont street, Museum Building, Boston, and for sale by all druggists. Circulars with testimonials of its efficacy can be had of the Agents. nov1 1y

EXCURSION TO BOSTON.—Josiah Perham has arranged for a grand extra train excursion party from Portsmouth and Way Stations as far as Wenham, to Boston and return, on Saturday, Nov. 19th, for the purpose of visiting the renowned Ravel Family, Boston Theatre, and also the Aquarial Gardens and other places of interest.

The Train will leave Portsmouth at half-past 7, A M; Returning, leave Boston at quarter past 6, P M. Tickets (carrying to Boston and back,) $1.50, to be had at the depots. Secure your tickets early—the train will run, rain or shine, as the Ravels perform on no afternoon but Saturday.

The surprising performances of the Ravels at Boston Theatre commence at half-past 2. Tickets at the door—balcony and first tier of boxes 50 cents, family circle 25c, amphitheatre 15 cts. Dinner can be procured at the Adams House, two doors from the Theatre.

THEATRICAL.—"Before the appearance of the wonderful Ravel troup," says the True Flag, "theatricals were at a low ebb in Boston. The opera, even, failed to draw. But now the Boston Theatre is thronged, nightly, with an intelligent, and it is hardly necessary to add, amused audience. Saints as well as sinners patronise the Ravels, and both are amply recompensed for the time and money expended. If you desire good seats secure them in the day time, for the best are always engaged in advance."

"COSMOPOLITAN ART ASSOCIATION" 1859–'60.—The Subscription Books for the sixth year of the Cosmopolitan are now open, and subscriptions ($3) are daily being received from all sections of the country, in a ratio unparallelled with that of any previous year. The collection of works of art, to be awarded in premiums among subscribers in January next, will exceed in number and value that of any year since the founding of the Association, embracing, as it will, choice paintings from the easels of the first American and foreign artists, sculptures, bronzes, outlines, bas-reliefs, &c. The superb engraving, which every subscriber will receive immediately on receipt of subscription, entitled "Shakspeare and his Friends," is of a character to give unqualified pleasure and satisfaction; besides which, all subscribers receive the beautiful Art Magazine for the year, and *may* also get some of the splendid and valuable works of art, at distribution. Subscriptions received by Frank W. Miller, at the Chronicle Office, who is Honorary Secretary for Portsmouth and vicinity.

The News.

THE ROYAL CHARTER.

The wreck of this noble ship, on the English coast, with great loss of life, has been announced by former arrivals. By the Asia we have the following particulars:

It appears that the Royal Charter, when within two or three hours' sail of Liverpool, after a rapid passage from Melbourne, experienced the full fury of a terrible northeast gale, which prevailed all over England on the night of Oct. 25, 1859.

The steam power of the vessel being merely auxiliary, it was insufficient to prevent her from being driven towards the shore, and as she was rapidly shoaling, it became necessary, at about 10 o'clock at night, to let go the anchors, guns having been previously fired and rockets discharged in the hope of attracting a pilot, but without success. The gale, meantime, increased to a hurricane, and at 2 o'clock in the morning the port anchor chain parted, and shortly afterwards the ship was beating on the rocks in a place called Moelfra Bay, near Puffin Island, on the coast of Anglesea. The masts were cut away, but without any beneficial result. About daylight, 6 o'clock, a sailor, with a rope round his waist, jumped overboard, and although the sea ran high, he succeeded in reaching and maintaining a footing on the rocky shore, which was not more than ten yards distant from the ship, but was almost perpendicular to the height of 40 feet.

A hawser was then got ashore and a boatswain's chair was attached to it, with a view of hauling the passengers and crew ashore. About a dozen seamen were by this means soon landed, and it was hoped that all on board might be saved. At about 7 o'clock, however, the waves beating against the ship's broadside with continued violence, she suddenly snapped asunder amidships, and tumbled in pieces. As the passengers had mostly kept below, large numbers were killed by the crashing debris, and only 26 persons managed to get ashore, making the whole number of persons saved only 39, out of a total, passengers and crew, of 493.—The scene was terrible in the extreme; many were washed on and off the rocks several times, and in numerous instances those who thought themselves secure on jutting rocks were hurled into the sea by the furious waves.

Not a superior officer was saved; neither a woman nor child. Capt. Taylor exerted himself to the utmost, but was finally struck upon the head, while struggling in the water, by a boat falling from the davits, and was seen no more. The destruction of the ship was rapid and complete, so that by 8 o'clock nothing was visible but masses of wreck, mingled with bodies of the dead washed on the strand.

The vessel had on board, it is supposed, 79,000 ounces of gold, besides a large number of sovereigns—estimated total value of gold on board from £500,000 to £800,000. The Royal Charter was an iron vessel of 2749 tons register, clipper-built, and furnished with auxiliary screw engines. She was built in 1855, at a cost of over £90,000, and was insured for £80,000. Her general cargo was not very valuable, say £5000.

Of the persons on board when she left Australia, 63 were cabin passengers, 325 other passengers, and 113 crew—total 511. Of these 17 passengers were landed at Queenstown, and 39 were saved from the wreck, so that the total loss of life was 455. Among those reckoned as crew were 11 riggers, who were transferred from a tug-boat to the Royal Charter in the Channel, for conveyance to Liverpool. Insurances were being effected at Lloyds' on the bullion at 25 per cent. premium.

OVERLAND MAIL.—The overland mail of the 24th, reached St. Louis on Monday night.

American clipper ship Mastiff, Capt. Johnson, San Francisco for Hong Kong, having on board 175 Chinese, was burned at sea, Sept. 15th. All the passengers, with the exception of one Chinaman, were saved. Among the passengers was R. H. Dana of Boston.

The Mastiff was valued at $90,000, and insured for $80,000 in Boston.

Some enterprising merchants, we are told, make it a rule to expend as much in advertising every year as they pay rent.—*Springfield Repub.*

AMERICAN & FOREIGN PATENTS.

R. H. EDDY, Solicitor of Patents,

Late Agent of U. S. Patent Office, Washington, appointed in 1837.

78 STATE, OPPOSITE KILBY ST., BOSTON.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

I have no hesitation in assuring inventors they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.

BOSTON, February 8, 1858.

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that one is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART.

From Sept. 17, 1857, to June 17, 1858, the subscriber, in the course of his large practice, made no twice rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in HIS FAVOR, by the Commissioner of Patents.

The reason why, is that by Nature's own process it restores the natural color permanently after the hair becomes gray; supplies the natural fluids, and thus makes it grow on bald heads, removes all dandruff, itching, and heat from the scalp, quiets and tones up the nerves, and thus cures all nervous headache, and may be relied upon to cure all diseases of the scalp and hair; it will stop and keep it from falling off; *makes it soft, glossy, healthy and beautiful,* and if used by the young two or three times a week it will never fall or become gray; then, reader, read the following and judge for yourselves:

NEW YORK, Jan. 8, 1858.

MESSRS. O. J. WOOD & Co.,

Gentlemen: Having heard a good deal about Professor Wood's Hair Restorative, and my hair being quite gray, I made up my mind to lay aside the prejudices which I, in common with a great many persons, had against all manner of patent medicines, and a short time ago I commenced using your article, to test it for myself.

The result has been so very satisfactory that I am very glad I did so, and in justice to you, as well as for the encouragement of others who may be as gray as I was but who having my prejudice without my reasons for setting it aside, are unwilling to give your Restorative a trial till they have further proof, and the best proof being ocular demonstration, I write you this letter, which you may show to any such, and also direct them to me for further proof, who am in and out of the N. Y. Wire Railing establishment every day.

My hair is now its natural color and much improved in appearance every way, being glossier and thicker and much more healthy looking. I am, yours respectfully, HENRY JENKINS,
Cor. Columbia and Carroll Sts., Brooklyn.

LIVINGSTON, Ala., Feb. 14, 1858.

PROF. WOOD—Dear Sir: Your Hair Restorative has done much good in this part of the country. My hair has been slightly diminishing for several years, caused, I suppose, from a slight fever, when I was quite an infant. I have been using your Hair Restorative for six weeks and I find that I have a fine head of hair now growing, after having used all other remedies known, to no effect. I think it the most valuable remedy now extant, and advise all who are afflicted that way to use your remedy.

You can publish this if you think proper.
Yours, &c. S. W. MIDDLETON.

PHILADELPHIA, Sept. 9, 1857.

PROF. WOOD—Dear Sir: Your Hair Restorative is proving itself beneficial to me. The front, and also the back part of my head almost lost its covering—was in fact BALD. I have used but 2 half pint bottles of your Restorative, and now the top of my head is well studded with a promising crop of young hair, and the front is also receiving its benefit. I have tried other preparations without any benefit whatever. I think from my own personal recommendation, I can induce many others to try it. Yours, respectfully,
D. R. THOMAS, M. D.,
No. 494 Vine Street.

The Restorative is put up in bottles of three sizes, viz: large, medium, and small; the small holds half a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, and retails at two dollars per bottle; the large holds a quart, 40 per cent. more in proportion, and retails for $3 a bottle.

AYER'S SARSAPARILLA,

A compound remedy in which we have labored to produce the most effectual alterative that can be made. It is a concentrated extract of Para Sarsparilla, of combined with other substances of still greater alterative power as to afford an effective antidote for the disease Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will a complish their cure must be of immense service to this large class of our afflicted fellow citizens. Obtained on this compound will do it, has been proven by experiment on many of the worst cases to be found in the following complaints:—

SCROFULA AND SCROFULOUS COMPLAINTS, ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUMS, SCALD HEAD, SYPHILIS AND SYPHILITIC AFFECTIONS, MERCURIAL DISEASE, DROPSY, NEURALGIA OR TIC DOULOUREUX, DEBILITY, DYSPEPSIA AND INDIGESTION, ERYSIPELAS, ROSE OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD.

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud.—Multitudes can, by the aid of this remedy, spare themselves from the endurance of boils, blotches and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions or sores;—cleanse it when you find it is obstructed or sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even when no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.

Sarsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it contain but little of the virtue of Sarsaparilla, or anything else.

During late years the public have been misled by large bottles pretending to give a quart of Extract of Sarsparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Aence bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly espised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy that rests upon it. And we think we have grounds for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.

PREPARED BY

DR. J. C. AYER & CO.,
LOWELL, MASS.

PRICE, $1 PER BOTTLE; SIX BOTTLES FOR $5.

Ayer's Cherry Pectoral

Has won for itself such a renown for the cure of every variety of Throat and Lung Complaint, that it is entirely unnecessary for us to recount the evidence of its virtues, wherever it has been employed. As it has long been in constant use throughout this section, we need not do more than assure the people its quality is kept up to the best it ever has been, and that it may be relied on to do for their relief all it has ever been found to do.

Ayer's Cathartic Pills.

FOR THE CURE OF

Costiveness, Jaundice, Dyspepsia, Indigestion Dysentery, Foul Stomach, Erysipelas, Headache, Piles, Rheumatism, Eruptions and Skin Diseases, Liver Complaint, Dropsy, Tetter, Tumors and Salt Rheum, Worms, Gout, Neuralgia, as a dinner Pill, and for Purifying the blood.

They are sugar-coated, so that the most sensitive can take them pleasantly, and they are the best aperient in the world for all the purposes of a family physic.

Price, 25 cents per box; five boxes for $1.

Great numbers of Clergymen, Physicians, Statesmen and eminent personages, have lent their names to certify the unparalleled usefulness of these remedies, but our space here will not permit the insertion of them. The Agent below named furnishes gratis our Ameritan Almanac, in which they are given; with also full descriptions of the above complaints, and the treatment that should be followed for their cure.

Do not be put off by unprincipled dealers with other preparations they make more profit on.—Demand AYER'S, and take no other. The sick want the best aid there is for them, and they should have it.

All our remedies are for sale by W. R. Preston, Portsmouth, and by all druggists and merchants in the civilized word. 6m—je14

DR. J. B. HUGHES,

Knowing that there are at this moment thousands of persons in the surrounding towns, suffering their lives to the insidious inroads of certain dangerous maladies, who still suffer from the reluctance to make known their complaints and consult a physician, he would state that some of his medicines will be sent by express or otherwise, to all who may order them, provided the true description of the disease be sent by letter and directed as above.

Full and explicit directions will accompany every package, and the most inviolable secrecy preserved.

DR. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of disease which have been improperly treated by empyrics have come under his care and more than three-fourths of this number are described upon his books as perfect cures.

Patients can be cured by letter by addressing Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed from scrutinizing friends.

Be particular in finding Dr. Hughes. Do not be lured from the right path, or be persuaded to try experiments with false and fictitious remedies at the expense of destroying what is the great pillar of life, a healthy constitution.

This medicine can only be obtained at the Office of Dr. HUGHES, 13 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE RENOVATING PILLS. These pills are universal in efficacy and superior virtue in regulating all female irregularities. Their action is specific and certain, producing relief in a short space of time. They are acknowledged to be the best in use.

The Dr. cautions the public to beware of impositions that are being practiced by advertising spurious article under some spurious or fictitious name. They are entirely useless, having been got up by miserable pretenders who are entirely ignorant of the effic

Our friend Bonner (who has the finest team in the world, Lantern and Lady Woodruff), it is said, has to hire a driver "to hold the ribbons" when on the road; this is not the thing—we should as soon think of having a sweetheart "that was all our own," whom we had to kiss by proxy, as to have a pair of horses we could not drive. The fact is, however, that Bonner's trotters are not roadsters, and won't be safe as hacks as long as they maintain their present speed and spirit.—*N. Y. Spirit of Times.*

MOTHERS,

In presenting you with DR. EATON'S INFANTILE CORDIAL, we desire to state its superiority over every nostrum that nurse or quack has heretofore offered you.
First—It is the preparation of a regular physician, who is well qualified from much experience in infantile complaints to prescribe for them.—Secondly—It is entirely free from paregoric or opiate of any kind, and consequently relieves by removing the suffering of your child, instead of deadening its sensibilities. Thirdly—It is put up with great care, as a comparison of it with any other article for infantile complaints will show: the very roots from which it is distilled being dug from the forests under the direction of Dr. Eaton, many of them by his own hands. Fourthly—it is perfectly harmless and cannot injure the most delicate infant, and is a certain cure and relief in all the following cases, which is its chief merit over every other preparation.
FOR ALL COMPLAINTS ATTENDING TEETHING; such as DYSENTERY, COLIC, &c.; also, for softening the gums and relieving pain. For regulating the bowels it is unequalled. For Cold in the Head it is a sure relief. For CROUP, the most fatal and trying of diseases, it can be relied on with perfect confidence; and being a powerful anti-spasmodic in all cases of convulsions or fits, we earnestly recommend you to loose no time in procuring it—Lastly—it costs so much more than other preparations of the kind, that we cannot afford such long advertisements as can those whose whole expense is their advertising; for the same reason, it commends itself as the most reliable to all mothers. In all cases, the directions wrapped around each bottle, must be strictly followed. Price, 25 cents per bottle.

Portsmouth, N. H.

THURSDAY, NOV. 17, 1859.

☞ In the Superior Court, Boston, an important principle was laid down and decided, viz., that a horse, encumbering the highway, may lawfully be removed by any person who wishes to pass.

The case was this: Mr. Nath. McKay, of East Boston, was about to cross the old ferry with his horse and chaise, when he found that his progress was stopped by a team standing directly across the road. The horse and wagon were under the charge of Thomas Kenney, who told Mr. McKay that if he wanted to go to Boston then he must pass over the People's Ferry, or remain on the island. This did not suit Mr. McKay, and he got out of his chaise and took Kenney's horse by the head for the purpose of leading it out of the road, and when he attempted to do so Kenney struck at McKay with a stick, but missed him. McKay had previously requested Kenney to remove his horse, but had got no satisfaction, and when the blow was struck he thought it was time to take some action. McKay gave Kenney a beating.

A hearing was had in the Police Court, before Judge Rogers, and was continued for three weeks, for the purpose of enabling the Judge to decide if McKay was justified in taking hold of the horse's head. His Honor decided that he had no right to, even if the horse was obstructing the highway or streets. A fine of $1 was imposed. McKay appealed, and the case was tried in the Superior Court. The jury disagreed.

Another trial was had, and Judge Russell, in his charge to the jury, said a person had a right to take a horse by its head if the horse was a nuisance and obstructed the highway, and its owner had been civilly requested to remove the same. The ruling is an important one, and under it the jury returned a verdict of not guilty after but a brief consultation. Mr. McKay was certain that he was right, and acted accordingly.

☞ In the Portland Municipal Court, on Tuesday, the liquors found some time since on the premises of Thomos Collins, were declared forfeited, no person appearing to claim them.

In the docket, for six months ending the 12th, there were 86 warrants issued under the act for the suppression of drinking houses and tippling shops; of which 47 were sustained, 28 returned nothing found, 9 discharged, 1 abandoned by the Government, 1 quashed for informality.

This shows a larger proportion of convictions than is usually found in criminal cases of all sorts, viz., 47 in the 86. The new law in Maine seems to be working hbout as well as any such law can work there. In Vermont, a law considerably more severe works well. But Vermont has no sea coast and has a peaceable population, with very few foreigners.

Some improvement could doubtless be made in the law of this State, by adopting the *new* seizure clause of Maine, and the lighter penalties of Massachusetts. But the greatest improvement of all would be, for thousands of people to leave off their drunken habits, and become total abstinents. The tippler soon becomes a sot, in nine cases out of ten.

☞ Some of the Indians on Lake Superior have formed a Temperance Society. It was occasioned by the defection of a chief in whom they placed implicit confidence, who indulged a little too freely in the ardent, and while drunk spent a considerable amount of money entrusted to his keeping. The red men had an indignation meeting over it, and after a most emphatic series of grunts, formed a self-protective association, based on fundamental principles—that is to say, the first Indian who got drunk was to be tied to a stump and whipped with twenty-five lashes.

Not much of a temperance society, says Uncle Toby: and perhaps this may be as good a time as any, to say that the *punishment of drunkards* is no part of the modern philanthropic movement in favor of temperance. It is rather a relic of that old and foolish system, which used to license and encourage the trade in drinks, and then punish the victims of that trade.

☞ Shall Portland be a cotton shipping port? This seems a strange question,—but let us look again. We see it stated by the Argus, that 5000 bales of cotton, worth $300,000, are now on the way over the route from Cairo, on the Mississippi, via the Illinois Central and Grand Trunk Railways, to Maine; and that 1000 bales of this quantity—$60,000 worth—are taken by the Mills at Biddeford, and are now being received there. The Argus then remarks:—"if the manufactories of Maine can make it for their interest to obtain their cotton in this way, we cannot perceive any reason why Portland should not become a shipping port for cotton."

Nature, who has done all things well,
Forbid that beard on woman's chin should grow;
For who could shave her, whatso'er their skill,
Whose tongue would never let her chin be still.

THOUGHTS BY THE WAY.

NO. II.

Concord is a neat city, well laid out, and increasing steadily and safely. In the midst of her recently improved churches, stores and dwellings, it was not pleasant to observe the wood work and sashes of the State House bare of paint, for want of a small appropriation from the Legislature.—Two fine brick churches are now in process of erection—for the South Congregational and the Episcopal Societies. The latter, which is nearly completed, is a splendid affair, and has what are termed "memorial windows," contributed by the friends of the church and of the subject named thereon. Several are to Bishops, to former ministers of that or other churches, and one actually to His Excellency the late "Isaac Hill!"

The fine new Depot at Concord is completed; and besides ample and excellent accommodations for trains of cars from all quarters, with spacious passenger-rooms, saloons and express offices, contains, in a sort of balcony-story, above, nice rooms for the various officers of the Concord Railroad, with its numerous tributaries, branches, connexions, or what not.

Over the immense business of this Road, or rather of all the roads joined, presides Hon. J. A. Gilmore, the Superintendent—and one of the most efficient, active and untiring business men we ever met. He is everywhere at once. Though somewhat inclined to corpulency, it would trouble most of the lean ones to follow his route for a season. For instance, on the night we spent in Concord, he had business engagements which called him to be in Boston at night and in Concord in the morning, and so rode up on the freight train, reaching Concord at 4 in the morning.

Here we also saw Gen. George Stark, the vigorous manager of the Nashua & Lowell Road. The rivalry between their respective roads has sometimes led to some pretty warm discussions between these gentlemen, to say the least; but they appeared to be on the most amicable terms personally.

A ride of 72 miles, we believe, brought us to Boston, something after noon. It was agreeable to meet again here the pleasant face of mine host Corning, of the Phenix, as conductor of the train—both which arduous situations he fills to a charm. A young man, with a tall peaked hat, and a long pointed set of heavy whiskers, giving his head the appearance of being about three times the usual length; and a half-broken boy of say about six years old, whose noisy prattle, under the circumstances, was a nuisance to his neighbors in the car, as well as to his parents, (only these last didn't know it)—were the only objects worthy of note, if indeed they are, we met on the way.

As we had a commission to purchase a piano-forte for a friend in Portsmouth, with strict injunctions to have it bear the names of Hallett, Davis & Co., we stepped into their spacious and elegant ware-rooms, on Washington street; and were not long in deciding on one of their new-scale 7-octave pianos. Neither would you be, reader, under similar circumstances, were you in search of a superb instrument, warranted perfect in all respects, at a fair price. There are many of their instruments in Portsmouth; and all, so far as we know, have given complete satisfaction. After trading with this establishment for many years, we can recommend the gentlemanly proprietors for faithfulness, liberality and fair dealing.

The fickle, changeable character of this nation, is exemplified in Boston as well as elsewhere—by the eternal pulling down and building up of stores. Even Washington street is never clear of the nuisance of "building," and at least twenty such obstructions exist to-day—temporary, to be sure, but never at an end, and it would seem never to be ended. Why would it not be better to let good buildings stand as they are; and if grander streets are needed or desired, build them elsewhere?

After a hard tramp about Boston, (and any tramp in Boston always seems hard to us,) we were glad when we stepped into the Eastern Railroad cars for home—and yet more glad when we stepped out of them, at Portsmouth. Car-riding was always tiresome work for us, perhaps on account of the want of car-ventilation; and 175 miles in thirty hours or so, though not large, is more than we relish. And then we did not feel acquainted in the train—for it was neither Young, nor Cram, nor Towle, who suggested "ticket" to us; and the 5 o'clock train out of Boston, without Young, seemed almost off the track or out of time to us. His place is occupied, to be sure; but alas! we miss the quiet cheerfulness of the gold-medal and model conductor. May he always be Young!

The staunch old Eastern Road seems to be looking up again, and to bid fair to regain its former state of prosperity—under the careful and efficient management of the present Board of Directors, and Superintendent Prescott. Success to it, we hope—for the sake of Portsmouth stockholders, if nothing more. F.

A Russian miser is noticed as having learned to bark, in order to avoid the expense of a watch-dog.

☞ Moses Murray has been convicted in the Essex County Court of an assault with intent to kill Benjamin Lindsey. The prisoner, though a married man, offered himself two years ago to a young woman then living in Roxbury, who on learning that the prisoner was married, at once rejected him, and forbade his coming to her house. He informed the young woman that if she married any one but him, he would be the death of her husband. In October, Murray paid a visit to Lynnfield, and hearing that the young woman was married, sought out their residence. On entering the yard he was met by Lindsey, and enquired his name, and if he was a married man, who he married, &c., and on being informed that he had married the lady, he deliberately drew a pistol and aimed at the young man's body, with the exclamation, "you are a dead man." Lindsey immediately struck up the pistol, the bullet entering his thumb. The prisoner then ran away and was captured on the day following. Verdict guilty. Sentenced to five years in the State Prison.

☞ Reports from New Orleans say that the people of Brownsville, Texas, are greatly alarmed at the expected attack of Cortinas and his band of outlaws, who have been threatening the city for some time. The public authorities doing nothing for the succor of Brownsville, active measures are being taken for that end by private individuals in Texas and Louisiana.

☞ In a recent sermon, the Rev. Dr. Cumming stated that more people went out of London every Sabbath on excursions of pleasure than were found in all the churches and chapels of the city, and that out of a population of three millions, there were but 150,000 communicants in the churches of all evangelical denominations.

☞ A man in Hartford has made application to Squire Mann for a divorce from his wife, on the ground of her being lazy. He alleges that she will not get up in the morning, build a fire, and get his breakfast at a reasonable hour. He finds no other fault with his bosom partner, and the 'Squire' refuses to grant the prayer of the petition.

☞ The government of Peru has entered into contract for 25,000 Irish emigrants to become citizens of that country. It agrees to pay their passage and give each nine acres of land. Previous attempts to introduce Germans have not proved very successful.

Catarrhal Cough.

This insidious and annoying symptom, so difficult to treat, depends on a subacute inflammation of the air-passages, which is apt to end in chronic ulceration and a form of consumption. The mucous membrane of the air-passages is peculiarly susceptible to the healing influences of the PERUVIAN SYRUP, as the testimonials of some of our first citizens show.

There is no known remedy can exceed in speediness of cure, and certainty of effect, that which has become world famous as DR. HOSTETTER'S STOMACH BITTERS. In all diseases of the stomach, which are of a morbid nature, the Bitters have effected most remarkable cures when many other remedies have failed. Hundreds of certificates have been given by those who have thoroughly tested its efficacy, all of which corroborate its efficiency, when it is administered according to the directions on each bottle.

Some of the worst cases of Dyspepsia, Diarrhea and Costiveness, have been permanently cured by the use of the Bitters.

Sold by druggists and dealers generally, everywhere.

R. R. R.

On the 1st day of September, 1853, Mr. Charles Randolph called at the R. R. R. office, and stated that for ten years he had not enjoyed a single meal. He had not, for five years, had a natural discharge from his bowels; but was obliged to resort to Injections, &c. He was pale, haggard, and thin. We ordered Radway's Regulators, one each night, and Radway's Resolvent, three times per day. On the eighth of September he called upon us.

HE WAS SO ALTERED THAT WE KNEW HIM NOT.

His appetite is good—his digestion easy—his skin moist and healthy—his step elastic and buoyant—his body vigorous, and his eye indicates a man of health and energy.

For Liver Complaint, Dyspepsia, Difficulties of the Urethra and Bladder, Radway's Regulator and Renovating Resolvent are a quick and positive cure. For all Aches and Pains, for Neuralgia and Rheumatism, for Nervous and Bilious Complaints, Radway's Ready Relief is quick and effectual. In five minutes' time after its application, the patient is free from pain.

Sold by Druggists everywhere.

THE OXYGENATED BITTERS.

Nature, in her great laboratory, has stored some remedy adapted to every disease which "flesh is heir to." But it requires the investigation and research of the philosopher to discover and apply this remedy. Such research and investigation has succeeded in discovering a remedy for that most afflictive dispensation, the

DYSPEPSIA!

With all its lesser and numerous evils; and it may be safely asserted that until the appearance of the *Oxygenated Bitters*, a case of Dyspepsia cured was a rare experience in medical practice. Now, under the influence of these Bitters the rule is to *cure*, the rare exception, failure to cure.

Read the following, which the subscriber requests us to publish for the benefit of the afflicted:

Obdurate and Inveterate Case of Dyspepsia cured by the Oxygenated Bitters.

The following from a gentleman well known in the region in which he lives ought to satisfy all those of little faith:

WATERTOWN, N. Y., July 28, 1858.

S. W. FOWLE & Co., Boston.—*Sirs*:—Nine years since I was attacked by that curse of all diseases, *Dyspepsia*, which so affected me as to cause great oppression, fullness, and bloating of the bowels, immediately after eating, accompanied with terrible pains in the stomach, often occasioning nausea, vomiting, acidity, and headache, together with general debility and suffering, altogether rendering life a burthen.

After having tried every known remedy without effect, and despairing of ever regaining my lost health, I was induced to make use of the Oxgenated Bitters, the good effects of which were immediately visible on my health and system. Before using a whole bottle I was entirely cured; and I feel a pleasure inducing all like sufferers as myself to make use of this remedy.

GROVER & BAKER

SEWING MACHINE COMPANY

Are of elegant finish, and their operation is rapid and very quiet. The EASE with which they may be managed is a distinguishable feature, and the stitch is the strongest, handsomest, and most elastic of any made.

What is specially claimed for the "GROVER & BAKER" machine is—

That it makes a *stronger* and *handsomer* seam than is made by hand or by any other machine.

That it makes a more *elastic* seam, which will withstand the tests of wear, and washing and ironing, better than that made by any other machine.

That the speed at which it can be used is higher than any other, and the power required to operate it is less than that required by any other machine.

That it is nearly noiseless in its operation.

That its construction is more simple, and its liability to disarrangement less than any other.

That it can be quicker learned, more easily kept in order, got ready for use, and changed from one quality or grade of work, than any other.

Its applicability to the entire range of Family Sewing—from the finest and most delicate texture to the heavier and coarser fabrics.

That it uses thread or silk from the ordinary *spools*—no re-winding—no shuttles or bobbins to fill.

That it finishes its work and fastens the end of every seam; each stitch is independent of its neighbor.

Is there a husband, father or brother, who will permit the drudgery of hand-sewing in his family when a GROVER & BAKER Machine will do it better, more expeditiously, and cheaper than it possibly be done by hand?

TESTIMONIALS.

PORTSMOUTH, April 12, 1858.

Having tested the merits of the various popular Sewing Machines, in the manufacture of our Capes and Raglans, we unhesitatingly recommend the Grover & Baker, as far superior to the others.

ALLEN & FLINT.

PORTSMOUTH, July 16, 1858.

If you wish to purchase a machine that will do work handsomely and strongly, and will not be liable to get out of repair, call on Mr. Whittemore, in Daniel street, see the operation of Grover & Baker's machine, and then place one in your family. They will never consent to part with it, after they understand its operation.

☞ Respecting the origin of the fire at Mr. Gove's house—an intelligent friend who visits there much, says no member of the family, or other person, so far as is known, was in the room where it began, on Sunday at all—that Mr. Gove retired at 8, and heard the clock strike 10—that there was no fire in the house after 6 o'clock, and had been none in that part of the house for many months—and that other circumstances would seem to indicate the fire to have been the work of an incendiary, though for what possible object, does not clearly appear, unless the house had first been robbed.

☞ The Excursion to Boston on Saturday next, offers a rare opportunity to visit "The City" for less than half fare, and allows a long day there to transact business, and to attend the Ravels astonishing performances, the delightful Aquarial Gardens, the old and popular Museum, or any other place of amusement or interest.

Tickets for the Excursion, $1,50, may be had at S. F. Cobb's Music Store, Exchange Block, on and after to-day.

Tickets to the Ravels' performances, 50 cents, 25 cents, or 15 cents, may also be had at Mr. Cobb's Store, on *Friday* only—at which time a plan of the splendid Boston Theatre may be seen there, and reserved seats secured in any part of the house desired. This is done in order that all who wish and intend to attend can have an opportunity before all the seats are taken up—as is the case at most of their performances.

The Dover Gazette (Democratic) has one special favor to ask of the Portsmouth Gazette, and that is so long as it continues to advocate the doctrines that its new editor has put forth up to its last issue, it will not call us "dear brother." We are no black republican, and we have a poor opinion of old-fashioned toryism, and we don't thank the advocates of such undemocratic dogmas for dubbing us dear brotheri As to your "strong food," we own up that it has an odor decidedly repugnant to our "delicate stomach." We are not exactly a hyena, or a turkey buzzard, and therefore shall not feel obliged to devour custom house offal. We can do better. Let those do it who relish it, and have no principles to prevent.—*Dover Gazette.*

☞ The case of Dr. J. C. Ayer, of Lowell, charged with assaulting Richard S. Fay, which was assigned for examination in the Police Court, Boston, has been postponed till Friday. As neither party is desirous of prosecuting the case, it is probable that a *nol. pros.* will be entered.

☞ The Cincinnati Gazette says that U. S. Deputy Marshal Wm. L. Manson on Thursday seized a negro in Cleveland and took him to Cincinnati. The negro, Henry Seaton, was taken before U. S. Commissioner Brown, when the claimant, Mr. John Seaton, L. D. Ross, attorney at law, and R. M. Robb, all claiming to be citizens of Greensburg, Greenup county, Ky., identified him, and that ended the examination. The negro was then slipped across the river, and lodged in the Covington jail. No testimony was *asked* as to the identification of the claimant and his witnesses.

☞ The Charlestown (Va.) correspondent of the N. Y. Tribune gives the following incident:—

People may say what they please of the indifference of the negroes to the passing events, but it is not true. They burn with anxiety to learn every particular, but they fear to show it. A hotel servant busied himself the whole morning a day or two since to extract from me something concerning the prospect of Brown, without appearing to ask a direct question. At last I told him he'd better say what he wanted. "Well, Sir," he said very timidly, "what do you think they'll do, after all, with Mr. Brown?" I told him they would surely hang him. "Well now," he said, argumentatively, "don't you see it would be a pity to do anything so 'brupt." I told him if Brown were not disposed of, the people in Virginia would think themselves in a bad scrape. "Pity they wasn't," said he, sniffing away, very much discomposed.

NEW ENGLAND.

We have before us a valuable book, which we have briefly mentioned before, viz. the History and Description of New England, by Coolidge & Mansfield,—containing a Gazetteer, and more than a Gazetteer, of Maine, New Hampshire and Vermont. We mention it again at the present time, because Mr. Gilbert, the agent, is now engaged in canvassing this city and vicinity, to dispose of the work, which is a solid volume of more than 1000 pages, and is furnished at the moderate price of $4, in cloth, with an advance for extra binding.

The work has been favorably noticed by many periodicals; we select one notice only, from the North American Review, edited by Rev. Dr. Peabody of this city.

Among all the books which lie on our table for daily consultation, we can name none superior to this new work, in thoroughness, accuracy, and adaptation to the place it is designed to fill. The volume commences with a brief sketch of the history of the discovery and settlement of New England; the portion assigned to each State contains a compend of its history, which is followed by a full and adequate account of its natural features, history, institutions, industry, public buildings, distinguished citizens, and numerical statistics of every town, city and county in the State, in alphabetical order. With these details, we have nearly one hundred engravings on wood, of scenery, buildings, towns and villages in perspective, and individual objects of interest; and these are executed in the best style of the art, are drawn with taste and precision, cut with a distinctness of outline rarely equalled, never surpassed, and printed with a firmness and delicacy which make them not one whit inferior to engravings on steel. The amount of information nowhere else accessible is such as to distance, in comparison, the best previous gazetteers. It is evident that the editors have spared no pains to make their work complete, and we can think of no practicable enlargement of their plan which could add to its value. Accompanying the volume are full, clearly drawn, and well-colored township maps of each of the three States. We trust that an enterprise which does so much honor to the ability, diligence, and faithfulness of its compilers, will also by its ready sale, remunerate them for the very large expense which they must have incurred in its preparation. It ought to have a place in every public and private library in New England.

☞ The steamer Hungarian, on her late passage from Liverpool to Portland, rescued 42 persons from a wreck, in a gale of wind. The rescued party were taken from a schooner named the "Jean Martin," bound from Labrador to Carbonier, in Newfoundland. The Jean Martin belonged to the Captain, and was laden with oil and fish, which he had accumulated during the summer months. He had a shipwrecked party on board, which he found on the coast of Labrador, and when on his way thence to Newfoundland, a storm encountered him which carried away all his sails and drove him out in the sea. He had been disabled two or three days previously by a heavy sea, which broke over his vessel, and strained her to such an extent that the water came into her freely. On the morning of the 9th, the crew were nearly exhausted, only six men being able to work at the pumps, and the stores were all gone saving a few biscuits. They had not had fire on board for several days, and consequently were nearly famished. They numbered in all 42 souls.

They were saved by the Hungarian's life-boat, manned by a noble crew of 7 med, and were landed at St. Johns.

☞ A party who has heard a good deal about the "Theatre of War," suggests that the back seats must be desirable. At the Boston Theatre, for the Ravels' performances, the front seats are preferred.

Excursion to Boston.—Josiah Perham has arranged for a grand extra train excursion party from Portsmouth and Way Stations as far as Wenham, to Boston and return, on Saturday, Nov. 19th, for the purpose of visiting the renowned Ravel Family, Boston Theatre, and also the Aquarial Gardens and other places of interest.

The Train will leave Portsmouth at half-past 7, A M; Returning, leave Boston at quarter past 6, P M. Tickets (carrying to Boston and back,) $1.50, to be had at the depots. Secure your tickets early—the train will run, rain or shine, as the Ravels perform on no afternoon but Saturday.

The surprising performances of the Ravels at Boston Theatre commence at half-past 2. Tickets at the door—balcony and first tier of boxes 50 cents, family circle 25c, amphitheatre 15 cts. Dinner can be procured at the Adams House, two doors from the Theatre.

Theatrical.—"Before the appearance of the wonderful Ravel troup," says the True Flag, "theatricals were at a low ebb in Boston. The opera, even, failed to draw. But now the Boston Theatre is thronged, nightly, with an intelligent, and it is hardly necessary to add, amused audience. Saints as well as sinners patronise the Ravels, and both are amply recompensed for the time and money expended. If you desire good seats secure them in the day time, for the best are always engaged in advance."

"Cosmopolitan Art Association" 1859–'60.—The Subscription Books for the sixth year of the Cosmopolitan are now open, and subscriptions ($3) are daily being received from all sections of the country, in a ratio unparallelled with that of any previous year. The collection of works of art, to be awarded in premiums among subscribers in January next, will exceed in number and value that of any year since the founding of the Association, embracing, as it will, choice paintings from the easels of the first American and foreign artists, sculptures, bronzes, outlines, bas-reliefs, &c. The superb engraving, which every subscriber will receive immediately on receipt of subscription, entitled "Shakspeare and his Friends," is of a character to give unqualified pleasure and satisfaction; besides which, all subscribers receive the beautiful Art Magazine for the year, and *may* also get some of the splendid and valuable works of art, at distribution. Subscriptions received by Frank W. Miller, at the Chronicle Office, who is Honorary Secretary for Portsmouth and vicinity.

The News.

Alarm Movements in Maryland.—One night a slave was shot dead by a patrol of white men, in Somerset county, Md. A needless alarm of insurrection and murder was given at a meeting-house in the neighborhood. The congregation were at prayers; the prayers were forgotten, and the utmost confusion and excitement prevailed; benches were broken up for clubs, and with these and such weapons as the men could obtain, they scoured the neighborhood, found the negro who gave the alarm, and shot him dead.

New York, Nov. 16.—Prof. Lowe yesterday made an ascension from the Crystal Palace grounds, in his small balloon Pioneer. He started at 3.20, and landed at West Farms at 4 o'clock. He announces his intention of starting on his trans-atlantic trip next Saturday.

The Mozart Hall Democrats have nominated Fernando Wood for Mayor.

Kidnapping Case.—*Barnstable, Nov.* 15.—The kidnaping indictments were taken up this forenoon, in the Superior Court.—Defendants filed a special plea, allowing that Jones was a fugitive slave, and that they arrested him as the agent of the owner, and denying the validity of the statutes under which the indictments were framed.—To this the District Attorney demurred, and for the purpose of the trial the demurred was sustained without argument.

Sandwich Islands.—Dates from the Sandwich Islands are to the 3d of October. The prospects of business were poor, and the community was troubled by reports from the Atlantic States relative to the cheapness of coal oil, which it was thought would diminish the demand for whale oil, and injure the whaling business of Honolulu. Some of the sugar plantations are paying moderately well, but the coffee crop was an entire failure. The number of whaleships arrived up to Oct. 1, was only ten.

☞ A circus riot took place at Whitehall, N. C. Nov. 4, at 4 P. M., when a drunken man named Grantham, attempted to enter Robinson's circus, but was repelled by the doorkeeper. A difficulty ensued, in which circus men and the friends of Grantham participated; bowie knives were used and pistols fired. Mr. Leact, a schoolmaster, was killed by a pistol shot, and a brother of Grantham was dangerously wounded in the same manner. He is expected to die. One of the circus men was stabbed in the shoulder. The wound is about four inches in length, and went to the bone.—Writs have been issued for the arrest of all the parties concerned.

Italy remains in an unsettled condition.

The Opinione, of Turin, a ministerial journal, asserts that the Sardinian Cabinet has not adhered to the diplomatic arrangements by which Italy has been disposed of at Zurich, and that in case of the Romagna being attacked, Piedmont will take the field to assist them.

According to advices from Sicily, the insurrection had not ceased. Reinforcements of troops are being despatched by the Neapolitan government.

Numerous arrests have taken place at Palermo, Caltano and Messina.

The Pope, according to several journals, has accepted the principal reforms that have been suggested, but desires himself to be judge of the time at which they shall be applied; and herein is the difficulty.

Garibaldi arrived at Turin on the 28th, in compliance with a summons from the King. In addressing the multitude at Teghuri, he is stated to have said—"With a King like Victor Emmanuel, with arms like ours, and with people like you, Italy should not stop until she had freed the last inch of her soil from the heel of the foreigner."

AMERICAN & FOREIGN PATENTS.

R. H. EDDY, Solicitor of Patents,

Late Agent of U. S. Patent Office, Washington, 6 years, closed in '57.

76 STATE, OPPOSITE KILBY ST., BOSTON.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superio to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

I have no hesitation in assuring inventors they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.

BOSTON, February 8, 1858.

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that one is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART.

From Sept. 17, 1857, to June 17, 1858, the subscriber, in the course of his large practice, made of TWICE rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in HIS FAVOR, by the Commissioner of Patents. Boston, Jan. 1, 1859. R. H. EDDY.

RELIEF AND HEALTH TO YOUR INFANTS

We have put up and sold this article for over ten years, and can say, of it, what we have of any other medicine, never been able to say FAILED IN A SINGLE INSTANCE, — NEVER HAS IT TO EFFECT A CURE, GLE INSTANCE, when timely used. Never did we know an instance of dissatisfaction by any one who tried it. On the contrary, all are delighted with its operations, and speak in terms of highest commendation of its magical effects and medical virtues. We speak, in this matter, "*what we do know*," after ten years experience, and *pledge our reputation for the fulfilment of what we here declare.* In almost every instance where the infant is suffering from pain and exhaustion, relief will be found in fifteen or twenty minutes after the syrup is administered.

This valuable preparation is the prescription of one of the MOST EXPERIENCED and SKILLFUL NURSES in New England and has been used with *never-failing success*, in THOUSANDS OF CASES.

It not only relieves the child from pain, but invigorates the stomach and bowels, corrects, acidity, and gives tone and energy to the whole system. It will almost instantly relieve GRIPING IN THE BOWELS, AND WIND COLIC, and overcome convulsions, which, if not speedily remedied, end in death. We believe it the best and surest REMEDY IN THE WORLD in all cases of DYSENTERY AND DIARRHEA IN CHILDREN, whether it arises from teething, or from any other cause. We would say to every mother who has a child suffering from any other form of disease, *Do not let your own ease of others*, stand between your suffering child and the relief that will be SURE — yes, ABSOLUTELY SURE to follow the use of this medicine, if timely used. Full directions for using will accompany each bottle. None genuine unless the *fac-simile* of CURTIS & PERKINS, New York, is on the outside wrapper. Sold by Druggists throughout the world. The Liver Invigorator.

PREPERED BY DR. SANFORD,
COMPOUNDED ENTIRELY FROM GUMS.

Is one of the best PURGATIVE and LIVER MEDICINES now before the public.

These GUMS remove all morbid or bad matter from the system, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest well, PURIFYING THE BLOOD, giving tone and health to the whole machinery, removing the cause of the disease—effecting a radical cure.

BILIOUS ATTACKS are cured, and, what is better, prevented by the occasional use of the Liver Invigorator.

One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.

Only one dose taken before retiring, prevents NIGHTMARE.

Only one dose taken at night, loosens the bowels gently and cures CONSTIPENESS.

One dose taken after each meal will cure DYSPEPSIA.

One dose of two teaspoonfuls will always relieve SICK HEADACHE.

Only one dose immediately relieves COLIC.

One dose often repeated is a sure cure for CHOLERA MORBUS, and a preventive of CHOLERA.

Only one bottle is needed to throw out of the system the effects of medicine after a long sickness.

One bottle taken for JAUNDICE removes all sallowness or unnatural color from the skin.

One dose taken a short time before eating gives vigor to the appetite and makes the food digest well.

One dose, often repeated, cures CHRONIC DIARRHŒA in its worst form, while SUMMER & BOWEL COMPLAINTS yield almost to the first dose.

A few bottles will cure DROPSY by exciting the absorbents.

We take pleasure in recommending this medicine as a preventive for FEVER AND AGUE, CHILL FEVER, and all Fevers of a BILIOUS TYPE. It operates with certainty, and thousands are willing to testify to its wonderful virtues.

All who use it are giving their unanimous testimony in its favor.

Mix water in the mouth with the Invigorator, and swallow both together.

HOME AND EUROPEAN DEMAND.

The reason why, is that by Nature's own process It restores the natural color permanently after the hair becomes gray; supplies the natural fluids, and thus makes it grow on bald heads, removes all dandruff, itching, and heat from the scalp, quiets and tones up the nerves, and thus cures all nervous headache, and may be relied upon to cure all diseases of the scalp and hair; it will stop and keep it from falling off; *makes it soft, glossy, healthy and beautiful*, and if used by the young two or three times a week it will never fall or become gray; then, reader, read the following and judge for yourselves:

NEW YORK, Jan. 8, 1858.

MESSRS. O. J. WOOD & CO.,

Gentlemen: Having heard a good deal about Professor Wood's Hair Restorative, and my hair being quite gray, I made up my mind to lay aside the prejudices which I, in common with a great many persons, had against all manner of patent medicines, and a short time ago I commenced using your article, to test it for myself.

The result has been so very satisfactory that I am very glad I did so, and in justice to you, as well as for the encouragement of others who may be as gray as I was but who having my prejudice without my reasons for setting it aside, are unwilling to give your Restorative a trial till they have further proof, and the best proof being occular demonstration, I write you this letter, which you may show to any such, and also direct them to me for further proof, who am in and out of the N. Y. Wire Railing establishment every day.

My hair is now its natural color and much improved in appearance every way being glossier and thicker and much more healthy looking. I am, yours respectfully, HENRY JENKINS.

Cor. Columbia and Carroll Sts., Brooklyn.

LAYMONS, Ala., Feb. 14, 1858.

PROF. WOOD—Dear Sir: Your Hair Restorative has done much good in this part of the country. My hair has been slightly diminishing for several years, caused, I suppose, from a slight burn when I was quite an infant. I have been using your Hair Restorative for six weeks and I find that I have a fine head of hair now growing, after having used all other remedies known, to no effect. I think it the most valuable remedy now extant, and advise all who are afflicted that way to use your remedy.

You can publish this if you think proper.

Yours, &c., S. W. MIDDLETON.

PHILADELPHIA, Sept. 9, 1857.

PROF. WOOD—Dear Sir: Your Hair Restorative is proving itself beneficial to me. The front, and also the back part of my head almost lost its covering—was in fact BALD. I have used but 2 half pint bottles of your Restorative, and now the top of my head is well studded with a promising crop of young hair, and the front is also receiving its benefit. I have tried other preparations without any benefit whatever. I think from my own personal recommendation, I can induce many others to try it. Yours, respectfully,

D. R. THOMAS, M. D.,
No. 404 Vine Street.

The Restorative is put up in bottles of three sizes, viz: large, medium, and small; the small holds half a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more than the common than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent. more in proportion, and retails for $3 a bottle.

AYER'S SARSAPARILLA,

A compound remedy in which we have labored to produce the most effectual alterative that can be made. It is a concentrated extract of Para Sarsaparilla, of combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that this remedy is wanted by those who suffer from Strumous complaints, and that one which will a complish their cure must be of immense service to this large class of our afflicted fellow citizens. How completely this compound will do it, has been proven by experiment on many of the worst cases to be found in the following complaints:—

SCROFULA AND SCROFULOUS COMPLAINTS, ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUMS, SCALD HEAD, SYPHILIS AND SYPHILITIC AFFECTIONS, MERCURIAL DISEASE, DROPSY, NEURALGIA OR THE DOULOUREUX, DEBILITY, DYSPEPSIA AND INDIGESTION, ERYSIPELAS, ROSE OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD.

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud.—Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and unsorous sores, through which the system will strive to rid itself of corruption, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions or sores;—cleanse it when you find it is obstructed or sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.

Sarsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it contain but little of the virtue of Sarsaparilla, or anything else.

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but have no curative properties whatever. Aence bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have proven by believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.

DR. J. B. HUGHES,

Knowing that there are at this moment thousands of persons in the surrounding towns, who are rendering their lives by the insidious inroads of certain dangerous maladies, and still suffer from the reluctance to make known their complaints, and consult a physician, he would state that any of his medicines will be sent by express or otherwise, to all who may order them, provided the true description of the disease be sent by letter and directed as above.

Full and explicit directions will accompany every package, and the most inviolable secrecy preserved.

DR. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of disease which have been improperly treated by empyrics have come under his care, and more than three-fourths of this number are inscribed upon his books as perfect cures.

Patients treated by letter by addressing Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed from scrutinizing friends.

Be particular in finding Dr. Hughes. Do not be lured from the right path, or be persuaded to try experiments with false and fictitious remedies at the expense of destroying what is the great pillar of life, a healthy constitution.

This medicine can only be obtained at the Office of Dr. HUGHES, 18 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE RENOVATING PILLS. These pills are unrivalled in efficacy and superior virtue in regulating all female irregularities. Their action is specific and certain, producing relief in a short space of time. They are acknowledged to be the best in use.

The Dr. cautions the public to beware of impositions that are being practiced by advertising a spurious article under some spurious or fictitious name. They are entirely useless, having been got up by miserable pretenders who are entirely ignorant of the efficacy of medicines.

All who are in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.

These pills can be sent to any part of the country with directions. Remember the number—18 Howard street, Boston.

F. S.—The best of accommodations furnished, with kind and attentive nurses if they wish, at a reasonable rate. 3 d 1y

AYER'S SARSAPARILLA,
A compound remedy in which we have labored to produce the most effectual alterative that can be made. It is a concentrated extract of Para Sarsaparilla, of combined with other substances of still greater alterative power as to afford an effective antidote for the disease Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will a complish their cure must be of immense service to this large class of our afflicted fellow citizens. How completely this compound will do it, has been proven by experiment on many of the worst cases to be found in the following complaints:—
Scrofula and Scrofulous Complaints, Eruptions and Eruptive Diseases, Ulcers, Pimples, Blotches, Tumors, Salt Rheumm, Scald Head, Syphilis and Syphilitic Affections, Mercurial Disease, Dropsy, Neuralgia or Tic Douloureux, Debility, Dyspepsia and Indigestion, Erysipelas, Rose or St. Anthony's Fire, and indeed the whole class of complaints arising from Impurity of the Blood.
This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many raukling disorders are nipped in the bud.—Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions or sores;—cleanse it when you find it is obstructed or sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting ealth. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.
Sarsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it contain but little of the virtue of Sarsaparilla, or anything else.
During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Aence bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until this name itself is justly cspised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have grounds for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.

DR. J. C. AYER & CO.,
LOWELL, MASS.
Price, $1 per Bottle; Six Bottles for $5.

Ayer's Cherry Pectoral
Has won for itself such a renown for the cure of every variety of Throat and Lung Complaint, that it is entirely unnecessary for us to recount the evidence of its virtues, wherever it has been employed. As it has long been in constant use throughout this section, we need not do more tean assure the people its quality is kept up to the best it ever has been, and that it may be relied on to do for their relief ell it has ever been found to do.

The Chronicle.

Portsmouth, N. H.

FRIDAY, NOV. 18, 1859.

BOGUS LIQUORS AND BOGUS AGENTS. In the investigation of Geo. P. Burnham's agency in Massachusetts, Dr. Jackson, the State Assayer, was examined at considerable length, in respect to the general subject of adulterated liquors, and upon his transactions with Brookhouse and Burnham.—He testified that on one occasion Brookhouse brought a sample of whisky to be analyzed for a firm in New York, and told him Mr. Burnham would pay him ten dollars for the job, and wanted him to make out his bill for twenty-five dollars. The Doctor refused to practice this little deception, in order to put fifteen dollars into Mr. Burnham's pockt. He made other similar statements.

The Doctor testified that the plan pursued in regard to analyzing liquors affords no protection to purchasers, unless the agent is honest. If the agent is honest, the buyer would have a certain protection by the analyzation. He had originally suggested that the authorities in the towns should make seizure of the liquors furnished to town agents, and cause samples of them to be analyzed. Under the present arrangement, the chemist can aid the agent in purchasing the liquors, but can afford no protection to consumers.

He thought analysis especially important in wines. He had in two instances found wines of dealers in Boston poisonous. Pale sherry had been made of brown sherry by putting sugar of lead in it, and afterwards precipitating it with sulphuric acid to carry the coloring matter to the bottom. Enough sugar of lead is put in to render the wine poisonous. He also revealed some of the characteriitics of port wine, which never saw any port in Spain.

From all testimony, from all quarters, it is clear that nine-tenths of all the intoxicating drinks in the country are counterfeits. And while most of the pure is used for mere drunken excitement, and is therefore worse than useless—the whole of the impure and filthy is noxious and dangerous.

Total abstinence is the only safe course. And the doctors who prescribe anything *dearer* than alcohol, new rum and cheap whisky—may generolly be said to prescribe they know not what; while the poor patient, who pays $1 per quart for an *imported* brandy, gin, or schnapp, may after all be swallowing a horrible mixture, compounded at the next door to pick his pocket and eat a hole in his stomach. So says Uncle Toby.

☞ Considerable excitement continues at Charlestown, Va., caused by numerous incendiary fires in the neighborhood, and a belief among the inhabitants that emissaries of Old Brown are still lingering about. The Mayor has issued a proclamation, warning off all obnoxious strangers, and appointing certain persons to make them go. On the appearance of this proclamation, Mr. Hoyt, who had returned to the town; Mr. Sennott, one of the counsel for the prisoners; and Mr. Jewett, connected with Frank Leslie's, received an intimation from Col. Davis that they were among the strangers whose presence was not satisfactory to the people, and that their personal safety would best be secured by an early departure. Mr. Sennott declined leaving until he had finished his business. Mr. Hoyt had already made arrangements for his departure before the proclamation appeared, and he, with Mr. Jewett, left there on Saturday.

A LESSON FOR DRINKERS.—The Ballston (N. Y.) Journal says:—"Mr. Alfred Hamilton of this town, was brought before the Court of Sessions, held in this village last week, for forgery, and plead guilty.—He was sentenced to Clinton Prison for two years." As the Journal observes, this is indeed a sad case. "Some few years since, Mr. Hamilton was the owner of a good farm in Ballston, and the possessor of $40,000 or $50,000 besides; but, like hundreds of other young men placed in similar circumstances he became the victim of strong drink, and squandered all, and has finally closed his brief career in the State Prison."

If we could have the handling of "Old Brown," instead of hanging him we would give him a taste of plantation life, and make him work among slaves and as slaves work, until he had a familiar acquaintance with the institution. That would be much better than shedding his blood, and out-door exercise would be good for his health, withal.—*Bath Times.*

The Times ought to know that if Old B. was out on a plantation, all the "shiverly" would be shaking in their boots.

☞ The N. Y. Journal of Commerce says, in view of the recent elections upon the constitution and for delegate to Congress, "it must be conceded that Kansas has a population sufficient to entitle her to admission into the Union with one Representative."

"What are you fencing that pasture for? Forty acres of it would starve a cow." "Certainly, and so I am fencing it in to keep my cows out."

TO HANG OR NOT TO HANG.—*Messrs. Editors:*—I see by your paper that the New York Saturday Press repeats its assertion, that—

"The Republicans want him [Brown] hanged, because his being hanged would serve their cause; and the Democrats want him respited, because his not being hanged would serve theirs."

Allow me to say, Messrs. Editors, that so far as I read the papere, or hear people talk, the above statements are not true! A great majority of the people this way, of *all* parties, wish him spared, for their common feeling of dislike to hanging.

But the Saturday Press adds the following explanation, viz.:

"We do not say this of the Republicans and Democrats as men, but as politicians; and there is as much difference between a politician and a man, as between a sectarian and a Christian."

Well, then, we suppose there are, in the Press' view, no *men* in the country except those who keep aloof from politics, who don't vote, but only grumble when other people vote wrong—and no *Christians* except those devout persons who are too good (or bad) to belong to any sect or denomination whatever.

But really the whole thing is too sweeping—and, like all the arguments that prove too much, it proves nothing. Speaking of the New York Election, the Boston Pilot's correspondent says:—"It is not to be seen that John Brown has affected the result in in any manner."

Of one thing I am sure:—whether the rebels in Virginia are hung or imprisoned for life, the effect of the attack on slavery, and of its defence, must in the end act against "the institution" and crowd it from the State. It may damage this or that party—but that is a small matter.

And of another I am as sure, viz.,—that "liberty for all the people," and slavery for none, is the sentiment of thousands in all parties—peculiar to none!

I believe that any person who is dishonest or without principle as a politician, cannot be very honest as a man and a Christian. I don't believe that a man can serve the Lord one day, and serve the devil six days; nor that he can love God whom he has not seen, while he does not love his brother whom he has seen. And when I see an attempt to separate a man's character into two *opposite* parts, I remember the story of an English lord bishop, who swore dreadfully. A by-stander asked how it was that a bishop swore. O, said he, I didn't swear as a bishop, but as a lord. Very well, said the other,—but when the devil gets the lord, what will become of the bishop?

HOMO.

☞ The Pope seems to have rather loose notions of Sabbath day proprieties. While he was on his recent visit to Frascati, the accounts say that he diversified his Sunday amusements by giving a dinner to half a dozen cardinals and other invited guests, after which he gave an address to the ladies in the neighborhood, and in the evening enjoyed a display of fireworks in his honor.—The pope may congratulate himself that he is not a member of a New England church, or he would certainly be called to strict account for these things.

☞ A correspondent of the Tribune, who signs himself "A member of the Iowa Legislature," gives an account of a speech which John Brown made in his town, when on his way to Canada with the eleven Missouri slaves, about a year ago. He is reported to have spoken these brave words:

"Providence has made me an actor, and Slavery an outlaw. A price is set on my head, and what is life to me? An old man should have more care to end life well than to live long. Duty is the voice of God, and a man is neither worthy of a good home here, or a Heaven, that is not willing to be in peril for a good cause! The loss of my family, and my troubles in Kansas have shattered my constitution, and I am nothing to the world but to defend the right, and that, by God's help, I have done, and will do."

NAVAL.—There has been some trouble on board the Portsmouth, of the African squadron. It is stated that the officer who was first ordered to take charge of the slaver Emily, peremptorily refused to do so, which rendered it necessary for the commander of the corvette to appoint another officer for that purpose.

☞ The Richmond Whig finds fault with the Federal authorities for their leniency towards certain northern abolitionists, and asks "why have not Gerrit Smith and Joshua R. Giddings been already arrested? Why was Fred. Douglas allowed to escape into Canada?"

A SHADE LIGHTER.—The Democracy now call the Republicans *Brown* instead of Black Republicans, as as formerly. And the Boston Journal thinks, in view of the capital which the Democracy did *not* make out of the Harper's Ferry affair, they might properly be called the *Blank* instead of the Bogus Democracy.

SNUFF VS. BRAINS.—A gentleman once asked the celebrated Abernethy if he tho't that the moderate use of snuff would injure the brain. 'No, sir,' was Abernethy's prompt reply; "for no man with a single ounce of brains would ever think of taking snuff."

☞ We have not seen Senator Douglas's last reply to Attorney General Black, but we see a synopsis of it in a Douglas paper, in which eleven items are noticed: 1. he gives the Dred Scott decision unqalified approbation; 2, he says the territories possess legislative power, which is only another form of expression for sovereign power, over all rightful subjects of legislation, in respect to their internal policy, subject only to the Constitution of the United States.

And when we come to item 11, we read:

Does slavery exist in the Territories by virtue of the Constitution? Under this head the Attorney General is handled without gloves and at some length. But the argument canffot be abridged into a mere synopsis.

Uncle Toby don't care how he handles the Attorney General, and can very well spare the argument—but would like to see a *plain answer* to the question, Does Slavery exist in the Territories by virtue of the Constitution of the United States? Mr. Buchanan has said *Yes*. Will Mr. Douglas say *No?* He has never said it yet, that we have seen.

NEW ORLEANS, Nov. 8.

Dear Chronicle:—Since my last, the great event has taken place: election day has come and passed;—"the freeman, casting with unpurchased hand, the vote that shakes the turrets of the land,"—and the American party is again victorious. Owing to the effective measures taken by the authorities, (prominent among which was the closing of all the grog-shops,) there was but little disturbance at the polls, and but one man killed during the day.

The Quarterly Inspection and Review of the military took place on Thursday afternoon, at Place d'Arms. The Washington Artillery, Chasseurs-a-Pied, Continental Guards, Louisiana Grays, City Grays, and Southern Rifles turned out, and were reviewed by Major-Gen. Lewis, Insp.-Gen. Forstall, Brigadier-Gens. Tracy and Palfrey and their staff. Quite a crowd assembled, but it "couldn't hold a candle" to our old "trainings," or to the Massachusetts "Camps."

At 2 o'clock, on the same afternoon, a fire broke out in the 3d district, and continued to rage until night. Sixty to seventy dwellings were consumed, and many beautiful gardens laid waste. In view of the recent numerous fires, the Board of Underwriters have offered a reward of $3000 for the apprehension and conviction of any incendiary within twelve months, and it is thought the City Council will to-night offer the same reward on behalf of the city—a small fortune to a smart detective.

On Thursday night, a man was picked up on the Levee, opposite Lafayette street, having been struck, on the back and top of the head, with brass knuckles, and died in about two hours after being placed in the Charity Hospital. P. H. Callaghan died the same night in the Charity Hospital, from stabs received on Saturday night at the corner of Fuller and Front street. He was stabbed by a fellow whom he prevented from picking an old drunken man's pocket.

ION.

OLD PEOPLE IN MAINE.—The Portland Advertiser informs us that Mrs. Wilson, widow of Nathaniel Wilson, died at Wilsou's Mills in the County of Oxford, on the first day of the present November, aged 103 years, 8 months and 3 days. She was born in Scarborough, Feb. 26th, 1756.

A correspondent in the same paper speaks of an old man, now living, who fought at Bunker's Hill and through the war, viz. Ralph Farnham, of Acton, being 103 years old on the 7th day of July last. He was born July 7th, 1756, in Lebanon, York County, Me. Soon after the revolution he married, and took up wild land in what is now Acton, spending a long, useful and happy life on the land his youthful hands had subdued from the forest. He has, from his youth, been slow to anger, quiet and temperate in all things. He always took a deep interest in the politics of his country, keeping well posted in the differeut leading measures of the different political parties of the day. He is still a great reader, spending much of his time in reading the bible and religious books. He still seems much interested in reading the political papers, and generally attends elections.

TO CALIFORNIANS.—Those bound to California will find an "Important Notice" addressed to them, in to-day's paper.

Mr. Bartlett is well known to the traveling community, having had the agency of the Old Line California Steamers, since its establishment in 1849; and the thousands who have been *put through* on his steamers, testify to the confidence that can be placed in his representations. So much fraud has been practiced on Californians, that it behooves them to be *on their guard against imposition*. Mr. Bartlett's office is located at No. 16 Broad street, Boston, and we can safely recommend him to the public. Parties purchasing of him will be *sure of* getting genuine tickets.

☞ The Boston Journal learns that John Mansfield & Co., boot and shoe dealers, 38 Hanover street, Boston, suspended on Monday. Liabilities $200,000.

☞ Bacon, one of the Barnstable kidnappers has plead *nolo contendere*. Hon. Caleb Cushing is defending the rest of them.

TEXAS.—The Texas Legislature organized on the 7th inst., and elected officers of the Houston party.

San Antonio dates of the 10th state that a battle was fought on the 4th, between forty soldiers and volunteers under Lieut. Hagan, and some Indians; the latter were defeated. Lieut. H. was badly wounded.

☞ Prof. Wise has written a letter to the New York Express, in which he intimates pretty strongly that Prof. Lowe is a humbug, and will never cross the Atlantic in his big balloon.

Catarrhal Cough.

This insidious and annoying symptom, so difficult to treat, depends on a subacute inflammation of the air-passages, which is apt to end in chronic ulceration and a form of consumption. The mucous membrane of the air-passages is peculiarly susceptible to the healing influences of the PERUVIAN SYRUP, as the testimonials of some of our first citizens show.

There is no known remedy can exceed in speediness of cure, and certainty of effect, that which has become world famous as DR. HOSTETTER'S STOMACH BITTERS. In all diseases of the stomach, which are of a morbid nature, the Bitters have effected most remarkable cures when many other remedies have failed. Hundreds of certificates have been given by those who have thoroughly tested its efficacy, all of which corroborate its efficiency, when it is administered according to the directions on each bottle.

Some of the worst cases of Dyspepsia, Diarrhea and Costiveness, have been permanently cured by the use of the Bitters.

Sold by druggists and dealers generally, everywhere.

R. R. R.

On the 1st day of September, 1853, Mr. Charles Randolph called at the R. R. R. office, and stated that for ten years he had not enjoyed a single meal. He had not, for five years, had a natural discharge from his bowels; but was obliged to resort to injections, &c. He was pale, haggard, and thin. We ordered Radway's Regulators, one each night, and Radway's Resolvent, three times per day. On the eighth of September he called upon us.

HE WAS SO ALTERED THAT WE KNEW HIM NOT.

His appetite is good—his digestion easy—his skin moist and healthy—his step elastic and buoyant—his body vigorous, and his eye indicates a man of health and energy.

For Liver Complaint, Dyspepsia, Difficulties of the Urethra and Bladder, Radway's Regulator and Renovating Resolvent are a quick and positive cure. For all Aches and Pains, for Neuralgia and Rheumatism, for Nervous and Bilious Complaints, Radway's Ready Relief is quick and effectual. In five minutes' time after its application, the patient is free from pain.

Sold by Druggists everywhere.

THE OXYGENATED BITTERS.

Nature, in her great laboratory, has stored some remedy adapted to every disease which "flesh is heir to." But it requires the investigation and research of the philosopher to discover and apply this remedy. Such research and investigation has succeeded in discovering a remedy for that most afflictive dispensation, the

DYSPEPSIA!

With all its lesser and numerous evils; and it may be safely asserted that until the appearance of the *Oxygenated Bitters*, a case of Dyspepsia cured was a rare experience in medical practice. Now, under the influence of these Bitters the rule is to *cure*, the rare exception, failure to cure.

Read the following, which the subscriber requests us to publish for the benefit of the afflicted:

Obdurate and Inveterate Case of Dyspepsia cured by the Oxygenated Bitters.

The following from a gentleman well known in the region in which he lives ought to satisfy all those of little faith:

WATERTOWN, N. Y., July 28, 1858.

S. W. FOWLE & Co., Boston,—*Sirs:*—Nine years since I was attacked by that curse of all diseases, *Dyspepsia*, which so affected me as to cause great oppression, fullness, and bloating of the bowels, immediately after eating, accompanied with terrible pains in the stomach, often occasioning nausea, vomiting, acidity, and headache, together with general debility and suffering, altogether rendering life a burthen.

After having tried every known remedy without effect, and despairing of ever regaining my lost health, I was induced to make use of the Oxgenated Bitters, the good effects of which were immediately visible on my health and system. Before using a whole bottle I was entirely cured; and I feel a pleasure inducing all like sufferers as myself to make use of this remedy.

THEO. CALDWELL.

Prepared by S. W. FOWLE & CO., BOSTON, and for sale by Wm. R. Preston, David Kimball, Nathan P. Thacher, J. H. Thacher, and B. Hutchins, Portsmouth; J. P. Tucker, Greenland; and dealers everywhere. spnot 4wd&w

☞ A meeting of the several democratic ward committees was held on Wednesday evening, at the office of Mr. Alexander, on Daniel street, and after some gentlemen who have been looked upon as eligible candidates for the office of Mayor, had signified their unwillingness to suffer their names to be used in that connection, the convention fixed upon Hon. John R. Reding as the candidate. It is understood that Mr. Reding somewhat reluctantly accepts the nomination.

At the general meeting of Republican citizens, at Jefferson Hall, Thursday evening, Robert Lefavor, Esq. was nominated as Republican candidate for Mayrr.

SNOW PLOUGHS.—*Messrs. Editors*:—I notice in the Chronicle a statement that the Board of Aldermen have voted not to use snow ploughs to clear the sidewalks, on account of injury to the bricks from the horses' feet. The idea that a horse's foot could injure a frozen brick pavement, covered with snow, is very luminous, and is well worthy of a small Irishman with a *large brick* in his hat; but would never have been entertained by a sensible man when sober. But joking at the expense of the inconvenience of every resident, and more especially of those mechanics and factory girls who are obliged to go to their work early, is rather small business; and as election is approaching, and some of the jokers may be candidates for re-election, it might be well to have the yeas and nays on that vote published for inspection by the voters. The writer was not aware, till he came to Portsmouth, that there had been a city since the deluge that didn't use snow ploughs when it was necessary.

Perhaps the Aldermen thought it would be cheaper for the city to let a private individual clear all the sidewalks at his own expense; but we are not aware of any law compelling him to do it, and we would suggest to the Aldermen the propriety of passing one. Query—would the city's horses hurt the pavement more than those of a private individual? Will the Aldermen also inform us *how many* bricks have been broken during the past two winters; and did they know the horse goes before the plough, and consequently treads on the snow above the pavement?

At Dover, Great Falls, and other places, the sidewalks, when snow is falling, are cleared before the operatives go to their work; and the inhabitants of those places would as soon think of dispensing with sidewalks as with snow ploughs. VOTER.

☞ The new ship "Portsmouth" was launched in fine style from the yard of John Neal & Co., Wednesday afternoon. She is 900 tons burthen, and is owned by James N. Tarlton, Esq., and others.

This clears all the stocks in this harbor, we think; and we believe there is now no vessel in course of construction on the river—a rather unusual thing of late years.

WONDERFUL ESCAPE.—The wife and a child of Mr. Albert A. Fernald, living in Kentucky, all formerly of Portsmouth, had a very narrow escape from death, a short time since. Mrs. Fernald, with her babe in her arms, accompanied by her mother-in-law, Mrs. Wm. D. Fernald of this city, was crossing an unplanked railroad bridge over a deep gulley or river-bed; when she made a misstep from one sleeper to another, and fell through to the rocks and earth below—a measured distance of 37 feet. She was considerably bruised, of course, and one arm broken at the wrist; but her escape from instant death is considered extraordinary. In her fall, she dropped her child, which Mrs. F., the elder, with remarkable presence of mind, caught ere it fell between the timbers, and safely rescued from most imminent peril.

☞ Samuel C. Lamos, lately resident in Lee, has been arrested as an active participant in the robberies lately practiced in Exeter, and some of the stolen property recovered. Lamos was sentenced several years ago to a term of nine years in the state prison; but last June, the Ballot says, having feigned a conversion and change of heart, the Governor complied with the request of many petitioners and pardoned him, he having served but little more than two years of his term. Lamos was examined, and committed for trial.

NARROW ESCAPE.—Mr. Joshua Getchell of Exeter, in crossing Water street in that town, on Tuesday evening, was knocked down and run over by the Squamscott House coach. Fortunately, he fell lengthwise, and escaped between the horses and coach wheels without injury. The Ballot says he absolves the driver, Maj. Blake, from blame for the accident.

☞ On Tuesday, at Exeter, Lewis S. Bartlett complained of Mary A. Knowles for assault and battery on his son Charles A. Bartlett. The accused was sentenced to pay a fine of $8 and costs, and to give bonds in $100 to keep the peace, from which sentence she appealed. The parties live in Seabrook.

MISSING STEAMER.—Apprehension is felt in New York for the safety of the Vanderbilt steamer North Star, which sailed from that port Oct. 20, for Aspinwall, and has not since been heard of. At last accounts she was a week overdue at Aspinwall. The North Star sailed from New York in company with steamer Atlantic, and late the next day the two parted off the capes of Virginia. The Atlantic reached her destination in about the usual time, but the North Star has not since been heard of.

There was a rumor in New York Tuesday night that the North Star had been wrecked, but it could be traced to no responsible source. The owners had received no news of the missing steamer up to midnight.

The North Star had over 700 persons on board, of whom a large number were women and children. Her express freight is valued at $50,000.

NEW YORK, Nov. 16.—Nothing has been heard at this port of the North Star. The steamer Daniel Webster will leave tonight on a voyage of search for her.

NEW YORK, Nov. 17.—Steamer North Star went ashore Oct. 25th, on French Keys, Florida, remaining six or seven days, when she got off without assistance, by throwing over coal, and proceeded on her voyage, on the 2d inst.

☞ Information from reliable sources at Pike's Peak, not designed for publication, state the productive gold capacity as exceeding anything yet discovered in the world. Russell, Majors & Co., army contractors, have made arrangements for the transportation of 8000 passengers when the season re-opens.

☞ Perham's Excursion to Boston, Saturday, will draw a large crowd all along the road, if good weather.

We learn that at his suggestion, Col. Stearns, Agent of the Portsmouth Steam Factory, has granted leave of absence to all employees in the Mill, on that day; and if a sufficient number avail themselves of the privilege, will shut off steam for a general holiday for all.

If the weather is fair, Mr. Perham will meet the company at the depot in Boston, with a Band; and all who choose, will march in procession to the Theatre, to secure tickets for the Ravels' performance.

A large party went down from Worcester on Wednesday, for similar purpose.

Tickets for the Excursion, and the Theatre, may be had at Mr. Cobb's Store.

No postponement on account of weather.

JUDGE DOUGLAS.—*Washington, Nov.* 16.—There is no perceptible change in the condition of the health of Mr. Douglas to-day. When first stricken down he was employed in preparing a reply to Judge Black's rejoinder. It was issued to-day, in a pamphlet form, in an unfinished state.—He remarks, in a note: "I am too feeble to add more. Here let the controversy rest for the present—perhaps forever."

☞ The Washington States has changed its name to the States and Union, and its dimensions have been enlarged.

☞ Don't fail to see "Sixth Annual Announcement," and brilliant offers, in another column.

HAPPINESS without health is is not impossible, but it is of very difficult attainment.

MARRIED.

In this city, Nov. 17th, by Rev. Mr. Patterson, Mr. Charles G. Robinson of Dover, to Miss Clara A. Currier of this city.

In Exeter, Mr. J. D. Parker to Miss Mary O. Melcher, both of Exeter.

DIED.

In Brentwood. Mr. Caleb Smith, aged 68.

In Chester, Mr. James Moore, a school-teacher, aged 30.

☞ The funeral of Mrs. Lyman will take place this forenoon at 11 o'clock, from the house of her son John P. Lyman, No. 1 Austin street.

AMERICAN & FOREIGN PATENTS.

R. H. EDDY, Solicitor of Patents,

Late Agent of U. S. Patent Office, Washington, appointed 1837.

76 STATE, OPPOSITE KILBY ST., BOSTON.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superio to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

I have no hesitation in assuring inventors they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse. ELAS. MASON,
Commissioner of Patents.

BOSTON, February 8, 1858.

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that one is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART.

From Sept. 17, 1857, to June 17, 1858, the subscriber, in the course of his large practice, made on TWICE rejected applications, SIXTEEN APPEALS. EVERY ONE of which was decided in HIS FAVOR, by the Commissioner of Patents.

Boston, Jan. 1, 1858. R. H. EDDY.

RELIEF AND HEALTH TO YOUR INFANTS

We have put up and sold this article for over ten years, and *can say,* never been able to say of it, that we have — NEVER HAD IT FAILED IN EFFECTING A CURE, when timely used. Never did we know an instance of dissatisfaction by any one who used it. On the contrary, all are delighted with its operations, and speak in terms of the highest commendation of its magical effects and medical virtues. We speak, in this matter, *"what we do know,"* after ten years *experience,* and *pledge our reputation for the facts we here declare.* In almost every instance where the infant is suffering from pain and exhaustion, relief will be found within twenty minutes after the syrup is administered.

This valuable preparation is the prescription of one of the MOST EXPERIENCED and SKILLFUL NURSES in New England and has been used with *never-failing success,* in THOUSANDS OF CASES.

It not only relieves the child from pain, but invigorates the stomach and bowels, corrects acidity, and gives tone and energy to the whole system. It will almost WIND COLIC, and overcome convulsions, which, if not speedily remedied, end in death. We believe it the BEST AND SURE REMEDY FOR DYSENTERY AND DIARRHEA IN CHILDREN, whether it arises from teething, or from any other cause. We would say to every mother who has a child suffering from any of the foregoing complaints—*Do not let your own prejudices, or the prejudices of others,* stand between your suffering child and the relief that will be SURE—yes, ABSOLUTELY SURE to follow the use of this medicine, if timely used. Full directions for using will accompany each bottle. None genuine unless the *fac-simile* of CURTIS & PERKINS, New York, is on the outside wrapper. Sold by Druggists throughout the world. Principal Office, No. 13 Cedar st. New York. *Price only 25 cents per bottle.*

The Liver Invigorator.

PREPERED BY DR. SANFORD,

COMPOUNDED ENTIRELY FROM GUMS.

Is one of the best PURGATIVE and LIVER MEDICINES now before the public.

These GUMS remove all morbid or bad matter from the system, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest well, purifying THE BLOOD, giving tone and health to the whole machinery, removing the cause of the disease—effecting a radical cure.

One dose often repeated is a sure cure for CHOLERA MORBUS, and a preventive of CHOLERA.

Only one bottle is needed to throw out of the system the effects of medicine after a long sickness.

BILIOUS ATTACKS are cured, and, what is better, prevented by the occasional use of the Liver Invigorator.

One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.

One bottle taken for JAUNDICE removes all sallowness or unnatural color from the skin.

One dose taken a short time before eating gives vigor to the appetite and makes the food digest well.

Only one dose taken before retiring, prevents NIGHTMARE.

One dose, often repeated, cures CHRONIC DIARRHŒA in its worst form, while SUMMER & BOWEL COMPLAINTS yield almost to the first dose.

Only one dose taken at night, loosens the bowels gently and cures COSTIVENESS.

A few bottles will cure DROPSY by exciting the absorbents.

One dose taken after each meal will cure DYSPEPSIA.

We take pleasure in recommending this medicine as a preventive for FEVER and AGUE, CHILL FEVER, and all Fevers of a BILIOUS TYPE. It operates with certainty, and thousands are willing to testify to its wonderful virtues.

One dose of two teaspoonfuls will always relieve SICK HEADACHE.

Only one dose immediately relieves COLIC.

All who use it are giving their unanimous testimony in its favor.

Mix water in the mouth with the Invigorator, and swallow both together.

PRICE, ONE DOLLAR PER BOTTLE.

WITH IMMENSE

HOME AND EUROPEAN DEMAND.

The reason why, is that by Nature's own process it restores the natural color permanently after the hair becomes gray; supplies the natural fluids, and thus makes it grow on bald heads, removes all dandruff, itching, and heat from the scalp, quiets and tones up the nerves, and thus cures all nervous headache, and may be relied upon to cure all diseases of the scalp and hair; it will stop and keep it from falling off; *makes it soft, glossy, healthy and beautiful,* and if used by the young two or three times a week it will never fall or become gray; then, reader, read the following and judge for yourselves:

NEW YORK, Jan. 8, 1858.

MESSRS. O. J. WOOD & CO.,

Gentlemen: Having heard a good deal about Professor Wood's Hair Restorative, and my hair being quite gray, I made up my mind to lay aside the prejudices which I, in common with a great many persons, had against all manner of patent medicines, and a short time ago I commenced using your article, to test it for myself.

The result has been so very satisfactory that I am very glad I did so, and in justice to you, as well as for the encouragement of others who may be as gray as I was but who having my prejudice without my reasons for setting it aside, are unwilling to give your Restorative a trial, I feel it my duty, further proof, who am in and out of the N. Y. Wire Railing establishment every day.

My hair is now its natural color and much improved in appearance every way, being glossier and thicker and much more healthy looking. I am, yours respectfully, HENRY JENKINS.

Cor. Columbia and Carroll Sts., Brooklyn.

LIVINGSTON, Ala., Feb. 14, 1858.

PROF. WOOD—Dear Sir: Your Hair Restorative has done much good in this part of the country. My hair has been slightly falling out for several years, caused, I suppose, from a slight burn when I was quite an infant. I have been using your Hair Restorative for six weeks and I find that I have a fine head of hair now growing, after having used all other remedies known, to no effect. I think it the most valuable remedy now extant, and advise all who are afflicted that way to use your remedy.

You can publish this if you think proper.

Yours, &c. S. W. MIDDLETON.

PHILADELPHIA, Sept. 9, 1857.

PROF. WOOD—Dear Sir: Your Hair Restorative is proving itself beneficial to me. The front, and also the back part of my head almost lost its covering—was in fact BALD. I have used but 2 half pint bottles of your Restorative, and now the top of my head is well studded with a promising crop of young hair, and the front is also reviving its benefit. I have tried other preparations without any benefit whatever. I think from my own personal recommendation, I can induce many others to try it. Yours, respectfully,

D. R. THOMAS, M. D.,
No. 464 Vine Street.

The Restorative is put up in bottles of three sizes, viz: large, medium, and small; the small holds half a pint, and retails for one dollar; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent. more in proportion, and retails for $3 a bottle.

Fousel's Pabulum Vitæ.

☞ THE GREAT FRENCH REMEDY possesses extraordinary properties for the speedy and permanent cure of CONSUMPTION, BRONCHITIS, COUGHS, COLDS, and all PULMONARY DISEASE.

This celebrated specific is now universally acknowledged to be infinitely superior to all other preparations for the cure of Pulmonary Disease, both from its innocent nature and most astonishing curative properties; *it being the only remedy known that will arrest the development of Tubercles in the Lungs or restore the vital functions of the pulmonary organs to their normal condition.* Its invaluable properties have obtained for it the highest recommendation and praise from some of the most eminent physicians and chemists in the country; while the best and surest proofs of its merits are afforded by the numerous testimonials of its great efficacy in conquering disease, which are constantly received from our most respectable citizens. Invalids in all stages of pulmonary disease should not fail to give it a trial, as it can be administered to the most delicate and feeble with perfect safety and certain relief; and we herewith insert a few testimonials for their encouragement, selected from hundreds of like import.

Certificate of Dr. A. A. HAYES, in reference to the unequaled virtues of this great discovery.

This preparation, by chemical analysis, was proved to be free from opium, or any of its compounds; nor were any of the alkaloids present. It does not contain any mercurial or mineral substance, but consists wholly of volatile, diffusible agents, which afford vapors freely at a moderate temperature. Most of the substances present are officinally used in alleviating pulmonary disease; but the device by which they are combined is new and original, and adapts the compound to inhalation, or other modes of administration.

Respectfully,

A. A. HAYES, M. D., State Assayer.

16 Boylston St., Boston, Dec. 1857.

In the Boston Transcript of December 11, 1858, the editor says:—

"We have seen a letter from an eminent physician of this city, in which he says:—'I have used *Fousel's Pabulum Vitæ* in several cases of Bronchial disease, and in some with great benefit. I know of no remedy equal to it for children, where a minute dose is essential; or for adults of irritable stomachs, or having a tendency to reject ordinary medicines given for coughs, etc. I shall continue to use it in my practice.'"

Testimonial from the Sisters of Charity, of the St Vincent's Orphan Asylum, in Boston.

BOSTON, July 31, 1858.

To Mr. F. LAFORME, Agent:

"The Sisters are happy to state that, having used *Fousel's Pabulum Vitæ,* they have found it efficacious in several instances, for bad coughs and colds. Signed by the SISTERS OF CHARITY.

Testimonial from a well-known Apothecary's Clerk.

BOSTON, March 10, 1859.

J. F. LAFORME, Esq.:

Dear Sir—I had been suffering for a considerable length of time from a severe cough, and had in vain had recourse to nearly all the remedies in use. My cough began to give me much uneasiness from its serious effects on my system, when three days' use of *Fousel's Pabulum Vitæ* restored me to complete health. The medicine being new in this market, I had recourse to it last; but I can now confidently recommend it as the best medicine I know of. Yours, truly,

CHAS. H. FOSTER.

At Fred Brown's, Washington, corner State St.

In the Boston Post, Sept. 24, 1858, the editor says:

"An extraordinary cure of Consumption has recently come to our knowledge, effected through the instrumentality of *Fousel's Pabulum Vitæ;* the evidence of which is in the handwriting of the subject, Mr. Wm. P. Brigham, No. 130 Albany st., in this city. It seems that for eighteen months he had been exhibiting all the usual symptoms of Consumption, and that after having had recourse to the skill of various physicians, without benefit, he had to abandon his business and be confined to his house. Hearing of *Fousel's Pabulum Vitæ,* and of several remarkable cures effected by it, in cases as desperate as his own, he concluded to try it as a forlorn hope. The result has been most happy—he has now entirely recovered, and is engaged in his usual pursuits. It is such well authenticated cases as this that we take pleasure in laying before our readers, since, by so doing, many valuable lives may be saved, and much good effected.

It is sold at the low price of 50 cents, and $1.00 per bottle, thus placing it within the reach of all classes. F. J. LAFORME, sole Agent, Boston. M. S. BURR & CO., General Agents, No. 26 Tremont street, Museum Building, Boston, and for sale by all druggists. Circulars with testimonials of its efficacy can be had of the Agents nov7 1y

DR. J. B. HUGHES,

Knowing that there are at this moment thousands of persons in the surrounding towns, suffering their lives to the insidious inroads of certain dangerous maladies, who still suffer from the reluctance to make known their complaints, and consult a physician, he would state that any of his medicines will be sent by express or otherwise, to all who may order them, provided the true description of the disease be sent by letter and directed as above.

Full and explicit directions will accompany every package, and the most inviolable secresy preserved.

DR. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of disease which have been improperly treated by empyrics have come under his care, and more than three-fourths of this number are inscribed upon his books as perfect cures.

Patients treated by letter by addressing Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed from scrutinizing friends.

Be particular in finding Dr. Hughes. Do not be lured from the right path, or be persuaded to try experiments with false and dangerous remedies at the expense of destroying what is the great pillar of life, a healthy constitution.

This medicine can only be obtained at the Office of Dr. HUGHES, 13 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE RENOVATING PILLS. These pills are unrivalled in efficacy and superior virtue in regulating all female irregularities. Their action is specific and certain, producing relief in a short space of time. They are acknowledged to be the best in use.

The Dr. cautions the public to beware of impositions that are being practiced by advertising a spurious article under some spurious or fictitious name. They are entirely useless, having been got up by miserable pretenders who are entirely ignorant of the efficacy of medicines.

All who are in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.

These pills can be sent to any part of the country with directions. Remember the number—13 Howard street, Boston.

P. S.—The best of accommodations furnished, with kind and attentive nurses if they wish, at a reasonable rate. j2 d1y

AYER'S SARSAPARILLA,
A compound remedy in which we have labored to produce the most efficacious alterative that can be made. It is a concentrated extract of Para Sarsaparilla, of combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will a complish their cure must be of immense service to this large class of our afflicted fellow citizens. How completely this compound will do it, has been proven by experiment on many of the worst cases to be found in the following complaints:—
SCROFULA AND SCROFULOUS COMPLAINTS, ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUM, SCALD HEAD, SYPHILIS AND SYPHILITIC AFFECTIONS, MERCURIAL DISEASE, DROPSY, NEURALGIA OR TIC DOULOUREUX, DEBILITY, DYSPEPSIA AND INDIGESTION, ERYSIPELAS, ROSE OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD.
This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud.—Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions or sores;—cleanse it when you find it is obstructed or sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even when no particular disorder is felt, people enjoy better health, and live live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.
Sarsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it contain but little of the virtue of Sarsaparilla, or anything else.
During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Aence bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have grounds for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.

SATURDAY, NOV. 19, 1859.

MUSCLE.

From the beginning, bone and muscle, and not mind, have formed the popular measure of the man. Mind has come up—when at all—in spite of popular thought.—Saul was chosen King for the single reason that he was taller by a head and shoulders than any other man in Israel. This was simple bone and muscle measurement.—Sampson, for achievements purely muscular, was almost rated as a delegate of God. Moses, the greatest altogether of the Hebrew leaders, was very much "on his muscle." He was a hard-hitter, a gallant, generous gentleman. He killed an Egyptian with a blow of his fist, and, fleeing from Egyptian justice, sat down at nightfall by a well to rest. To that well came Jeptha's daughters to water their father's sheep, and shortly thereafter came other shepherds, of the sterner sex, who, believing in the right of the strongest, would have driven away the beautiful daughters of the High Priest. Then arose the man in Moses, who, like a sound old fighter as he was, whipped every shepherd of the lot in the girls' quarrel.—The Hebrew leaders were great exactly as they were fighters and muscle-men, and the Hebrews at large believed in God, not so much because he *was* generally on their side, as because he *fought* on their side.—You do not find a hero in all antiquity who was a small man. Homer especially dwells upon the size and virilty of his heroes—his tall and "hairy-breasted" Greeks. Theseus, "the most virtuous of all the heroes," first asserted himself as a muscle-man.

These old stories are the ante-historical testimony to the greatness and worth of muscle—the one power of those times, as of the times "when wild in woods the noble savage ran." Achilles of the later time, Ajax, Diomedes, Hector, and the men of the Iliad, generally were great; and the deification and worship of Hercules was the setting up of an altar to physical force—bowing down to mere muscle; the admission of a people who seem in their time to have discovered, to have thought, and to have done everything—and not only their admission, but their broad general assertion, —that Muscle was a God.

Here Greek and Jew seemed to meet.—It is true that at the great Olympic festival of the Greeks, the History of Herodotus was read, and the odes of Pindar excited the people almost to a delirium; but they were considered as great in the proportion in which they glorify muscular achievement, and at that, even, had only a fourth place in the festival—the Stadium, the great test of muscle and endurance, holding the first.

In the farther East it was the same.—Rustum is at once a Persian Hercules and Achilles, who, by one hand grasping the long locks of a Beauty's hair, can vault from the earth to the rampart of the castle in which she is imprisoned. So in the North, the Scandinavians made their god of Thor, the man who could handle the biggest battle-axe; and not less would have happened with the gigantic Arthur, if his British followers had had more time before Christianity broke out among them. Christianity, too, has had its muscular aspect.—*Porter's Spirit.*

INTERESTING DECISION.—The Connecticut Court of Errors has confirmed the mandamus of the Superior Court directing the New York and New Haven Railroad Company to ticket passengers through to Boston by the Shore line, to check baggage in the same way, and to run three cars from New York to Boston and back, on that route, in compliance with a law passed by the Connecticut Legislature. Two of the the three Judges were averse to sustaining the mandamus, but the third being in favor, it was upheld, as the law requires the concurrence of the three.

☞ Frederick P. Stanton has fully identified himself with the Republican party in Kansas. During the recent canvass he made able speeches for their candidates and principles. He was, it will be remembered, a democratic member of Congress from Tennessee, and was sent to Kansas by Mr. Buchanan as Gov. Walker's secretary, and for some time acted as governor. Now he "shrieks for freedom."

☞ The N. Y. Herald, in giving a history of Gen. Mejiah, of Mexico, said that his father was court-martialed by Santa Anna twenty years ago, and had his head boiled in oil by Gen. Santemanat; which the Tribune corrects to the effect that Santemanat had his own head boiled in oil, by order of Gen. Ampodia, who captured him at Tabasoo.

☞ The young people of Troy, N. Y. have formed a skating club, for winter amusement. Ladies are admitted upon the proposal of the male members, each one of whom constitutes himself instructor, if need be, of the lady propbsed.

☞ The London clergymen are melancholy over the fact that that of the population of three million in that city, there are only 150,000 communicants. It *is* significant.

Some of the republican papers are publishing as "a *specimen* of Virginia chivalry," the conduct of a young man at Harper's Ferry named Hunter, who, according to his own testimony, is a mere scape-grace, and whose barbarity to some of Brown's men was rebuked and resisted by the people of Harper's Ferry, and shocked them quite as much as it naturally would anybody else.—*Bath Times.*

This young man Hunter, by his own testimony, given in open court, shows himself to be *only* the murderer of an unarmed helpless prisoner, whose name was Thompson. Hunter is a scion of one of the F. F. V., and his father was the prosecuting officer in the late trials. Young Hunter testifies that he and others aimed their rifles at Thompson's head, in the room of tavern where he was a prisoner: that a *woman*, sister of the tavern-keeper, threw herself on Thompson, (as Pocahontas did on Capt. Smith,) begging them not to kill him in that way, but let the *law* take its course; that Hunter seized Thompson by the throat, and he and a companion thrust him out of the house, both of them fired balls through him, half a dozen more did the same, and then threw hiss body into the river.

How much of a scape-grace Hunter may be, we know not. How much the people there might be *shocked*, we cannot say. But we have seen no evidence that they condemn the act, or try to punish the actors.

☞ A Madame Uedard, a fortune teller in New Orleans, supposed to be very wealthy, was found on the morning of the 9th in her lodging room lying dead on the floor, upon her right side, the floor all around being covered thick with gore, while an awful gash gaped in her throat. She had fallen over sideways, her hands were clenched, and her dress somewhat disarranged, showing that a partial but not furious struggle had taken place between her and some as yet undiscovered murderer as she sat in her chair.

☞ The Chicago Times says that one night last week a train of cars on the Joliet Cut-off Railway ran through a prairie on fire! The flames were burning fiercely under the wheels of the locomotive, and for a long distance on either hand the earth was blackened where the flames had swept over it.

TESTS.—If you desire to know what a man really is,—what are his internal resources and his native endowments,—let a horse run away with him. set a dog on him, or upset him in a boat, and the man will reveal his true character.—*Boston Transcript.*

☞ The Essex, Mass., Banner says the shoe business of Haverhill is dull, but workmen are induced to increase their amount of work to make up for the reduction in price, and the consequence is an increase of the stock of goods, just at the time when it should be lessened. The Banner advises those who are not obliged to rely on the business as a means of support, to procure other species of employment.

Some fool asserts that the whole civilized world will watch the debates of our next Congress, "with the most intense interest!" The world of barbarism is probably meant, the doings of Congress being often of a savage character.—*Trac.*

☞ The Mac-a-cheek Press poetizes a thrilling incident of the late successful attack on the Free South office in Newport:

"At this moment, Miss Eleanor Bailey appeared at the third story window with a brick, and warned the rioters off."—*Cincinnati Commercial.*

Fair Eleanor stood at the window high,
A brick in either hand,
And warned the rogues to come not nigh—
The worthless, drunken band.
The warning's vain, O! fairest dame,
What care the scamps for that!
For each is armed 'gainst war's alarm,
With a big *brick* in his hat.

PLEASURE IN LABOR.—Rev. Albert Barnes of Philadelphia states that all his published works on the Scriptures, amounting to sixteen volumes, have been written before *nine o'clock in the morning.* His custom was to rise at four o'clock.

Sixty "spots" on the Sun can now be seen with a good telescope. Such an extensive eruption indicates that something is out of order in the solar "system." Is Mercury good for it?—*Hartford Times.*

☞ The Washington correspondence of the Philadelphia North American stigmatizes the threat to attempt the unseating of Henry Winter Davis as a "weak contrivance, well understood at Washington."

THE FEET IN WINTER-TIME.—No person can be well long, whose feet are habitually cold; while securing for them dryness and warmth, is the certain means of removing a variety of aliments.

☞ Tammany Hall has signified its determination not to take up Mayor Wood as its candidate at the coming municipal election.

There is a slight disposition in certain quarters to belittle the Great Eastern, now that she is not coming. People talk of her as the gentleman did of the Ark, when Noah politely refused him a pass into that nautical concern. The English may 'go to thunder,' or to the Mediterranean, with their big boat, no one here thinking her much of a ship.—*Traveller.*

☞ It is a general remark that all classes of persons are ever ready to give their opinions. We think the lawyers must be excepted; they sell theirs.

Poverty, like riches, corrupts the heart.

☞ John L. Latimer, a substantial and respectable citizen of Bloomfield, died Friday morning in consequence of poison taken into his system from a poisoned steer. He skinned the animal last Saturday, and the poison was imparted through a cut or scratch on his hand. He was greatly swollen from the effects of the poison. He was about 40 years of age, and leaves a family.

☞ Mr. Frank Lewis, a prominent citizen of Philadelphia, who was to have been married on Wednesday to a daughter of Commodore Stockton, died after an illness of a few days in that city, on Monday. The invitations had been issued and preparations had all been made for the wedding ceremony, when he was suddenly taken away.

☞ The Rev. J. R. Downey died at Lucknow, India, Sept. 16, after a sickness of only six days. He was one of the five missionaries sent out last Spring by the Missionary Society of the Methodist Episcopal Church, and was a young man of great promise.

☞ During the taking of the census of the city of Zanesville, Ohio, it was ascertained that a mother, not yet twenty-one years of age, has two children, the youngest of them over five years of age. A mother and two children on the same school list!

☞ A handsome and respectably dressed woman was brought into court at Brooklyn, in a state of bestly intoxication. While in court, she took a fit of *delirium tremens*, and the scene that ensued was heart-rending beyond description. This woman was the wife of an eminent physician, and but a short time since was highly respected as an exemplary wife and mother.

☞ A young man named George Bower died very suddenly at Hummelstown, Penn., Wednesday. He had a very large wart on one of his hands, and cut it out and applied arsenic to destroy the roots. The cut being very deep, the poison communicated with the leading arteries, and he was thereby poisoned.

☞ It is said that owing to probable absences at the coming together of the next House of Representatives, 117, instead of 119 votes, will be likely to constitute a majority. Two members did not attend for several weeks in the protracted struggle of the thirty-fourth Congress.

☞ It is now stated that although Senor Oviedo has but $150,000 or $200,000, he has large expectations from maiden sisters well advanced in years. But, says the Springfield Republican, suppose they imitate his example, and marry some of our American fast fellows with a flourish of trumpets and a display of diamonds; what then?

☞ Lombardy, the birth-place of pawnbrokers, is now herself in pawn. Austria has advanced ten millions, English, upon her. Mr. Punch is horribly afraid that poor Lombardy will be an addition to the number of his friend Louis Napoleon's unredeemed pledges.

TRUTH.—It takes a good many shovels full of earth to bury the truth. Bury as deep as men may, it will have a rising. notwithstanding. They may roll a great stone and seal the grave wherein it is laid, and set a watch upon it, still, like its Lord, it comes forth at the apointed hour.

BROWNSVILLE STILL SAFE.—*New Orleans, Nov.* 17.—A gentleman who has arrived here from Brownsville 4th inst., reports to the True Delta that no attack had been made by Cortinas, but one was hourly expected.

MIND AND BODY.—A mind too vigorous and restive seems only to consume the body to which it is joined, as the richest jewels are soonest to wear their settings.

The hardest siuation for a grumbler to be in, is to feel like grumbling, and have nothing to grumble at.

Borrowed thoughts, like borrowed money, expose the poverty of the borrower.

The bravest man is he who is most afraid of sin.

Catarrhal Cough.

This insidious and annoying symptom, so difficult to treat, depends on a subacute inflammation of the air-passages, which is apt to end in chronic ulceration and a form of consumption. The mucous membrane of the air-passages is peculiarly susceptible to the healing influences of the PERUVIAN SYRUP, as the testimonials of some of our first citizens show.

There is no known remedy can exceed in speediness of cure, and certainty of effect, that which has become world famous as DR. HOSTETTER'S STOMACH BITTERS. In all diseases of the stomach, which are of a morbid nature, the Bitters have effected most remarkable cures when many other remedies have failed. Hundreds of certificates have been given by those who have thoroughly tested its efficacy, all of which corroborate its efficiency, when it is administered according to the directions on each bottle.

Some of the worst cases of Dyspepsia, Diarrhea and Costiveness, have been permanently cured by the use of the Bitters.

Sold by druggists and dealers generally, everywhere.

R. R. R.

On the 1st day of September, 1858, Mr. Charles Randolph called at the R. R. R. office, and stated that for ten years he had not enjoyed a single meal. He had not, for five years, had a natural discharge from his bowels; but was obliged to resort to Injections, &c. He was pale, haggard, and thin. We ordered Radway's Regulators, one each night, and Radway's Resolvent, three times per day. On the eighth of September he called upon us.

HE WAS SO ALTERED THAT WE KNEW HIM NOT.

His appetite is good—his digestion easy—his skin moist and healthy—his step elastic and buoyant—his body vigorous, and his eye indicates a man of health and energy.

For Liver Complaint, Dyspepsia, Difficulties of the Urethra and Bladder, Radway's Regulator and Renovating Resolvent are a quick and positive cure. For all Aches and Pains, for Neuralgia and Rheumatism, for Nervous and Bilious Complaints, Radway's Ready Relief is quick and effectual. In five minutes' time after its application, the patient is free from pain.

Sold by Druggists everywhere.

THE OXYGENATED BITTERS.

Nature, in her great laboratory, has stored some remedy adapted to every disease which "flesh is heir to." But it requires the investigation and research of the philosopher to discover and apply this remedy. Such research and investigation has succeeded in discovering a remedy for that most afflictive dispensation, the

DYSPEPSIA!

With all its lesser and numerous evils; and it may be safely asserted that until the appearance of the *Oxygenated Bitters*, a case of Dyspepsia cured was a rare experience in medical practice. Now, under the influence of these Bitters the rule is to *cure*, the rare exception, failure to cure.

Read the following, which the subscriber requests us to publish for the benefit of the afflicted:

Obdurate and Inveterate Case of Dyspepsia cured by the Oxygenated Bitters.

The following from a gentleman well known in the region in which he lives ought to satisfy all those of little faith:

WATERTOWN, N. Y., July 28, 1858.

S. W. FOWLE & CO., Boston.—*Sirs*:—Nine years since I was attacked by that curse of all diseases, *Dyspepsia*, which so affected me as to cause great oppression, fullness, and bloating of the bowels, immediately after eating, accompanied with terrible pains in the stomach, often occasioning nausea, vomiting, acidity, and headache, together with general debility and suffering, altogether rendering life a burthen.

After having tried every known remedy without effect, and despairing of ever regaining my lost health, I was induced to make use of the Oxgenated Bitters, the good effects of which were immediately visible on my health and system. Before using a whole bottle I was entirely cured; and I feel a pleasure inducing all like sufferers as myself to make use of this remedy.

EXCITEMENT AT CHARLESTOWN, VA. *Baltimore, Nov.* 17.—A dispatch from Charlestown to Gov. Wise this evening, requesting the dispatch of two companies of cavelry, stating that five barns and outhouses have been fired to-day, it is supposed by sympathizers with Brown. Dispatches have been received in Richmond which have caused the authorities there to take prompt action. Three hundred men and two pieces of artillery leave Alexandria at daybreak, by Gov. Wise's order.—The Richmond forces will probably leave in an express train at an early hour.

Richmond, Nov. 17.—The military here are under arms and ready to march at a moment's warning, in consequence of reports from Charlestown of an intended rescue of Brown.

Alexandria, Va., Nov. 17.—There is a great excitement here in consequence of a rumor of the rescue of Brown, and the volunteer militia are assembling at their armories.

Washington, Nov. 17.—Such a rumor as is noted in the foregoing dispatches was circulated here to-day, but fell still-born.

The Richmond Dispatch states that Edmoffit, who was arrested at Lynchburg as a suspected participant in Brown's foray, has been released for want of evidence. Identifying parties are to proceed to Wyrtheville for the purpose of examining another suspected fugitive. Several suspected persons, mostly Northern pedlars, have been recently arrested at Culpepper Court House, and there appears to be an intention to place in confinement all who do not give a good account of themselves.

The effect of music is wonderful on horses. A gentleman in Jamaica, W. I., bought a charger that had been brought from Europe, but was not aware of his being a regularly trained war charger. One morning riding out for pleasure, he neared the barrack as the bugle sounded for a cavalry drill; away went the horse, entirely beyond the control of his rider—for who could quiet the fiery blood of the gallant steed when he supposed that duty called him. The gentleman eventually had to part with him, as his ear was so perfect that he could hear at a great distance the bugle calls, and immediately obeyed, no matter where he was.

☞ A meeting is to be held at Tremont Temple, Boston, Saturday evening, at which addresses will be delivered by John A. Andrew, Rev. George H. Hepworth, Ralph Waldo Emerson, Rev. Jacob M. Manning, and Wendell Phillips. Tickets 25 cents, the proceeds to be applied to held John Brown's family.

☞ The Boston Journal understands that Dr. S. G. Howe left Boston Wednesday for Canada, and presumes for the reason intimated in his recently published letter on the John Brown affair.

LEAVENWORTH, Nov. 18.—The express from Denver City has arrived, with $10,000 in treasure. The Provisional Government had gone into operation by the organization of the Legislature. Mr. Steele, Governor elect, had delivered a message, arguing the necessity of the present form of government till Congress shall take action in reference to the Territory. Many miners were preparing to winter at the diggings.

A CARD TO THE PUBLIC.

☞ Recent developments have made fully apparent the fact that there are numerous imitations of our "trade mark" throughout the United States, and there being for us no legal means of redress for such attempts to impose upon the public by a spurious article, and thus lessen our reputation as manufacturers, we have deemed it judicious, as the only way to put our friends and customers upon their guard against imposition, to say to them that all Pianos made by us bear upon the "name board" "CHICKERING, BOSTON," in Old English and Roman letters, and upon the "sounding board" the address of the firm in full, "CHICKERING & SONS, BOSTON," in German Text, and ornamented capitals, with the number of the Piano in plain numerals between the two lines.
Should any person have in his possession, or become aware of the existence of any of the counterfeit Instruments above referred to, an advisal of the same to us, would be considered as an especial favor. CHICKERING & SONS,

☞ The gun boat Mohican is nearly completed, and will be in readiness to make a trial trip about the first of December. She will go to New York, where she is to remain a few days prior to her departure for the coast of Africa, to which station she is ordered. The statement in the New York News that the crew had been put on board is premature, though the men are expected early next week. The Mohican will take letters for the various vessels of the African squadron up to the day of her sailing, if sent to the care of the Commandant of the Portsmouth Navy Yard. Letters for the Vincennes should not be sent, as that ship has been ordered home.

The Mohican is 994 tons burthen, 233 feet long, 33 feet wide, and 16 feet deep; and will carry two 11-inch pivot guns, four 32 pounders, and one boat howitzer. Her machinery consists of a direct-acting engine, with cylinders 56 inches in diameter and 30 inch stroke. The steam is to be generated by two of Martin's patent boilers, that can hold 158,000 gallons of water. The propellor is of composition, 9 feet 6 inches in diameter, 19 feet pitch, and will make 80 revolutions per minute. This ship, in point of workmanship and strength, will compare favorably with any of her class.

LOOK TO IT.—As cold weather approaches and fires become necessary, would it not be well to examine stove pipes, fire boards, ash-barrels, &c., and see if all is safe. A little timely care in this direction may prevent conflagration and save loss.

The station of Col. DIMICK, of the U. S. Army, has been removed from Fort Leavenworth, Kansas, to Fort Monroe, Old Point Comfort, Va.

AMERICAN & FOREIGN PATENTS.

R. H. EDDY, Solicitor of Patents,

Late Agent of U. S. Patent Office, Washington, 8 years—since 1837.

76 STATE, OPPOSITE KILBY ST, BOSTON.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States, also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

I have no hesitation in assuring inventors they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them as early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.

BOSTON, February 8, 1858.

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that one is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART.

From Sept 17, 1857, to June 17, 1858, the subscriber, in the course of his large practice, made twenty-six rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in HIS FAVOR, by the Commissioner of Patents.

The Liver Invigorator.

PREPERED BY DR SANFORD,

COMPOUNDED ENTIRELY FROM GUMS,

Is one of the best PURGATIVE and LIVER MEDICINES now before the public.

These GUMS remove all morbid or bad matter from the system, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest well, PURIFYING THE BLOOD, giving tone and health to the whole machinery, removing the cause of the disease—effecting a radical cure.

One dose often repeated is a sure cure for CHOLERA MORBUS, and a preventive of CHOLERA.

Only one bottle is needed to throw out of the system the effects of medicine after a long sickness.

One bottle taken for JAUNDICE removes all sallowness or unnatural color from the skin.

BILIOUS ATTACKS are cured, and, what is better, prevented by the occasional use of the Liver Invigorator.

One dose taken after each meal will cure DYSPEPSIA.

One dose of two teaspoonfuls will always relieve SICK HEADACHE.

Only one dose immediately relieves COLIC.

One dose taken after eating is sufficient to relieve the stomach and prevent the food from rising and souring.

Only one dose taken before retiring, prevents NIGHTMARE.

Only one dose taken at night, loosens the bowels gently and cures COSTIVENESS.

One dose often repeated, cures CHRONIC DIARRHŒA in its worst form, while SUMMER & BOWEL COMPLAINTS yield almost to the first dose.

A few bottles will cure DROPSY by exciting the absorbents.

We take pleasure in recommending this medicine as a preventive for FEVER and AGUE, CHILL FEVER, and all Fevers of a BILIOUS TYPE. It operates with certainty, and thousands are willing to testify to its wonderful virtues.

All who use it are giving their unanimous testimony in its favor.

Mix water in the mouth with the Invigorator, and swallow both together.

The reason why, is that by Nature's own process it restores the natural color permanently after the hair becomes gray; supplies the natural fluids, and thus makes it grow on bald heads, removes all dandruff, itching, and heat from the scalp, quiets and tones up the nerves, and thus cures all nervous headache, and may be relied upon to cure all diseases of the scalp and hair; it will stop and keep it from falling off; *makes it soft, glossy, healthy and beautiful,* and if used by the young two or three times a week it will never fall or become gray; then, reader, read the following and judge for yourselves:

NEW YORK, Jan. 8, 1858.

MESSRS. O. J. WOOD & CO.,

Gentlemen: Having heard a good deal about Professor Wood's Hair Restorative, and my hair being quite gray, I made up my mind to lay aside the prejudices which I, in common with a great many persons, had against all manner of patent medicines, and a short time ago I commenced using your article, to test it for myself.

The result has been so very satisfactory that I am very glad I did so, and in justice to you, as well as for the encouragement of others who may be as gray as I was but who having my prejudice without my reasons for setting it aside, are unwilling to give your Restorative a trial till they see further proof, and the best proof being occular demonstration, I write you this letter, which you may show to any such, and also direct them to me for further proof, who am in and out of the N. Y. Wire Railing establishment every day.

My hair is now its natural color and much improved in appearance every way, being glossier and thicker and much more healthy looking. I am, yours respectfully, HENRY JENKINS.

Cor. Columbia and Carroll Sts., Brooklyn.

LIVINGSTON, Ala., Feb. 14, 1858.

PROF. WOOD—Dear Sir: Your Hair Restorative has done much good in this part of the country. My hair has been slightly diminishing for several years, caused, I suppose, from a slight burn when I was quite an infant. I have been using your Hair Restorative for six weeks and I find that I have a fine head of hair now growing, after having used all other remedies known, to no effect. I think it the most valuable remedy now extant, and advise all who are afflicted that way to use your remedy.

You can publish this if you think proper.

Yours, &c. S. W. MIDDLETON.

PHILADELPHIA, Sept. 9, 1857.

PROF. WOOD—Dear Sir: Your Hair Restorative is proving itself beneficial to me. The front, and also the back part of my head almost lost its covering—was in fact BALD. I have used but 2 half pint bottles of your Restorative, and now the top of my head is well studded with a promising crop of young hair, and the front is materially benefit. I have tried other preparations without any benefit whatever. I think from my own personal recommendation, I can induce many others to try it. Yours, respectfully,

D. R. THOMAS, M. D.,
No. 464 Vine Street.

The Restorative is put up in bottles of three sizes, viz: large, medium, and small; the small holds half a pint, and retails for one dollar a bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent. more in proportion, and retails for $3 a bottle.

Fousel's Pabulum Vitæ.

☞ THE GREAT FRENCH REMEDY possesses extraordinary properties for the speedy and permanent cure of CONSUMPTION, BRONCHITIS, COUGHS, COLDS, and all PULMONARY DISEASE.

This celebrated specific is now universally acknowledged to be infinitely superior to all other preparations for the cure of Pulmonary Disease, both from its innocent nature and most astonishing curative properties; *it being the only remedy known that will arrest the development of Tubercles in the Lungs or restore the vital functions of the pulmonary organs to their normal condition.* Its invaluable properties have obtained for it the highest recommendation and praise from some of the most eminent physicians and chemists in the country: while the best and surest proofs of its merits are afforded by the numerous testimonials of its great efficacy in conquering disease, which are constantly received from our most respectable citizens. Invalids in all stages of pulmonary disease should not fail to give it a trial, as it can be administered to the most delicate and feeble with perfect safety and certain relief; and we herewith insert a few testimonials for their encouragement, selected from hundreds of like import.

Certificate of Dr. A. A. HAYES, in reference to the unequalled virtues of this great discovery.

This preparation, by chemical analysis, was proved to be free from opium, or any of its compounds; nor were any of the alkaloids present. It does not contain any mercurial or mineral substance, but consists wholly of volatile, diffusible agents, which afford vapors freely at a moderate temperature. Most of the substances present are officially used in alleviating pulmonary disease; but the device by which they are combined is new and original, and adapts the compound to inhalation, or other modes of administration.

Respectfully,
A. A. HAYES, M. D., State Assayer.

16 Boylston St, Boston, Dec. 1857.

In the Boston Transcript of December 11, 1858, the editor says:—

"We have seen a letter from an eminent physician of this city, in which he says:—'I have used *Fousel's Pabulum Vitæ* in several cases of Bronchial disease, and in some with great benefit. I know of no remedy equal to it for children, where a minute dose is essential; or for adults of irritable stomachs, or having a tendency to reject ordinary medicines given for coughs, etc. I shall continue to use it in my practice.'"

Testimonial from the Sisters of Charity, of the St Vincent's Orphan Asylum, in Boston.

BOSTON, July 31, 1858.

To Mr. F. LAFORME, Agent:

"The Sisters are happy to state that, having used *Fousel's Pabulum Vitæ*, they have found it efficacious in several instances, for bad coughs and colds. Signed by the SISTERS OF CHARITY.

Testimonial from a well-known Apothecary's Clerk.

BOSTON, March 10, 1859.

J. F. LAFORME, Esq.:

Dear Sir—I had been suffering for a considerable length of time from a severe cough, and had in vain had recourse to nearly all the remedies in use. My cough began to give me much uneasiness from its serious effects on my lungs, when three days' use of *Fousel's Pabulum Vitæ* restored me to complete health. The medicine being new in this market, I had recourse to it last; but I can now confidently recommend it as the best medicine I know of. Yours, truly,

CHAS. H. FOSTER.

At Fred Brown's, Washington, corner State St.

In the Boston Post, Sept. 24, 1858, the editor says:

"An extraordinary cure of Consumption has recently come to our knowledge, effected through the instrumentality of *Fousel's Pabulum Vitæ*; the evidence of which is in the handwriting of the subject, Mr. Wm. P. Brigham, No. 130 Albany st., in this city. It seems that for eighteen months he had been exhibiting all the usual symptoms of Consumption, and that after having had recourse to the skill of various physicians, without benefit, he had to abandon his business and be confined to his house. Hearing of *Fousel's Pabulum Vitæ*, and of several remarkable cures effected by it, in cases as desperate as his own, he concluded to try it as a forlorn hope. The result has been most happy—he has now entirely recovered, and is engaged in his usual pursuits. It is such well authenticated cases as this that we take pleasure in laying before our readers, since, by so doing, many valuable lives may be saved, and much good effected.

It is sold at the low price of 50 cents, and $1.00 per bottle, that every one may it within the reach of all classes. F. J. LAFORME, sole Agent, Boston. M. S. BURR & CO., General Agents, No. 26 Tremont street, Museum Building, Boston, and for sale by all druggists. Circulars with testimonials of its efficacy can be had of the Agents nov7 ly

DR. J. B. HUGHES,

Knowing that there are at this moment thousands of persons in the surrounding towns, suffering their lives to the insidious inroads of certain dangerous maladies, who still suffer from the reluctance to make known their complaints and consult a physician, he would state that any of his medicines will be sent by express or otherwise, to all who may order them, provided the true description of the disease be sent by letter and directed as above.

Full and explicit directions will accompany every package, and the most inviolable secrecy preserved.

DR. J. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of disease which have been improperly treated by empyrics have come under his care and more than three-fourths of this number were inserted upon his books as perfect cures.

Patients treated by letter by addressing Dr. J. Hughes, post paid, and medicines sent all over the country, carefully concealed from scrutinizing friends.

Be particular in finding Dr. Hughes. Do not be lured from the right path, or be persuaded to try experiments with false and fictitious remedies at the expense of destroying what is the great pillar of life, a healthy constitution.

This medicine can only be obtained at the Office of Dr. HUGHES, 13 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE RENOVATING PILLS. These pills are universally lauded in efficacy and superior virtue in regulating all female irregularities. Their action is specific and certain, producing relief in a short space of time. They are acknowledged to be the best in use.

The Dr. cautions the public to beware of impositions that are being practiced by advertising a spurious article under some spurious or fictitious name. They are entirely useless, having been got up by miserable pretenders who are entirely ignorant of the efficacy of medicines.

All who are in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.

These pills can be sent to any part of the country with directions. Remember the number—13 Howard street, Boston.

MARRYING A HUSBAND FOR THE CHILDREN.—A strange looking couple stopped at a hotel in a small town in Wisconsin not long since. They sent for a justice of the peace, who soon united them in the bonds of very unusual wedlock. The bride, who was quite a young looking person, informed a lady who was present, immediately after the ceremony, that she met the man a few days before, and that he had "just lost his wife, poor man," and that her husband died last week and left her with four children, and this man also had four, the oldest of which was born on the same day with her oldest, and the birth-day of the youngest was also the birth-day of her youngest, the age of those youthful innocents being six months, and it seemed so pretty have all those "little critturs" around the house together!—*Milwaukie Democrat.*

PITTSFIELD, Ms., Nov. 18.—This morning the workmen engaged on the Western Railroad bridge over the Housatonic river, removed the nuts from four bolts. A freight train backed on to the bridge, when the bridge gave way and the train was precipitated into the river, a wreck. Four men were badly injured, Thomas Squires dangerously.

☞ The auction sale of the stock of Phillips, Sampson & Co., Boston, was closed Thursday, and was very successful. The amount of the sale will reach from $80,000 to $90,000, several thousand dollars more than had been estimated by the assignees.

Portsmouth, N. H.

MONDAY, NOV. 21, 1859.

NEW YORK ELECTION.—*Albany, Nov. 18—10 P. M.*—The following are the majorities, according to the Atlas and Argus figures: Jones, 929; Richmond, 1100; Skinner, 117; and Forrest, 500.

That is to say the election has resulted in the defeat of the four Republican candidates who were not on the Utica American ticket. This shows that in this election at least the combined strength of the Americans and Democrats is too much for the Republicans. The Tribune gives the following comparative tables, showing the vote of the last two years:

1858.		1859.	
Republican	250,000	Republican	250,000
Democratic	221,000	Democratic	230,000
American	61,000	American	21,000

By this it appears that 40,000 American voters did not come out at all.

This seems to indicate that Mr. Seward will not be nominated for the Presidency.

THE ROMAN GOVERNMENT.—The Pope has just received a new steam corvette from England. She is to mount eight heavy rifled guns, which are to be provided for her at Naples. With that singular taste which leads the Romish Hierarchy to give names which are considered by it of a sacred character to dirty lanes and streets, to bells and other things, this armed national vessel is called the "Immaculate Conception."

A correspondent of the New York Evening Post, writing from Rome, says:—"It appears to be the determination of Pius IX. and Cardinal Antonelli to stand the risk of the French army's departure, rather than initiate reforms hostile to the very existence of the Papacy. In a case like the present there is indeed no half measure to be taken, and the liberal politicians of Rome are better content to support for some time longer the actual mode of government, with a prospect of things coming eventually to a crisis, than to see an unsatisfactory compromise sanctioned by the authority of the protecting government of France, or by decree of the European powers, united in the so long expected Congress on the Italian question."

PROF. HUNTINGTON.—The Boston Courier learns, on inquiry, that so much of a recent statement in the New York Evening Post, as attributes to Professor Huntington of Cambridge a sympathy with the peculiar ecclesiastical views of Dr. Bellows, and known as "Broad Church," is entirely without foundation in fact.

The New York Observer (Presbyterian) says:

The tendencies of Prof. Huntington towards the views of the orthodox churches have long been the subject of discussion, and thousands have cherished a hope that he would be led by the spirit to cast off the bonds of that system in which he has been held, and enjoy the liberty and peace of faith in a divine Redeemer.

The religious public will learn in due time, we suppose, whether the Dr. has become a Calvinist as well as a Trinitarian—and whether he is sound on every one of the five points.

Dr. Huntington has no need to change his denomination, as he is a *Congregationalist*,—and perhaps he will maintain his position, exchanging and associating, right and left, with ministers of various views, under that name. Calvinists, Armenians, and Universalists, used to be in fellowship sixty years ago, as Congregationalists. It was a Broad Church then; it was narrowed afterwards,—and Rev. Parsons Cooke would have it narrowed again, so that Prof. Park, the Beechers, and thousands more, would be crowded out.

COMPARATIVE SPEED OF THE HORSE AND DOG.—An extraordinary match has recently been made in England between the Duke of Beaufort and the Earl of Winchelsea, the object of which is to test the comparative speed of the race-horse and the greyhound. The match is to be for $5000 a side, half forfeit, and the Duke backs five couples of hounds against three horses to be selected by the Earl, who are to carry 119 lbs. each. Trials of this sort have been made before in England, and have nearly always resulted in favor of the hounds.

☞ The Third Avenue Railroad, New York, owns 2500 horses, which travel 18 miles a day each. The feed generally used is cut-feed, composed of cut hay, meal and fine feed, on which the horses seem to thrive, all looking healthy; and although the horses are permitted to drink from the trough as they come in, however heated, and go immediately to their feed, no case of founder has ever occurred among all this great equine family.

FOLLOWING THE AFFINITIES.—A man and a woman—the former leaving a wife and several small children, and the latter taking from their father two or three children, and leaving him in loneliness—have lately departed from this city, and are living together in Michigan. Both parties are respectably connected, but have lately been bedeviled with communications from the other world, which they have so long listened to that they have forgotten their duties in this, and even the decencies that should characterize society.—*Newburyport Herald.*

CAPT. HOLMES.

The commutation of the sentence of Capt. Holmes, condemned at Portland, Me., to die for the murder of one of his crew—a most cruel murder it was too—has reached its destination, and he will be transferred to the Thomaston State Prison for life. We do not regret this change, (says the Newburyport Herald) for hanging a man is the worst use he can be put to, where the public safety does not require his life to be taken; but we hope this may be a precedent in the case of some poor abused sailor, when he shall be brought to the bar to answer for the murder of an officer. It is but a short time since several persons were hung at Auburn, but a little way from Portland, who were convicted of piracy; they had risen on their officers and slain them. The man who would have suggested their insanity would have been regarded as a fool.—Officers on shipboard can be insane, or absent minded; sailors are never beyond accountability, even though they may be hung in the rigging for hours, have their backs cut with the cat till blood runs to their heels, be kept half starved, or driven to frenzy by other abuses. Officers must be treated as men; sailors may be killed like dogs. We hope the facts of the Holmes case may be remembered when the next sailor is on trial for insubordination, mutiny or piracy.

The Portland Advertiser says of Holmes:

We understand that the captain was very much disappointed in not receiving a pardon, he having been led to hope for one, from assurances held out to him by irresponsible persons.

☞ The following, which we clip from a Methodist paper, it is safe to say, never occurred to the mind of a Parisian as an objection against their now fashionable invention of hoops. Our exchange says:—

The question has been started in some of the papers, why so few women have been converted during the present season? Some suppose there is a reason in the present mode of dressing. The number of females, compared to males, found at the altar of prayer, is remarked by many as less than the usual proportion. If hoops keep persons away from the altar, either as mourners or laborers, the number of souls saved, is likely to be less; hence we infer that hoops keep souls out of the kingdom.

"What is the reason, can you guess,
Why men are poor, and women thinner?
So much do they for dinner dress,
That naught is left to dress for dinner.

When dressed for the evening, the girls now-a-days
Scarce an atom of dress on them leave;
But what is the difference?—all evening dress
Is a dress that is suited for Eve.

☞ Speaking of the decease of the late Providence Daily Tribune, the Journal, of the same city, says—

"The time seems to have gone by when a newspaper can be supported as the mere 'organ' of a party, much less as the representative of a few men, however respectable and influential they may be."

This is true as gospel, as far as it goes.—The "time" spoken of, however, never existed, in point of fact. No newspaper in this country ever prospered long as the *mere* organ of a party, while papers "representing a few men," however high and mighty, have always died early, and generally unlamented. The secret of successful journalism lies in adapting a newspaper to the wants of the public, and putting it on a sound and self-sustaining business bottom. Yet every month some booby tries to establish a newspaper on the back of hobby.—*Boston Courier.*

SALE OF HIRAM DREW.—At the public sale of horses belonging to the estate of the late Charles Warren, of Brookline, Mass., the stallion "Hiram Drew" was bid off for $1750, by Dr. Saunders. He was rated at $2000.

Absence lessens small passions and increases great ones; as the wind extinguishes the taper and kindles the burning dwelling.

☞ Robert L. Currie, a Philadelphia Alderman, was arrested on Monday for levying black mail upon the liquor-sellers in his ward, and was put under bonds for trial.

Every man thinks that Cæsar's wife ought to be above suspicion, though some are far less particular as to what Cæsar himself ought to be.

☞ In 1796, the ladies' dresses were made so that no appearance of a waist was visible. The length of a petticoat for a middle-sized female, in the summer of that year, was five feet and an inch.

A bachelor merchant's advice in selecting a wife, is: "Get hold of a piece of calico that will *wash*."

☞ The celebrated Hyannis kidnapping case, which had been on trial at Barnstable, was brought to a close on Friday, when the jury brought in a verdict of acquittal.

SHADES OF THE DEPARTED.—The editor of a down-east paper gives an account of his office having been many years haunted by a lounger, who sat there so long that when he died his shadow was found fixed upon the wall.

☞ The Buffalo Advertiser says that the fall of snow at that place, during the late storm, was six inches deep on a level.

Rev. Dr. Hall of Providence says that ministers need common sense more than they do a common creed.

☞ The pea-nut is extensively cultivated in California, and will in a few years form an important article of commerce.

Marriage, without love, is the suicide of happiness. As well might a person undertake to build a house without either cash, credit or material, as to expect to live happily in the marriage state without love.

☞ The Norfolk County Court (England) has recently decided that a race against time was a legal game, and not horse-racing within the meaning of the statute. Bets in a race against time are consequently recoverable by law.

"What are you about there?" said a gentleman to a boy whom he found in his orchard, disposing of a few apples to great advantage, viz: in hat and handkerchief—for pockets he had not. "I'm about *going*," said the boy.

☞ The "Illustrated Family Gymnasium," an excellent work on gymnastic exercises,—published by Fowler & Wells, 308 Broadway, New York—which we would advise every one interested in the subject of gymnastics to peruse. Price $1.25.

The lawyer who filed a bill, shaved a note, cut an acquaintance, split a hair, made an entry, got up a case, framed an indictment, impannelled a jury, put them into a box, nailed a witness, hammered a judge, and bored a whole court, all in one day, has since laid down law and turned carpenter.

A sneer is the weapon of the weak.—Like other devil's weapons, it is always cunningly ready to our hand, and there is more poison in the handle than in the point.—But how many noble hearts have withered with its venomous stab, and festered with its subtle malignity.

"What a wise compensation Providence does afford," exclaimed a pretty belle during a gale; "the same wind that musses our crinoline, blows dust in the eyes of wicked young men who take advantage of our admirable confusion."

THE RELIGION OF SHOW.—There are a good many pious people who are as careful of their religion as of their best service of china, only using it on holiday occasions, for fear it should get chipped or flawed in working-day wear.—*Jerrold.*

If bread could be procured as easily as water, men would be more likely to become brutes, from the want of something to do, than philosophers from the possession of leisure.

What a pleasant breakfast that is, where kindness is the largest dish, for "pleasant words are as honeycomb—sweet to the soul and health to the bones."

When people get money without earning it, it's like taking a lot of spirits at one draught. It gets into the head, and they don't know what they are about. There's a tipsiness of the pocket as well as of the stomach.

"My party will never lie in idleness."—"Very true, sir; your party is never chargeable with lying in idleness, or with idleness in lying."

STOVES, TIN WARE, &c.,

Which he offers for sale at wholesale and retail, at very low prices. He has a great variety of the best and most popular Stoves, among which are:

1. **The Stewart Cook Stove,** with the latest improvements. This is an air-tight Cook Stove, for Wood or Coal; it has moveable coverings, which can confine the heat in the stove, or let it out into the room; has a reservoir of hot water 10 or 20 gallons, and a tin closet beneath;—a top cover, which is a great institution for baking, and will keep a coal fire all night; it has a Dutch Oven for roasting in front of the Stove;—and it is every way a most convenient and durable Stove. There are 4 sizes.

The following recommendation of Stewart's Stove, is from an eminent engineer, and must be satisfactory to all who wish to understand the value of this excellent Stove:

Portsmouth, N. H., Nov. 5, 1859.

Mr. Blaisdell:—Seven years ago I moved to this city, and sold, before I came, a "Stewart's Air Tight Cooking Stove," which I had used about five years. During that time no repairs or expense had been made upon it. Since I have been here I have tried the various Cooking Stoves in use, and I think for economy and durability the "Stewart" excels them all. I wish you would take away the Stove I now have from my house, and set up one of Stewart's as soon as you can. Your ob't servant,

B. F. CHANDLER.

Catarrhal Cough.

This insidious and annoying symptom, so difficult to treat, depends on a subacute inflammation of the air-passages, which is apt to end in chronic ulceration and a form of consumption; The mucous membrane of the air-passages is peculiarly susceptible to the healing influences of the PERUVIAN SYRUP, as the testimonials of some of our first citizens show.

There is no known remedy can exceed in speediness of cure, and certainty of effect, that which has become world famous as DR. HOSTETTER'S STOMACH BITTERS. In all diseases of the stomach, which are of a morbid nature, the Bitters have effected most remarkable cures when many other remedies have failed. Hundreds of certificates have been given by those who have thoroughly tested its efficacy, all of which corroborate its efficiency, when it is administered according to the directions on each bottle.

Some of the worst cases of Dyspepsia, Diarrhea and Costiveness, have been permanently cured by the use of the Bitters.

Sold by druggists and dealers generally, everywhere.

R. R. R.

On the 1st day of September, 1853, Mr. Charles Randolph called at the R. R. R. office, and stated that for ten years he had not enjoyed a single meal. He had not, for five years, had a natural discharge from his bowels; but was obliged to resort to Injections, &c. He was pale, haggard, and thin. We ordered Radway's Regulators, one each night, and Radway's Resolvent, three times per day. On the eighth of September he called upon us.

HE WAS SO ALTERED THAT WE KNEW HIM NOT.

His appetite is good—his digestion easy—his skin moist and healthy—his step elastic and buoyant—his body vigorous, and his eye indicates a man of health and energy.

For Liver Complaint, Dyspepsia, Difficulties of the Urethra and Bladder, Radway's Regulator and Renovating Resolvent are a quick and positive cure. For all Aches and Pains, for Neuralgia and Rheumatism, for Nervous and Bilious Complaints, Radway's Ready Relief is quick and effectual. In five minutes' time after its application, the patient is free from pain.

Sold by Druggists everywhere.

THE OXYGENATED BITTERS.

Nature, in her great laboratory, has stored some remedy adapted to every disease which "flesh is heir to." But it requires the investigation and research of the philosopher to discover and apply this remedy. Such research and investigation has succeeded in discovering a remedy for that most afflictive dispensation, the

DYSPEPSIA!

With all its lesser and numerous evils; and it may be safely asserted that until the appearance of the *Oxygenated Bitters*, a case of Dyspepsia cured was a rare experience in medical practice. Now, under the influence of these Bitters the rule is to *cure*, the rare exception, failure to cure.

Read the following, which the subscriber requests us to publish for the benefit of the afflicted:

Obdurate and Inveterate Case of Dyspepsia cured by the Oxygenated Bitters.

The following from a gentleman well known in the region in which he lives ought to satisfy all those of little faith:

WATERTOWN, N. Y., July 28, 1858.

S. W. FOWLE & CO., Boston.—*Sirs*:—Nine years since I was attacked by that curse of all diseases, *Dyspepsia*, which so affected me as to cause great oppression, fullness, and bloating of the bowels, immediately after eating, accompanied with terrible pains in the stomach, often occasioning nausea, vomiting, acidity, and headache, together with general debility and suffering, altogether rendering life a burthen.

After having tried every known remedy without effect, and despairing of ever regaining my lost health, I was induced to make use of the Oxgenated Bitters, the good effects of which were immediately visible on my health and system. Before using a whole bottle I was entirely cured; and I feel a pleasure inducing all like sufferers as myself to make use of this remedy.

NAVAL.—The U. S. steamer "Mohican" (gunboat) is not in commission up to the present time. The majority of her officers are here, and her crew is expected to arrive in the course of the coming week.

The marines composing her guard, came on here from Boston in charge of a sergeant. They are all young, intelligent and fine-looking men, and the impression made upon us by their military appearance and general deportment, was a very favorable one.

NEW MAYOR.—*Messrs. Editors:*— As our present worthy mayor declines serving in that capacity next year,—allow me to say that I deem him a faithful and cautious officer,—and considering the circumstances in which he has been placed, a judicious executive. I would also say that both the gentlemen named to succeed him, are well fitted for the place,—and worthy of it. In this respect they are so exactly balanced, that each may be expected to receive the full support of his party respectively.

Let every voter come to the polls and vote as he deems best. HOMO.

☞ Wesley C. Simmons, lately a corporal in the Public Guard in Richmond, was arraigned before the Mayor of that city on Saturday, on the charge of making use of seditious language as to the right of property in slaves. When asked if he knew the nature of the charges against him, he replied that he believed it was for uttering some expressions inconsistent with the law. After an examination Simmons was sent to prison.

THE EXCITEMENT AT CHARLESTOWN, VA.—*Harper's Ferry*, Nov. 18.—The messenger sent to Charlestown last night has returned. He was detained outside of the town by the guard for nearly three hours before he was allowed to pass, and also until 4 o'clock this morning before he was allowed to return.

A very large fire had occurred four miles from Charlestown, and the military were ordered out, expecting an attack from somebody, but none was made. Our messenger could not ascertain the particulars of the fire.

We expect further news on the arrival of the Winchester train.

Baltimore, Nov. 17.—There are rumors at Harper's Ferry that 250 armed men, with rifles, are encamped at Brownsville, near Charlestown, meditating a rescue. Of course, the report is too improbable for belief. There is great excitement at the Ferry, and a messenger has been sent to Charlestown. Armed guards are patroling the streets and roads of Harper's Ferry.

Baltimore, Nov. 18, A. M.—The messenger has not yet returned to Harper's Ferry. He left at 10 o'clock, and was to have been back in two hours and a half—probably detained by the guards.

Washington, Nov. 18.—Eighty-seven Infantry and Riflemen left Alexandria for Charlestown via Baltimore and Ohio Railroad. Sixty men, with four pieces, went by a special train on the Manasses road via Strausberg, and thence will march 18 miles to Winchester.

Government, to-day, ordered 2000 pounds of powder and a large number of Minnie balls and howitzer shells from the Washington arsenal to Harper's Ferry.

Baltimore, Nov. 18.—The Harper's Ferry excitement last night was caused by the burning of a wheat stack about three miles from Charlestown. The military and populace were called to arms, and the wildest terror prevailed among the people, the general supposition being that Col. Davis had some information of approaching danger.

The panic among the people extended to the Colonel, and a messenger was sent by him to the Ferry, with a dispatch for Gov. Wise, calling for two companies of cavalry this morning.

The fire was found to be the work of an incendiary, and no person could be found in the county on whom suspicion could rest.

There are now 1000 men under arms, and no enemy to be found to encounter.

The troops from Alexandria arrived at Charlestown this afternoon. Those by the way of Winchester are expected to-morrow morning.

The Baltimore and Ohio Railroad Co. have sent Col. Shutt with an armed posse to Harper's Ferry, to guard the bridge and the property of the Company at that point.

There is much dissatisfaction, both here and at Charlestown, at the precipitate action of Col. Davis, in sending dispatches for troops, instead of sending first a posse to inquire into the cause of the fire. They think they have been made to appear ridiculous before the country.

RUMORED ATTACK ON BROWNSVILLE. *Washington, Nov.* 18.—The War Department has received a dispatch from Gen. Twiggs, dated San Antonio, 11th inst., saying that an express had just arrived from Rio Grande City, stating that Cortinas had laid Brownsville in ashes, killing some 100 American citizens, and that Cortinas, with 800 men, was marching towards the Nueces river. Full credence is not given to the report.

A doctor's wife attempted to move him by her tears. "Ah!" said he, "tears are useless. I have analyzed them. They contain a little phosphate of lime, some chlorate of sodium, and water."

If you don't wish to get angry, never argue with a blockhead. Remember, the duller the razor the more you cut yourself and swear.

A poet says the wind kisses the waves.—That, we suppose, is the celebrated "kiss for a blow," about which we have heard so much.

When a man looks pale, thoughts of kicking the bucket naturally suggest themselves.

A CARD TO THE PUBLIC.

☞ Recent developments have made fully apparent the fact that there are numerous imitations of our "trade mark" throughout the United States, and there being for us no legal means of redress for such attempts to impose upon the public by a spurious article, and thus lessen our reputation as manufacturers, we have deemed it judicious, as the only way to put our friends and customers upon their guard against imposition, to say to them that all Pianos made by us bear upon the "name board" "CHICKERING, BOSTON," in Old English and Roman letters, and upon the "sounding board" the address of the firm in full, "CHICKERING & SONS, BOSTON," in German Text, and ornamented capitals, with the number of the Piano in plain numerals between the two lines.

Should any person have in his possession, or become aware of the existence of any of the counterfeit Instruments above referred to, an advisal of the same to us, would be considered as an especial favor. CHICKERING & SONS,

The Nomination for Mayor.

By the Correspondence given below, it will be seen that Hon. JOHN R. REDING accepts the nomination tendered him by the General Committee as the Democratic Candidate for Mayor:

Portsmouth, N. H., Nov. 16, 1859.

Hon. John R. Reding:

Dear Sir—At a meeting of the General Democratic Committee, holden this evening for the purpose of nominating a candidate for Mayor of the city of Portsmouth, to be supported by the Democracy at the coming Municipal election, you were unanimously nominated. We, the undersigned, were appointed a Committee to notify you of the decision of said meeting, and to urge upon you the necessity of your acceptance.

Very Respectfully,
ANDREW D. GERRISH,
SAMUEL LANGDON,
J. WARREN TOWLE,
Committee.

PORTSMOUTH, NOV. 17, 1859.

Gentlemen:—Your letter of the 16th inst. is at hand, informing me that at a meeting of the Democratic Committee for the nomination of a candidate for the office of Mayor of the City, I had been unanimously nominated for the office, and urging upon me the acceptance of the position.

That this is an honor unsolicited on my part you are well aware, and that it was also unexpected, I asure you.s

Being desirous of the success of the party at the approaching municipal election, I am willing to do all in my power to effect such a result; and if our friends are true to themselves and their principles, I see no reason to doubt our success. I have ever thought and acted in accordance with the doctrine laid down by Gen. Jackson, that an individual should neither seek an office, nor decline one to which he might be called by the people; and consequently I leave my name in the hands of the nominating committee to be used for the office named above, or not, as they may deem expedient.

Please thank the General Committee on my behalf for the confidence reposed in me; and accept yourselves my thanks for the kind manner in which you communicated the action and wish of that committee.

Respectfully yours,
JOHN R. REDING.

TO ANDREW D. GERRISH,
SAMUEL LANGDON, &
J. WARREN TOWLE, ESQRS.

From the Journal.

MUNICIPAL ELECTION.

The election of City Officers takes place on Tuesday next. There is no real occasion for drawing the party lines in the municipal election. Better would it be for the citizens to unite in the nomination of the best men, and lay aside those party feelings which more properly belong to state and national matters. But this "good time coming" appears not yet to have arrived, and the contest on Tuesday will be entered upon with opposing tickets. The candidate for Mayor selected by the Republican party is ROBERT LEFAVOUR, Esq. The Democrats, it is said, will sustain Hon. JOHN R. REDING for the same office.

Mr. Lefavour has been chairman of the Selectmen under the old town organization, has been connected with the city government for several years, and is well qualified to enter upon and discharge the duties of Mayor in an acceptable manner.

For several years the city government has been in the hands of a political party, which has made use of its power for political purposes. Our Police has been a sham, our police laws a dead letter, and the public have been taxed for large expenditures which have been made, through inefficient agents, for purposes of little account.

It is time for a change, and we trust that every citizen who wishes to see an improvement in the administration of our municipal affairs, will give his aid in changing the character of our municipal government for the coming year.

"HUM."—A few weeks ago we copied from the Boston Journal a notice of the establishment of a new and extensive machine shop at Dover, which it was stated was to be under the superintendence of G. G. Dennis, Esq. We now learn from the Dover Gazette that there is no truth in the statement, which probably originated in the diseased brain of that same Mr. Dennis.

When we cut out the paragraph, we had a dim recollection of the name of Dennis, in connection with a crazy steamboat enterprise, by which Dover and Portsmouth were to be connected with Boston, in 1858, and again last summer, but not being certain that our surmise was correct, we let the paragraph go for what it was worth. We shall remember the name next time.

N. H. REGISTER FOR 1860.—Mr. Lyon is as true as a clock in reminding us of the years as they pass. The Register for 1860 is we believe the sixteenth that has been made under his supervision. It contains the usual useful information on State matters, and in addition some well digested statistics, showing the history of elections in this state for more than half a century. For sale by Mr. J. H. Foster.

FOR CALIFORNIA.—*Solomon Holmes*, the polished waiter on all marriages, balls and military occasions, and the polite hair-dresser, on all other occasions, has placed his business here in his son's hands, and is going to the region of gold: for unlike the lucky Solomon of old, the gold would not come to him.

The Combination Stove and Range.

One of the greatest inventions of the age, for Cooking purposes,—made expressly for large families, boarding houses, hotels, &c.; or whenever a great amount of Cooking is required in the shortest possible time, it having 3 large ovens, 8 boiler holes and *separate apartments* for baking, broiling, frying or roasting, requiring no more fuel than any ordinary Cooking Stove. It is warranted to give entire satisfaction in every particular in point of economy, convenience, or ease of management; as we believe it to be far ahead of anything of the kind yet introduced into this market. We therefore ask an examination of the "Combination Stove & Range," feeling confident that it supersedes *all* others for which it is intended, and will be sold at a very low price.

We have sold hundreds of them the past year, and have testimonials of the highest order, acknowledging their superiority over every other Stove yet invented. MOTHERS,

In presenting you with DR. EATON'S INFANTILE CORDIAL, we desire to state its superiority over every nostrum that nurse or quack has heretofore offered you.

First—It is the preparation of a regular physician, who is well qualified from much experience in infantile complaints to prescribe for them.—Secondly—It is entirely free from paregoric or opiate of any kind, and consequently relieves by removing the suffering of your child, instead of deadening its sensibilities. Thirdly—It is put up with great care, so that one of it will be as any other article for infantile complaints will show: the very roots from which it is distilled being dug from the forests under the direction of Dr. Eaton, many of them by his own hands. Fourthly—It is perfectly harmless and cannot injure the most delicate infant, and is a certain cure and relief in all the following cases, which is its chief merit over every other preparation.

FOR ALL COMPLAINTS ATTENDING TEETHING; such as DYSENTERY, COLIC, &c.; also, for soothing the gums and relieving pain. For regulating the bowels it is unequalled. For Cold in the Head it is a sure relief. For CROUP, the most fatal and trying of diseases, it can be relied on with perfect confidence; and being a powerful anti-spasmodic in all cases of convulsions or fits, we earnestly recommend you to loose no time in procuring it—for it costs so much more than other preparations of the kind, that we cannot afford such long advertisements as can those whose whole expense is their advertising; for the same reason, it commends itself as the most reliable to all mothers. In all cases, the directions wrapped around each bottle, must be strictly followed. Price, 25 cents per bottle.

MURDER WILL OUT.—The following singular circumstance, related in a German journal is worthy of serving as pendant to that of the famous dog of Montargis:—

A wealthy tanner, named Krutz, residing in the neighborhood of Sinz, in the Archduchy of Austria, was in the habit of making journeys several times a year to sell his goods and enter into contracts for supplies of different kinds. These rounds generally occupied him about ten days or a fortnight. On the morning of the 12th of October last he started as usual, but in the same night his wife and son were surprised at hearing his cabriolet come up to the door, and their surprise was changed into horror on finding in the vehicle the lifeless body of the tanner, weltering in his blood. The horse, finding himself at liberty, had returned home. The authorities made inquiries, but without leading to the discovery of the murderer. The tanner had with him a large and powerful dog, but as the annimal was fastened under the cabriolet, he could not render any assistance to his master.—After the death of the tanner, his son, a young man about 25 years of age, took on himself the management of the business, and like his father, made the usual journeys. About a fortnight ago, in passing a roadside public house, at the door of which the landlord was sitting smoking his pipe, the same dog which had been in the habit of accompanying the father, and which was running along quietly by the side of the vehicle, began to bark in the most furious manner, and rushed towards the house.—The man seeing its approach, ran in and closed the door, while the dog kept howling and barking most violently. A suspicion immediately entered the mind of the young man, but instead of showing what he felt by any movement which might have been observed by the inmates of the house, he fastened the dog beneath the cabriolet, and driving to the nearest town gave information to the authorities. Some police officers were immediately sent to the house, and in it were found the empty money bag of the tanner, his watch and his pocket-book. The landlord and his wife were immediately arrested and will be tried for the crime.—*Galignani.*

☞ The Machias Union thinks the lumbering resources of East Machias have become so much diminished that the citizens would do well to combine for the purpose of laying the foundation of some other paying business. Navigation and vessel building have come in within ten years, to supply the decay of the lumber business; but the Republican thinks the permanent prosperity of the town must be derived from its excellent water power, applied to some branch of manufacturing. The writer says he does not know so fine a water power in New England.

SAD ACCIDENTS—A COINCIDENCE.—On Saturday last, as Mr. Sanborn B. Foss, of West Alton, was returning home, leading a young heifer, she became frightened and ran at him, striking and throwing him him down, in such a way as to break the pith of his neck, of which injury he died on Sunday, at 2 o'clock; he leaves a wife and four children.

On the same day (Saturday) a brother of Mr. Foss, living in Gilmanton, was driving an ox-team, attached to a cart, when the cattle became frightened, and threw him down, the wheels passing over his body, and and crushing him badly. Up to Wednesday he was considered dangerously injured, and not expected to live.

We are informed that two other brothers came to their deaths in a like sudden manner—one being killed by the falling of a derrick, and the other drowned. This is a sad coincidence in the decease of the four brothers.—*Laconia Gazette.*

THE LONDON TIMES.—We learn that a complete set of the great British Thunderer, for the last thirty years, has been presented to the library of the Boston Atheneum, by Russel Sturgis, Esq., of the firm of Baring Bros., London.

☞ Rev. T. W. Higginson, of Worcester, Mass., who has just returned from a visit to Brown's family, will forward to them all money received by him.

☞ The exodous of slaves from the borders of Missouri continues unabated. Free white labor is coming in, and that of negroes going out.

☞ Mrs. Susannah Knight, a widow lady, 54 years of age, while travelling in the cars near Syracuse, N. Y., on the 14th inst., attempted to pass from one car to another, when she made a misstep and fell between the cars and was immediately killed.

☞ The amount of wheat now accumulating on the Upper Mississippi, for the steamboats to take down the river before navigation closes, is immensely large.

☞ The editor of the Portland Transcript believes that place will always be the *great Eastern city,* whether the big ship comes or not.

☞ There are now nineteen steam fire engines in the city of Philadelphia.

Music is a higher revelation than science and philosophy.—*Beethoven.*

MUSCLE.

With every *gift* is given the instinctive desire to use it at its best. The fighting element in our nature — the thought that tends towards muscle—is one of the conditions of a compromise with necessity. Given to man, made perfectly, and for the best of is uses, a certain amount of muscle, and that muscle with the necessary conditions of life upon it, will, unused, degenerate. Therefore, and for the purpose of keeping it from degeneration, has man had given to him the disposition and the desire to use it, which running in and meeting half-way a dozen other things of his nature, ends in a sheer, and sometimes uncontrollable fighting instinct. How can we say, either, that there was not a great natural purpose in this very fighting instinct, as a fighting instinct merely?

Over against us there hangs a picture—a plastic poem—a great hill-side epic, in which we take daily delight, and with the action of which we sympathize as warmly as ever we did with any merely *pictured* human action. Among the crags in the highlands of Scotland, in that open foreground, two old stags are fighting, and a little space away, the timid does are huddled together, gazing upon the struggle with an almost human astonishment and interest. The arrangement of this picture—entitled "None but the Brave deserve the Fair" — the grouping, and the truthful vigor with which the expression of the whole scene is given, are perfect. It is the intense moment of brute life. Seen with ordinary thought, it only pictures the two strongest stags of the herd contending on the very edge of the precipice for the question and the fact of mastery; otherwise it pictures two noble brutes obeying the instinct that nature planted in their being, simply that their kind may not degenerate. They are performing nature's culling process. By that very instinct of battle so deeply planted in them, nature, skilful even as a stock-breeder, has infallibly provided that each year's fawns shall be the offspring of the strongest and bravest stag in the preceding year—and so on, as long as the existence of deer is naturally necessary.

The deer knows nothing of this reason; he only fights. We are somewhat nobler, even as brutes, than the deer, and nobler as something else than as brutes; yet no man, with a history of the human race and a knowledge of the general character of man in mind, will venture to question that this fighting instinct is placed as deeply and as decidedly in us as in the deer. Setting aside the probability that it might be for the same natural purpose, as not consonant with a state of civilization—let us admit that we do not know the reason for our disposition any more than the deer does for his; ought any man, therefore, merely because he does not know the reason, doubt that there is one, or question the wisdom of that provision of our nature?—*Porter's Spirit.*

THE BROWNSVILLE REBELLION.—According to the New York Herald, "the most curious part of the affair (this rebellion) is that many, even among the professed journalists, look upon the completion of the pending treaty with Mexico as necessary to give us power to put a stop to such lawless proceedings as those of the robber Cortinas at Brownsville, on the Rio Grande. Now the truth of the matter is, that Mexico is not involved in the Brownsville riot at all. Cortinas is one of the free and enlightened citizens of Texas, annexed to this country years ago, and the headquarters of his band, at last accounts, was at his own ranche in Cameron county, in that State. But, besides this, he is proud of his birthright, and when the frightened people of Brownsville requested a Mexican officer from Matamoros to see and reason with him, it is reported that Cortinas told the Mexican in sturdy English to go to a place that shall be nameless here, and asked him by what right he, a Mexican greaser, undertook to interfere with an American citizen on American soil. We need not add, that the friendly Mexican's attempt at pacification was fruitless."

☞ New Haven papers state that the burial of Euclid was performed Friday night by a part of the Sophomore class of Yale College. The procession was noisy, and the fiendish noises produced in the dead of night, through the principal streets, are pronounced a public nuisance. The whole ceremony is contemptible in its design, and a nuisance in effect.

ACQUAINTANCE.—If a man does not make new acquaintances as he advances through life, he will soon find himself left alone. A man should keep his friendship in constant repair.—*Dr. Johnson.*

Whoever has sixpence is sovereign over all men—to the extent of sixpence; commands cooks to feed him, philosophers to teach him, kings to mount guard over him—to the extent of sixpence.—*Carlyle.*

The passion of acquiring riches in order to support a vain expense, corrupts the purest souls.

☞ The Virginia Alarm keeps the telegraph busy, and will probably do so, for some days hence. The papers of Monday morning contain a long string of dispatches from Charlestown, Va., Baltimore, Wheeling, Norfolk, Alexandria, Harper's Ferry, Richmond and Washington;—the amount of which is, that,—

At Baltimore on Saturday, there were rumors circulating that armed men were crossing, or had crossed the river from Ohio, at or near Wheeling. A despatch has been received from the Ferry, stating that they are on the eve of bloody work, and that Col. Davis has telegraphed for 500 additional men.

From Wheeling, a dispatch says,—no bodies of men have crossed here, and we hear of no rumors of their crossing near here.

A Washington dispatch of Sunday says, the extra train, with Gov. Wise and the 1st Regiment, arrived at Harper's Ferry at 4:30. The Petersburg Battalion of four companies arrived here by the boat in the afternoon. On arriving at Charlestown, troops will go into encampment and remain till after the executions. There is nothing confirmatory of the rumor that a body of armed men has crossed the Ohio.

The great excitement which brings out the governor and his troops, seems to have begun by information which reached the governor, that the property of three of the jurors who condemned Brown had been burned within the past forty-eight hours, which impressed him with the conviction that there were now emissaries or accomplices in the vicinity of Charlestown.

And at the Ferry, the fresh excitement was caused by the arrival from Bellain, near Wheeling, of a man named Smith Crane, who stated that he had incidentally overheard a conversation between some men, who had organized a band of five hundred men to march to the release of Brown and the other prisoners at Charlestown. He immediately set out for Harper's Ferry to apprise the inhabitants of the fact. It was also rumored at Charlestown that a fight had occurred in Clark county, between some citizens and a party of strangers, and a detachment was sent to the scene of disturbance. On the receipt of these rumors, dispatches were sent by Col. Davis to Gov. Wise for five hundred more troops.

☞ A great meeting was held at Tremont Temple in Boston, on Saturday night, where the audience paid 25 cts. each, the net proceeds to go to the family of Ossowatomie Brown. The amount realized is said by the Atlas, to be about $1500. Rev. Dr. Neale opened the meeting with prayer, and Rev. Mr. Manning of the Old South Church was one of the speakers. He compared John Brown to Crispus Attucks, the negro who was shot down at the beginning of our revolution.

Ralph W. Emerson, Wendell Phillips, and John A. Andrews were the other speakers.

WRIT OF ERROR DENIED.—*Richmond, Va., Nov.* 19.—The petition of John Brown for a writ of error to the judgment of the Circuit Court of Jefferson county, was presented to the Supreme Court of Appeals yesterday. The Court refused to award a writ of error, being of the opinion that the judgment of the Circuit Court is plainly right. The execution, therefore, takes place Dec. 2.

☞ On Friday the Boston Atlas stated that Dr. S. G. Howe had left for Canada. The Atlas of Saturday says:

We understand that he has taken several of his pupils with him, making it for them a pleasure excursion. A gentleman informs us that he met him in Montreal, on Thursday, and that the Doctor did not intend to remain long in Canada. It would seem from this that he is not much frightened.

THE MOTHERS OF THE REVOLUTION. We find in the papers a list of thirty-six women, all who remain of the 5000 admitted to pension, July 4th, 1836. Their ages are from 92 to 105 years. All were married during or prior to the year 1783, and have consequently survived their marriage 77 years or more. Sally Stewart was married in 1776 at the age of 16 and has survived her marriage 84 years. Ann Davis was married at 13 and has survived the event 80 years.

It is remarkable fact that 30 of the 36 were married under the age of 18 years and that the average age of their marriages was about 16 1-2 years. This speaks volumes in favor of early marriage of women; but men will do well to remember that that their *husbands* are all in their graves. The inference therefore is, that early marriages are *life* to women, but *death* to husbands.—*Portland Advertiser.*

This inference is as fair as any that can be drawn from any *one* fact in a case, without considering others. One *other* fact, not mentioned in these cases, probably was, that the husbands were older than the wives. And a third, which might be mentioned, is the mode of life in a camp, not so favorable to longevity, as the life of a poor but energetic young woman.

They who suffer innocently from deceitful practices, have this truth to console them—that the defrauder defrauds his own conscience and happiness more than he defrauds his neighbor; and that he who is merely cheated is fortunate, compared with him who cheats.

By taking revenge, a man is but even with his enemy; but in passing it over, he is superior.

Sydney Smith, passing through a bystreet behind St. Paul's, heard two women abusing each other from the opposite houses.—"They will never agree," said the reverend gentleman; "they argue from different premises."

An idler, meeting with one of the strolling organ players, was inclined to engage in conversation with him, and asked him, "What part in the grand drama of life do you perform?" "I mind my own business," was the brief but pointed reply.

Catarrhal Cough.

This insidious and annoying symptom, so difficult to treat, depends on a subacute inflammation of the air-passages, which is apt to end in chronic ulceration and a form of consumption. The mucous membrane of the air-passages is peculiarly susceptible to the healing influences of the PERUVIAN SYRUP, as the testimonials of some of our first citizens show.

There is no known remedy can exceed in speediness of cure, and certainty of effect, that which has become world famous as DR. HOSTETTER'S STOMACH BITTERS. In all diseases of the stomach, which are of a morbid nature, the Bitters have effected most remarkable cures when many other remedies have failed. Hundreds of certificates have been given by those who have thoroughly tested its efficacy, all of which corroborate its efficiency, when it is administered according to the directions on each bottle.

Some of the worst cases of Dyspepsia, Diarrhea and Costiveness, have been permanently cured by the use of the Bitters.

Sold by druggists and dealers generally, everywhere.

R. R. R.

On the 1st day of September, 1853, Mr. Charles Randolph called at the R. R. R. office, and stated that for ten years he had not enjoyed a single meal. He had not, for five years, had a natural discharge from his bowels; but was obliged to resort to Injections, &c. He was pale, haggard, and thin. We ordered Radway's Regulators, one each night, and Radway's Resolvent, three times per day. On the eighth of September he called upon us.

HE WAS SO ALTERED THAT WE KNEW HIM NOT.

His appetite is good—his digestion easy—his skin moist and healthy—his step elastic and buoyant—his body vigorous, and his eye indicates a man of health and energy.

For Liver Complaint, Dyspepsia, Difficulties of the Urethra and Bladder, Radway's Regulator and Renovating Resolvent are a quick and positive cure. For all Aches and Pains, for Neuralgia and Rheumatism, for Nervous and Bilious Complaints, Radway's Ready Relief is quick and effectual. In five minutes' time after its application, the patient is free from pain.

Sold by Druggists everywhere.

THE OXYGENATED BITTERS.

Nature, in her great laboratory, has stored some remedy adapted to every disease which "flesh is heir to." But it requires the investigation and research of the philosopher to discover and apply this remedy. Such research and investigation has succeeded in discovering a remedy for that most afflictive dispensation, the

DYSPEPSIA!

With all its lesser and numerous evils; and it may be safely asserted that until the appearance of the *Oxygenated Bitters*, a case of Dyspepsia cured was a rare experience in medical practice. Now, under the influence of these Bitters the rule is to *cure*, the rare exception, failure to cure.

Read the following, which the subscriber requests us to publish for the benefit of the afflicted:

Obdurate and Inveterate Case of Dyspepsia cured by the Oxygenated Bitters.

The following from a gentleman well known in the region in which he lives ought to satisfy all those of little faith:

WATERTOWN, N. Y., July 28, 1858.

S. W. FOWLE & Co., Boston.—*Sirs:*—Nine years since I was attacked by that curse of all diseases, *Dyspepsia*, which so affected me as to cause great oppression, fullness, and bloating of the bowels, immediately after eating, accompanied with terrible pains in the stomach, often occasioning nausea, vomiting, acidity, and headache, together with general debility and suffering, altogether rendering life a burthen.

After having tried every known remedy without effect, and despairing of ever regaining my lost health, I was induced to make use of the Oxgenated Bitters, the good effects of which were immediately visible on my health and system. Before using a whole bottle I was entirely cured; and I feel a pleasure inducing all like sufferers as myself to make use of this remedy.

MRS. WINSLOW,

An experienced Nurse and Female Physician, presents to the attention of Mothers, her

SOOTHING SYRUP,

For Children Teething.

Which greatly facilitates the process of teething by softening the gums, reducing all inflammation—will allay ALL PAIN and spasmodic action, and is

SURE TO REGULATE THE BOWELS.

Depend upon it, mothers, it will give rest to yourselves, and

RELIEF AND HEALTH TO YOUR INFANT.

We have put up and sold this article for ten years, and *in confidence* and we never been able to say of it, what we have of any other medicine, — NEVER HAS IT FAILED, IN A SINGLE INSTANCE, when timely used. Never did we know an instance of dissatisfaction by any one who used it. On the contrary, all are delighted with its operations, and speak in terms of the highest comendation of its medicinal virtues. We speak this matter, "*what we do know*," after years of experience, and *pledge our reputation for the truth of what we here declare.* In almost every instance where the infant is suffering from pain and exhaustion, relief will be found in fifteen or twenty minutes after the first dose is administered.

This valuable preparation is the prescription of one of the MOST EXPERIENCED NURSES in New England and has been used with *never-failing* success THOUSANDS OF CASES.

It not only relieves the child from pain, but invigorates the stomach and bowels, corrects acidity, and gives tone and energy to the whole system. It will almost INSTANTLY relieve

GRIPING IN THE BOWELS, AND WIND COLIC.

and overcome convulsions, which, if not speedily remedied, end in death. We believe it the BEST and surest REMEDY IN THE WORLD IN ALL CASES OF DYSENTERY AND DIARRHŒA IN CHILDREN, whether it arises from teething, or from any other cause. We would say to every mother who has a child suffering from any of the foregoing complaints, *Do not let your own prejudices, or the prejudices of others,* stand between your suffering child and the relief that will be SURE—we know ABSOLUTELY SURE to follow the use of this medicine, if timely used. Full directions for using will accompany each bottle. None genuine unless the *fac-simile* of CURTIS & PERKINS, New York, is on the outside wrapper. Sold by Druggists throughout the world. Principal Office, No. 13 Cedar st. New York. *Price only 25 cents per bottle.*

☞"Choose ye this day whom ye will serve"—or, rather, who shall serve you.—Our City Election, to-day, unimportant as it may seem to some, is really of great moment to every citizen. Let every voter express his opinion and desire, at the polls, as seemeth him good. All who think things are well enough, as they have been, are, and seem to be tending—will of course vote to sustain a similar order of government, or misgovernment; let all who think otherwise, see to it that they are equally prompt and zealous.

We believe Americans alone should rule America—from President to hogreeve;—and desire to call attention to the fact that while Germans have before been on the tickets of one party, for our city officers;—this year it is reported that Irishmen have similar honor. We hope it is not so; and cannot understand how any man who claims to be worthy the name of American, can carry any such ballot.

☞Some days ago we advertised a stolen boat called the Ella. We learn from the Cape Ann Advertiser that the boat belonged to Elias Davis, Jr., and was stolen from Lobster Cove, Annisquam, on Monday evening, 7th inst. A suspicious character was loitering round the village during the day, from description supposed to have been a recent inmate of the State Prison, sentenced to that institution for horse-stealing, and formerly belonging to Seabroook. Where the other man came from, or who were victimized by the loss of the iron in her, is not yet known.

☞Hon. Ira A. Eastman, Associate Judge of the Supreme Court of this State, has resigned his commission, to take effect Dec. 1.

Rev. S. H. McCollester, School Commissioner for Cheshire County, has resigned his post, in consequence of ill health. He was Chairman of the Board of Education.

There is to be a special session of the Governor and Council, Monday, Nov. 28.

☞The advertising columns of the New York News contain a communication from Henry Watson, *alias* Governor Dorr, presenting his claims as a candidate for nomination by the Tammany Hall Mayoralty Convention. He thinks he possesses the requisite qualifications, and the News therefore commends him to its consideration.

☞Ship Favorite, of Boston, Capt. W. H. Wilson, from London for Cardiff, is an entire wreck; every soul on board perished, including the pilot! None of the bodies have yet been recovered, and only a small part of the wreck has come ashore at Padstow, England. About 30 persons were on board at the time of the disaster. The Favorite was a ship of 1000 tons, built at East Boston in 1856, and was owned and insured in Boston.

☞Soulouque, the ex-Emperor of Hayti, at Jamaica, is in great trouble. His minister, Dessalines, has created a domestic trouble by his attentions to Soulouque's sister-in-law, and the ex-Emperor's temper is further soured by his defeats at the billiard table. When in Hayti his courtiers always allowed him to gain the game, but in Jamaica the players are not so respectful.

☞The Washington Board of Aldermen have refused to set apart a day for thanksgiving, alleging, as a reason, that upon "the part of many, instead of a reverential observance of days set apart for thanksgiving, they have made them convenient seasons for violating many of the most wholesome provisions of the police regulations." This decision of the city fathers has given rise to much dissatisfaction, and some papers there recommend that the churches and people keep thanksgiving day on their own responsibility. We presume they will do so—and the Aldermen will perceive they have not accomplished much by their negative.

☞The Waterville Mail has exploded the humbug of the double headed child in Palmyra. The head which was declared to have been amputated, was only a soft tumor, on the back of the head over the natural opening in the skull, its contents communicating with the brain. Instead of "doing well," the child died soon after the operation.

A worthy clergyman, upon being asked why he did not venture to an election, at which the proceedings were very riotously conducted, and give his vote, replied, "I do not see why I should endanger my own *poll* to benefit another man's."

The soul needs a certain amount of intellectual enjoyment, to give it strength adequate for the daily struggle in which it is involved.

LITTLE PEOPLE.—The littler folks be, the bigger they talk. You never seed a small man that didn't wear high-heel boots and a high-crowned hat, and that warn't ready to fight most any one, to show he was a man, every inch of him.—*Sam Slick.*

A Jew was observed noticing very intently a prodigious fine ham. "What were you saying to that ham, Master Jacob?"—"I was saying to it, 'thou almost persuadest me to be a Christian!'"

BEAUTY.—Beauty has been called "the power and arms of women." Diogenes called it "woman's most forcible letter of recommendation." Carneades represented it as "a queen without soldiers," and Theocrites says it is a "serpent covered with flowers," while a more modern author humorously defines it "a bait that as often catches the fisher as the fish." Nearly all the old philosophers denounced and ridiculed beauty as evanescent, worthless, and mischievous. But, alas! while they preached against it, they were none the less its slaves. None of them were able to withstand "the sly smooth witchcraft of a fair young face."

"Fair tresses man's imperial race ensnare,
And beauty draws us by a single hair."

A truly beautiful woman is a natural queen in the universe of love, where all pay a glad tribute to her reign. But it is nevertheless true, that the geographical standard of beauty is various and unstable. As Cowley sings:—

"Beauty, thou wild fantastic ape,
Who dost in every country change thy shape;
Here black, there brown, here tawny, and there white."

A SWEET VOICE.—A sweet voice is indispensble to women; I do not think I can describe it. It can be and sometimes is cultivated. It is not inconsistent with great vivacity, but is often the gift of the gentle and unobtrusive. Loudness or rapidity is incompatible with it. It is low, but not guttural, deliberate but not slow. Every syllable is distinctly heard, but they follow each other like drops from a fountain. It is like the cooing of a dove, not shrill, nor even clear, but uttered with that subdued, touching readiness which every voice assumes in moments of deep feeling or tenderness, it is a glorious gift in woman; I should be won by it more than by beauty—more even, than by talent, were it possible to separate them. But I never heard a deep sweet voice from a weak woman. It is the organ of strong feeling and of thoughts which have laid in the bosom, till their sacredness almost hushes utterance.—*Willis.*

THE PHILLIPS, SAMPSON & CO.'S SALE. The sales by auction of the stock of Phillips, Sampson & Co., amount in the aggregate to about $400,000. The stereotype plates brought excellent prices, among others as follows: Byron, $1505; Shakspeare, $1300; Scott, (complete,) $1300; Tom Moore, $900; Burns, $1150; Milton, $950; Hemans, $800. These were all bought by W. Lee, formerly one of the partners of the firm. The set of Rollo books, by Jacob Abbott, fourteen volumes, were sold to Sheldon & Co. of New York, for $4235. The Choral Harmony, by Baker, sold for $1000, and many other sets at the same rate. The total amount of the sale of plates amounted to about $46,000. The sale was largely attended, and was very successful.—*Atlas.*

Has removed his Stove and Furnishing Establishment one door north, to the spacious and convenient store

STOVES, TIN WARE, &c.,

Which he offers for sale at wholesale and retail, at very low prices. He has a great variety of the best and most popular Stoves, among which are:

1. **The Stewart Cook Stove,** with the latest improvements. This is an air-tight Cook Stove, for Wood or Coal; it has moveable coverings, which can confine the heat in the stove, or let it out into the room; has a reservoir of hot water 10 or 20 gallons, and a tin closet beneath;—a top cover, which is a great institution for baking, and will keep a coal fire all night; it has a Dutch Oven for roasting in front of the Stove;—and it is every way a most convenient and durable Stove. There are 4 sizes.

The following recommendation of Stewart's Stove, is from an eminent engineer, and must be satisfactory to all who wish to understand the value of this excellent Stove:

Portsmouth, N. H., Nov. 5, 1859.

Mr. Blaisdell:—Seven years ago I moved to this city, and sold, before I came, a "Stewart's Air Tight Cooking Stove," which I had used about five years. During that time no repairs or expense had been made upon it. Since I have been here I have tried the various Cooking Stoves in use, and I think for economy and durability the "Stewart" excels them all. I wish you would take away the Stove I now have from my house, and set up one of Stewart's as soon as you can. Your ob't servant,

B. F. CHANDLER.

Fousel's Pabulum Vitæ.

☞THE GREAT FRENCH REMEDY possesses extraordinary properties for the speedy and permanent cure of CONSUMPTION, BRONCHITIS, COUGHS, COLDS, and all PULMONARY DISEASE.

This celebrated specific is now universally acknowledged to be infinitely superior to all other preparations for the cure of Pulmonary Disease, both from its inuocent nature and most astonishing curative properties; *it being the only remedy known that will arrest the development of Tubercles in the Lungs or restore the vital functions of the pulmonary organs to their normal condition.* Its invaluable properties have obtained for it the highest recommendation and praise from some of the most eminent physicians and chemists in the country: while the best and surest proofs of its merits are afforded by the numerous testimonials of its great efficacy in conquering disease, which are constantly received from our most respectable citizens. Invalids in all stages of pulmonary disease should not fail to give it a trial, as it can be administered to the most delicate and feeble with perfect safety and certain relief; and we herewith insert a few testimonials for their encouragement, selected from hundreds of like import.

Certificate of Dr. A. A. HAYES, in reference to the unequalled virtues of this great discovery.

This preparation, by chemical analysis, was proved to be free from opium, or any of its compounds; nor were any of the alkaloids present. It does not contain any mercurial or mineral substance, but consists wholly of volatile, diffusible agents, which afford vapors freely at a moderate temperature. Most of the substances present are officinally used in alleviating pulmonary disease; but the device by which they are combined is new and original, and adapts the compound to inhalation, or other modes of administration.

Respectfully,
A. A. HAYES, M. D., State Assayer.
16 Boylston St., Boston, Dec. 1857.

In the Boston Transcript of December 11, 1858, the editor says:—

"We have seen a letter from an eminent physician of this city, in which he says:—'I have used *Fousel's Pabulum Vitæ* in several cases of Bronchial disease, and in some with great benefit. I know of no remedy equal to it for children, where a minute dose is essential; or for adults of irritable stomachs, or having a tendency to reject ordinary medicines given for coughs, etc. I shall continue to use it in my practice.'"

Testimonial from the Sisters of Charity, of the St. Vincent's Orphan Asylum, in Boston.

BOSTON, July 31, 1858.

To Mr. F. LAPORME, Agent:

"The Sisters are happy to state that, having used *Fousel's Pabulum Vitæ,* they have found it efficacious in several instances, for bad coughs and colds. Signed by the SISTERS OF CHARITY.

Testimonial from a well-known Apothecary's Clerk.

BOSTON, March 10, 1859.

J. F. LAPORME, Esq.:

Dear Sir—I have been suffering for a considerable length of time from a severe cough, and had in vain had recourse to nearly all the remedies in use. My cough began to give me much uneasiness from its serious effects on my system, when three days' use of *Fousel's Pabulum Vitæ* restored me to complete health. The medicine being new in this market, I had recourse to it last; but I can now confidently recommend it as the best medicine I know of. Yours, truly,

CHAS. H. FOSTER.

At Fred Brown's, Washington, corner State St.

In the Boston Post, Sept. 24, 1858, the editor says:

"An extraordinary cure of Consumption has recently come to our knowledge, effected through the instrumentality of *Fousel's Pabulum Vitæ;* the evidence of which is in the handwriting of the subject, Mr. Wm. F. Brigham, No. 130 Albany st., in this city. It seems that for eighteen months he had been exhibiting all the usual symptoms of Consumption, and that after having had recourse to the skill of various physicians, without benefit, he had to abandon his business and be confined to his house. Hearing of *Fousel's Pabulum Vitæ,* and of several remarkable cures effected by it, in cases as desperate as his own, he concluded to try it as a forlorn hope. The result has been most happy—he has now entirely recovered, and is engaged in his usual pursuits. It is such well authenticated cases as this that we take pleasure in laying before our readers, since, by so doing, many valuable lives may be saved, and much good effected.

It is sold at the low price of 50 cents, and $1.00 per bottle, thus placing it within the reach of all classes. F. J. LAFORME, sole Agent, Boston. M. S. BURR & CO., General Agents, No. 26 Tremont street, Museum Building, Boston, and for sale by all druggists. Circulars with testimonials of its efficacy can be had of the Agents nov7 1y

The News.

☞Latest dates from Europe are Liverpool, Nov. 7.

The Paris Telegraph of the 4th says the French and English governments had completely agreed on a basis of Congress, which is to be held at Brussels. All that remained to be settled was the official ratification from the English government.

The Great Eastern left Holyhead on the 2d, and reached Southampton on the 4th. She experienced very heavy weather and a rough sea on the passage round. The London Times' account of this third trial says when the ship was exposed to the roll of the Atlantic, she rolled and dipped, but with ease, and with a regular slow roll, often deep enough to leave one paddle wheel out of water, high and dry in the air. The whole roll of the vessel is calculated at only 8 degrees each way, or 16 degrees in all—an everyday amount to smaller vessels, though something for one which was supposed to be immovable by wind or sea. The greatest speed was over 15 1-2 knots, or close on to 18 miles per hour.

The coroner's inquest upon the bodies washed ashore from the Royal Charter occupied several days, and resulted in a verdict that the lives were lost by pure accident; that the Captain was perfectly sober, and did all he could for the ship and passengers. 46 bodies have been found.

The Sardinian Plenipotentiary has received orders from Turin to sign the treaty of peace, and the convocation held at Paris will follow immediately.

☞A Methodist Church in Lynn, Wood End, was burnt on Sunday evening. The origin of the fire is not known. It was discovered in a closet, under the stairs. This closet was filled with kindling wood and other articles, including a barrel containing about two gallons of burning fluid.

There was at the time of the fire a Sabbath school concert in session, about 400 persons, mostly women and children, being present. They all escaped without injury.

The basement was occupied by the city as a school room during the re-building of the grammar school-house, which was burned last January. The city loses about $300 in school furniture, and the scholars attending the week-day school lost all their books, this being the third or fourth time they have lost them by fire. The loss of the society is about $10,000, on which they have insurance for $4000. This calamity falls heavily upon the society, which is not a wealthy one.

The Position of Douglas.

It would seemhardly possible, after all that has been written and said upon the subject, that erroneous views to any extent could prevail in regard to Mr.Douglas's position upon the slavery question in the Territories. Yet we find in conversing with our Democratic friends that many labor under an impression entirely the reverse of the truth in the case. So zealous and persevering have Douglas and his followers been in changing,misrepresenting and obscuring the issue, that evidently a large class of otherwise intelligent men have been led to believe that Douglas holds to the doctrine that the people of the Territories shall have the right to establish or exclude slavery when they come to form their constitutions for admission into the Union as States, and that the Administration is opposed to this doctrine.

Now we beg to assure all such that this is a totally erroneous view, and that the doctrine which they suppose Mr. Douglas to entertain upon the issue is the doctrine of the Administration, which, instead of being sustained by Douglas, is desperately opposed by him. The Administration stands square upon the Constitution and the Cincinnati platform in reference to this question, and claims that the people of the Territories shall settle the slavery question for themselves at the time when they form their constitutions; Mr. Douglas insists that they have power to settle it through the Territorial Legislatures at any time after the Territories are organized.

Considering the many changes of position and dodges of Douglas upon the issue, and the amount of dust which he and his supporters have blown into the eyes of the people, it is, perhaps, not so strange, after all, that a wrong belief should prevail to a large extent in reference to it. In the first place he held that his Kansas-Nebraska bill conferred upon the Territorial Legislature all the powers of legislation which Congress possessed in the domestic affairs of the Territory, but did not pretend that it gave the power over slavery. The Supreme Court he said must decide that question. The Court decided, in the Dred Scott case, that the act did not confer this power, and he first accepted the decision and then invented his "unfriendly legislation" dodge to destroy its force and give the power in spite of the Court. And he now absurdly contends that the States and Territories are all the same under the Constitution so far as the right to shape and control their domestic institutions is concerned, and that a Territory possesses the power at any time from the moment of its organization to establish or prohibit slavery simply by legislative enactment.

These are the vagaries of Mr. Douglas's course, and this last the position which he now holds in reference to the power of the people of the Territories upon the subject of slavery. On the other hand, we repeat, the Administration holds to the sound and constitutional doctrine that the people of the Territories possess no power over slavery until they come to form their constitutions for admission as States, when they have the right without interference to decide whether they will have it for one of their institutions or not. And it is for entertaining this just and correct view, and because it would not follow him in his tortuous and unprincipled career, that the Administration has been so bitterly and unscrupulously assailed by Douglas and his supporters.

It seems to us that thinking men will not need to reflect long to perceive that the position of the Administration is the sound, just and constitutional one, and in perfect accordance with the Democratic platform, while that of Douglas is in all respects the opposite. The Territories are the common property of the nation. They have been obtained by war or purchase, and all the States have contributed alike in their acquisition, and consequently the citizens of all the States, North and South, have a right to the enjoyment of equal privileges in them while they remain Territories. This doctrine, the doctrine of right and the Constitution, the Administration sanctions and sustains by conceding to the residents of the Territories the power to say whether they will or will not have slavery at the time when they form their constitutions to become States, but denying its exercise at any previous period; and this doctrine Douglas condemns and repudiates by claiming that the first heterogeneous gathering thrown into a Territory by the aid of Emigrant Aid Societies and led on by your old John Browns, may upon the organization of a Territy deprive the citizens of the South of their equal rights in the national domain and drive them from the Territorial limits.

Such we assure our readers who have been misled upon the subject by the flood of misrepresentation and subterfuge which has been poured out upon it, are the respective positions of the Administration and of Douglas upon the question of slavery in the Territories. The Administration stands firmly and squarely upon the true and constitutional doctrine of the Cincinnati platform, that the people of the Territories have the right to settle the slavery issue for themselves without restraint when they form their constitutions to become States: Douglas holds that they have the power to do this at any time through the Territorial Legislature, regardless of the constitutional rights of the South and the decision of the highest judicial tribunal of the land; and this is his meaning of "popular sovereignty."

☞ The gun boat Mohican is nearly completed, and will be in readiness to make a trial trip about the first of December. She will go to New York, where she is to remain a few days prior to her departure for the coast of Africa, to which station she is ordered. The statement in the New York News that the crew had been put on board is premature, though the men are expected early next week. The Mohican will take letters for the various vessels of the African squadron up to the day of her sailing, if sent to the care of the Commandant of the Portsmouth Navy Yard. Letters for the Vincennes should not be sent, as that ship has been ordered home.

The Mohican is 994 tons burthen, 233 feet long, 33 feet wide, and 16 feet deep; and will carry two 11-inch pivot guns, four 32 pounders, and one boat howitzer. Her machinery consists of a direct acting engine, with cylinders 56 inches in diameter and 30 inch stroke. The steam is to be generated by two of Martin's patent boilers, that can hold 158,000 gallons of water. The propeller is of composition, 9 feet 6 inches in diameter, 19 feet pitch, and will make 80 revolutions per minute. This ship, in point of workmanship and strength, will compare favorably with any of her class.

MOTHERS,

In presenting you with DR. EATON'S INFANTILE CORDIAL, we desire to state its superiority over every nostrum that nurse or quack has heretofore offered you.

First—It is the preparation of a regular physician, who is well qualified from much experience in infantile complaints to prescribe for them.—Secondly—It is entirely free from paregoric or opiate of any kind, and consequently relieves by removing the suffering of your child, instead of deadening its sensibilities. Thirdly—It is put up with great care, as a comparison of it with any other article for infantile complaints will show: the very roots from which it is distilled being dug from the forests under the direction of Dr. Eaton, many of them by his own hands. Fourthly—It is perfectly harmless and cannot injure the most delicate infant, and is a certain cure and relief in all the following cases, which is its chief merit over every other medicine:

FOR ALL COMPLAINTS ATTENDING TEETHING; such as DYSENTERY, COLIC, &c.; also, for softening the gums and relieving pain. For regulating the bowels it is unequalled. For Cold in the Head it is a sure relief. For CROUP, the most fatal and trying of diseases, it can be relied on with perfect confidence; and being a powerful anti-spasmodic in all cases of convulsions or fits, you cannot afford to be without it a moment in procuring it—Lastly—it costs so much more than other preparations of the kind, that we cannot afford such long advertisements as can those whose whole expense is their advertising; for the same reason, it commends itself as the most reliable to all mothers. In all cases, the directions wrapped around each bottle, must be strictly followed. Price, 25 cents per bottle.

NOT VERY GREEN.—"Hallo, Jonathan," says whiskeree, "where are you bound?" "Deoun to Bosting, on a little tramp," was the reply. "What's your business in Boston?" continued the inquisitive gentleman. "Oh, I'm deoun arter my pension money," responded greeny. "Pension money," ejaculated whiskeree; "how much do you get, and what are you drawing pension money for?" "Oh," answered the countryman, "I get four cents every year—tew mind my own business, and tew let other folks' business alone!"

A DEAR GOSPEL.—A pew in the "Brick church," New York, is offered for sale at the moderate sum of two thousand dollars, ($2,000.) This one pew would build a a handsome church in the West, and prove a blessing to many hundreds of immortal souls. The concentration of the wealth of the church of God along the Fifth avenue of the metropolis, is the curse of the cause of the Redeemer; so we believe.—*Presbyter.*

THE GRAVE.—It buries every error—covers every defect—extinguishes every resentment. From its beaceful bossom spring none but fond regrets and tender recollections. Who can look down upon the grave of an enemy, and not feel a compunctious throb that he should have warred with the poor handful of dust that lies mouldering before him?—*Washington Irving.*

A doctor was employed by a poor man to attend his wife, who was dangerously ill. "I have five pounds," said the man to the doctor, "and if you kill or cure, you shall have them." The woman died, and the doctor called for his five pounds. The man asked the doctor if he killed his wife. "No," said the doctor. "Did you cure her?" "No." "Then," said the man "you have no legal demand."

Speaking of an Anglo-French alliance, Douglas Jerrold said—"The best thing I know between France and England is—the sea."

Of the law—"It's a pretty bird, and has charming wings; it would be quite a bird of paradise, if it did not carry such a terrible bill."

Of a scoundrel—"He'd sharpen a knife upon his father's tomb-stone, to kill his mother."

"Whatever dirty-shirted philosophers may say to the contrary, flattery is a fine social thing; the beautiful handmaid of life, casting flowers and odoriferous herbs in the paths of men, who crushing out the sweets, curl up their noses as they snuff the odor, and walk half an inch higher to heaven by what they tread upon."

The most extensive and profitable slave trade now carried on is by the British at Mauritius. The natives of Malabar and Madagascar are carried there in immense numbers, the Governor receiving so much per head as a perquisite for each one that is imported. John Bull had better send his African squadron to watch his own subjects.—*Exchange.*

Queen Victoria has received from the Mahrahjah of Cashmere a shawl tent, containing a bedstead of solid gold, valued at $750,000.

Such a gift shows the Mahrahjah is "no gentleman," and Prince Albert should look after him.—*Boston Post.*

"Jeff, why am you like the cedar?" "I guv's it up, Sam, I can't tell you." "Case you stays green both Summer and Winter."

AMERICAN & FOREIGN PATENTS.
R. H. EDDY, Solicitor of Patents,
Late Agent of U. S. Patent Office, Washington, under the act of 1837.
76 STATE, OPPOSITE KILBY ST., BOSTON.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
I have no hesitation in assuring inventors they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents.
All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.
BOSTON, February 8, 1858.
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that one is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART.
From Sept 17, 1857, to June 17, 1858, the subscriber, in the course of his large practice, made on TWENTY rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in HIS FAVOR, by the Commissioner of Patents.

It requires no expense for boxing, consequently it is much cheaper than weights.
It can be applied to old as well as new buildings, without any alteration of the frames.
It does not balance by friction, but by means of a coiled spring with a cord attached, as the cords of weights.

Portsmouth, N. H.

WEDNESDAY, NOV. 23, 1859.

NEW ORLEANS, Nov. 14.

Thursday, the 10th inst., was a great day for the *Deutsche* population of this city, being no less an occasion than the celebration of the centennial anniversary of the birthday of Fred. Schiller. There was a long procession, much music, orations, and (I suspect) a little lager. The evening preceding there was a performance by a German Theatrical Company; on *that* evening, a grand concert, by the most powerful orchestra and chorus ever in this city: and on Friday the festivities closed with a Grand Ball.

On Monday evening last, Madame Uedard a fortune teller, living in Poydras street, near Carondelet, was murdered—probably for gain. Her name was Collins, her age 60, and she came from Ohio. She was found in her room with her throat cut.

The same evening, three courtezans got into a fight with one Fleury, at a beer-house on Rampart street, during which he was stabbed several times. Several days after he died, and his death was found to be the result, not of those stabs which were witnessed, but of an unnoticed stab in the crown of the head with a pocket-knife, the blade of which passed through the skull, and two inches into the brain, and was found still sticking in the skull, having broken off even with the surface.

On Tuesday night, a brutal murder was committed on Circus street, by a drunken policeman, "off duty." He shot a young man, named Hyams, in the back, causing immediate death.

On Saturday night a fire broke out in a coffee-roasting establishment on Rampart street, which destroyed a block of six three-story brick buildings, causing a loss of from $70,000 to $100,000. This was followed, on Sunday morning, by an extensive conflagration in the Fourth District, which destroyed *nine squares*, about ninety buildings, mostly dwelling-houses. The fire was aided by a strong wind and a scarcity of water, and raged from 9 A. M. until 3 P. M. It is supposed to have been an incendiary fire, and, although no lives are known to have been lost, the condition of the families subjected to this calamity is truly deplorable, many being without clothing, money, or homes.

The weather, which was very warm the past week—the thermometer ranging as high as 81—has changed, and we are treated to cold and blustering winds.

The St. Charles Theatre opened on Saturday evening, with Miss Jane Coombs as the star. The Varieties opens to-night with a powerful stock company, under the management of John E. Owens. We have one band of Campbell's Minstrels performing here at present, and another band advertised for the coming week. Iox.

☞ Peter C. Ripley, Principal of the Boys' High School, at Gloucester, Mass., has been before the Police Court, charged with an unjustifiable assault upon Jacob Gaffney, aged 15 years. Both parties appeared with counsel. The schoolmaster was fined $1.00 and costs of prosecution.

The boy was struck upon the hand and shoulder, and on drawing his hand away, was followed up by blows upon the head, a blow with the fist, and repeated throwing upon the floor, which the Justice considered was punishment excessive and severe. He also said, "that that teacher who would deliberately and intentionally strike a pupil upon any part of the head with any weapon whatever, ought in his judgment, to forfeit forever after, all claim to be considered a proper person to whom to commit the care and discipline of a school." That's what we think, and more too; any teacher who would deliberately and intentionally strike a pupil *at all*, is not fit for the office. P.

☞ We have before us the "Tenth Annual Report of the New England Female Medical College"—which is embellished with a view of the elegant College Building, on Springfield street, Boston. This cost the College $50,000, and is worth double the money. It occupies a square, measuring about one acre. Two female professors have been added to the faculty the past year, and twenty-six students have availed themselves of the instructions of the College. For the year ending Sept. 7, 1859, the expenditures were $12,378.50, and the receipts $12,572.82, leaving on hand $294.32. The funds and other property of the College amount to $10,934.30.

☞ In the next Congress are several contested seats. There is little doubt that the seat from St. Louis will be given to F. P. Blair, Jr.; and more important still is the seat from Oregon, as in case the election of President should go to the House, Oregon would count as much as New York. Mr. Logan, the Republican candidate, has already given notice that he shall contest the election of Mr. Stout, who was returned over him by some 19 votes. The seat for Nebraska and also for the new territory of Jefferson are in dispute.

OVERLAND MAIL.—The overland mail, with San Francisco dates of Oct. 31st, has reached Jefferson City. The business portion of the town of Volcanoville, in Amador County, was burned on the 29th. Loss about $50,000.

Advices from Oregon announce the arrival of Gen. Scott at Portland on the 21st of October.

Gen. Harney left Portland soon after Gen. Scott arrived, and it was supposed that he had taken offence at being superseded in his command.

WASHINGTON, Nov. 21.—The War Department to-day countermanded the order for six companies of troops from Fort Monroe, Leavenworth, to proceed to Brownsville, there appearing from the latest accounts no necessity for their proceeding thither, apart from the object of affording protection to the Rio Grand frontier.—The various speculations as to the employment of so large a force are thus dissipated.

In consequence of the recent occurence on the frontier, a suggestion has been made to the Liberal government of Mexico from a distinguised quarter, that immediate steps be taken with a view of entering upon an agreement or treaty with the government of the United States for the punishment of such outlaws as Cortinas and his men, the main feature of the arrangement being to treat offences committed on either side of the Rio Grande as against the peace of both republics, the parties to be tried and punished according to the laws of the country in which they may be arrested.

CHARLESTOWN, VA., Nov. 21.—Order prevails here now. The excitement of Saturday has subsided, and no suspicious parties have been discovered.

We have cavalry, artillery and infantry enough to encounter a small army of sympathisers.

It is rumored that Gov. Wise has received a dispatch from Gov. Chase, of Ohio, informing him that a large body of men, from 600 to 1000, are arming for rescue, under command of John Brown, Jr., and will undoubtedly start for Charlestown. Wise is said to have replied that if Gov. Chase allows them to cross the line, he will take proceedings against him for treason.

Also, a dispatch was received on Saturday from U. S. Marshal Johnson, of Ohio, stated that 600 to 1000 men were arming for a rescue in that State. John Brown, Jr., is their reported commander.

CHARLES SUMNER.—Among the passengers in the Canada, was Hon. Charles Sumner, who returns from his European trip in fine health and spirits. A large number of his personal and political friends called upon him to congratulate him upon his safe return. He was waited upon by a Committee of his political friends, who tendered a public dinner, which he respectfully declined. It had been arranged to give Mr. Sumner a complimentary serenade, but at his request it was dispensed with.

Mr. Sumner is to take his seat in the Senate at the opening of the next session of Congress.

☞ The St. Louis (Mo.) News says:

Last Monday night ten negroes, five males and five females, ran off from Lagrange, Lewis county, Mo. They belonged to seven different persons, and were worth not less than $10,000. They stole a flat-boat, with which they crossed to the Illinois shore, with the help, no doubt, of abolitionists. A reward of $2650 is offered for their arrest. On Friday night another negro, belonging to Capt. Lillard, of the same place, effected his escape, making eleven in all.

☞ At Bath, Me., as we learn from the Times, a bold assault and robbery took place Friday afternoon. A young man named John Welch, of St. John, N. B., who has been fishing the past season, was in the city, well dressed with new black frock coat, cloth cap, &c. In the afternoon a couple of miserable fellows—dissipated desperadoes—named Thomas Decker and George Remick, plied him probably with liquor, and then enticed him to accompany them, and by telling him their friends lived in a house down near Sewall's stream, induced him to leave the road and go in the direction of the Pest House. When out of sight of the road they fell upon him, stripped him of his coat and cap and tried to take his vest, rifled his pants pocket of his knife and about a dollar and a half in change,—all the money he had,—choked him by the neckerchief to stifle his cries, kicked him and struck him a heavy blow upon the arm with a stone, and, as he alleges, tried to throw him into the pond. His screams brought several persons to the spot, whereupon the robbers fled to the woods. They were watched to prevent their egress from the woods until the Marshal and his posse could be procured, and were finally arrested before dark as they attempted to escape, and lodged in the lock-up.

Saturday morning they offered to restore the stolen articles if they could be let off, but their generous offer was not accepted. The officers found the coat and cap. The robbers are in Wiscasset jail, to stay till April court.

☞ In speaking of the Bangor Union, the Bath Times says:

Of what crime the Penobscot democracy have been guilty, that they are cursed with such a scurrilous sheet, is past our comprehension. It is a fit organ of the brood of carrion birds which gobble down the mere offal of the administration.

A man who can't pay his note, is sure to become a noted person.

☞ A young lady of Edgefield, S. C., recently attended a family soiree as "The Evening News." Her dress, made entirely of newspapers, is described as being decidedly unique and very beautiful. It is said to hyve presented by candle light a resemblance to the richest brocade, so skilful and tasteful was the arrangement of its columns.

GROVER & BAKER'S SEWING MACHINE. A perfect Family Sewing Machine, answering all requirements, sewing course as well as fine stitch, strong and elastic; will not rip in wear, or in the accidental breaking of a thread. Its peculiarity is, that whenever it is required to remove a seam, either because it is desirable to refit a garment or change the fashion, it may be done without much loss of time, after receiving instruction in the method.—*Porter's Spirit.*

☞ A new Church has just been erected in the growing South part of Boston, called "the Church of the *Unity*." A Boston paper says, "the pews were appraised, and the purchasers bid for choice. The estimated par value exceeds the cost of the building and land, by $42,000, and yet the first pew brought $140!"—160 pews were sold, securing forever a fund of nearly $3000 income for expenses.

God has capacitated every human being to enjoy a certain amount of happiness.—He who would subtract the slightest portion of that sum; who, by a cross word, an evil look, a needless frown, a breath of scandal, a suspicious report, or in any other way, would infuse a single drop of bitterness into the cup of pleasure which the Creator has given his children to drink, is guilty of an offence against our common humanity—is guilty of sin against the God to whom he owes his being.—*Bath Times.*

☞ A golden eagle was shot last week on the lower St. Lawrence, while endeavoring to carry off a child three years old. This is the only bird in America that will attack the human species. They breed in the North, following at this season the birds and animals that seek a milder climate.

☞ The Bishops of the Episcopal Church, in their recent Convention, recommended to the churches the cultivation of congregational singing. They say the object of church music is not the gratification of a cultivated musical taste, but by the aid of simple and appropriate music, to awaken a devotional feeling in the congregation.

☞ Henry Holcomb, of Southwick, Mass. having beaten his wife almost to death, has fled, and the Selectmen have offered $200 reward for him. He had been a respected man, church member, &c. and was not known or supposed to be insane.

☞ A seaman who was lost overboard from ship Mercury, at sea, lately, was found and brought on board alive, at the end of three hours and a half. He had held on to a life buoy which was thrown from the ship, and though much exhausted, soon revived and got over it.

☞ The Ladies' American Magazine, for December, is a fine number of a cheap ($2 per year) but valuable publication. Henry White, New York, publisher. New volume in January.

☞ The Bath (Me.) Times, in speaking of the commutation of Capt. Holmes, says, "We rejoice that our State is not to be again stained with blood shed under the forms of law."

☞ The returns are nearly all in from the several counties of Iowa and Wisconsin, and the Republican majority proves to be very nearly 3000 in each state.

A bad workman generally quarrels with his tools.

Catarrhal Cough.

This insidious and annoying symptom, so difficult to treat, depends on a subacute inflammation of the air-passages, which is apt to end in chronic ulceration and a form of consumption. The mucous membrane of the air-passages is peculiarly susceptible to the healing influences of the PERUVIAN SYRUP, as the testimonials of some of our first citizens show.

There is no known remedy can exceed in speediness of cure, and certainty of effect, that which has become world famous as DR. HOSTETTER'S STOMACH BITTERS. In all diseases of the stomach, which are of a morbid nature, the Bitters have effected most remarkable cures when many other remedies have failed. Hundreds of certificates have been given by those who have thoroughly tested its efficacy, all of which corroborate its efficiency, when it is administered according to the directions on each bottle.
Some of the worst cases of Dyspepsia, Diarrhea and Costiveness, have been permanently cured by the use of the Bitters.
Sold by druggists and dealers generally, everywhere.

R. R. R.

On the 1st day of September, 1858, Mr. Charles Randolph called at the R. R. R. office, and stated that for ten years he had not enjoyed a single meal. He had not, for five years, had a natural discharge from his bowels; but was obliged to resort to Injections, &c. He was pale, haggard, and thin. We ordered Radway's Regulators, one each night, and Radway's Resolvent, three times per day. On the eighth of September he called upon us.
HE WAS SO ALTERED THAT WE KNEW HIM NOT.
His appetite is good—his digestion easy—his skin moist and healthy—his step elastic and buoyant—his body vigorous, and his eye indicates a man of health and energy.
For Liver Complaint, Dyspepsia, Difficulties of the Urethra and Bladder, Radway's Regulator and Renovating Resolvent are a quick and positive cure. For all Aches and Pains, for Neuralgia and Rheumatism, for Nervous and Bilious Complaints, Radway's Ready Relief is quick and effectual. In five minutes' time after its application, the patient is free from pain.
Sold by Druggists everywhere.

THE OXYGENATED BITTERS.

Nature, in her great laboratory, has stored some remedy adapted to every disease which "flesh is heir to." But it requires the investigation and research of the philosopher to discover and apply this remedy. Such research and investigation has succeeded in discovering a remedy for that most afflictive dispensation, the

DYSPEPSIA!

With all its lesser and numerous evils; and it may be safely asserted that until the appearance of the *Oxygenated Bitters*, a case of Dyspepsia cured was a rare experience in medical practice. Now, under the influence of these Bitters the rule is to *cure*, the rare exception, failure to cure.
Read the following, which the subscriber requests us to publish for the benefit of the afflicted:

Obdurate and Inveterate Case of Dyspepsia cured by the Oxygenated Bitters.

The following from a gentleman well known in the region in which he lives ought to satisfy all those of little faith:

WATERTOWN, N. Y., July 28, 1858.

S. W. FOWLE & CO., Boston.—*Sirs,*—Nine years since I was attacked by that curse of all diseases, *Dyspepsia*, which so affected me as to cause great oppression, fullness, and bloating of the bowels, immediately after eating, accompanied with terrible pains in the stomach, often occasioning nausea, vomiting, acidity, and headache, together with general debility and suffering, altogether rendering life a burthen.
After having tried every known remedy without effect, and despairing of ever regaining my lost health, I was induced to make use of the Oxgenated Bitters, the good effects of which were immediately visible on my health and system. Before using a whole bottle I was entirely cured; and I feel a pleasure inducing all like sufferers as myself to make use of this remedy.

GROVER & BAKER'S

Celebrated Family Sewing Machines.

NEW STYLES. — PRICES FROM $50 TO $125.

HEMMERS, $5 EXTRA.

OVER THIRTY THOUSAND IN USE.

These Machines sew from two spools, purchased from the store, requiring no rewinding of thread, and finishing each seam by their own operation, without recourse to the hand needle, as is required by other machines. On account of their simplicity, durability, ease of management and adaptation to all varieties of family sewing they execute either heavy or fine work with equal facility, and without special adjustment.

THE NEW MACHINES INTRODUCED BY THE

GROVER & BAKER

SEWING MACHINE COMPANY

Are of elegant finish, and their operation is quiet and very quiet. The EASE with which they may be managed is a distinguishable feature, and the stitch is the strongest, handsomest, and most elastic of any made.

What is specially claimed for the "Grover & Baker" machine is—

That it makes a *stronger* and *handsomer* seam than is made by hand or by any other machine.
That it makes a more *elastic* seam, which will withstand the tests of wear, and washing and ironing, better than that made by any other machine.
That the speed at which it can be used is higher than any other, and the power required to operate it is less than that required by any other machine.
That it is nearly noiseless in its operation.
That its construction is more simple, and its liability to disarrangement less than any other.
That it can be quicker learned, more easily kept in order, got ready for use, and changed from one quality or grade of work, than any other.
Its applicability to the entire range of Family Sewing—from the finest and most delicate texture to the heavier and coarser fabrics.
That it uses thread or silk from the ordinary *spools*—no re-winding—no shuttles or bobbins to fill.
That it finishes its work and fastens the end of every seam; each stitch is independent of its neighbor.

Is there a husband, father or brother, who will permit the drudgery of hand-sewing in his family when a GROVER & BAKER Machine will do better, more expeditiously, and cheaper than it possibly be done by hand?

TESTIMONIALS.

PORTSMOUTH, April 12, 1859.

Having tested the merits of the various Family Sewing Machines, in the manufacture of Capes and Raglans, we unhesitatingly recommend the Grover & Baker, as far superior to the others.
ALLEN & PAYNE.

PORTSMOUTH, July 16, 1859.

If you wish to purchase a machine that will work handsomely and strongly, and will be liable to get out of repair, call on Mr. Whitney in Daniel street, see the operation of Grover & Baker's machine, and then place one in your family. They will never consent to part with it when they understand its operation.

CITY ELECTION.

Hon. John R. Reding is elected Mayor, having 634 votes; Robert Lefavour, Esq. had 597: scattering 5—total 1236.

In Ward 1, the Republicans have elected part of their ticket; but there are two vacancies in the board of Aldermen, and four in the Common Council, to be filled.

In Ward 2, the Republican, and in Ward 3, the Democratic ticket was elected in full.

This gives a republican majority in the Common Council, however the vacancies may be filled;—and leaves a chance for a tie in the Board of Aldermen, should two democrats be elected in Ward 1.

Last year the whole vote for Mayor was 1374, and Mr. Morrison had 137 majority; in March '58 he had 70; and in '57 he had 89.

The vote is 138 less than last year for Mayor, and 100 less on all the tickets; owing partly to the stormy weather, and partly to lack of interest in all but the first ward.

The vacancies are to be filled on Friday. The returns of *scattering* votes from Ward 1, (which caused the vacancies there,) were not handed in to us,—but the reader will see that the vote was so close that a very little cutting or scratching would defeat the choice.

THE FIRST SNOW for the season (except, perhaps, a few stray flakes the other day) fell on Monday night; and sloppy enough was the "going" on Tuesday. Early in the morning, Dr. Baker was out with one of his snow-ploughs, with a horse and driver, or rather leader; and after an hour or so of good exercise,—all the more beneficial to him because of service to others,—they had cleared most of the sidewalks in the central business part of the city. The work was done quietly, quickly and neatly; and abundantly proved the practical value of the snow-ploughs, to all spectators. The Dr. has spent considerable money, and devoted much time, to this matter, solely for the public good; and offers his ploughs to the city, for trial. It would seem worth while to test them.

☞ On Monday afternoon, about sunset, when the twilight was dimmed with snow clouds, a lady and her housemaid observed a man pass and re-pass on the back side of a large and well furnished mansion in this city. The lady, seeing a cloak like her husband's, as she looked down upon the man from a chamber, thought it might be all right, though she was not quite sure of it.—But the girl in the kitchen was so satisfied of some theft, that, without knowing the cloak, she pursued the man into the street, without stopping to put on a bonnet.

She demanded to know what he was after, and charged him with stealing. He answered with a threat to knock her down if she did not leave. But she pursued him closely through several streets, to the distance of a mile or more, and asked assistance of several men to apprehend the thief,—but all were either afraid or uncertain, and so at last the thief escaped, with a good broadcloth cloak, worth $25 or so. He has been so described by the girl, as for the police to feel sure they had him in the lock-up on Sunday night; and he is evidently a tippler as well as a thief.

Just as we had written so far, Mr. Beck, the City Marshal, stepped in to inform us that he had the thief in the lock-up, and has found the cloak where he concealed it.

The thief may be one of the men who came in the boat Ella; and if the Gloucester or Annisquam people can describe the boat thief they saw, and give his name, residence and former crime, it may help the ends of public justice.

☞ Perham's Excusion to Boston, Saturday, though very much damaged by the storm, was yet a very pleasant occasion for the two or three hundred who did go. Such muddy, slippery, slimy walking, as it was in Boston, though, was a caution to black boots and clean pants, and horror to dimity, fine hosiery and gaiters. The Ravels' performances at the Boston Theatre were capital, of course; and among the large audience were many of the excursionists.

BIRTHS.—The Sentinel newspaper, published at Keene, N. H., has a regular heading of "Births," similar to those of Marriages and Deaths; from which we cut the following in their last issue:

In Keene, Nov. 15, a daughter to Frank S. Fiske.—Nov. 8, a son to N. G. Gurnsey.—Nov. 12, a son to Robert McKnight.

We intend to publish a list of Births in Portsmouth and the neighboring towns, commencing with the new year, if we can perfect our arrangements to secure a complete record.

THE ATLANTIC MONTHLY for December is out, full of sparkle and vigor. The number closes the fourth volume of the Atlantic. The new publishers, Ticknor & Fields will not fail to make it all, and more, than it has been in the past. For sale by John H. Locke.

STOVE STORE REMOVED.

URIAH BLAISDELL

Has removed his Stove and Furnishing Establishment one door north, to the spacious and convenient store

Nos. 53 & 55 Market Street,

where he is receiving and arranging a large and valuable Stock of

STOVES, TIN WARE, &c.,

Which he offers for sale at wholesale and retail, at very low prices. He has a great variety of the best and most popular Stoves, among which are:

1. **The Stewart Cook Stove,** with the latest improvements. This is an air-tight Cook Stove, for Wood or Coal; it has movable coverings, which can confine the heat in the stove, or let it out into the room; has a reservoir of hot water 10 or 20 gallons, and a tin closet beneath;—a top cover, which is a great institution for baking, and will keep a coal fire all night; it has a Dutch Oven for roasting in front of the Stove;—and it is every way a most convenient and durable Stove. There are 4 sizes.

The following recommendation of Stewart's Stove, is from an eminent engineer, and must be satisfactory to all who wish to understand the value of this excellent Stove:

Portsmouth, N. H., Nov. 5, 1859.
Mr. Blaisdell:—Seven years ago I moved to this city, and sold, before I came, a "Stewart's Air Tight Cooking Stove," which I had used about five years. During that time no repairs or expense had been made upon it. Since I have been here I have tried the various Cooking Stoves in use, and I think for economy and durability the "Stewart" excels them all. I wish you would take away the Stove I now have from my house, and set up one of Stewart's as soon as you can. Your ob't servant,
B. F. CHANDLER.

2. **Boston & Maine Cook Stove;**
3. **White Mountain;**
4. **Empire State;**
5. **Enterprise;**

AYER'S SARSAPARILLA,

A compound remedy in which we have labored to produce the most effectual alterative that can be made. It is a concentrated extract of Para Sarsaparilla, of combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will a complish their cure must be of immense service to this large class of our afflicted fellow citizens. How completely this compound will do it, has been proven by experiment on many of the worst cases to be found in the following complaints:—

SCROFULA AND SCROFULOUS COMPLAINTS, ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUM, SCALD HEAD, SYPHILIS AND SYPHILITIC AFFECTIONS, MERCURIAL DISEASE, DROPSY, NEURALGIA OR THE DOULOUREUX, DEBILITY, DYSPEPSIA AND INDIGESTION, ERYSIPELAS, ROSE OR ST. ANTHONY'S FIRE, and indeed in the whole class of complaints arising from Impurity of the Blood.

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud.—Multitudes can, by the aid of this remedy, spare themselves from the distress of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions or sores;—cleanse it when you find it is obstructed or sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with the pabulum of life disordered, there can be no lasting health. Scores of other complaints must go wrong, and the great machinery of life is disordered or overthrown.

Sarsaparilla has, and deserves much, the reputation of accomplishing these results. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it contain but little of the virtue of Sarsaparilla, or anything else.

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsparilla for one dollar. Most of these have been a fraud upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Hence bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall restore the name from the odium of obloquy which rests upon it. And we think we have grounds for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure the speedy eradication from the system, the remedy should be judiciously taken according to directions on the bottle.

DR. J. C. AYER & CO.,

Ayer's Cherry Pectoral

Has won for itself such a renown for the cure of every variety of Throat and Lung Complaint, that it is entirely unnecessary for us to recount the evidence of its virtues, whenever it has been employed. As it has long been in constant use throughout this section, we need not do more than assure the people its quality is kept up to the best it ever has been, and that it may be relied on to do for their relief all it has ever been found to do.

THE ONLY ARTICLE

UNRIVALLED IN THE MARKET,

WITH IMMENSE

HOME AND EUROPEAN DEMAND.

The reason why, is that by Nature's own process it restores the natural color permanently after the hair becomes gray; supplies the natural fluids, and thus makes it grow on bald heads, removes all dandruff, itching, and heat from the scalp, quiets and tones up the nervous system, and thus cures all nervous headache, and may be relied upon to cure all diseases of the scalp and hair; it will stop and keep it from falling off; *makes it soft, glossy, healthy and beautiful*, and if used by the young two or three times a week it will never fall or become gray; then, render, read the following and judge for yourselves:

NEW YORK, Jan. 8, 1858.

MESSRS. O. J. WOOD & CO.,

Gentlemen: Having heard a good deal about Professor Wood's Hair Restorative, and my hair being quite gray, I made up my mind to lay aside the prejudices which I, in common with a great many persons, had against all manner of patent medicines, and a short time ago I commenced using your article, to test it for myself.

The result has been so very satisfactory that I am very glad I did so, and in justice to you, as well as for the encouragement of others who may be as gray as I was but who having my prejudice without my reasons for setting it aside, are unwilling to give your Restorative a trial till they have further proof, and the best proof being occular demonstration, I write you this letter, which you may show to any such, and also direct them to me for further proof, who am in and out of the N. Y. Wire Railing establishment every day.

My hair is now its natural color and much improved in appearance every way, being glossier and thicker and much more healthy looking. I am, yours respectfully, HENRY JENKINS.

Cor. Columbia and Carroll Sts., Brooklyn.

LIVINGSTON, Ala., Feb. 14, 1858.

PROF. WOOD—Dear Sir: Your Hair Restorative has done much good in this part of the country. My hair has been slightly diminishing for several years, caused, I suppose, from a slight burn when I was quite an infant. I have been using your Hair Restorative for six weeks and I find that I have a fine head of hair now growing, after having used all other remedies known, to no effect. I think it the most valuable remedy now extant, and advise all who are afflicted that way to use your remedy.

You can publish this if you think proper.

Yours, &c. S. W. MIDDLETON.

PHILADELPHIA, Sept. 9, 1857.

PROF. WOOD—Dear Sir: Your Hair Restorative is proving itself beneficial to me. The front, and also the back part of my head almost lost its covering—was in fact BALD. I have used but 2 half pint bottles of your Restorative, and now the top of my head is well stocked with a promising crop of young hair, and the front is also receiving its benefit. I have tried other preparations without any benefit whatever. I think from my own personal recommendation, I can induce many others to try it. Yours, respectfully,

D. R. THOMAS, M. D.,
No. 464 Vine Street.

The Restorative is put up in bottles of three sizes, viz: large, medium, and small; the small holds half a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent. more in proportion, and retails for $3 a bottle.

DR. J. B. HUGHES,

Knowing that there are at this moment thousands of persons in the surrounding towns, suffering their lives to the insidious inroads of certain dangerous maladies, who still suffer from the reluctance to make known their complaints and consult a physician, he would state that any of his medicines will be sent by express or otherwise, to all who may order them, provided the true description of the disease be sent by letter and directed as above.

Full and explicit directions will accompany every package, and the most inviolable secrecy preserved.

DR. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of disease which have been improperly treated by empyrics have come under his care and more than three-fourths of this number were inscribed upon his books as perfect cures.

Patients treated by letter by addressing Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed from scrutinizing friends.

Be particular in finding Dr. Hughes. Do not be lured from the right path, or be persuaded to the experiments with false and fictitious remedies at the expense of destroying what is the great gift of life, a healthy constitution.

This medicine can only be obtained at the Office of Dr. HUGHES, 13 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE RENOVATING PILLS. These pills are unrivalled in efficacy and superior virtue in regulating all female irregularities. Their action is specific and certain, producing relief in a short space of time. They are acknowledged to be the best in use.

The Dr. cautions the public to beware of impositions that are being practiced by advertising spurious article under some spurious or fictitious name. They are entirely useless, having been fitted up by miserable pretenders who are entirely ignorant of the efficacy of medicines.

All who are in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.

These pills can be sent to any part of the country with directions. Remember the number—13 Howard street, Boston.

P. S.—The best of accommodations furnished with kind and attentive nurses if they wish, at a reasonable rate. 13 ly

☞ Mr. Marble of Lynn, Mass., has been blasting at the Dungeon Rock for eight years, hoping to obtain the treasure of Captain Kidd. Guided in his labors by clairvoyants and spiritualists, he has, with the assistance of his son, blasted a passage-way, about eight feet in height and breadth, nearly one hundred feet into the solid rock. The last blast developed a fissure, from which issued a current of foul air that will extinguish a flame held over it. Mr. Marble believes he has less than ten feet to go to reach the long sought cave.

☞ Perham tried to make arrangements for an Excursion from Boston, &c., to Harper's Ferry: but the Baltimore & Ohio Railroad refused to allow him reduced terms, and would doubtless have declined to carry his party at any price.

☞ Henry Ward Beecher charges that in the American edtion of Spurgeon's sermons, his sentiments on slavery, contained in the English editions, have been suppressed.

AMERICAN & FOREIGN PATENTS.
R. H. EDDY, Solicitor of Patents,
Late Agent of U. S. Patent Office, Washington, [illegible] of 1857.
76 STATE, OPPOSITE KILBY ST., BOSTON.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
I have no hesitation in assuring inventors they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents.
All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.
BOSTON, February 8, 1853.
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that one is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART.
From Sept. 17, 1857, to June 17, 1858, the subscriber, in the course of his large practice, made on CONVICTIONS rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in HIS FAVOR, by the Commissioner of Patents.
Boston, Jan. 1, 1859. R. H. EDDY.

Morning Chronicle.

Portsmouth, N. H.

THURSDAY, NOV. 24, 1859.

THANKSGIVING DAY,

This year, is more generally and simultaneously appointed, we think, than in any former year. A cotemporary says, truly, from a New England custom, begun in the early days of the pilgrim fathers, it has become almost universal. For the present year, such a festival occasion has been announced in more than a score of States. It is pleasant to think of the multitudes, both old and young, who have been, with glad expectation, anticipating the coming of Thursday, this 24th of November. The happy meetings and the hearty greetings on the previous evening and on the morning of this day,—could they be seen and heard,—would awaken a sensation of joy in the saddest heart. For the people of New England, there is no need of describing the scenes of a day of Thanksgiving. They are too well understood, and with rare exceptions really enjoyed.

The supplies for man and beast are ample. If any, through sickness or misfortune, are stinted in their means and fail of a needed sufficiency, there is benevolence in the community that will impart from its superabundance. His Excellency the Governor, in his proclamation, specially enjoins upon the people of the State the practice of benevolence. "Let the occasion," he says, "be not only observed as one of religious joy and christian thankfulness, but let it also be marked by special acts of humanity, benevolence and charity."

The Governor recommends to all the people of the State "to assemble in their respective places of public worship." Too many have no place to which they resort for public worship at any time, and too many who *have* places to which they go on the Sabbath, forget or neglect to assemble there on the day appointed for Thanksgiving.

The congregations in our own good city of Portsmouth, however, we think, have not materially diminished on Thanksgiving day, of late years; they *did* diminish, many years ago, and for these five and twenty years have *remained* small—exactly as preparatory lectures have.

We would like to see this practice so changed for the better, as to have full congregations to-day.

A PAIR OF PORTRAITS.—The Washington States & Union says:

Seward should be taught that patriotism disdains friendly intercourse with treason—that its hand is too pure to be touched by the hand of the man who engendered the doctrine of the *irrepressible conflict*.

This is one picture: now let us look at the other. The Richmond Enquirer said, in 1856:

Two opposite and *conflicting* forms of society cannot, among civilized men, co-exist and endure. The *one* must give way and *cease* to exist—the *other* become *universal*.

If *free* society be unnatural, *immoral* and unchristian, it must fall and give way to slave society—a social system old as the world, universal as man.

The reader will please to observe that the Enquirer speaks of the conflict as irrepressible, universal, and inextinguishable, until one destroys the other—and then suggests that *free* society is unchristian and must give way to the beautiful and christian state of slavery!

HORSE CENSUS.—The following curious account is given in Appleton's Cyclopedia, of the number of horses in the various parts of the world:—

"The general estimate has been eight or ten horses in Europe for every hundred inhabitants. Denmark has forty-five to every hundred inhabitants, which is more than any other European country. Great Britain and Ireland have 2,500,000 horses; France, 3,000,000; Austrian empire, exclusive of Italy, 2,000,000; Russia, 3,500,000. The United States have 5,000,000, which is more than any European country; the horses of the whole world are estimated at 57,320,000.

☞ In Boston, Monday afternoon, the Grand Jury of the Superior Court returned four indictments—each for forgery—against Isaac F. Shephard, late Treasurer of the People's Five Cents Savings Bank. The defendant waived reading the indictments, and pleaded not guilty. The Court fixed the bonds of Shepard at $5000 on each indictment, which, together with bail of $12,000 on a charge of larceny, makes the total amount of bonds $32,000. In default of bail Shepard was committed.

☞ Capt. McClintock has been notified that the Queen, in consideration of the brilliant success by which his late expedition to the Arctic regions was attended, has been pleased to order that, from April, 1857, to September, 1859, during which time he was in command of the yacht Fox, shall count to him as sea time. This favor can only be granted by the sovereign, and is rarely exercised.

☞ The income of the Pope of Rome, for personal expenses, is but four thousand dollars a year. For that he serves as King of the Papal States and as the head of the largest church in Christendom.

☞ At No. 5 Lucas street, Boston, Tuesday morning, a young sail named James Wigmore, attempted to murder a young woman named Wilson, with whom he had passed the night. Wigmore had been acquainted with the Wilson woman for several years, and has at various times urged her to marry him. Tuesday morning, he repeated his request, and was repeatedly refused, when, in a fit of jealous frenzy, he took a dagger from his pocket and drew the edge across her throat, inflicting a deep gash. He also stabbed her in the breast. She resisted him and took the dagger from him, fighting desperately, and screaming for help. She is from New Hampshire, probably from Wolfboro' or vicinity. Her right name is believed to be Sarah Jane Vittam. Wigmore is a Welshman, about 35 years of age, and confesses his guilt.

☞ A printer named George H. Polson, working in the Boston Advertiser office, jumped out of a window in a house on Harrison avenue, overhanging the Worcester Railroad track, to pick up a pair of scissors dropped by his wife, and while upon the track was struck by a train and knocked down, the cars passing over his left arm, cutting it off below the elbow. He also had a slight bruise upon his head. He was able to climb back into the window, leaving his arm upon the track. The people employed upon the train never suspected an accident had occurred till a cap was found on the cow-catcher after the train reached the depot.

☞ The canvass on State Senators in New York, at the recent election, affords the fairest test of the relative strength of the Republican and Democratic parties. In no district were there *three* candidates, and a hand-to-hand fight was had between the Republicans and all their opponents. The result discloses an absolute Republican majority of over 35,000.

☞ The Washington States & Union newspaper says:—

We must go to the root of the evil. We must regard nothing as *right* that is not strictly *lawful*.

It would read better, says Uncle Toby, if we should say, "we must regard nothing as *lawful* that is not strictly *right*.

☞ In the case of Shaler, who was supposed to be poisoned by his young wife, at Canton, Dr. Jackson analyzed the stomach of the deceased with great care, and found no traces of arsenic or other mineral poison. The jury found a verdict of death by disease of the lungs.

Mrs. Shaler is held on charge of adultery.

☞ Four Irishmen, in order to save the bridge toll, undertook to cross the Connecticut river in a skiff at Chicopee on Saturday. There being a high wind, and the waves running high, the boat was swamped, and three of the four men were drowned.

☞ The one-eyed Kentucky Hunter, now dead, is said to be, beyond a doubt, the sire of the little bay mare, Flora Temple. Four half brothers, as well as Madame Temple, are owned by R. C. Alexander, of Woodburn, Ky.

☞ We learn from the Traveller that after deducting expenses, the amount secured to the family of John Brown, by the meeting at the Tremont Temple, on Saturday evening, will reach four hundred dollars.

☞ Purchasers of Dry Goods in Boston, will do well to note the advertisement of the extensive house of G. W. Warren & Co., in another column. Rare inducements are offered.

☞ A woman named O'Neil, of intemperate habits, was found dead in a well in Randolph, Mass., on the morning of the 13th inst. She was partly dressed, and is supposed to have left her bed in the night and got into the well.

HOAX. — The Tribune dispatch from Washington says that "the excitement at Harper's Ferry is manufactured and kept up in order to influence the organization of the House. It's a democratic trick."

☞ In Boston, Mr. Mansfield, one of the Ex-Commissioner's bondsmen, has attached the stock of liquors of the Commission to secure his demands against Mr. Burnham.

☞ It is stated that £15,000 have been realized by the exhibition of the Great Eastern at Holyhead. Since the vessel was launched up to the present, £120,000 has been netted by her exhibition.

☞ By the will of the late Dea. Anderson of Windham, N. H., the N. H. Missionary and N. H. Bible Societies will each receive $500 from his estate, within two years from his decease.

DOVER MUNICIPAL ELECTION.—Albert Bond, Republican, is elected Mayor by 126 majority. For city officers the Republicans carry every ward and have 350 majority in the city.

☞ Mrs. Richardson, of Raymond, N. H., was found lying lifeless at the foot of the cellar stairs of her residence, on Sunday.—She is supposed to have fallen accidentally.

Why is a man poking a wood-fire like a rum-seller? Because he *stirs* the *brand-he-punches*.

LOSS OF A LARGE STEAMSHIP.—Schooner Victoria, arrived at Halifax Nov. 21st, passed within 600 yards, on Monday, of a large steamer broken across on the rocks, off Mary Joseph, Guysboro', a town almost at the eastern extremity of the main land of Nova Scotia, and near the Gut of Canso.—Her mizzen mast alone was standing. There were many fishing boats about her. The description answers the Cunard steamship Delta, which plies between Bermuda, Halifax, and St. Johns, N. F., carrying the mail. The Delta left Halifax on Saturday for Newfoundland, and is likely to have gone on the rocks at the place stated on Saturday night or Sunday. It is not likely that there were many persons on board, and the hope is indulged that their lives have been preserved.

☞ Webster's Unabridged Dictionary, pictorial edition, is advertised in our columns to-day; and the book is so well known by all literary men, and so generally approved, as to need no notice of ours. From a great crowd of notices by others, we select the following:

We consider that the additions have more than doubled the value of the work for ordinary use.—*Ind. School Jour.*

The illustrations are finely cut and printed, and form a novel and valuable feature. *Ala. Educational Journal.*

We may safely say that Webster's Dictionary, Pictorial Edition, Unabridged, is the most complete Dictionary of the English Language that we have ever seen. In the completeness of its vocabulary of our language, and in the accuracy and fullness of its definitions, Webster's Dictionary stands preeminent; and in orthography it is followed by a majority of American writers, so far as our observation extends.—*N. Carolina Journal of Education.*

It has retained all the good of its predecessors, and has added new and valuable improvements. * * Hon. Horace Mann has said, "It is the best defining Dictionary in the English language;" and eminent scholars, like Wm. H. Prescott, Daniel Webster, and others have declared themselves decidedly in favor of the accuracy and extent of its definitions. * * In this respect (pronunciation) Webster's works appear to us at least as good and authoritative as any we have seen.—*Massachusetts Teacher.*

☞ Mrs. Holcomb, of Southwick, Mass. is recovering from her wounds inflicted by her husband. He was hard-headed—she was jealous, and so they lived miserably together.

Some one has suggested that, to ensure domestic felicity, the husband should be deaf and the wife dumb. Make the children blind, and the picture would be perfect.—*Bath Times.*

☞ Woman's "Forte," is her Piano, says Mr. Punch, and puts the *not* in Lord Palmerston's mouth.

"A great lie," says the poet Crabbe, "is like a great fish on dry land; it may fret and fling, but it cannot hurt you. You have only to keep still, and it will die of itself."

☞ Ten negroes valued at $10,000, escaped from Lagrange, Mo., into Illinois, on the night of the 14th last.

English Courtesies—"If there be any virtue in our rifled cannon, we shall shell these barbarians out of their nest without quarter. *London paper.*

The Winner at Brag—New York. She has Five Points.

What kind of a doctor would a duck make? A quack doctor.

An exchange says the *Honey Moon* is the sweetest of all planets.

Why is an attorney like a minister? Because he studies the law and the *profits*.

Catarrhal Cough.

This insidious and annoying symptom, so difficult to treat, depends on a subacute inflammation of the air-passages, which is apt to end in chronic ulceration and a form of consumption. The mucous membrane of the air-passages is peculiarly susceptible to the healing influences of the PERUVIAN SYRUP, as the testimonials of some of our first citizens show.

There is no known remedy can exceed in speediness of cure, and certainty of effect, that which has become world famous as DR. HOSTETTER'S STOMACH BITTERS. In all diseases of the stomach, which are of a morbid nature, the Bitters have effected most remarkable cures when many other remedies have failed. Hundreds of certificates have been given by those who have thoroughly tested its efficacy, all of which corroborate its efficiency, when it is administered according to the directions on each bottle.

Some of the worst cases of Dyspepsia, Diarrhea and Costiveness, have been permanently cured by the use of the Bitters.

Sold by druggists and dealers generally, everywhere.

R. R. R.

On the 1st day of September, 1853, Mr. Charles Randolph called at the R. R. R. office, and stated that for ten years he had not enjoyed a single meal. He had not, for five years, had a natural discharge from his bowels; but was obliged to resort to Injections, &c. He was pale, haggard, and thin. We ordered Radway's Regulators, one each night, and Radway's Resolvent, three times per day. On the eighth of September he called upon us.

HE WAS SO ALTERED THAT WE KNEW HIM NOT.

His appetite is good—his digestion easy—his skin moist and healthy—his step elastic and buoyant—his body vigorous, and his eye indicates a man of health and energy.

For Liver Complaint, Dyspepsia, Difficulties of the Urethra and Bladder, Radway's Regulator and Renovating Resolvent are a quick and positive cure. For all Aches and Pains, for Neuralgia and Rheumatism, for Nervous and Bilious Complaints, Radway's Ready Relief is quick and effectual. In five minutes' time after its application, the patient is free from pain.

Sold by Druggists everywhere.

THE OXYGENATED BITTERS.

Nature, in her great laboratory, has stored some remedy adapted to every disease which "flesh is heir to." But it requires the investigation and research of the philosopher to discover and apply this remedy. Such research and investigation has succeeded in discovering a remedy for that most afflictive dispensation, the

DYSPEPSIA!

With all its lesser and numerous evils; and it may be safely asserted that until the appearance of the *Oxygenated Bitters*, a case of Dyspepsia cured was a rare experience in medical practice. Now, under the influence of these Bitters the rule is to *cure*, the rare exception, failure to cure.

Read the following, which the subscriber requests us to publish for the benefit of the afflicted:

Obdurate and Inveterate Case of Dyspepsia cured by the Oxygenated Bitters.

The following from a gentleman well known in the region in which he lives ought to satisfy all those of little faith:

WATERTOWN, N. Y., July 28, 1858.

S. W. FOWLE & CO., Boston.—*Sirs*,—Nine years since I was attacked by that curse of all diseases, *dyspepsia*, which so affected me as to cause great oppression, fullness, and bloating of the bowels, immediately after eating, accompanied with terrible pains in the stomach, often occasioning nausea, vomiting, acidity, and headache, together with general debility and suffering, altogether rendering life a burthen.

After having tried every known remedy without effect, and despairing of ever regaining my lost health, I was induced to make use of the Oxgenated Bitters, the good effects of which were immediately visible on my health and system. Before using a whole bottle I was entirely cured; and I feel a pleasure inducing all like sufferers as myself to make use of this remedy.

Fousel's Pabulum Vitæ.

☞ THE GREAT FRENCH REME[DY] possesses extraordinary properties for the speedy permanent cure of CONSUMPTION, BRONCHITIS, COUGHS, COLDS, and all PULMONARY DISEASES. This celebrated specific is now universally acknowledged to be infinitely superior to all other preparations for the cure of Pulmonary Complaints, both from its innocent nature and most astonishing curative properties; *it being the only remedy known that will arrest the development of disease in the Lungs or restore the vital functions of the pulmonary organs to their normal condition.* The remarkable properties have obtained for it the highest recommendation and praise from some of the most eminent physicians and chemists in the world, while the best and surest proofs of its merits are afforded by the numerous testimonials of its wonderful efficacy in conquering disease, which are constantly received from our most respectable citizens. Invalids in all stages of pulmonary disease should not fail to give it a trial, as it can be administered to the most delicate and feeble with perfect safety and certain relief; and we insert a few testimonials for their encouragement, selected from hundreds of like import.

Certificate of Dr. A. A. HAYES, in reference to the unequalled virtues of this great discovery.

This preparation, by chemical analysis, is proved to be free from opium, or any of its compounds; nor were any of the alkaloids found. It does not contain any mercurial or mineral substance, but consists wholly of volatile vegetable agents, which afford vapors freely at a moderate temperature. Most of the substances previously officinally used in alleviating pulmonary diseases, but the device by which they are combined is new and original, and adapts the compound to inhalation, or other modes of administration.

Respectfully,
A. A. HAYES, M. D., State Assayer.

16 Boylston St., Boston, Dec. 1857.

In the Boston Transcript of December 1857, the editor says:—

"We have seen a letter from an eminent physician of this city, in which he says:—I find *Fousel's Pabulum Vitæ* in several cases of Bronchial disease, and in some with great benefit. I know of no remedy equal to it for children, where a mild but nutritious diet is essential; or for adults with weak stomachs, or having a tendency to rejection of medicines given for coughs, etc. I shall continue to use it in my practice."

Testimonial from the Sisters of Charity, of St. Vincent's Orphan Asylum, in Boston.

BOSTON, July 1[illegible]

To Mr. F. LAFORME, Agent:

"The Sisters are happy to state that, having used *Fousel's Pabulum Vitæ*, they have found it efficacious in several instances, for bad coughs and colds. Signed by the SISTERS OF CHARITY.

Testimonial from a well-known Apothecary.

BOSTON, March 1[illegible]

J. F. LAFORME, Esq.:

Sir—I have been suffering for a considerable length of time from a severe cough, and in vain had recourse to nearly all the remedies in use. My cough began to give me much uneasiness from its serious effects on my system. Three days' use of *Fousel's Pabulum Vitæ* gave me to complete health. The medicine is now lost in this market, I had recourse to it last; and now confidently recommend it as the best medicine I know of. Yours, truly,

CHAS. H. FOSTER.

In the Boston Post, Sept. 24, 1858, the Post says:

"An extraordinary cure of Consumption recently come to our knowledge, effected by the instrumentality of *Fousel's Pabulum Vitæ*. The evidence of which is in the handwriting of the subject, Mr. Wm. F. Brigham, No. 130 Allen street, this city. It seems that for eighteen months he had been exhibiting all the usual symptoms of Consumption, and that after having had recourse to the skill of various physicians, without benefit, he had to abandon his business and be confined to his house. Hearing of *Fousel's Pabulum Vitæ*, and of several remarkable cures effected by it in cases as desperate as his own, he concluded to try it as a forlorn hope. The result has been happy—he has now entirely recovered, and is engaged in his usual pursuits. It is such well attested cases as this that we take pleasure in bringing before our readers, since, by so doing, valuable lives may be saved, and much suffering averted.

It is sold at the low price of 50 cents, and $1 per bottle, thus placing it within the reach of all classes. F. J. LAFORME, sole Agent, 36 Water st. M. S. POLICE COURT.—Before Justice Odell, James Ford plead guilty to the charge of stealing a cloak, (the same mentioned in Chronicle of Wednesday,)—and was sentenced to 20 days in jail, to pay $20 damages, and $3,86 costs.

Henry Nutter plead guilty of making a brawl and tumult; was fined $5; costs $3,86,—and went to jail.

John Marden plead guilty to a charge of wilfully breaking windows,—and was held to bail in $200, for the higher court. The same Marden for being drunk was fined $3; costs $3,86. Went to jail.

☞ A very neat and modest mulatto woman called at the Chronicle Counting Room on Wednesday, and exhibited the most abundant and satisfactory testimonials that she and her errand are what she represents them to be, viz.

That she was the first female slave in Kansas,—was born in slavery and held in Missouri, was badly treated, and was finally sold to a benevolent, but not rich gentleman in Kansas, who appraised the value of her services, and set her free when she had lived with him long enough to reimburse him for the price he paid.

That she has redeemed one of her children from slavery, by the donations of friends,—and is seeking to redeem another in the same way, who now lives a slave in the town of *Liberty*, state of Missouri.

She has been kindly and generously received in many places, and is undoubtedly as worthy an object as any recipient of such charity. Her name is Melinda Nolly—and she will thankfully receive the donations of our citizens, on whom she may call.

☞ A gentleman informs us that he counted—while walking from the corner of Auburn and Middle streets to the Chronicle Office—fifty-nine children with baskets, begging bread or "something for Thanksgiving." The needy and destitute should be provided for, but it is a hard matter to discriminate between those who are really in want and the impostors.

☞ Snow fell in Portsmouth, on Monday night, to the depth of three or four inches, and the copious rain of Tuesday washed it away, to the great benefit of streams, springs, mills, &c. Snow fell generally over the State on Tuesday; and also on Wednesday.

☞ As all the Chroniclers will be busy in "keeping Thanksgiving" to-day, of course we can print no Daily on Friday.—Our Weekly is issued this morning.

FROM HARPER'S FERRY.—*Charlestown, Va., Nov.* 22.—Yesterday was spent in a grand military parade and review by Gov. Wise. During the afternoon Gov. Wise and his staff had a long interview with the prisoners, urging them to prepare for death, as the sentence of the Court would be carried out without any interference on his part. Brown declared himself prepared to die, and justified his course, only regretting his error in not allowing the train to pass.—Cook was willing to be shot, but always had a great repugnance to hanging. Gov. Wise said he was the only one he thought of commuting, but he had now determined to hang them all. Gov. Wise yesterday received a dispatch from the Governor of South Carolina, tendering any amount of military aid in defence of Virginia.—Wise replied, thanking him for the offer, but assuring the Governor that Virginia was able to defend herself.

The Richmond military were all ordered home yesterday, but the people protested, declaring that if there was any necessity for them to come, that necessity still existed. The result was Gov. Wise ordered two companies to remain, and also the Petersburg Artillery.

Several of the Richmond companies started for home this morning, and others will go to-morrow.

Gov. Wise and staff, left this morning; he expresses the intention of having a thousand military present on the day of execution.

Harper's Ferry, Nov. 22—*Evening.*—Gov. Wise and staff are here stopping with Col. Barbour, Superintendent of the Armory.

The Governor states that he has made every provision to protect the community and the prisoners. He has no doubt of a determined and thorough organization throughout the northern and western States, to rescue Brown, and exhibits a number of letters from responsible parties in Pennsylvania, Ohio, and New York, urging him to be prepared for parties forming in those States.

The Blues go to Martinsburg to-night, and Col. Smith of the Virginia Military Institute, with the Cadets and some Howitzers, have been ordered to Charlestown.—Gov. Wise will return to Richmond to-morrow.

NORFOLK, Va., Nov. 22.—The performances of the United States sloop-of-war Narragansett have proved unsatisfactory.

The schooner Minnehaha, of Maine, has been seized for violation of the inspection laws.

The United States steamer Water Witch left to-day for the Gulf.

CARLISLE, Pa., Nov. 22.—Over an hundred students of Dickinson's College have rebelled on account of the suspension of four members of the senior class.

LOVE AND SUGAR.—"Do you believe in second love, Mrs. McQuade?" Do I believe in second love? Humph! If a man buys a pound of sugar, isn't it sweet? and when it's gone don't he want another pound, and isn't that sweet, too? Troth, Murphy, I believe in second love."

A parson cornered a farmer whom he seldom saw at his ministration, by asking him, directly, after a little reproof of his sin of omission: "Shall we see you at church next Sabbath?" "Y-e-s," he replied, slowly; "yes, I'll go—or send a hand."

Gen. George Washington Dixon, formerly Duke of Yucatan, and now Earl of Poydras Market, was cowhided in said market last evening by a woman who insisted that he had twice insulted her in the market aforesaid.—N. *O. Crescent, 5th inst.*

ONE SIDED CONSTRUCTION.—Many of us, too many of us, are apt to attribute a bad motive to a good action; but few of us, when a poor fellow has been guilty of a bad action, ever think of attriuting a good motive to it.

CLEVELAND, Nov. 22.—Marshal Johnson of Ohio says that the report of his having sent a message to Gov. Wise relative to the rescue of Brown is untrue.

PORTLAND, Nov. 23.—Steamship Indian is a total wreck. She went ashore at 5 A.M. 21st inst., off Mary Joseph, N. S. Three men lost.

[This is the steamer referred to above.]

MEXICO.—*Mobile, Nov.* 22.—Sch. Mary Clinton has arrived from Vera Cruz, 11th inst. It was reported that Miramon had joined Marquez, and that both had fled the country, on board a British steamer, taking $2,000,000 of specie, seized by Marquez, whereupon Miramon's army had pronounced for Santa Anna.

Has removed his Stove and Furnishing Establishment one door north, to the spacious and convenient store

where he is receiving and arranging a large and valuable Stock of

STOVES, TIN WARE, &c.,

Which he offers for sale at wholesale and retail, at very low prices. He has a great variety of the best and most popular Stoves, among which are:

1. **The Stewart Cook Stove,** with the latest improvements. This is an air-tight Cook Stove, for Wood or Coal; it has moveable coverings, which can confine the heat in the stove, or let it out into the room; has a reservoir of hot water 10 or 20 gallons, and a tin closet beneath;—a top cover, which is a great institution for baking, and will keep a coal fire all night; it has a Dutch Oven for roasting in front of the Stove;—and it is every way a most convenient and durable Stove. There are 4 sizes.

The following recommendation of Stewart's Stove, is from an eminent engineer, and must be satisfactory to all who wish to understand the value of this excellent Stove:

Portsmouth, N. H., Nov. 5, 1859.
Mr. Blaisdell:—Seven years ago I moved to this city, and sold, before I came, a "Stewart's Air Tight Cooking Stove," which I had used about five years. During that time no repairs or expense had been made upon it. Since I have been here I have tried the various Cooking Stoves in use, and I think for economy and durability the "Stewart" excels them all. I wish you would take away the Stove I now have from my house, and set up one of Stewart's as soon as you can. Your ob't servant,
B. F. CHANDLER.

MOTHERS.

In presenting you with DR. EATON'S INFANTILE CORDIAL, we desire to state its superiority over every nostrum that nurse or quack has heretofore offered you.

First—It is the preparation of a regular physician, who is well qualified from much experience in infantile complaints to prescribe for them.—Secondly—It is entirely free from paregoric or opiate of any kind, and consequently relieves by removing the suffering of your child, instead of deadening its sensibilities. Thirdly—It is put up with great care, as a comparison of it with any other article for infantile complaints will show: the very roots from which it is distilled being dug from the forests under the direction of Dr. Eaton, many of them by his own hands. Fourthly—It is perfectly harmless and cannot injure the most delicate infant, and is a certain cure and relief in all the following cases, which is its chief merit over every other preparation.

FOR ALL COMPLAINTS ATTENDING TEETHING; such as DYSENTERY, COLIC, &c.; also, for softening the gums and relieving pain. For regulating the bowels it is unequalled. For Cold in the Head it is a sure relief. For CROUP, the most fatal and trying of diseases, it can be relied on with perfect confidence; and being a powerful anti-spasmodic in all cases of convulsions or fits, we earnestly recommend you to loose no time in procuring it—Lastly—it costs so much more than other preparations of the kind, that we cannot afford such long advertisements as can those whose whole expense is their advertising; for the same reason, it commends itself as the most reliable to all mothers. In all cases, the directions wrapped around each bottle, must be strictly followed. Price, 25 cents per bottle.

BLOOD FOOD.

Dr. Bronson, being been so far relieved by consumption, as to be considered beyond all hope of recovery by the most eminent of the medical profession, has also by himself—a regular physician—been cured of a CONSUMPTION, and effect of the most immediate connection, and effect of BLOOD, and applying the subject of philology connected the idea of ANALYZING THE BLOOD, and by the application of the result, Bronson was restored to perfect health. Within six months after his introduction, over 300 consumptives were restored to perfect health. Within six months after its introduction, over 300 consumptives were restored to perfect health. AYER'S SARSAPARILLA,

A compound remedy in which we have labored to produce the most effectual alterative that can be made. It is a concentrated extract of Para Sarsaparilla, of combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will a complish their cure must be of immense service to this large class of our afflicted fellow citizens. How completely this compound will do it, has been proven by experiment on many of the worst cases to be found in the following complaints:—

SCROFULA AND SCROFULOUS COMPLAINTS, ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, TUMORS, SALT RHEUM, BLOTCHES, SCALD HEAD, SYPHILIS AND SYPHILITIC AFFECTIONS, MERCURIAL DISEASE, DROPSY, NEURALGIA OR TIC DOULOUREUX, DEBILITY, DYSPEPSIA AND INDIGESTION, ENLARGEMENTS, ROSE OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD.

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud.—Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions or sores;—cleanse it when you find it is obstructed or sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health and live live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with the pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.

Sarsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it contain but little of the virtue of Sarsaparilla, or anything else.

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Hence bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and we do so because it is the best we can give the name from the load of obloquy which rests upon it. And we think we have grounds for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to accomplish the complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.

DR. J. C. AYER & CO.,

COMPOUNDED ENTIRELY FROM GUMS,

is one of the best PURGATIVE and LIVER MEDICINES now before the public.

THE ONLY ARTICLE
UNRIVALLED IN THE MARKET,
WITH IMMENSE
HOME AND EUROPEAN DEMAND.

The reason why, is that by Nature's own process it restores the natural color permanently after the hair becomes gray; supplies the natural fluids, and thus makes it growing on bald heads, removes all dandruff, itching, and heat from the scalp, quiets and tones up the nerves, and thus cures all nervous headache, and may be relied upon to cure all diseases of the scalp and hair; it will stop and keep it from falling off; *makes it soft, glossy, healthy and beautiful*, and if used by the young two or three times a week it will never fall or become gray; then, reader, read the following and judge for yourselves:

NEW YORK, Jan. 8, 1858.

MESSRS. O. J. WOOD & CO.,

Gentlemen: Having heard a good deal about Professor Wood's Hair Restorative, and my hair being quite gray, I made up my mind to lay aside the prejudices which I, in common with a great many persons, had against all manner of patent medicines, and a short time ago I commenced using your article, to test it for myself.

The result has been so very satisfactory that I am very glad I did so, and in justice to you, as well as for the encouragement of others who may be as I was, sceptical as but who having my prejudices shaken out my reasons for setting it aside, are unwilling to give your Restorative a trial till they have further proof, and the best proof being occular demonstration, I write you this letter, which you may show to any such, and also direct them to me for further proof, who am in and out of the N. Y. Wire Railing establishment every day.

My hair is now its natural color and much improved in appearance every way, being glossier and thicker and much more healthy looking. I am, yours respectfully, HENRY JENKINS.

Cor. Columbia and Carroll Sts., Brooklyn.

LIVINGSTON, Ala., Feb. 14, 1858.

PROF. WOOD—Dear Sir: Your Hair Restorative has done much good in this part of the country. My hair has been slightly diminishing for several years, caused, I suppose, from a slight burn when I was quite an infant. I have been using your Hair Restorative for six weeks and I find that I have a fine head of hair now growing, after having used all other remedies known, to no effect. I think it the most valuable remedy now extant, and advise all who are afflicted that way to use your remedy.

You can publish this if you think proper.

Yours, &c. S. W. MIDDLETON.

PHILADELPHIA, Sept. 9, 1857.

PROF. WOOD—Dear Sir: Your Hair Restorative is proving itself beneficial to me. The front, and also the back part of my head almost lost its covering—was in fact BALD. I have used but 2 half pint bottles of your Restorative, and now the top of my head is well studded with a promising crop of young hair, and the front is also receiving its benefit. I have tried other preparations without any benefit whatever. I think from my own personal recommendation, I can induce many others to try it. Yours, respectfully,

D. R. THOMAS, M. D.,
No. 464 Vine Street.

The Restorative is put up in bottles of three sizes, viz: large, medium, and small; the small holds half a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars; and the large holds a quart, 40 per cent. more in proportion, and retails for $3 a bottle.

DR. J. B. HUGHES,

Knowing that there are at this moment thousands of persons in the surrounding towns, suffering their lives to the insidious inroads of certain dangerous maladies, who still suffer from the reluctance to make known their complaints, and consult a physician, he would state that any of his medicines will be sent by express or otherwise, to all who may order them, provided the true description of the disease be sent by letter and directed as above.

Full and explicit directions will accompany every package, and the most inviolable secrecy preserved.

DR. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of disease which have been improperly treated by empyrics have come under his care, and more than three-fourths of this number are inscribed upon his books as perfect cures.

Patients treated by letter by addressing Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed, from scrutinizing friends.

Be particular in finding Dr. Hughes. Do not be lured from the right path, or be persuaded to try experiments with false and fictitious remedies at the expense of destroying what is the great pillar of life, a healthy constitution.

This medicine can only be obtained at the Office of Dr. HUGHES, 13 Howard street, Boston.

DR. J. B. HUGHES'S UNIVERSAL FEMALE RENOVATING PILLS. These pills are unrivalled in efficacy and superior virtue in regulating all female irregularities. Their action is specific and certain, producing relief in a short space of time. They are acknowledged to be the best in use.

The Dr. cautions the public to beware of impositions that are being practiced by advertising a spurious article under some spurious or fictitious name. They are entirely useless, having been got up by miserable pretenders who are entirely ignorant of the efficacy of medicines.

All who are in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.

These pills can be sent to any part of the country with directions. Remember the number—13 Howard street, Boston.

P. S.—The best of accommodations furnished, with kind and attentive nurses if they wish, at a reasonable rate. 2 dly

AMUSEMENTS.

The sermon of Dr. Peabody, preached on Thanksgiving day, at his church, deserves to be cherished by all who heard it, and it would be well if all thus favored would practise upon the important and truthful principles therein set forth. His text was taken from Ecclesiastes—"There is a time to weep and a time to laugh, a time to mourn and a time to dance." His remarks were directed to that part of the text relating to recreative amusements. The same expenditure of physical or mental force was often devoted to play, as to work, yet one was recreative and the other laborious. The difference was defined to lie in the *responsibility* which attached to labor applied to produce a result, and the absence of responsibility in connexion with the recreative exercise. The one was labor *for* end, and the other labor *as* an end. Athletic sports for the body, or chess for the mind, were often as laborious in themselves as the hardest labor of the workshop, or the study of the higher mathematics; and yet, when practiced as a recreation, are productive of the best results, in actually relieving the body and mind from the toils of monotonous labor. Human nature craves amusement, and the more of innocent, hearty recreation is provided, the less will men resort to the gratification of their lower appetites, in their natural craving for recreation.

Our Puritan fathers, who could hardly admit of any recreative pleasures, and who deemed a hearty laugh almost a sin, were driven to devote themselves to the only gratification which their strict principles had not condemned—to drinking.

In this connexion surprise was expressed that from some respectable sources the idea had been put forth that intellect and wit gave not forth their most brilliant flashes except through the influence of wine. Was it so? Had the New England mind become so degraded that genial wit and flow of soul could not be had except under a disguise attended with most imminent danger to the virtue and reputation of its possessor?

To return to amusements: the true test of all innocent recreation should be—is it of such a nature as not to conflict with one's spirit of thankfulness to God as the giver, or upon which we might with propriety ask the blessing of Heaven? Of such amusements and recreative pleasures, we may well increase the number, and thereby diminish the number of those who, for want of such innocent recreations, resort to those of a more degrading and dangerous character.

In our reflections upon the subject suggested here, we were led to think that very little amusement of a public and creditable kind exists with us in our city. Had it not been for the personal enterprise of a few citizens, we should have had no Lyceum lectures at all this winter. We have no public gymnasium, not even a respectable dancing hall; no respectable bowling alley is accessible for those who like such exercise apart from a drinking bar. We have no theatrical amusements; our quiet families are found at home, little heeding that, in hundreds of saloons so called, or dens with shutters closing on the outside world, vice of all sorts presents itself to hundreds of willing victims, who seek what they must have, and find nowhere else, recreation.

Let those who are satisfied so long as they can find their wants supplied in the home circle and the social gathering of neighbors, remember that there is a larger class in our community for whom amusements and recreation should be provided—the clerk, the apprentice, the operative, ay, your own sons growing up around you! When shall they find that recreation in their leisure hours, for which a longing is implanted in their nature, and which must be gratified, innocently or otherwise, depending upon the thoughtfulness of those who may reason and who should *act* upon the subject. X.

LEGAL DIVISIONS.—In Massachusetts, the Supreme Court has decided in a case where exceptions were taken to the rulings of the lower court, that the previous acquittal of a defendant of the offence of keeping a tenement for the illegal sale of intoxicating liquors, is no defence to an indictment for being a common seller of intoxicating liquors in the same building during a part of the same time.

A charge of selling intoxicating liquors is supported by the proof of the sale of lager beer, without evidence that lager is intoxicating.

☞ Mr. J. G. Blaine, lately the editor of the Portland Advertiser, has just left that establishment, as he says, "owing to circumstances which he cannot control and which he greatly regrets." He speaks favorably of "the patrons and readers of the paper, from whom he parts with unfeigned reluctance, and with whom he may resume his connection at some future day."

A Blunder Buss—Kissing the wrong woman.

UNCLE TOM'S REAL CABIN.—The site of the cabin formerly occupied by "Uncle Tom," the hero of Mrs. Stowe's work, in Indianapolis, is now occupied by a two-story frame building. When the cabin was torn down, pieces of it were preserved and sent to many of Mrs. Stowe's friends. The locust trees that surrounded the old negro's house have been carefully preserved, and are all the marks that indicate the site of the cabin. The spot, which was formerly entirely outside the city of Indianapolis, is now in the centre of the business portion of the city, and the stream which rippled but a few steps from Tom's door is now nowhere to be seen, having been given a new course and, consequent upon the grading of the streets, confined within arches and hidden from view.

☞ A fashionable boarding establishment on Brooklyn Heights, N. Y., was on Sunday morning very much scandalized by the discovery that the landlord's lady and one of the boarders had disappeared. The lady had left the house of her husband, a highly respectable gentleman, at an early hour Saturday morning, ostensibly for the purpose of going a-shopping, and sailed for Europe. The lady had, up to the time of this melancholy event, sustained an unblemished reputation, and the Herald says she was a member of H. W. Beecher's church. She leaves three children, the oldest of whom is about twelve years. Her companion, a young man, is reputed to be possessed of no personal attractions, beyond the sum of $20,000.

☞ Last week a young man named Hertzel, aged 21 years, was shot by another named Delbert, aged 18, in Schuyler Co., N. Y. A difficulty had occurred between the two at a corn husking. They met on Sunday night going home from a religious meeting, when Hertzel attacked the other, and throwing him down, commenced beating him, and in that position Delbert drew a pistol and shot the other dead.

☞ Speculators at Harper's Ferry have been turning the Old Brown excitement to account by manufacturing bogus "Ossawatomie" pikes and selling them to passengers in the cars. The railroad company finally put an end to this speculation by interdicting the sale and driving the pike venders from the platform.

☞ The office of Sergeant-at-Arms of the House of Representatives at Washington, was worth over thirty thousand dollars last year, and will produce more next, if the investigations are ordered which are now anticipated, the fees being increased by the number of witnesses summoned.

SENTENCE OF DR. HOWARD. — Dr. Howard, who was convicted at Bradford, Vt., of causing the death of Miss Olive Ashe, by procuring abortion, has been sentenced to two years' hard labor in the Vermont State Prison.—the Supreme Court sustaining the ruling of the County Court.

☞ Billy Birch was arrested in Sacramento for playing with his minstrels on Sunday, thereby violating the law to prohibit barbarous and noisy amusements on the Sabbath. He was tried before a jury, who brought in a verdict of "not guilty" without leaving their seats.

☞ A lady named Jackson went to a meat market in New Haven, Saturday, and told the butcher to cut some meat for her, and as she indicated by her hand the piece she wanted, the knife of the dealer cut off two of her fingers.

☞ Archbishop Cullen and the Roman Catholic clergy of Dublin have lately held a meeting to express their sympathy with the Pope in "the persecutions he is subjected to." Is he troubled by the ghosts of the murdered inhabitants of Perugia?

CRANBERRIES.—The total amount of Cranberries raised this year in the towns of Harwick, Dennis and Brewster, Cape Cod, is estimated at 1986 barrels, and their value at $23,622, averaging nearly $12 per barrel.

☞ Dr. Cheever's Society in New York have voted down the fast trustees, and approved the appeal to England for aid. At a recent meeting, which continued to one in the morning, the trustees and the society had a lively time punching each other.

☞ The people of Milford have chosen a committee of five gentlemen to make arrangements for a public meeting on the 2d of December, the day of John Brown's execution.

☞ The Voice of Free Masonry says there are now 4,802 Masonic Lodges in the United States and British possessions, with 212,000 members.

☞ It is said that Bayard Taylor realized $4500 as the receipts, after deducting all expenses, of his two months' lecturing tour through the States.

SPRIGHTLY CHARITY.—They are going to have a dance in Windsor, Conn., the proceeds of which will be applied to the relief of a dying, sick, and destitute citizen.

☞ A prayer for the President of the United States has been introduced into the services of the English Church at Geneva, Switzerland.

A TRUE SNAKE STORY.—A correspondent of the Claremont Eagle vouches for the veracity of the following, as it was told by an eye-witness, the mother of the child, the wife of a clergyman, then living in Chesterfield, Cheshire county, N. H., at the parsonage—an old-fashioned square white house, with old-fashioned belongings, chief of which was a well, the old oaken bucket being balanced by a large stone attached to the well rope, which passed over pulleys across the woodshed, thence down into the chaise house, upon the floor of which the stone rested.

The stone was a favorite seat with the romping children, and particularly desirable when water was wanted at the well, for as the bucket was lowered, the stone would rise, making it quite a feat for the adventurous urchins to maintain their seat up to the chamber floor and down again.

Among the children was a little three years old boy—at this present writing a professional gentleman, living in Connecticut—quiet and gentle in his manners, whose modest demand for "bread and milk" was seldom slighted. The frequent demand and unaccountable supply consumed, together with the fact that the little fellow always toddled away out of sight to dispose of it, at length aroused the curiosity of the mother.

Cautiously she stole after him to the chaise-house, and was just in time to see him, after carefully seating himself on the stone, rap with his spoon on the underpining, at which a huge spotted adder made his appearance between the child's feet, and rearing his head even with the dish, waited patiently his turn to be fed,—his share being every other spoonful. Occasionally his hunger would get the better of his manners, and he would attempt to make a dip into the bowl; but a gentle tap on the head with the spoon, and a "no, no!" from the little boy immediately restored him to good behavior.

Astonishment and curiosity conquered the terror of the mother, and she left them to quietly finish their meal together. But the next time little Henry rapped for his pretty companion to share his dinner, the signal was unanswered—his snakeship having been prudently disposed of.

Sydney Smith was dining at Highgate one day, where he met with the Rector of Hornsby, who was very learned, very rich, and very religious. The Rector, like a good man as he was, reflected very severely upon the improvidence of the poor, and also upon their increasing numbers, which he considered a great evil. He wound up his diatribe by saying, that the great evil of the day was the surplus population.

"I quite agree with you," retorted Sydney Smith, "the *surplice* population is becoming a great evil."

☞ The prisoners at Charlestown, Va., are represented as keeping up good spirits, and employing their time chiefly in writing letters.

☞ The Philadelphia Ledger is printed on paper made from the stalks of the Chinese Sugar Cane.

One day a beggar-man, who had long been known as the do-no-good of the place where he lived, met another laden with two panniers. On asking what was in them, and being told that they contained rags and bones, he exclaimed, "Well, then, toss me in, for I'm nowt else."

By the rules of war, it is death to stop a cannon ball.

Portsmouth, Sept. 3, 1859,

Catarrhal Cough.

This insidious and annoying symptom, so difficult to treat, depends on a subacute inflammation of the air-passages, which is apt to end in chronic ulceration and a form of consumption. The mucous membrane of the air-passages is peculiarly susceptible to the healing influences of the PERUVIAN SYRUP, as the testimonials of some of our first citizens show.

There is no known remedy can exceed in speediness of cure, and certainty of effect, that which has become world famous as DR. HOSTETTER'S STOMACH BITTERS. In all diseases of the stomach, which are of a morbid nature, the Bitters have effected most remarkable cures when many other remedies have failed. Hundreds of certificates have been given by those who have thoroughly tested its efficacy, all of which corroborate its efficiency, when it is administered according to the directions on each bottle.

Some of the worst cases of Dyspepsia, Diarrhea and Costiveness, have been permanently cured by the use of the Bitters.

Sold by druggists and dealers generally, everywhere.

R. R. R.

On the 1st day of September, 1858, Mr. Charles Randolph called at the R. R. R. office, and stated that for ten years he had not enjoyed a single meal. He had not, for five years, had a natural discharge from his bowels; but was obliged to resort to Injections, &c. He was pale, haggard, and thin. We ordered Radway's Regulators, one each night, and Radway's Resolvent, three times per day. On the eighth of September he called upon us.

HE WAS SO ALTERED THAT WE KNEW HIM NOT.

His appetite is good—his digestion easy—his skin moist and healthy—his step elastic and buoyant—his body vigorous, and his eye indicates a man of health and energy.

For Liver Complaint, Dyspepsia, Difficulties of the Urethra and Bladder, Radway's Regulator and Renovating Resolvent are a quick and positive cure. For all Aches and Pains, for Neuralgia and Rheumatism, for Nervous and Bilious Complaints, Radway's Ready Relief is quick and effectual. In five minutes' time after its application, the patient is free from pain.

Sold by Druggists everywhere.

THE OXYGENATED BITTERS.

Nature, in her great laboratory, has stored some remedy adapted to every disease which "flesh is heir to." But it requires the investigation and research of the philosopher to discover and apply this remedy. Such research and investigation has succeeded in discovering a remedy for that most afflictive dispensation, the

DYSPEPSIA!

With all its lesser and numerous evils; and it may be safely asserted that until the appearance of the *Oxygenated Bitters*, a case of Dyspepsia cured was a rare experience in medical practice. Now, under the influence of these Bitters the rule is to *cure*, the rare exception, failure to cure.

Read the following, which the subscriber requests us to publish for the benefit of the afflicted:

Obdurate and Inveterate Case of Dyspepsia cured by the Oxygenated Bitters.

The following from a gentleman well known in the region in which he lives ought to satisfy all those of little faith:

WATERTOWN, N. Y., July 28, 1858.

S. W. FOWLE & CO., Boston.—*Sirs*:—Nine years since I was attacked by that curse of all diseases, *Dyspepsia*, which so affected me as to cause great oppression, fullness, and bloating of the bowels, immediately after eating, accompanied with terrible pains in the stomach, often occasioning nausea, vomiting, acidity, and headache, together with general debility and suffering, altogether rendering life a burthen.

After having tried every known remedy without effect, and despairing of ever regaining my lost health, I was induced to make use of the Oxgenated Bitters, the good effects of which were immediately visible on my health and system. Before using a whole bottle I was entirely cured; and I feel a pleasure inducing all like sufferers as myself to make use of this remedy.

THEO. CALDWELL.

GROVER & BAKER'S

Celebrated Family Sewing Machines

NEW STYLES. — PRICES FROM $50 TO $125.

HEMMERS, $5 EXTRA.

OVER THIRTY THOUSAND IN USE.

These Machines sew from two spools, as purchased from the store, requiring no rewinding of thread, and finishing each seam by their own operation, without recourse to the hand needle, as is required by other machines. On account of their simplicity, durability, ease of management and adaptation to all varieties of family sewing they execute either heavy or fine work with equal facility, and without special adjustment.

THE NEW MACHINES INTRODUCED BY THE

GROVER & BAKER

SEWING MACHINE COMPANY

Are of elegant finish, and their operation is rapid and very quiet. The EASE with which they can be managed is a distinguishable feature, and the stitch is the strongest, handsomest, and most elastic of any made.

What is specially claimed for the "GROVER & BAKER" machine is—

That it makes a *stronger* and *handsomer* seam than is made by hand or by any other machine.

That it makes a more *elastic* seam, which will withstand the tests of wear, and washing and ironing, better than that made by any other machine.

That the speed at which it can be used is higher than any other, and the power required to operate it is less than that required by any other machine.

That it is nearly noiseless in its operation.

That its construction is more simple, and its liability to disarrangement less than any other.

That it can be quicker learned, more easily kept in order, got ready for use, and changed from one quality or grade of work, than any other.

Its applicability to the entire range of Family Sewing—from the finest and most delicate texture to the heavier and coarser fabrics.

That it uses thread or silk from the original *spools*—no re-winding—no shuttles or bobbins to fill.

That it finishes its work and fastens the end of every seam; each stitch is independent of its neighbor.

Is there a husband, father or brother, who will permit the drudgery of hand-sewing in his family when a GROVER & BAKER Machine will do better, more expeditiously, and cheaper than is possibly be done by hand?

TESTIMONIALS.

PORTSMOUTH, April 13, 1859.

Having tested the merits of the various popular Sewing Machines, in the manufacture of Ladies' Capes and Raglans, we unhesitatingly recommend the Grover & Baker, as far superior to the others. ALLEN & PAYNE.

PORTSMOUTH, July 16, 1859.

If you wish to purchase a machine that will work handsomely and strongly, and will not be liable to get out of repair, call on Mr. Whittemore, in Daniel street, see the operation of Grover & Baker's machine, and then place one in your family. They will never consent to part with it, after they understand its operation.

CITY ELECTION.

The adjourned meeting in Ward 1, took place on Friday forenoon, to fill vacancies, which was accomplished before 12 o'clock. The balloting was:

Aldermen.

Republican.		Democratic.	
James Moses, 3d	232	Uriah Blaisdell	184
John Chase	232	Amos S. Alexander	184

Common Council.

Calvin S. Hodgdon	232	Charles T. Emery	184
John H. Downing	232	Joseph S. Turner	184
Henry T. Cate	232	Herman Remick	184
Oliver Hanscom	232	Charles W. Gerrish	184
		John Stokell	14

This result gives the republican party a majority (three-fourths) of the Aldermen and Common Council. The democratic party elected the Mayor.

The 14 votes for Mr. Stokell were thrown by persons who probably thought five candidates were to be voted for. It would be reasonable to throw out all ballots that bore more names than the proper number;—for if a voter, when he ought to vote for 4, votes for 5, and they are counted, then he may vote for 500, and have them counted,—and thus defeat a whole election.

☞ One especial cause for Thanksgiving, with every enlightened well wisher to our city and country, was the non-election of any foreign-born citizens to office, at the late voting. When any party can't find among its members, Americans enough to govern America, the sooner that party disbands, the better.

SNOW PLOWS FOR THE SIDEWALKS.—*Messrs. Editors*,—I notice in your generous article on the snow plows, that no one but myself seems to get any credit for their introduction. Not wishing to take any more credit than belongs to me, allow me to say that Chas. W. Walker, Esq., furnished me the horse for the last snow, and still offers to furnish him without compensation, how long I am not authorized to say.

Mr. Bright also has had a snow plow in operation, more or less, for some years, and I doubt not, with some improvements with it, in Ward One, he would make a good path all winter as fast as fifty men could with their shovels, and earlier too, if the citizens of that ward or the city government would compensate him for it.

The expense of running a plough, after the horse is trained, would be about one dollar and a half per hour, or *fifty cents per mile*; consequently, the difference in expense and time between the plow and shoveling, can be easily estimated; and if the plows are properly managed, have an earlier and better path. If the man and horse were properly equipped, we could have the paths made at any time, and in any kind of weather, when men that shovel would not like to be exposed to the storm. At the risk of repetition, allow me again to ask, would it not be well for the wardens of churches, citizens and city government, to give attention to the business, before the snow gets trodden down, or the ice freezes on the walks, so that we shall have all winter, what we have had past seasons, a difficult and dangerous path to walk in?

Three plows, one for each ward, and about three hours for each, are enough for the whole city. SAMUEL BAKER.

☞ Miss Susie C. Cluer, with assistance from her father, Mr. John C. Cluer, of Boston, gave two very successful entertainments of Readings, at the Temple, Thursday and Friday evenings. The audiences, which were fair, were highly pleased. Miss Cluer has grown to be quite a fine young lady, since her last appearance before our citizens, when but a mere child; and she certainly reads remarkably well.

☞ Reports of the probable death of "Sol Holmes, the barber," are rife in the city, brought by a man who professes to be a Sound steamboat hand. As it is also said, he brought none of Holmes' baggage back with him, some folks are inclined to doubt the story, and think Sol is yet in the land of the living.

☞ We learn that Naval Constructor Grice has received orders granting him six months leave of absence, and detaching him from the navy yard on this station, to take effect Dec. 1.

☞ The Ballot says Samuel C. Lamos did not feign a conversion and change of heart, but his pardon from State Prison was granted in consequence of the precarious state of his health.

☞ What more beautiful and acceptable present, than a year's subscription to the Cosmopolitan Art Association? See advertisement in another column; and the splendid Engravings at Mr. Cobb's Music Store.

☞ We have received from Messrs. G. & G. H. Tilden, Keene, the publishers, a copy of a new edition of L. W. Leonard's North American Spelling Book, conformed to Worcester's Dictionary.

☞ The Ballot says that Hon. Amos Tuck of Exeter was tendered the vacant seat on the Supreme Court bench, and declined the honor.

STEAMER INDIAN.—A dispatch from Sackville, Nov. 25, says the Canadian iron screw steamer Indian, from Liverpool, 5th inst., for Portland, struck on a sea ledge near Maria Joseph, on Monday, 21st. She had 38 passengers, with crew numbering 100, 300 tons cargo, and some specie.

Half an hour after striking, the steamer parted amidships. One boat capsized, by which several were drowned; another boat stove alongside; two more boats, with passengers and crew, drifted to sea and have not since been heard from.

Schooner Alexander, Capt. Shellnut, was the first to render assistance, and arrived at Halifax on Thursday, with 24 of the rescued on board. The number of lives lost is not yet known.

Schooner Lutea ran close to the wreck, went among the breakers, and became a total wreck. Crew saved.

☞ Thanksgiving Day made a pause in the newspapers and their dispatches; but they begin to come again. One of them (by authority) *contradicts* the rumor that Gov. Packer of Pennsylvania offered Gov. Wise 10,000 soldiers to stand along the line or elsewhere. But it is true that there were fresh alarms at Charlestown, Va., on the 23d, in the evening, when an alarm was given, by one of the sentinels firing his rifle. Military orders were sounded, and caused great panic until 10 o'clock, when it was ascertained that the sentinel had mistaken a cow for a man, that he challenged her—she would not halt, and he fired! At 3 o'clock next morning another alarm was occasioned by the reports of three guns. A sentinel came in and reported having killed three men, who instead of halting fired at him.—Scouts were sent out, but no men could be found, and the town was in an uproar the rest of the night.

It is said the soldiers regard it as a frolic, and it is believed that some of them were under the influence of whisky, and were playing pranks on their comrades.

The Selma (Ala.) Reporter says: Mrs. Watson, who is pretty extensively engaged in the importation of camels, is in the city with some seven of the odd-looking animals. She will exhibit them at the State Fair, which is to begin at Montgomery on Monday next, and we hope she may receive a premium for each, as well as *one for herself*. Mrs. Watson is said to be the widow of a deceased officer of the U. S. Army. She is a very intelligent as well as a handsome lady, and we wish her all sorts of good luck in her enterprise.

EVADING PUNISHMENT.—One of the assistant female teachers in one of the public schools in Cincinnati undertook to chastise a little urchin, a few days ago, and the little scamp raised her garments and took refuge beneath her hoops. She was compelled to agree to a truce before the impudent little chap would come out.

One never knows what freedom means, till one has seen those who are not free.—Oh, the virtue that there is in being free, if only to go to the devil one's own way! A nation can never sink itself so deep into his realms, as a conqueror can trample it.—*Ex.*

An Irish pedagogue recently informed his pupils that the feminine gender should be applied to all ships and vessels afloat, except *mail*-steamers and *men*-of-war.

STOVE STORE REMOVED.

URIAH BLAISDELL

Has removed his Stove and Furnishing Establishment one door north, to the spacious and convenient store

Nos. 53 & 55 Market Street,

where he is receiving and arranging a large and valuable Stock of

STOVES, TIN WARE, &c.,

Which he offers for sale at wholesale and retail, at very low prices. He has a great variety of the best and most popular Stoves, among which are:

1. **The Stewart Cook Stove,** with the latest improvements. This is an air-tight Cook Stove, for Wood or Coal; it has moveable coverings, which can confine the heat in the stove, or let it out into the room; has a reservoir of hot water 10 or 20 gallons, and a tin closet beneath;—a top cover, which is a great institution for baking, and will keep a coal fire all night; it has a Dutch Oven for roasting in front of the Stove;—and it is every way a most convenient and durable Stove. There are 4 sizes.

The following recommendation of Stewart's Stove, is from an eminent engineer, and must be satisfactory to all who wish to understand the value of this excellent Stove:

Portsmouth, N. H., Nov. 5, 1859.

Mr. Blaisdell:—Seven years ago I moved to this city, and sold, before I came, a "Stewart's Air Tight Cooking Stove," which I had used about five years. During that time no repairs or expense had been made upon it. Since I have been here I have tried the various Cooking Stoves in use, and I think for economy and durability the "Stewart" excels them all. I wish you would take away the Stove I now have from my house, and set up one of Stewart's as soon as you can. Your ob't servant,

B. F. CHANDLER.

OUR MUNICIPAL ELECTION.—PORTSMOUTH REPUBLICAN ONCE MORE!

Adjourned meeting, Friday, Nov. 25.

The result was declared in Ward one at half past 12 o'clock. It resulted in the election of two Republican Aldermen, and four Republicans to the Common Council, securing every Municipal officer in that Ward, which has heretofore been democratic. The vote for the Republican candidates was uniformerly 232, except for Mr. Hodgdon, who received 233. The Democratic vote was 184.

This result is very satisfactory to the Republicans, having a large majority in the board of Aldermen and in the Common Council. Every Ward officer in the first and second wards is also Republican. In such a state of affairs, it is very gratifying to those Republicans who were in favor of a People's ticket to have a Democratic rather than a Republican Mayor. The Mayor's hands are *completely* tied; he cannot use his position for any political purposes—and we hope his presence and influence will be the means of checking the passage of any undue party measures on the Republican side.

With a previous knowledge of the majorities in both branches of the city government, many Republicans would have been in favor of the general support of the Mayor nominated by the Democrats, who is a thorough business man, and will perform his duties promptly and with decision.

The City Council now stands, Aldermen, 6 Republicans, 2 democrats; Common Council, 18 Republicans, 7 Democrats. Every ward officer in the first and second wards is also Republican.—Leaving our political opponents to *"perish in their last ditch"*—little Ward Three.

We learn with regret that Rev. Dr. Lamson, Pastor of the Middle-St. Baptist church in this city, has accepted the call of the Baptist church in Brookline, Mass. to become their Pastor. Dr. Lamson has been in our community for the past twelve years, and enjoyed to an unusual degree the esteem and respect of the public. His own society had fondly hoped his relation to them was of life-long duration, and he consequently leaves them in much sorrow at his unexpected departure.

From the N. H. Gazette.

The Result of the Municipal Election.

We have to record this week the partial defeat of the Democrats of this city at the municipal election last Tuesday. This result, though much to be regretted, was not unanticipated by us, as our readers must be aware. There was no occasion for defeat at this time if justice, fairness and common sense had been permitted to rule in the councils of the party throughout the city. But a few malcontents, led on by two or three zealous aspirants to future honors and rewards, would not allow this, and hence the result. The stormy state of the weather operated to reduce the general vote of the city, but the defeat of the Democrats in the First Ward was solely owing to the influence mentioned.

The contest, these men well know, was to be in Ward One, and they knew that to be successful there required that union and harmony should prevail in the ranks of the party. Yet they took advantage of the apathetic feeling which prevailed at the time of the caucus, held several weeks ago for the choice of delegates to the State Convention, of which we gave an account at the time, and by previous drilling rushed in a few men and took the control of that meeting from wiser and truer hands, and from their manœuvres then and since have come the defeat of the Democrats in Ward One, which has been the means of placing the City Council in the hands of the Black Republicans. These men, desiring to be first in the race for Douglas for the Presidency, so as to be first in at the winning, adopted a Douglas test in the caucus, and then assumed to elect a Nominating and Prudential Committee, which they had no authority to do under the call. This Committee they made up almost entirely of men of their stripe and under their lead, and by these means a ticket was put in nomination composed in several cases of the most obnoxious men in the Ward, and as a matter of course defeat was the result.—A large number of Democrats were thus kept from the polls and much scratching of votes induced, and this when the authors of the mischief knew full well that there was no strength to be thrown away. Indeed the wonder is that the party made so good a rally in the ward under the circumstances as they did, and it shows that they were willing to make great sacrifice of feeling to preserve the city from the grasp of the foe.

In the election of our candidate for Mayor we have achieved a most gratifying success. Mr. Reding is a sound and true Democrat and an able man, and will make an excellent and efficient Chief Magistrate. His election will prevent any very serious harm from coming of our defeat in the City Council for the time being. Ward One is Democratic yet, and will come around right when two or three mischief-makers find their proper estimate in the minds of the Democrats of the Ward, which we doubt not will be before the time of the spring election.

Mayor Morrison will retire from office, after three years of faithful service, with the respect and esteem of the entire Democratic party, and indeed of the citizens generally.

SUPPOSED SUICIDE.—Mr. Solomon Holmes a well known colored barber of this city, left town on Saturday last for New York and California, and took the boat on the Fall River line the same evening. His appearance and conduct on board was such as to attract the attention of the officers of the boat, and it was considered necessary to keep a watch on his movements. In spite of this vigilance however, when the boat had arrived at New York, it was found he had disappeared, and it was supposed he had jumped overboard. After much inquiry it was ascertained that he was a resident of this city, and the steward of the boat arrived on Thursday night bringing the sad news to his affected family.

The CITY MISSIONARY will read his annual report, at the NORTH CHURCH, on SUNDAY evening next. Also addresses may be expected from several individuals. Nov 25, 1859.

A CARD TO THE PUBLIC.
☞ Recent developments have made fully apparent the fact that there are numerous imitations of our "trade mark" throughout the United States, and there being for us no legal means of redress for such attempts to impose upon the public by a spurious article, and thus lessen our reputation as manufacturers, we have deemed it judicious, as the only way to put our friends and customers upon their guard against imposition, to say to them that all Pianos made by us bear upon the "name board," "CHICKERING, BOSTON," in Old English and Roman letters, and upon the "sounding board" the address of the firm in full, "CHICKERING & SONS, BOSTON," in German Text, and ornamented capitals, with the number of the Piano in plain numerals between the two lines.
Should any person have in his possession, or become aware of the existence of any of the counterfeit instruments above referred to, an advisal of the same to us, would be considered as an especial favor. CHICKERING & SONS,

AYER'S SARSAPARILLA,
A compound remedy in which we have labored to produce the most effectual alterative that can be made. It is a concentrated extract of Para Sarsaparilla, of combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is repated to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will a complish their cure must be of immense service to a large class of our afflicted fellow citizens. How completely this compound will do it, has been proven by experiment on many of the worst cases to be found in the following complaints:—
SCROFULA AND SCROFULOUS COMPLAINTS, ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUMM, SCALD HEAD, SYPHILIS AND SYPHILITIC AFFECTIONS, MERCURIAL DISEASE, DROPSY, NEURALGIA OR THE DOULOUREUX, DEBILITY, DYSPEPSIA AND INDIGESTION, ERYSIPELAS, ROSE OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD.
This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud.—Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corrupting, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions or sores;—cleanse it when you find it is obstructed or sluggish in the veins;—cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.
Sarsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it contain but little of the virtue of Sarsaparilla, or anything else.
During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Hence bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have grounds for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.

Ayer's Cherry Pectoral
Has won for itself such a renown for the cure of every variety of Throat and Lung Complaint, that it is entirely unnecessary for us to recount the evidence of its virtues, wherever it has been employed. And as it has been in constant use throughout this section, we need not do more than assure the people its quality is kept up to the best it ever has been, and that it may be relied on to do for their relief all it has ever been found to do.

THE ONLY ARTICLE
UNRIVALLED IN THE MARKET,
WITH IMMENSE
HOME AND EUROPEAN DEMAND.
The reason why, is that by Nature's own process it restores the natural color permanently after the hair becomes gray; supplies the natural fluids, and thus makes it grow on bald heads. Removes all dandruff, itching, and heat from the scalp, quiets and tones up the nerves, and thus cures all nervous headache, and may be relied upon to cure all diseases of the scalp and hair; it will stop and keep it from falling off; *makes it soft, glossy, healthy and beautiful,* and if used by the young two or three times a week it will never fall or become gray; then, reader, read the following and judge for yourselves:
NEW YORK, Jan. 8, 1858.
MESSRS. O. J. WOOD & CO.,
Gentlemen: Having heard a good deal about Professor Wood's Hair Restorative, and my hair being quite gray, I made up my mind to lay aside the prejudices which I, in common with a great many persons, had against all manner of patent medicines, and a short time ago I commenced using your article, to test it for myself.
The result has been so very satisfactory that I am very glad I did so, and in justice to you, as well as for the encouragement of others who may be as gray as I was but who having my prejudice without my reasons for setting it aside, are unwilling to give your Restorative a trial till they have further proof, and the best proof being occular demonstration, I write you this letter, which you may show to any such, and also direct them to me for further proof, who am in and out of the N. Y. Wire Railing establishment every day.
My hair is now its natural color and much improved in appearance every way, being glossier and thicker and much more healthy looking. I am, yours respectfully, HENRY JENKINS.
Cor. Columbia and Carroll Sts., Brooklyn.
LIVINGSTON, ALA., Feb. 14, 1858.
PROF. WOOD—Dear Sir: Your Hair Restorative has done much good in this part of the country. My hair has been slightly diminishing for several years, caused, I suppose, from a slight burn when I was quite an infant. I have been using your Hair Restorative for six weeks and I find that I have a fine head of hair now growing, after having used all other remedies known, to no effect. I think it the most valuable remedy now extant, and advise all who are afflicted that way to use your remedy.
You can publish this if you think proper.
S. W. MIDDLETON.
PHILADELPHIA, Sept. 9, 1857.
PROF. WOOD—Dear Sir: Your Hair Restorative is proving itself beneficial to me. The front, and also the back part of my head almost lost its covering—was in fact BALD. I have now about 2 half pint bottles of your Restorative, and now the top of my head is well studded with a promising crop of young hair, and the front is also receiving its benefit. I have tried other preparations without any benefit whatever. I think it, from my own personal recommendation, I can induce many others to try it. Yours, respectfully,
D. R. THOMAS, M. D.,
No. 404 Vine Street.
The Restorative is put up in bottles of three sizes, viz: large, medium, and small; the small holds half a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent. more in proportion, and retails for $3 a bottle.

MONDAY, NOV. 28, 1859.

INTEMPERANCE IN BOSTON.—The Boston Temperance Visitor says:—

So much has been said by the enemies of the Maine Law, concerning the increase of intemperance since the passage of that law, that we thought to call upon the officers who have its execution in their hands, for a statistical statement of the arrests and convictions in Suffolk county since 1850.

One of these officers, viz. Dan'l J. Coburn, Chief of Police, gives this answer.

That the evil of intemperance has increased since the advent of the Maine Liquor Law, there can be no question. I do not intend, however, to say that it is in consequence of the law. I herewith send you a statement of the number of persons arrested for drunkenness in each year from 1850 to 1858, by which it will be seen that the increase has been fearful since the enactment of the law, viz., from 1855 to 1858, including the last-named year. The increase you will perceive was 2385. Some allowance, however, must be made for increased population.

There has been a constant increase in the number of persons arrested as noisy and *disorderly*, which is *almost always* the result of drink. In 1856, the arrests for noisy and disorderly conduct, in addition to those arrested for drunkenness were 2276, in 1857 2442, in 1858 4171. In 1851, as appears by the report of the Chief of Police, the arrests for noisy and disorderly conduct were 154 only. It is, however, but fair to state that the Police records are kept with much greater accuracy than formerly.

By the reports of the City Marshals and Chiefs of Police of Boston,—the police have made, in each year, the following arrests:—

1850	Drunkards	1115	
	Common drunkards	203	
			1318
1851	Drunkards	1565	
	Common drunkards	311	
			1876
	1500 places where liquor is sold.		
1852	Drunkards	1627	
	Common drunkards	433	
			2060
1853	Drunkards	1991	
	Common drunkards	580	
			2571
1854	Drunkards	6983	
	Common drunkards	699	
			7682
1855	Drunkards	6797	
	Common drunkards	785	
			7582
1856	Drunkards	6780	
	Common drunkards	935	
			7715
	1927 places where liquor is sold.		
1857	Drunkards	8720	
	Common drunkards	995	
			9715
	2228 places where liquor is sold.		
1858	Drunkards	8930	
	Common drunkards	1037	
			9967

By this report we certainly have a fearful record of immorality. In 1850 we had 1318 arrests for intemperance, and from that year to the close of 1858, there was a steady increase of arrests, when the number was 9967.

Uncle Toby says he has no doubt a *large proportion* of this increase of drunkards, drunkenness, and drinking shops in Boston, *does* arise from the action of the law, and the reaction among the forces of drunkenness. By the action of the laws, imperfect though they may be, and by their execution, still more imperfect, in Maine, New Hampshire, Vermont and Massachusetts, aside from Boston,—many of the worst rum and gambling holes in New England have been *closed*, and their keepers and body guards have taken refuge in Boston, where rum rules and reigns, till their "name is Legion."

Then again, the great element of increase in the population of Boston, has been an increase of tippling foreigners,—and a great many of her liquor sellers are also foreign.

Uncle Toby said, when they were passing the new laws in New England, that they might do good,—and he hoped they would, (as he now thinks they have,)—but he thought they had not quite estimated the strength of the rum trade in Boston, which he called the "Sebastopol of Drunkenness in New England."

The Boston Chronicle, and another rum paper there, edited by a tippler, gave a howl of displeasure at the title,—but Mr. Coburn's statistics prove it to be true.

In the meantime the other Sebastopol, the other side the water, has been taken—and formidable as the drunken fortress seems, some impression may be made by attacks from without; and miners and sappers within may aid in its reduction.

To drop the figure,—the gigantic strides of drunkenness there, may well alarm the most ardent friends of moderate drinking and genteel dissipation. They must, it would seem, see that crime, pauperism, and taxation are swelling to a frightful amount.

The Journeymen Cordwainer's Society, of Richmond, Va., has been indicted for a conspiracy to regulate the wages among the shoemakers of that city. Eighty-one persons are concerned in this "conspiracy."

Query,—May there not be a conspiracy on the other side of the question, viz., to *keep down* the wages?

If the jurors are taken from the F. F. V., these poor fellows may be convicted and imprisoned—for there is a *conflict* of free labor with despotism.

☞ The first train passed over the Victoria Bridge, near Montreal, Nov. 24.

ORGANIZATION OF CONGRESS.—The Boston Courier, in a late editorial on the organization of Congress, says:

The Republicans in Congress have not the power to organize the House by themselves. The Opposition members, in concert with the Democrats would settle the point at once. It is the *duty* of these gentlemen to do so, and to do it without any sort of hesitation. Of what consequence is the choice of democratic officers, with the *possession* to them of all the *patronage* which can flow from it, to the check which it would give to fanaticism, and the encouragement it would afford to national men throughout the country?

The great question, however, recurs, of dangers probable, or even possible, from a Republican triumph in the organization, which appeals earnestly to every patriotic and every honest man, to waive all minor considerations, for the moment, and to unite with those who are national, in preventing any possibility of disruption. If this danger, aggravated to an alarming extent by recent occurrences, is once overpast, we shall be very hopeful for the future. Of all clouds which have hung upon our horizon, *this* looks to us by far the most threatening; and we cannot but hold those in the House, who are not Republicans, as without excuse, and treacherous to the plainest dictates of duty, if directly or indirectly, in this contingency of our national affairs, they aid in giving the Republicans such a *fatal* victory.

It occurs to us that the Courier may find, among the Democratic party, a few men who think *patronage* and office are of some consequence—and may also find, among "those in the House who are not Republicans," many who care very little about being "held" responsible by the editors and managers of the Boston Courier.

ABSTINENCE AMONG THE CLERGY.—In an appeal to the Clergy of the Church of England, signed by large numbers of their own body, the following language is used:—

"We abstain ourselves because we believe that the drunkenness which prevails may be traced back to moderate drinking as its great cause. We are convinced that moderate drinking, not drunkenness only, supports the traffic, the traffic tends to foster drunkenness, and drunkenness produces bodily misery, social degradation and spiritual death. So long as drink is supplied, there will be drunkenness. Which is most in accordance with common sense, to supply the cause and labor in vain to remove the effect; or to get rid of the effect through the banishment of the cause?

☞ Cassius M. Clay spoke on John Brown at Covington, Ky., a few nights since. He laid the moral responsibility of the Harper's Ferry outbreak on the democratic party and its Kansas policy, and said that it failed only from want of manhood in the slaves. He predicted that if some Kentuckians did not mend their manners and stop their opposition to freedom of speech and the press, there would be Osawattomies in that State also.

☞ The old and favorite Eclectic Magazine is issued on the first of every month. Every number contains one hundred and forty-four large octavo pages, with one or more beautiful Steel Portraits by Sartain. The twelve numbers comprise three volumes of six hundred pages each, with titles, indexes, and embellishments. Price, $5 per year. Specimen number, forty-two cents, postage-stamps. Address W. H. Bidwell, editor and publisher, No. 5 Beekman Street, N. Y.

Two beautiful Pictures, "Sunday morning," and "Returned from Market," worth the $5, are sent gratuitously to all subscribers.

NO PARDON FOR COOK.—The Richmond Enquirer of Nov. 24th, says of Cook: "Those who understand the character of Henry A. Wise, know that if he believed Cook deserved pardon it would be extended to him, though opposed by every paper in the broad limits of our country; but the pardon of Cook is out of the question—*he is the most guilty of all the Charlestown prisoners*. So far from his being the dupe of Old Brown, Osawattomie is the victim of John E. Cook."

WASHINGTON, Nov. 25.—Dr. Breed, formerly an Examiner in the Patent Office, having been arraigned before Justice Down, on the charge of uttering incendiary language, was required to give security in the sum of $2000, to keep the peace. The objectionable words were uttered in the presence of several persons, Senator Seward's views being the topic of conversation, and soon thereafter were published in the States and Union newspaper,—hence his arrest.

According to the reported conversations with Gov. Wise, recently, in this city, he has no doubt of the existence of secret societies in various portions of Ohio and elsewhere, the members of which are bound by horrid oaths, not only to rescue Brown, but to take revenge on those who were instrumental in the conviction of him and his associates for their offence at Harper's Ferry. It was doubtless the belief of the existence of such societies, numbering, as was reported to him, thousands of members, that led the Governor recently to call out an additional number of troops.

Several of the Ministers of the Gospel yesterday, in their Thangiving sermons, earnestly condemned the expressions of sympathy for Brown and his comrades, and declared that their execution was due to justice and the enormity of their crimes.

☞ A Trotting Match for $1500 came off thanksgiving day, over the N. Y. Course, between Flora Temple and Ethan Allen, best 3 in 5 in harness. Flora won the 2d, 3rd and 4th heats.

☞ The Amesbury Villager informs us that the old Oak, located on the east side of Powow Hill, which has often been noticed by strangers for its noble sized trunk and wide spreading branches, and which has withstood the storms of two hundred and twenty years, has at last been brought low by the thoughtlessness of mischievous boys. On the night of the 5th of November the torch of the incendiary was applied, and the flames ran up the great trunk. Slowly the flames fastened upon its vitals, and the struggle commenced. For fifteen days the fire continued to burn, and not until Sunday last did it fall a prey to the devouring element; and as it fell, and the aged limbs struck the ground, we can almost imagine that the spirits of those who once sported on the sward around it, were made sad at the sight.

WHAT GOT THEM THERE.—At the conclusion of an address delivered by Wm. Adams, Jr., to the inmates of the House of Correction, on Thanksgiving Day, at East Cambridge, Mass.,—Mr. A. expressed a desire to learn how large a portion of those before him had been brought there by the use of intoxicating liquors. By permission of the master of the establishment, Mr. A. called for a vote, and out of about two hundred inmates, one hundred and seventy-five held up their hands, thus declaring that they were brought there by the use of intoxicating liquors.

☞ A man about 60 years of age, Mr. George W. Allen of Augusta, Me., was very severely injured in Court Avenue, Boston, by the falling of a chimney from the Hancock House, fronting on Court Square. He was struck on the head by the falling bricks and knocked down senseless, but recovered when he was removed to the General Hospital, and will probably get well.

☞ Hewes's piano-forte manufactory, in Boston, was partially burnt on Friday morning. While the fire was raging, four young ladies debouched from Norfolk place, just as the hose attached to one of the steam fire engines burst, the result of which was that the ladies were drenched to the skin, and had their nice dresses very materially damaged. At this mishap, the crowd set up an unmannerly shout.

SNOW AT THE WHITE MOUNTAINS.—A snow storm prevailed at the White Mountains through the day last Tuesday, and the sleighing was excellent in the mountain district and Northern New Hampshire on Wednesday. The "merry sleigh bells" added their music to the general joy among the mountain residents on Thanksgiving Day.

MURDER OF A WIFE.—*Wells River, Nov. 25.*—(Per Vermont line.)—Franklin Wright, of Woodville, in Haverhill, N. H., killed his wife this afternoon, with a butcher knife. He is under arrest, confesses his crime, but gives no reason for it.

It is said that Brown was approached by a Southern minister of the Presbyterian persuasion, a few days ago, who wished to advise him spiritually. Brown repelled him, saying that they did not worship the same God.—*Newark Journal.*

Catarrhal Cough.

This insidious and annoying symptom, so difficult to treat, depends on a subacute inflammation of the air-passages, which is apt to end in chronic ulceration and a form of consumption. The mucous membrane of the air-passages is peculiarly susceptible to the healing influences of the PERUVIAN SYRUP, as the testimonials of some of our first citizens show.

There is no known remedy can exceed in speediness of cure, and certainty of effect, that which has become world famous as DR. HOSTETTER'S STOMACH BITTERS. In all diseases of the stomach, which are of a morbid nature, the Bitters have effected most remarkable cures when many other remedies have failed. Hundreds of certificates have been given by those who have thoroughly tested its efficacy, all of which corroborate its efficiency, when it is administered according to the directions on each bottle.

Some of the worst cases of Dyspepsia, Diarrhea and Costiveness, have been permanently cured by the use of the Bitters.

Sold by druggists and dealers generally, everywhere.

R. R. R.

On the 1st day of September, 1853, Mr. Charles Randolph called at the R. R. R. office, and stated that for ten years he had not enjoyed a single meal. He had not, for five years, had a natural discharge from his bowels; but was obliged to resort to Injections, &c. He was pale, haggard, and thin. We ordered Radway's Regulators, one each night, and Radway's Resolvent, three times per day. On the eighth of September he called upon us.

HE WAS SO ALTERED THAT WE KNEW HIM NOT.

His appetite is good—his digestion easy—his skin moist and healthy—his step elastic and buoyant—his body vigorous, and his eye indicates a man of health and energy.

For Liver Complaint, Dyspepsia, Difficulties of the Urethra and Bladder, Radway's Regulator and Renovating Resolvent are a quick and positive cure. For all Aches and Pains, for Neuralgia and Rheumatism, for Nervous and Bilious Complaints, Radway's Ready Relief is quick and effectual. In five minutes' time after its application, the patient is free from pain.

Sold by Druggists everywhere.

THE OXYGENATED BITTERS.

Nature, in her great laboratory, has stored some remedy adapted to every disease which "flesh is heir to." But it requires the investigation and research of the philosopher to discover and apply this remedy. Such research and investigation has succeeded in discovering a remedy for that most afflictive dispensation, the

DYSPEPSIA!

With all its lesser and numerous evils; and it may be safely asserted that until the appearance of the *Oxygenated Bitters*, a case of Dyspepsia cured was a rare experience in medical practice. Now, under the influence of these Bitters the rule is to *cure*, the rare exception, failure to cure.

Read the following, which the subscriber requests us to publish for the benefit of the afflicted:

Obdurate and Inveterate Case of Dyspepsia cured by the Oxygenated Bitters.

The following from a gentleman well known in the region in which he lives ought to satisfy all those of little faith:

WATERTOWN, N. Y., July 28, 1858.

S. W. FOWLE & CO., Boston.—*Sirs*:—Nine years since I was attacked by that curse of all diseases, *Dyspepsia*, which so affected me as to cause great oppression, fullness, and bloating of the bowels, immediately after eating, accompanied with terrible pains in the stomach, often occasioning nausea, vomiting, acidity, and headache, together with general debility and suffering, altogether rendering life a burthen.

After having tried every known remedy without effect, and despairing of ever regaining my lost health, I was induced to make use of the Oxgenated Bitters, the good effects of which were immediately visible on my health and system. Before using a whole bottle I was entirely cured; and I feel a pleasure inducing all like sufferers as myself to make use of this remedy.

GROVER & BAKER'S

Celebrated Family Sewing Machines

NEW STYLES. — PRICES FROM $50 TO $125.

HEMMERS, $5 EXTRA.

OVER THIRTY THOUSAND IN USE.

These Machines sew from two spools, as purchased from the store, requiring no rewinding of thread, and finishing each seam by their own operation, without recourse to the hand needle, as is required by other machines. On account of their simplicity, durability, ease of management, and adaptation to all varieties of family sewing, they execute either heavy or fine work with equal facility, and without special adjustment.

THE NEW MACHINES INTRODUCED BY THE

GROVER & BAKER

SEWING MACHINE COMPANY

Are of elegant finish, and their operation is rapid and very quiet. The EASE with which they can be managed is a distinguishable feature, and the stitch is the strongest, handsomest, and most elastic of any made.

What is specially claimed for the "GROVER & BAKER" machine is—

That it makes a *stronger* and *handsomer* seam than is made by hand or by any other machine.

That it makes a more *elastic* seam, which will withstand the tests of wear, and washing and ironing, better than that made by any other machine.

That the speed at which it can be used is higher than any other, and the power required to operate it is less than that required by any other machine.

That it is nearly noiseless in its operation.

That its construction is more simple, and its liability to disarrangement less than any other.

That it can be quicker learned, more easily kept in order, got ready for use, and changed from one quality or grade of work, than any other.

Its applicability to the entire range of Family Sewing—from the finest and most delicate texture to the heavier and coarser fabrics.

That it uses thread or silk from the original *spools*—no re-winding—no shuttles or bobbins to fill.

That it finishes its work and fastens the end of every seam; each stitch is independent of its neighbor.

Is there a husband, father or brother, who will permit the drudgery of hand-sewing in his family when a GROVER & BAKER Machine will do it better, more expeditiously, and cheaper than can possibly be done by hand?

TESTIMONIALS.

PORTSMOUTH, April 12, 1859.

Having tested the merits of the various popular Sewing Machines, in the manufacture of our Capes and Raglans, we unhesitatingly recommend the Grover & Baker, as far superior to the others. ALLEN & PAIKE.

PORTSMOUTH, July 16, 1859.

If you wish to purchase a machine that will do work handsomely and strongly, and will not be liable to get out of repair, call on Mr. Whittemore, in Daniel street, see the operation of Grover & Baker's machine, and then place one in your family. They will never consent to part with it, after they understand its operation.

THE LYCEUM.—It will be seen by the advertisement, that "Grace Greenwood" is to lecture on the 13th of December; and that was her only evening unengaged, Mr. Adams, who was before announced for that night, will lecture on some evening of the same week.

There will probably not be any lecture before the Lyceum this week.

Next week, Tuesday, Dec. 6th, Geo. W. Curtis, Esq., will read a Poem.

Messrs. Editors:—Allow me to say that the probable expense of running the snow plow would be about twenty-five cents per mile, instead of fifty, unless the snow should be very heavy or badly drifted. S. B.

☞ What more beautiful and acceptable present than a year's subscription to the Cosmopolitan Art Association? See advertisement in another column; and the splendid engravings at Mr. Cobb's Music Store.

☞ A brilliant Fair was held in the Music Hall, Boston, last week, to raise funds to pay the sculptor, Thomas Ball, to make a bronze Equestrian Statue of Washington. The Transcript states that on the closing evening the "hall was crowded; Mr. Everett and Charles Sumner being present. Many tickets were drawn,"—that is, they had a splendid genteel lottery, including a grand piano, sewing machines, bronzes, parians, furniture, camel's hair garments, fancy articles, a vintage blanket worth $100. &c. The grand Piano was drawn by Miss Sarah Cohen; Mr. Everett's MS. of his oration on Choate was drown by Mr. Richardson. Mr. Everett's MS. of his address on Webster was secured by B. J. Lang; Bierstadt's Lagoon was drawn by Wm. Sheafe.

☞ From Virginia, (Charlestown, Nov. 21) we get these items.

All is now quiet, with the exception of occasional alarms and rumors, amounting to little or nothing. Four companies of militia are quartered in the Court House.

It is rumored that Brown has greatly changed during the last twenty-four hours, seeming quite repentant.

Gov. Wise has ordered 500 additional troops to be present at the execution of Brown, on Friday next.

The Enquirer says it is rumored that the dispatches from Gov. Packer of Pennsylvania, and from Gov. Chase of Ohio cautioning against the approach of fillibusters, are altogether uufounded.

Major Smith of Virginia has passed thro' Washington for Charlestown, where he will take charge of the military arrangements for the execution of Brown. Secretary Floyd tendered Major S. any amount of troops and ammunition he may deem necessary.

☞ From Texas, it appears that Brownsville, on the 19th, was still closely besieged. An expedition was preparing against Cortinas.

Gen. Houston recommends the Legislature to authortze the raising of a regiment of mounted men to protect the frontier from Indians.

☞ From Mexico, 22d inst., we learn that the report that Marquez has pronounced in favor of Santa Anna, was without foundation. The report of his seizure of the conducta is confirmed, but that of his escape is contradicted, Marquez says that he is using the money to save the country from the country from the Yankees, and promises to return it from the first duties received at Tepic and Masatlan, which he intates he intends retaking.

STEAMER INDIAN.—The Portland Argus learns from Mr. Allan, one of the owners of the vessel, that 10 passengers, and 9 of the crew were lost and that 5 passengers are missing. One hour after the vessel struck, she went to pieces, and vessel and cargo had entirely disappeared. The steamer was insured for £35,000.

☞ The British schooner Wave from Charlottetown, arrived at Boston, has on board five seamen recently belonging to the steamship Indian, whose loss has been reported. They were picked up in one of the missing boats which left the ship at the time of the disaster.

☞ Lord Derby has taken occasion, in a public speech, to deny the charges of cruelty toward some of his Irish tenants, which have been made against him. Instead of turning hundreds out of their homes because they would not inform against a murderer, he only warned eight or ten persons, who, it is supposed, might bring the criminal forward, that he should discharge them.—The general testimony is that he is a kind and indulgent landlord.

☞ The Louisiana Baptist says that the Rev. J. R. Graves, editor of the Tennessee Baptist, preached in Mt. Lebanon, La., last week, to a large and patient audience for *three hours and a quarter.*

Three things that never agree—two cats over one mouse, two wives in one house, and two lovers after one young lady.

The shortest way to a man's heart is down his throat.

ITALIAN AFFAIRS.

By the Africa, from Liverpool Nov. 12, we get these items:

A circular by Count Walewski announces that France has demanded from Sardinia 60,000,000 francs for the expenses of the late war.

The Patrie is assured that the King of Sardinia, in his reply to the Emperor, expressed confidence in the sympathies of the Emperor in favor of the Italian cause, and declares that he will leave to the decision of the Congress all that relates to the re-organization of Italy.

Garibaldi had subscribed 5000 francs to the million musket fund, and issued a stirring proclamation in furtherance of the scheme. The Florence correspondent of the Times says the subscription was filling beyond all expectation.

The Times Paris correspondent says the election of Prince Carigana was received with extreme displeasure in Paris.

The Piedmontese government, having been requested from Paris to restrain the impetuous spirit of the Italian patriots, declared that it could not be responsible for the acts of populations over which the King was not permitted to exercise even a temporary control.

Farini, Dictator of Modena and Parma, and Provisional Governor of Romagna, had issued a proclamation which says: "Europe knows that it can secure the peace of Italy by rendering Italy to the Italians. It is aware that we are ready to give the necessary grants for order throughout the country, but it also knows that the people of the Romagna, if forbearance and moderation should be of no avail, sooner than submit to the yoke, would be advised only by their duty to their country and the pursuit of the path of honor."

The statement is confirmed that Victor Emmanuel has refused to grant Prince Carigana permission to accept the Regency of Central Italy.

☞ The Boston Courier, (strange to say,) pokes fun at the shiverly in this fashion:—

The encampment of the Virginia troops at Harper's Ferry is not without its share of war alarms. The despatches from that quarter present a vivid picture of the "perils which environ the man who meddles with cold iron."

HIGH-PRICED HORSES.—R. A. Alexander, of Woodford Co., Ky., has recently sold a brown yearling filly, by Lexington, for $1500; a bay yearling filly by Lexington, for $900, and a gray yearling filly by Scythian, for $600. Thorough-bred stock seems to sell at good prices.

☞ The nursery word lullaby is of very ancient origin. The Roman nurses used the word lully to quiet their children, and they feigned a deity called Lullus, whom they invoked on such occasions. The lullaby, or the tune itself, was called by the same name.

☞ There is a newspaper issued at Tamarora, Perry county, Illinois, called the Egyptian Spy, which is printed on the first type that ever came to Illinois—the same which printed the laws of the State while the seat of government was at Kaskaskia.

☞ Austria owes her Bank of Vienna 80,000,000 florins. She is a "hard-up" country, and, what is unfortunate, has just lost that kingdom of pawnbrokers, Lombardy. She got about 300,000,000 florins behind hand in the Italian escapade.

☞ Navigation on the upper Mississippi has nearly closed for the season. On the 15th inst., the river at St. Paul was filled up with running ice. Most of the boats are laid up for the winter, though a few more trips will be made.

☞ The Kansas election for State officers takes place on the 4th of December.—Samuel Medary is the Democratic candidate, opposed by C. Robinson, who was a prominent laborer with Brown in the "Kansas work."

☞ The Rev. Joshua Flagg, of Dana, Mass., died on the 10th inst., in that town, at the age of eighty-six years and six mos. He was a Universalist preacher more than sixty years, and was the oldest clergyman of that denomination in Massachusetts.

☞ The Atlantic and St. Lawrence (Grand Trunk) Company have all their iron bridges constructed at Portland, having proved by fair trial that they are superior to those made in England, and cheaper.

STOVE STORE REMOVED.

URIAH BLAISDELL

Has removed his Stove and Furnishing Establishment one door north, to the spacious and convenient store

Nos. 53 & 55 Market Street,

where he is receiving and arranging a large and valuable Stock of

STOVES, TIN WARE, &c.,

Which he offers for sale at wholesale and retail, at very low prices. He has a great variety of the best and most popular Stoves, among which are:

1. **The Stewart Cook Stove,** with the latest improvements. This is an air-tight Cook Stove, for Wood or Coal; it has moveable coverings, which can confine the heat in the stove, or let it out into the room; has a reservoir of hot water 10 or 20 gallons, and a tin closet beneath;—a top cover, which is a great institution for baking, and will keep a coal fire all night; it has a Dutch Oven for roasting in front of the Stove;—and it is every way a most convenient and durable Stove. There are 4 sizes.

The following recommendation of Stewart's Stove, is from an eminent engineer, and must be satisfactory to all who wish to understand the value of this excellent Stove:

Portsmouth, N. H., Nov. 5, 1859.
Mr. Blaisdell:—Seven years ago I moved to this city, and sold, before I came, a "Stewart's Air Tight Cooking Stove," which I had used about five years. During that time no repairs or expense had been made upon it. Since I have been here I have tried the various Cooking Stoves in use, and I think for economy and durability the "Stewart" excels them all. I wish you would take away the Stove I now have from my house, and set up one of Stewart's as soon as you can. Your ob't servant,
B. F. CHANDLER.

2. **Boston & Maine Cook Stove;**
3. **White Mountain;**
4. **Empire State;**
5. **Enterprise;**
6. **Exchange;**
7. **Dining Room Cook Stoves,** and others.

Fousel's Pabulum Vitæ.

☞ THE GREAT FRENCH REMEDY possesses extraordinary properties for the speedy and permanent cure of CONSUMPTION, BRONCHITIS, COUGHS, COLDS, and all PULMONARY DISEASE.

This celebrated specific is now universally acknowledged to be infinitely superior to all other preparations for the cure of Pulmonary Disease, both from its innocent nature and most astonishing curative properties; *it being the only remedy known that will arrest the development of Tubercles in the Lungs or restore the vital functions of the pulmonary organs to their normal condition.* Its invaluable properties have obtained for it the highest recommendation and praise from some of the most eminent physicians and chemists in the country: while the best and surest proofs of its merits are afforded by the numerous testimonials of its great efficacy in conquering disease, which are constantly received from our most respectable citizens. Invalids in all stages of pulmonary disease should not fail to give it a trial, as it can be administered to the most delicate and feeble with perfect safety and certain relief; and we herewith insert a few testimonials for their encouragement, selected from hundreds of like import.

Certificate of Dr. A. A. HAYES, in reference to the unequalled virtues of this great discovery.

This preparation, by chemical analysis, was proved to be free from opium, or any of its compounds; nor were any of the alkaloids present. It does not contain any mercurial or mineral substance, but consists wholly of volatile, diffusible agents, which afford vapors freely at a moderate temperature. Most of the substances present are officinally used in alleviating pulmonary disease; but the device by which they are combined is new and original, and adapts the compound to inhalation, or other modes of administration.
Respectfully,
A. A. HAYES, M. D., State Assayer.
16 Boylston St., Boston, Dec. 1857.

In the Boston Transcript of December 11, 1858, the editor says:—

"We have seen a letter from an eminent physician of this city, in which he says:—'I have used *Fousel's Pabulum Vitæ* in several cases of Bronchial disease, and in some with great benefit. I know of no remedy equal to it for children, where a minute dose is essential; or for adults of irritable stomachs, or having a tendency to reject ordinary medicines given for coughs, etc. I shall continue to use it in my practice.'"

Testimonial from the Sisters of Charity, of the St. Vincent's Orphan Asylum, in Boston.
BOSTON, July 31, 1858.

To Mr. F. LAPORME, Agent:

"The Sisters are happy to state that, having used *Fousel's Pabulum Vitæ*, they have found it efficacious in several instances, for bad coughs and colds. Signed by the SISTERS OF CHARITY.

Testimonial from a well-known Apothecary's Clerk.
BOSTON, March 10, 1859.

J. F. LAPORME, Esq.:

Dear Sir—I had been suffering for a considerable length of time from a severe cough, and had in vain had recourse to nearly all the remedies in use. My cough began to give me much uneasiness from its serious effects on my system, when three days' use of *Fousel's Pabulum Vitæ* restored me to complete health. The medicine being new in this market, I had recourse to it last; but I can now confidently recommend it as the best medicine I know of. Yours, truly,
CHAS. H. FOSTER.

At Fred Brown's, Washington, corner State St.

In the Boston Post, Sept. 24, 1858, the editor says:

"An extraordinary cure of Consumption has recently come to our knowledge, effected through the instrumentality of *Fousel's Pabulum Vitæ*; the evidence of which is in the handwriting of the subject, Mr. Wm. P. Brigham, No. 130 Albany st., in this city. It seems that for eighteen months he had been exhibiting all the usual symptoms of Consumption, and that after having had recourse to the skill of various physicians, without benefit, he had to abandon his business and be confined to his house. Hearing of *Fousel's Pabulum Vitæ*, and of several remarkable cures effected by it, in cases as desperate as his own, he concluded to try it as a forlorn hope. The result has been most happy—he has now entirely recovered, and is engaged in his usual pursuits. It is such well authenticated cases as this that we take pleasure in laying before our readers, since, by so doing, many valuable lives may be saved, and much good effected.

It is sold at the low price of 50 cents, and $1.00 per bottle, thus placing it within the reach of all classes. F. J. LAPORME, sole Agent, Boston. M. S. BURR & CO., General Agents, No. 26 Tremont street, Museum Building, Boston, and for sale by all druggists. Circulars with testimonials of its c c can be had of the Agents nov7ly

From the Portsmouth Journal.

NEW COUNTY.

By the publication in the Portsmouth Journal of a resolution of the last legislature of this State, in relation to the forming of a new county, by taking Manchester and four other towns from Hillsborough county, and seven towns from the county of Rockingham for that purpose, is to be a subject for the voters of the several towns in both counties.

In examining this subject it offers a good opportunity for the *tax payers* of Portsmouth and of all the adjoining towns, to examine thoroughly the subject of the County expenses, the purposes for which they are created, and the amount of each department under which they occur, classified, and the aggregate or general result of the whole; the ratio paid by each town and place, and the places or sections of county where the largest amount of expenses originate, and the causes.

The Account of the County Treasurer was published in the Exeter News Letter about the middle of May last but once in that paper; there was not over half a dozen of that paper taken in Portsmouth at that time; what information could the tax-payers derive from that source; some few who saw it might glance at it, and the expenditures for the year amounting to fifty-one thousand and six dollars and ten cents, of which Portsmouth has to pay more than one-third part—might have escaped particular notice.

The county of Rockingham now consists of Portsmouth and thirty-seven other places. Upon inspecting the new county map it is very perceptible that Rockingham is spread over a wide territory. And if the county is to be divided why not take Senatorial District No. 1 for a new county? or such towns as will join Portsmouth and form a new county on the ground of economy in taxes, and convenience for public business and public records. The long and expensive trial lately had at Portsmouth without any beneficial result, at an expense to the county of about six hundred dollars, and the delay caused to other persons having business in court, should induce an examination for improvement and convenience, and for the good of the public. C.

HON. IRA A. EASTMAN.—It has been announced that Judge Eastman, on the first of the next month, will resign his seat upon the bench of the Supreme Court of this state.

Judge Eastman has been upon the bench longer than any other member of the Court. He was appointed, we believe, soon after he left Congress. With less experience at the Bar than is usually enjoyed by our judges, and that experience in some degree impaired by his services in Congress, Judge Eastman began his judicial career under some disadvantages: these, he soon satisfied the Bar and the State, he could and would overcome. By the most indefatigable devotion to the duties of his high office he has made himself a learned Judge, and the public will hear, with regret of his retirement. The people and the Bar of this state, are in no hurry to award praise to Judges without merit, but it is never withheld when the claim to it is clearly established. Judge E. by the diligence, thoroughness, fairness and learning with which he has investigated the rights in controversy before him, the uniform courtesy with which he has relieved the tedium of Courts, and softened the jars of litigation, has won for himself the official respect and personal regard of the Bar and the people of the state.

It is understood that Judge Eastman proposes to resume the practice of his profession in Manchester.

APPOINTMENTS AT DARTMOUTH COLLEGE.—The Trustees of Dartmouth College closed a session yesterday, resulting in the appointment of Wm. A. Packard, son of Prof. Packard of Bowdoin College, Professor of Modern Languages. This is a new and much needed Professorship in Old Dartmouth. Prof. Packard has spent several years in foreign countries, and is spoken of as admirably qualified for the position to which he is elected.

Prof. Patterson, heretofore Professor of Mathematics in that College, has been appointed Prof. of Astronomy, to fill the vacancy occasioned by the death of Professor Young.—*Manchester Mirror, 19th.*

☞ An order was introduced in the Massachusetts House of Representatives on Tuesday, for the release of G. P. Burnham from jail, where he is confined for contempt of the House, and indefinitely postponed, 112 to 38. So Mr. Burnham will probably have to remain the whole term of 25 days.

THE NEW HAMPSHIRE LIQUOR AGENT.—The Executive of New Hampshire wisely selected for its Agent one who possesses two essential qualities, namely, that he is an importer, and therefore knows the quality of his merchandise; and, secondly, that he is a gentleman who has the old-fashioned virtue known amongst men as *honesty.* If any poor stuff is vended from the liquor agencies throughout New Hampshire, it is not the fault of Mr. Boardman.—*Concord Statesman.*

FAST FLOUR.—It is said that a new brand of flour has been introduced into the New Orleans market, called the "Flora Temple, 2.24½. It can't be beat." We don't want it. Ours goes too fast now.—*Providence Journal.*

Hon. Ira Perley, of Concord, has accepted the invitation of the Alumni of Dartmouth College to deliver a eulogy on the late RUFUS CHOATE, at the Annual Commencement, July, 1860.

DEATH OF KIT CARSON.—*St. Louis, Nov. 23.*—The Omaha Republican announces, on authority of persons just from Fort Kearney the death Kit Carson, the famous mountaineer, which occurred at Taos, New Mexico, where he was Indian agent.

A CARD TO THE PUBLIC.
☞ Recent developments have made fully apparent the fact that there are numerous imitations of our "trade mark" throughout the United States, and there being for us no legal means of redress for such frauds upon the public, and by a spurious article, and thus lessen our reputation as manufacturers, we have deemed it judicious, as the only way to put our friends and customers upon their guard against imposition, to say to them that all Pianos made by us bear upon the "name board" "CHICKERING, BOSTON," in Old English and Roman letters, and upon the "sounding board" the address of the firm in full, "CHICKERING & SONS, BOSTON," in German Text, and ornamented capitals, with the number of the Piano in plain numerals between the two lines.
Should any person have in his possession, or become aware of the existence of any of the counterfeit Instruments above referred to, an advisal of the same to us, would be considered as an especial favor. CHICKERING & SONS,

AYER'S SARSAPARILLA.
A compound remedy in which we have labored to produce the most effectual alterative that can be made. It is a concentrated extract of Para Sarsaparilla, of combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will a complish their cure must be of immense benefit to this large class of our afflicted fellow citizens. How completely this compound will do it, has been proven by experiment on many of the worst cases to be found in the following complaints:—
SCROFULA AND SCROFULOUS COMPLAINTS, ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUMM, SCALD HEAD, SYPHILIS AND SYPHILITIC AFFECTIONS, MERCURIAL DISEASES, DROPSY, NEURALGIA OR TIC DOULOUREUX, DEBILITY, DYSPEPSIA AND INDIGESTION, ERYSIPELAS, ROSE OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD.
This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many troubling complaints are nipped in the bud.—Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do it through the natural channel of the blood, by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions or sores;—cleanse it when you find it is obstructed or sluggish in its course; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live live longer, for cleansing the blood. Many a life is cut short by the virulence of what this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.
Sarsaparilla has, and still deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it contain but little of the virtue of Sarsaparilla, or anything else.
During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Aence bitter and painful disappointment has followed the use of the various extracts of sarsaparilla which flood the market, until the name itself is justly espised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to apply such a remedy to the sick as can be the name from the load of obloquy which rests upon it. And we think we have grounds for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.

The Liver Invigorator.
PREPERED BY DR. SANFORD,
COMPOUNDED ENTIRELY FROM GUMS,
Is one of the best PURGATIVE and LIVER MEDICINES now before the public.
These GUMS remove all morbid or bad matter from the system, supplying in their place a healthy flow of bile, ignorating the stomach, causing food to digest well, PURIFYING THE BLOOD, giving tone and health to the whole machinery, removing the cause of the disease—effecting a radical cure.
BILIOUS ATTACKS are cured, and, what is better, prevented by the occasional use of the Liver Invigorator.
One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.
Only one dose taken before retiring, prevents NIGHTMARE.
Only one dose taken at night, loosens the bowels gently and cures COSTIVENESS.
One dose taken after each meal will cure DYSPEPSIA.
One dose of two teaspoonfuls of Epsom Salts relieve SICK HEADACHE.
Only one dose immediately relieves COLIC.
One dose often repeated is a sure cure for CHOLERA MORBUS, and a preventive of CHOLERA.
Only one bottle is needed to throw out of the system the effects of medicine after a long sickness.
One bottle taken for JAUNDICE removes all sallowness or unnatural color from the skin.
One dose taken a short time before eating gives vigor to the appetite and makes the food digest well.
One dose, often repeated, cures CHRONIC DIARRHŒA in its worst form, while SUMMER & BOWEL COMPLAINTS yield almost to the first dose.
A few bottles will cure DROPSY by exciting the absorbents.
We take pleasure in recommending this medicine as a preventive for FEVER AND AGUE, CHILL FEVER, and all Fevers of a BILIOUS TYPE. It operates with certainty, and thousands are willing to testify to its wonderful virtues.
All who use it are giving their unanimous testimony in its favor.

THE ONLY ARTICLE
UNRIVALLED IN THE MARKET,
WITH IMMENSE
HOME AND EUROPEAN DEMAND.
The reason why, is that by Nature's own process it restores the natural color permanently after the hair become gray; supplies the natural fluids, and thus makes it grow on bald heads, removes all dandruff, itching, and heat from the scalp, quiets and tones up the nerves, and thus cures all nervous headache, and may be relied upon to cure all diseases of the scalp and hair; it will stop and keep it from falling off; *makes it soft, glossy, healthy and beautiful*, and if used by the young two or three times a week it will never fall or become gray; then, reader, read the following and judge for yourselves:
NEW YORK, Jan. 8, 1858.
MESSRS. O. J. WOOD & CO.,
Gentlemen: Having heard a good deal about Professor Wood's Hair Restorative, and my hair being quite gray, I made up my mind to lay aside the prejudices which I, in common with a great many persons, had against all manner of patent medicines, and a short time ago I commenced using your article, to test it for myself.
The result has been so very satisfactory that I am very glad I did so, and in justice to you, as well as for the encouragement of others who may be as gray as I was but who having my prejudice without my reasons for setting it aside, are unwilling to give your Restorative a trial till they have further proof, and the best proof being occular demonstration, I write you this letter, which you may show to any such, and also direct them to me for further proof, who am in and out of the N. Y. Wire Railing establishment every day.
My hair is now its natural color and much improved in appearance every way, being glossier and thicker and much more healthy looking. I am, yours respectfully, HENRY JENKINS.
Cor. Columbia and Carroll sts., Brooklyn.
LIVINGSTON, Ala., Feb. 14, 1858.
PROF. WOOD—Dear Sir: Your Hair Restorative has done much good in this part of the country. My hair has been slightly diminishing for several years, caused, I suppose, from a slight burn when I was quite an infant. I have been using your Hair Restorative for six weeks and I find that I have a fine head of hair now growing, after having used all other remedies known, to no effect. I think it the most valuable remedy now extant, and advise all who are afflicted that way to use your remedy.
You can publish this if you think proper.
Yours, &c. S. W. MIDDLETON.
PHILADELPHIA, Sept. 9, 1857.
PROF. WOOD—Dear Sir: Your Hair Restorative is proving itself beneficial to me. The front, and also the back part of my head almost lost its covering—was in fact BALD. I have used but 2 half pint bottles of your Restorative, and now the top of my head is well studded with a promising crop of young hair, and the front is also receiving its benefit. I have tried other preparations without any benefit whatever. I think from my own personal recommendation, I can induce many others to try it. Yours, respectfully,
D. R. THOMAS, M. D.,
No. 464 Vine Street.
The Restorative is put up in bottles of three sizes, viz: large, medium, and small; the small holds half a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent. more in proportion, and retails for $3 a bottle.

TEMPERANCE EFFORTS IN CONCORD.—A Concord correspondent of the Congregational Journal, speaks very highly of a temperance address by Rev. Mr. Adams, and says:—

It is a matter of warm approval by all our good citizens, that a series of Addresses are to follow the one of last Sunday evening, once in two weeks, while other movements to advance the best interests of the cause of Temperance, are about to be initiated in all parts of the city. In other years, Concord stood well in a temperance point of view. To-day her position is bad exceedingly bad, and that, too, while important and good results are occurring in many parts of the country.

The editor of the same paper says:—

If the friends of Temperance of this city are luke-warm and inactive, it cannot be charged to a want of public Temperance Lectures and meetings. We doubt whether any town or city in the State, has been favored with a greater number of Sermons, Lectures, and public Addresses on Temperance the past year, than Concord has been. The pastors of the several churches have frequently delivered addresses in rotation, and meetings of various kinds have every year been held to promote the interest of Temperance in the midst of us.—Still more of the same sort are needed, no doubt. We should "not be weary in well doing." We hope the present efforts will succeed in awakening a healthy and persevering action for the suppression of the evils of the liquor traffic among us, which, we fear, are growing more and more formidable and alarming. If the leading men of our city, who profess to be friends of the cause, would leave all political considerations out of sight, and only say the word, and accompany the word with their zealous and persistent co-operation, every liquor shop would soon be closed, our young men would be saved from temptation, a glorious work of reform would be accomplished, and politics, finances, morals and religion would all be the gainers thereby.

SUICIDE IN PHILADELPHIA.—During Monday night, Nov. 21, John D. Winslow, for a number of years past the agent of Sackett, Davis & Co., manufacturing jewellers of New York city, committed suicide in the office of Draper, Tifft & Co., in South Third street, Philadelphia, by shooting himself with a pistol. The Bulletin says:

Mr. Winslow was employed in selling jewelry for his employers, by sample, and he kept his samples in a box which was carried around for him by a colored man.—Yesterday morning he was at his business as usual, and while in a store in Second street, above Arch, his box, with all its contents, valued at $3000, disappeared. He had left it in charge of his colored assistant, and when the latter went away with the box Mr. W. naturally supposed that he had stolen it.

The jewelry in the box was the property of Mr Winslow's employers, and its loss, while in his custody, so mortified and distressed him, that some time Monday night, while in the office of the above firm, where he usually slept, he shot himself through the heart.

His body was found Tuesday morning, with the discharged pistol beside it, by Mr. Richard S. Bartine, who, on going into Mr. Winslow's room, saw his clothes lying in a chair, and Mr. W. in bed, looking very pale. On looking very closely at him he discovered that he must have been dead for some hours. A number of letters were lying in the room, addressed to different friends of the deceased. They were dated between seven and eight o'clock Monday evening. In the letters he speaks of the loss of the property of his employers, of the mortification it had caused him, and of his intention to destroy himself.

One of the most painful features of this melancholy business is the fact, that the event which instigated the tragic act was all a mistake. The trunk containing the jewelry was not stolen by the colored man. Through some misapprehension the latter, on Monday, took the box and its contents to the jewelry store of Mr. Eli Holden, in Market street above seventh, where he left it, saying that he had been directed by Mr. Winslow to do so. As the latter had been in the habit of going to the store of Mr. Holden, that gentleman took charge of the valuables, and this morning they were safe in his possession. Mr. Winslow was a native of Providence, R. I., where he leaves relatives. He was unmarried, and about 27 years of age. His circle of acquaintance in this city was very large, and he was much esteemed by all who knew him.

SUDDEN DEATH.—On Friday evening, Solomon H. Currier Esq., of Newburyport, died suddenly, aged 75 years. He had been gradually declining for some years, and died sitting in his chair, from sheer exhaustion of nature. In earlier life he was one of parson Milton's deacons, was collector of U. S. Direct Tax, Collector of the Customs, and an influential man.

☞ The Democrats of Massachusetts, having elected about fifty representatives, are so astonished that they cannot tell what shall next happen. They think of electing their candidate for Governor in about seven years, as Jacob won Leah when he was "after" Rachel.

Grace Greenwood passed the ordeal of a Boston audience most triumphantly. Her lecture before the Fraternity on "The Heroic in Common Life," gave great satisfaction.—*Boston Sat. Eve. Gaz.*

"Miss, what have you done to be ashamed of, that you blush so?" "Sir, what have the roses and the strawberries and the peaches done that *they* blush so?"

LOSS OF STEAMER INDIAN.—The Liverpool and Portland steamer Indian, which was wrecked Nov. 9, had 8 cabin and 30 steerage passengers, with a crew that made the total number of souls on board 115. Of this number 24 were drowned. The passengers were mostly of the laboring class, many of them Germans and Hungarians.

About half an hour after the vessel struck, a heavy roller came in, and lifting the ship about six feet let her fall on the rock, when she broke across the paddle boxes into two parts. The bow fell over side ways, while the after part then remained entire. Several persons were on the bow, but were rescued by passing a rope over the chasm and hauling them aft. A singular incident occurred here. An aged Irishman, who had a considerable sum of money with him, had for a week previous been insane, from fear of being wrecked. He would frequently pack up his apparel, and offer any one money to put him ashore, prophesying that the ship would never reach Portland. After the bow fell over, he was seen sitting on the forecastle deck ladder, with his satchel in his hand, and apparently unconscious or unable to take advantage of the attempts made to save him. In a little time he fell from his place and slid across the deck into the sea, where he was drowned, as he had foretold a week before.

Most of the loss of life occurred at the time the ship broke across.

A young Wesleyan missionary, who particularly distinguished himself in attempting to rescue others, is himself left without anything in the world except the clothes he wears. Others, of the poorer class, are equally ill off.

Through the day the passengers and crew were taken off by boats belonging to the place; and through the night the boatmen sought to reward themselves by visiting the wreck and carrying off the silver plate, along with the clothing belonging to the passengers and crew.

A boat's crew went out on Tuesday morning to see if any of the wreck remained, and they returned with the news that not a single plate of the vessel was to be seen.

☞ Baltimore dispatches of Sunday speak of more reinforcements to Gov. Wise's army, and say these reinforcements will make the force at Charlestown over one thousand strong. Every car that passes through is searched at all the stopping places in Virginia, for armed men. There seems a determination to keep up the panic.

Companies from all parts of the State have tendered their services to Gov. Wise; also four companies from Georgia, and one from North Carolina, but their services were declined.

The Richmond Dispatch says the people of Virginia ought to stay away from the execution of Brown and his associates. It also says that visitors from other States, if they are permitted to be present, will have assigned to them a position where they can do no mischief.

It is said the new military movements have grown out of a confident belief on the part of the Virginia officials that a rescue was to be made on Sunday night. Gov. Wise and Attorney General Hunter professed to have received reliable information to that effect.

☞ The valet of Hon. Grantley Berkley, the modern mighty hunter, passed through Pittsburg, Pa., last week, on his way eastward, and being a comely man, gave himself out for his master. Several Pittsburgers politely called upon him, and paid profound deference to his remarks.

☞ Dr. Livingstone finds himself unable to prosecute his African explorations without a more powerful steamer than the fragile one hitherto employed on the Zambesi, and has appealed to friends in England for assistance.

☞ A destructive fire occurred at Taunton, Mass. Sunday morning at 3 o'clock, consuming about 25 shops and stores, and some houses. The total amount of loss is about $150,000, and the insurance is reported to reach $86,000.

☞ On Wednesday Mrs. John Stone of Tuftonborough, N. H., a widow lady of 72 years, while on her way to join a Thanksgiving party, was run over by the cars at the depot in Dover, N. H., and had an arm and leg cut off.

☞ A lad named McDonald recently died on board a Gloucester fishing vessel, in Massachusetts Bay, from the effect of swallowing, accidentally, a portion of a friction match. He lived till the eleventh day.

The very last curiosity spoken of in the papers is a wheel that came off a dog's tail when it was a waggin'. The man who discovered it has retired from public life to live on what he owes.

NEW YORK, Nov. 27.—Steamer Baltic arrived to-day, bringing California dates of the 5th, $1,750,000 in specie, and 650 passengers, including the officers and crew of the frigate Saranac.

AN INDIAN'S COMMENT.—When Governor Tallmadge came out to Fond du Lac, then a territory, his new home was graced by several grown up daughters. The Indians were "there and thereabouts" at the time, and frequently were met by members of the Governor's family. It was an era in female dress when the bustle was a desired accession of grace and outline, but new to the aborigines. A grave old chief was asked one day what he thought of the Governor's daughters. "Pretty squaws, nice white squaws, pity 'um backs broke." What would the old chief say now in these modern days of wide-spread crinoline?—*Chicago Press.*

Ladies and Gentlemen, in all parts of the world testify to the efficacy of Prof. O. J. Wood's Hair Restorative, and gentlemen of the Press are unanimous in its praise. A few testimonials only can be here given; see circular for more, and it will be impossible for you to doubt.

47 Wall Street, New York, Dec. 20, 1858.

GENTLEMEN:—Your note of the 15th inst., has been received, saying that you had heard that I had been benefitted by the use of Wood's Hair Restorative, and requesting my certificate of the fact if I had no objection to give it.

I award it to you cheerfully, because I think it due. My age is about 70 years; the color of my hair auburn, and inclined to curl. Some five or six years since it began to turn gray, and the scalp on the crown of my head to lose its sensibility and dandruff to form upon it. Each of these disagreeabilities increased with time, and about four months since a fourth was added to them, by hair falling off the top of my head and threatening to make me bald.

In this unpleasant predicament, I was induced to try Wood's Hair Restorative, mainly to arrest the falling off of my hair, for I had really no expectation that gray hair could ever be restored to its original color except from dyes. I was, however, greatly surprised to find after the use of two bottles only, that not only was the falling off arrested, but the color was restored to the gray hairs and sensibility to the scalp, and dandruff ceased to form on my head, very much to the gratification of my wife, at whose solicitation I was induced to try it.

For this, among the many obligations I owe to her sex, I strongly recommend all husbands who value the admiration of their wives to profit by my example, and use it if growing gray or getting bald. Very Respectfully,

HENRY J. LAVENDER.

To O. J. Wood & Co., 444 Broadway, N. Y.

Siamaston, Ala., July 20th, 1859.

To Prof. O. J. Wood: Dear Sir: Your "Hair Restorative" has done my hair so much good since I commenced the use of it, that I wish to make known to the PUBLIC its effects on the hair, which are great. A man or woman may be nearly deprived of hair, and by a resort to your "Hair Restorative," the hair will return more beautiful than ever; at least this is my experience. Believe it all! Yours truly,

WM. H. KENEDY.

P. S.—You can publish the above if you like.—By publishing in our Southern papers you will get more patronage south. I see several of your certificates in the Mobile Mercury, a strong Southern paper. W. H. K.

WOOD'S HAIR RESTORATIVE.

Professor O. J. Wood:—Dear Sir:—Having had the misfortune to lose the best portion of my hair, from the effects of the yellow fever, in New Orleans in 1851, I was induced to make a trial of your preparation, and found it to be the very thing needed. My hair is now thick and glossy, and no words can express my obligations to you in giving to the afflicted such a treasure.

FINLEY JOHNSON.

The Restorative is put up in bottles of three sizes, viz: large, medium, and small; the small holds half a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent. more in proportion, and retails for $3 a bottle.

Catarrhal Cough.

This insidious and annoying symptom, so difficult to treat, depends on a subacute inflammation of the air-passages, which is apt to end in chronic ulceration and a form of consumption. The mucous membrane of the air-passages is peculiarly susceptible to the healing influences of the PERUVIAN SYRUP, as the testimonials of some of our first citizens show.

There is no known remedy can exceed in speediness of cure, and certainty of effect, that which has become world famous as DR. HOSTETTER'S STOMACH BITTERS. In all diseases of the stomach, which are of a morbid nature, the Bitters have effected most remarkable cures when many other remedies have failed. Hundreds of certificates have been given by those who have thoroughly tested its efficacy, all of which corroborate its efficiency, when it is administered according to the directions on each bottle.

Some of the worst cases of Dyspepsia, Diarrhea and Costiveness, have been permanently cured by the use of the Bitters.

Sold by druggists and dealers generally, everywhere.

R. R. R.

On the 1st day of September, 1853, Mr. Charles Randolph called at the R. R. R. office, and stated that for ten years he had not enjoyed a single meal. He had not, for five years, had a natural discharge from his bowels; but was obliged to resort to Injections, &c. He was pale, haggard, and thin. We ordered Radway's Regulators, one each night, and Radway's Resolvent, three times per day. On the eighth of September he called upon us.

HE WAS SO ALTERED THAT WE KNEW HIM NOT.

His appetite is good—his digestion easy—his skin moist and healthy—his step elastic and buoyant—his body vigorous, and his eye indicates a man of health and energy.

For Liver Complaint, Dyspepsia, Difficulties of the Urethra and Bladder, Radway's Regulator and Renovating Resolvent are a quick and positive cure. For all Aches and Pains, for Neuralgia and Rheumatism, for Nervousness and Bilious Complaints, Radway's Ready Relief is quick and effectual. In five minutes' time after its application, the patient is free from pain.

Sold by Druggists everywhere.

THE OXYGENATED BITTERS.

Nature, in her great laboratory, has stored some remedy adapted to every disease which "flesh is heir to." But it requires the investigation and research of the philosopher to discover and apply this remedy. Such research and investigation has succeeded in discovering a remedy for that most afflictive dispensation, the

DYSPEPSIA!

With all its lesser and numerous evils; and it may be safely asserted that until the appearance of the *Oxygenated Bitters*, a case of Dyspepsia cured was a rare experience in medical practice. Now, under the influence of these Bitters the rule is to *cure*, the rare exception, failure to cure.

Read the following, which the subscriber requests us to publish for the benefit of the afflicted:

Obdurate and Inveterate Case of Dyspepsia cured by the Oxygenated Bitters.

The following from a gentleman well known in the region in which he lives ought to satisfy all those of little faith:

WATERTOWN, N. Y., July 28, 1858.

S. W. FOWLE & CO., Boston.—*Sirs*:—Nine years since I was attacked by that curse of all diseases, *Dyspepsia*, which so affected me as to cause great oppression, fullness, and bloating of the bowels, immediately after eating, accompanied with terrible pains in the stomach, often occasioning nausea, vomiting, acidity, and headache, together with general debility and suffering, altogether rendering life a burthen.

After having tried every known remedy without effect, and despairing of ever regaining my lost health, I was induced to make use of the Oxygenated Bitters, the good effects of which were immediately visible on my health and system. Before using a whole bottle I was entirely cured; and I feel a pleasure inducing all like sufferers as myself to make use of this remedy.

GROVER & BAKER'S

Celebrated Family Sewing Machines

NEW STYLES. — PRICES FROM $50 TO $125.

HEMMERS, $5 EXTRA.

OVER THIRTY THOUSAND IN USE.

These Machines sew from two spools, as purchased from the store, requiring no rewinding the thread, and finishing each seam by their own operation, without recourse to the hand needle, as is required by other machines. On account of their simplicity, durability, ease of management and adaptation to all varieties of family sewing they execute either heavy or fine work with equal facility, and without special adjustment.

THE NEW MACHINES INTRODUCED BY THE

GROVER & BAKER

SEWING MACHINE COMPANY

Are of elegant finish, and their operation is rapid and very quiet. The EASE with which they can be managed is a distinguishable feature, and the stitch is the strongest, handsomest, and most elastic of any made.

What is specially claimed for the "GROVER & BAKER" machine is—

That it makes a *stronger* and *handsomer* seam than is made by hand or by any other machine.

That it makes a more *elastic* seam, which will withstand the tests of wear, and washing and ironing, better than that made by any other machine.

That the speed at which it can be used is higher than any other, and the power required to operate it is less than that required by any other machine.

That it is nearly noiseless in its operation.

That its construction is more simple, and less liability to disarrangement less than any other.

That it can be quicker learned, more easily kept in order, got ready for use, and changed from one quality or grade of work, than any other.

Its applicability to the entire range of Family Sewing—from the finest and most delicate texture to the heavier and coarser fabrics.

That it uses thread or silk from the original *spools*—no re-winding—no shuttles or bobbins to fill.

That it finishes its work and fastens the end of every seam; each stitch is independent of its neighbor.

Is there a husband, father or brother, who will permit the drudgery of hand-sewing in his family when a GROVER & BAKER Machine will do it better, more expeditiously, and cheaper than can possibly be done by hand?

TESTIMONIALS.

PORTSMOUTH, April 12, 1859.

Having tested the merits of the various popular Sewing Machines, in the manufacture of our Capes and Raglans, we unhesitatingly recommend the Grover & Baker, as far superior to the others. ALLEN & PAINE.

PORTSMOUTH, July 18, 1859.

If you wish to purchase a machine that will do work handsomely and strongly, and will not be liable to get out of repair, call on Mr. Whittemore, in Daniel street, see the operation of Grover & Baker's machine, and then place one in your family. They will never consent to part with it, after they understand its operation.

☞ At the late City Election, as is known, Mr. Reding, the democratic nominee for Mayor, was elected by 28 majority; but if any person wishes to see what the political party vote was, let him look at the vote for Aldermen, where 15 men were voted for, instead of 2, and where probably, the parties were fully represented.

Taking the average candidate on each ticket, in the three wards, the Republican vote in the city was 618, and the Democratic 617.

Taking the highest vote on each ticket in the three wards, the Republican vote was 621, and the democratic 618.

This shows a very close vote on the regular day of election,—and may be supposed to represent the parties nearly as they are.

☞ By the Amendments to the city charter of Portsmouth, which were passed in 1857, the Mayor has a *veto* power in the city council, exactly as the President of the United States and the Governors of most states have, in their legislatures. The city council, however, can then pass an ordinance by a two-thirds vote, over his veto.

The same amendments give the Mayor and Aldermen a negative on each other, in appointing Collector of Taxes, Street Commissioner, City Marshal and all police officers;—so that unless they agree on new officers, the present incumbents can keep their places and draw their pay another year.

☞ The annual meeting of the City Mission was held on Sunday evening, in the North Church. After a musical introduction and prayer, Rev. Mr. Medbery, the City Missionary, read the annual report of his labors, a plain, business like document, which we expect to publish in a day or two.

Addresses followed by Rev. Messrs. Leavitt, Peabody, and Hicks of Dover, and by Messrs. Stevens, Bufford and Penhallow.

At the close a subscription was made, to promote the objects of the mission. There is no doubt of the great utility of the mission, or of the faithfulness of the missionary.

Wreck and Loss of Life.—The schooner Massassoit, of Frankfort, Me., 96 tons, loaded with wood, bound for Salem, Mass., John F. Campbell Master, Elias Holt mate, Albert and Thomas Floyd, seamen, all of Frankfort, sailed from F. 11th inst. Came out of Portland harbor at noon of the 24th inst. At 10 o'clock in the evening struck on the West Sister so called, near the entrance of Portsmouth harbor. The vessel went to pieces soon after going ashore. Albert and Thomas Floyd started for the shore on pieces of plank, but perished among the breakers. Their ages were 23 and 16 years, and they were the only children their aged parents had to provide for them in old age. Albert Floyd leaves a widow. Those that were saved were taken off by Messrs. Alpheus Blake and John Tobey at the risk of their lives. The survivors are at Kittery Point, where they will be made comfortable until they can return home. The Seaman's Friend Society at Kittery has made an appropriation of $30 to furnish them with clothing.

Some friends in Portsmouth are doing something to aid the parents of the deceased seamen.

☞ We are pleased to learn that Samuel P. Long, Esq., of this city, has been engaged to deliver his Course of Lectures on "Beauty and the Fine Arts," before the Boston Mercantile Library Association, commencing early in December. Mr. Long's advantages and facilities for such a work are almost unequalled; and to all who have any appreciation of "the beautiful," we can promise, in this fine series of lectures, one of the rarest treats of the sort they ever enjoyed.

☞ Mr. W. Freeman has just received a cargo of fresh Virginia Oysters, of prime quality, which he is selling cheap, at the old stand. See his advertisement, and try the bivalves—if you don't find 'em good, why, we ar'n't judges of shell fish, that's all.

☞ We learn that the Jewellers in this city are to close their stores at half-past 7 o'clock every evening except Saturday, for the winter season. This is a good arrangement—and the example might well be followed by most if not all our storekeepers.

☞ The Portland Kerosene Oil Company manufacture a superior article, which is now sold by retail at one dollar per gallon. Mr. Cobb sells it, and it burns almost as well as daylight.

The Lyceum.—It will be seen by the advertisement, that "Grace Greenwood" is to lecture on the 13th of December; and as that was her only evening unengaged, Rev. Mr. Adams, who was before announced for that night, will lecture on some other evening of the same week.

There will probably not be any lecture before the Lyceum this week.

Next week, Tuesday, Dec. 6th, Geo. W. Pettes, Esq., will read a Poem.

LOST—On Saturday afternoon, in or near Market street, a light fur VICTORINE. The finder on leaving it at the Chronicle office, shall be suitably rewarded.

Mexican News.—A letter from Panama states that a battle had been fought at Tepec, Mexico, between the conservatives and liberals. The latter, under Gen. Coronado, were defeated, with the loss of 400 killed among them Gen. C. The liberals fled to Mazatlan. The liberal party at Mazatlan had refused to recognize the American Consul, until the arrival of the St. Marys, when all difficulties will be settled.

Capt. Stone returned to Sonora with an escort of 200 U. S. troops and 400 civilians.

☞ The Washington correspondent of the Tribune says Douglas has caused his anti-Lecompton friends to be informed that he desires them to go into the Democratic caucus, and if objection is made to that, to oppose any combination with Republicans.

☞ Mr. James Hood was ordained (as an Evangelist) at Nottingham, Nov. 16.—Sermon by Rev. Mr. Tobey, of Durham; right hand by Rev. Mr. Stearns, of Epping. There has been no ordination of a Congregational minister there for 100 years; and Mr. Hood is probably the oldest man who was ever ordained in New Hampshire.

Senator B. G. Brown of Mississippi is decidedly hard to please. Seward is a high-wayman, Douglas is less to be desired than Seward, and position of the Administration is, if possible, more objectionable than that of either! He is certainly to be pitied. He wants the federal Congress to protect slavery in the Territories by special and positive enactments, and perhaps he thinks Seward is the most likely of the three to grant his demands.—*Bath Times.*

☞ The recent midnight parade of the Sons of Malta in Boston kept thousands of street witnesses out of bed till a late hour. It was a strange spectacle, the sight of 1500 men, some in armor, some in cowls and robes, some mounted and some on foot, marching to a psalm tune with gong accompaniment. A supper at Faneuil Hall closed the festivities.

Woman's Veneration.—If women have one weakness more marked than men, it is towards veneration. They are born worshippers—makers of silver shrines for some divinity or other, which, of course, they always think, fell straight down from heaven.—*Mrs. H. B. Stowe.*

Trick of Trade.—It has been decided in England that tradesmen ticketing their goods for sale in their windows at a specific sum, cannot be compelled to sell such goods at the price marked.

An old lady was very highly delighted and edified by a view of the vessels on the Long Island Sound towing their boats astern, and exclaimed: "How perfect is all the works of nature! Even the great big ships have their little ones runnin' along after them just as playful as lambs."

Bathing Horses.—The English and Americans rarely bathe their horses, but in Prussia it is the custom to attach to the cavalry barracks a capacious basin for swimming the horses in.

Aroostook Women.—Two ladies called on us last Monday, whose united weight was four hundred and sixteen pounds!—No "angular sharpness" there. These ladies are fine specimens of Aroostook womanhood.—*Aroostook Pioneer.*

Weights.—The standard of weights was originally taken from the ears of wheat, whence the lowest denomination of weights we have is still called a grain.

The proverb, "Lightly come, lightly go," does not apply to the gout, nor to the rheumatism, nor to freckles, nor to a light eagle; for all these plagues come lightly enough, and yet there is the greatest difficulty in getting them to go.

☞ What more beautiful and acceptable present, than a year's subscription to the Cosmopolitan Art Association? See advertisement in another column; and the splendid Engravings at Mr. Cobb's Music Store.

Capt. Petrie, of the steamship Washington had been formally presented with a gold chronometer and chain from the President of the United States, for services rendered to the crew of the ship Grey Oak of New York.

"Reverend."—The word "reverend" occurs only once in the Bible, which is in the 9th verse of the 11th Psalm.

The political papers are still harping on the Harper's Ferry affair, but it is getting to be rather dull music.—*Portland Transcript.*

STOVES, TIN WARE, &c.,

Which he offers for sale at wholesale and retail, at very low prices. He has a great variety of the best and most popular Stoves, among which are:

1. **The Stewart Cook Stove,** with the latest improvements. This is an air-tight Cook Stove, for Wood or Coal; it has moveable coverings, which can confine the heat in the stove, or let it out into the room; has a reservoir of hot water 10 or 20 gallons, and a tin closet beneath;—a top cover, which is a great institution for baking, and will keep a coal fire all night; it has a Dutch Oven for roasting in front of the Stove;—and it is every way a most convenient and durable Stove. There are 4 sizes.

The following recommendation of Stewart's Stove, is from an eminent engineer, and must be satisfactory to all who wish to understand the value of this excellent Stove:

Portsmouth, N. H., Nov. 5, 1859.

Mr. Blaisdell:—Seven years ago I moved to this city, and sold, before I came, a "Stewart's Air Tight Cooking Stove," which I had used about five years. During that time no repairs or expense had been made upon it. Since I have been here I have tried the various Cooking Stoves in use, and I think for economy and durability the "Stewart" excels them all. I wish you would take away the Stove I now have from my house, and set up one of Stewart's as soon as you can. Your ob't servant,

B. F. Chandler.

Fousel's Pabulum Vitæ.

☞ THE GREAT FRENCH REMEDY possesses extraordinary properties for the speedy and permanent cure of Consumption, Bronchitis, Coughs, Colds, and all Pulmonary Disease.

This celebrated specific is now universally acknowledged to be infinitely superior to all other preparations for the cure of Pulmonary Disease, both from its innocent nature and most astonishing curative properties; *it being the only remedy known that will arrest the development of Tubercles in the Lungs or restore the vital functions of the pulmonary organs to their normal condition.* Its invaluable properties have obtained for it the highest recommendation and praise from some of the most eminent physicians and chemists in the country: while the best and surest proofs of its merits are afforded by the numerous testimonials of its great efficacy in conquering disease, which are constantly received from our most respectable citizens. Invalids in all stages of pulmonary disease should not fail to give it a trial, as it can be administered to the most delicate and feeble with perfect safety and certain relief; and we herewith insert a few testimonials for their encouragement, selected from hundreds of like import.

Certificate of Dr. A. A. HAYES, in reference to the unequalled virtues of this great discovery.

This preparation, by chemical analysis, was proved to be free from opium, or any of its compounds; nor were any of the alkaloids present. It does not contain any mercurial or mineral substance, but consists wholly of volatile, diffusible agents, which afford vapors freely at a moderate temperature. Most of the substances present are officinally used in alleviating pulmonary disease; but the device by which they are combined is new and original, and adapts the compound to inhalation, or other modes of administration.

Respectfully,
A. A. HAYES, M. D., State Assayer.

16 Boylston St., Boston, Dec. 1857.

In the Boston Transcript of December 11, 1858, the editor says:—

"We have seen a letter from an eminent physician of this city, in which he says:—'I have used *Fousel's Pabulum Vitæ* in several cases of Bronchial disease, and in some with great benefit. I know of no remedy equal to it for children, where a minute dose is essential; or for adults of irritable stomachs, or having a tendency to reject ordinary medicines given for coughs, etc. I shall continue to use it in my practice.'"

Testimonial from the Sisters of Charity, of the St. Vincent's Orphan Asylum, in Boston.

Boston, July 31, 1858.

To Mr. F. Laforme, Agent:

"The Sisters are happy to state that, having used *Fousel's Pabulum Vitæ*, they have found it efficacious in several instances, for bad coughs and colds. Signed by the Sisters of Charity.

Testimonial from a well-known Apothecary's Clerk.

Boston, March 10, 1859.

J. F. Laforme, Esq.:

Dear Sir—I had been suffering for a considerable length of time from a severe cough, and had in vain had recourse to nearly all the remedies in use. My cough began to give me much uneasiness from its serious effects on my system, when three days' use of *Fousel's Pabulum Vitæ* restored me to complete health. The medicine being new in this market, I had recourse to it last; but I can now confidently recommend it as the best medicine I know of. Yours, truly,

CHAS. H. FOSTER.

At Fred Brown's, Washington, corner State St.

In the Boston Post, Sept. 24, 1858, the editor says:

"An extraordinary cure of Consumption has recently come to our knowledge, effected through the instrumentality of *Fousel's Pabulum Vitæ*; the evidence of which is in the handwriting of the subject, Mr. Wm. P. Brigham, No. 120 Albany st., in this city. It seems that for eighteen months he had been exhibiting all the usual symptoms of Consumption, and that after having had recourse to the skill of various physicians, without benefit, he had to abandon his business and be confined to his house. Hearing of *Fousel's Pabulum Vitæ*, and of several remarkable cures effected by it, in cases as desperate as his own, he concluded to try it as a forlorn hope. The result has been most happy—he has now entirely recovered, and is engaged in his usual pursuits. It is such well authenticated cases as this that we take pleasure in laying before our readers, since, by so doing, many valuable lives may be saved, and much good effected.

It is sold at the low price of 50 cents, and $1.00 per bottle, thus placing it within the reach of all classes. F. J. LAFORME, sole Agent, Boston. M. S. 1m* GEO. N. DOW.

MOTHERS,

In presenting you with DR. EATON'S INFANTILE CORDIAL, we desire to state its superiority over every nostrum that same or quack has heretofore offered you.

First—It is the preparation of a regular physician, who is well qualified from much experience in infantile complaints to prescribe for them.—Secondly—It is entirely free from paregoric or opiate of any kind, and consequently relieves by removing the suffering of your child, instead of deadening its sensibilities. Thirdly—It is put up with great care, as a comparison will tell with any other article for infantile complaints will show: the very roots from which it is distilled being dug from the forests under the direction of Dr. Eaton, many of them by his own hands. Fourthly—it is perfectly harmless and cannot injure the most delicate infant, and is a certain cure and relief in all the following cases, which is its chief merit over every other preparation.

FOR ALL COMPLAINTS ATTENDING TEETHING; such as DYSENTERY, COLIC, &c.; also, for softening the gums and relieving pain. For regulating the bowels it is unequalled. For Cold in the Head it is a sure relief. For CROUP, the most fatal and trying of diseases, it can be relied on with perfect confidence; and being a powerful anti-spasmodic in all cases of convulsions or fits, we earnestly recommend you to loose no time in procuring it.—Lastly—it costs so much more than other preparations of the kind, that we cannot afford such long advertisements as can those whose whole expense is their advertising; for the same reason, it commends itself as the most reliable to all mothers. In all cases, the directions wrapped around each bottle, must be strictly followed. Price, 25 cents per bottle.

Sold by CHURCH & DUPONT, Druggists, No. 25 Maiden Lane, New York.

And by all respectable Druggists throughout the country.

Ayer's Cathartic Pills.

Ayer's Sarsaparilla.

AYER'S SARSAPARILLA,

A compound remedy in which we have labored to produce the most effectual alterative that can be made. It is a concentrated extract of Para Sarsaparilla, of combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will a complish their cure must be of immense service to this large class of our afflicted fellow citizens. How completely this compound will do it, has been proven by experiment on many of the worst cases to be found in the following complaints:—

SCROFULA AND SCROFULOUS COMPLAINTS, ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUM, SCALD HEAD, SYPHILIS AND SYPHILITIC AFFECTIONS, MERCURIAL DISEASE, DROPSY, NEURALGIA OR TIC DOULOUREUX, DEBILITY, DYSPEPSIA AND INDIGESTION, ERYSIPELAS, ROSE OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD.

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud.—Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions or sores;—cleanse it when you find it is obstructed or sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, disease can be no lasting ealth. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.

Sarsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it contain but little of the virtue of Sarsaparilla, or anything else.

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Aence bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justlyd espised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have grounds for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judi ciously taken according to directions on the bottle.

DR. J. C. AYER & CO.,

AMERICAN & FOREIGN PATENTS.

R. H. EDDY, Solicitor of Patents,

Late Agent of U. S. Patent Office, Washington, [illegible] 37.

76 STATE, OPPOSITE KILBY ST., BOSTON.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him t. accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

I have no hesitation in assuring inventors they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,

Late Commissioner of Patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,

Commissioner of Patents.

BOSTON, February 8, 1858.

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that one is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART.

From Sept 17, 1857, to June 17, 1858, the subscriber, in the course of his large practice, made on twenty rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in HIS FAVOR, by the Commissioner of Patents.

DR. J. B. HUGHES,

Knowing that there are at this moment thousands of persons in the surrounding towns, suffering from the reluctance to make known their complaints and consult a physician, he would state that any of his medicines will be sent by express or otherwise, to all who may order them, provided the true description of the disease be sent by Mail and directed as above.

Full and explicit directions will accompany every package, and the most inviolable secrecy preserved.

DR. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of disease which have been improperly treated by empyrics have come under his care, and more than three-fourths of this number are inscribed upon his books as perfect cures.

Patients treated by letter by addressing Dr. J. Hughes, post paid, and medicines sent all over the country, carefully concealed from scrutinizing friends.

Be particular in finding Dr. Hughes. Do not be lured from the right path, or be persuaded to try experiments with false and fictitious remedies at the expense of destroying what is the great gift of life, a healthy constitution.

The medicine can only be obtained at the Office of Dr. HUGHES, 13 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE RENOVATING PILLS. These pills are universally lauded in efficacy and superior virtue in regulating all female irregularities. Their action is specific and certain, producing relief in a short space of time. They are acknowledged to be the best in use.

The Dr. cautions the public to beware of impositions that are being practiced by advertising spurious article under some specious or fictitious name. They are entirely useless, having been got up by miserable pretenders who are entirely ignorant of the efficacy of medicines.

All who are in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.

These pills can be sent to any part of the country with directions. Remember the number—13 Howard street, Boston.

P. S.—The best of accommodations furnished, with kind and attentive nurses if they wish, at a reasonable rate. jy dly

WEDNESDAY, NOV. 30, 1859.

LETTERS ON THE TEMPERANCE CAUSE. Rev. Wm. Clark, State Missionary Agent, has written two or three letters on the subject of Temperance, which have appeared in the Congregational Journal. We hope he will continue to write, until he attains the object at which he aims, viz., to stir up the ministers, churches and people of his own denomination to *new* or *renewed* interest on the subject.

They once, as he truly states, took a very active part in the enterprise, and really achieved a great deal. Some of the elderly men, Mr. C. among them, retain their early zeal in the matter—and some of the younger men take hold well. If any do not, (and of these Mr. C. must judge,) we hope he may succeed in arousing their benevolence and securing their influence.

The pastors of that denomination in New Hampshire, have, by their purity from the tobacco abomination, placed themselves on high vantage ground in regard to temperance; and we hope they will use it well.

We have already noticed and corrected some inaccuracies in Mr. C.'s statements;—and we have observed some others, which we regard as not material; but when he speaks of the temperance measures from 1825 to 1840 as mostly moral—we wonder he should forget "the 15 gallon law" of Massachusetts, with the great struggle to get it enacted, and the flood of rumming politics by which it was overturned and the State revolutionized.

And so, when he speaks of the Sons and Daughters of Temperance, he don't know whether a total abstinence pledge is a condition of membership, because it is a secret society and he don't belong to it. (Neither we may say does Uncle Toby—but) their printed and published Constitutions, which anybody can get, include such a pledge.

Moral suasion was a pet idea of the Washingtonians, among whom it was used chiefly in this way: All the old efforts in the license law times, to reform men by law from intemperance, were directed to the *punishment of the drunkard*, by fine, imprisonment and disgrace; but now, said they, we will reform him by *moral suasion*, and not by punishment! A few of them applied the same means to the seller of liquors—but many of them said, moral suasion for the drunker, and law for the seller.

It is well worth while, in this connection, to state the fact that the Sons of Temperance in Massachusetts are increasing in numbers, and in other States are reviving after a depression. They have a number of able papers circulating in the States, Canada, N. Brunswick, &c.

Finally, all the *legal* measures, successful or not, are a mere natural outgrowth of the moral conviction that wine is a mocker, that strong drink is raging, and that whosoever is deceived thereby is not wise.

☞ The effect of the increase of the duty on spirits in Ireland from 6s. 2d. to 8s. per gallon had been to cause a decrease in the consumption of spirits in that country of 1,068,014 gallons. In noticing this fact the Commissioners remark:—In connection with the diminished consumption of spirits, we think it may deserve notice that there has been a considerable increase in the quantity of beer brewed in Ireland (causing an addition of £42,000 to the malt revenue,) and that the Customs returns show an increase of 5 per cent. in the quantity of tea entered for home consumption, of 12 per cent. in coffee and about 6 per cent. in sugar and tobacco.

☞ Burleigh says, in a letter from New York to the Boston Journal—

Those who have been fearful that the Protestant character of the church was to be damaged by the daily morning and evening prayer in some churches, would set their hearts at rest on the matter should they look into the houses of prayer and see the attendance. In one of the fashionable churches, at times, the sexton and the minister being the only attendants, after ringing the bell the sexton has to go into the pew and make the responses, while the whole service is read by the rector in his robes, without a soul present but the minister and door-keeper.

☞ Among the political items we notice that,—In Rhode Island the American Republicans and Republican State Committees have formed a union and joined in a call for a State Convention.

In Hartford, Conn., the annual town election resulted in a Republican triumph.

And in Boston, as the Atlas says, the American Republican party are "sold out" to the Parker House clique, nominating Mr. Lincoln for relection, by a majority of *two* votes.

The Bangor Union figures in the next democratic candidate for President by a majority of 164! It puts down ten free States sure for the democracy, not a mother's son of which could be brought within sixteen rows of apple trees of a democratic triumph, as that paper defines democracy. Indeed, the triumph of such a creed as that paper advocates would be the sorest calamity which could befal our nation.—*Bath Times.*

For the Chronicle.

HARPER'S FERRY ARMORY.

When the bloody tragedy of Harper's Ferry shall have closed, the overwhelming voice of the nation will call for the removal of the Armory from that unhappy place. It must be located where men of any shade of sentiment will be permitted to work, and where it will never be involved in another attempt at a servile insurrection. I would propose, as a place eminently qualified for this *Rock Island.*

This island in the Mississippi is, I believe, the property of the nation. It has unlimited water power. Bridges connect it with the railroads of Illinois and Iowa. Here only is the Mississippi bridged; and, through here will be probably the *all-rail* communication between Maine and California. The permanent prices of beef, pork and flour must always be less than that of New York by nearly the price of the freight across half the continent.

The West has a right to one of the armories. Our centre of population is rapidly approaching the Mississippi, and while our vast Navy Yards remain on the seacoast it is time that the coal, the iron, the copper and the lead of the West should be put in form for our national defence, by men fed on the boundless products of the prairies at a point where they are farthest removed from market, and therefore bear a minimum price. I have never been at Rock Island, and have no other interest in the selection than the good of the nation.

Yours, LAWRENCE.

☞ The Washington Constitution invites the anti-Lecompton democratic members of Congress to come into the democratic caucus, and be killed. It pronounces the Lecompton constitution issue to be dead and buried, and it wishes to see the anti-Lecompton men in the same condition, generously offering to officiate as sexton in their behalf. The invited gentlemen may show that they would prefer to witness the death and burial of those who are so anxious for their extinction.

A NOBLE LITTLE GIRL.—A Warrentown, (Conn.,) little girl eight or nine years old, in the absence of all older than herself, caught her clothes on fire. She tried to suppress the flames, then asked her little sister of 4 years to throw water on her; but the little one ran, instead, to call the neighbors. When they came, they found her lying out in the yard, and, in reply to the question, "what she was doing there?" she said she thought if she staid in the house that the house would catch fire and burn the baby up too.

☞ If our girls cannot walk with their English sisters, still some of them are getting on very fast. At the boarding-school in Eagleswood, N. Y., the young ladies have a boat club, of which Miss Manning is coxswain, throw out the dumb-bells, spar, lift weights, swim, ride, &c.; while the girls employed in doing up Sharp's Rifle cartridges in the factory of Mr. Chadwick, at Hartford, go target shooting and win sets of jewelry by their markswomanship!

☞ It is said those members of Congress who are now in Washington strongly object to the new arrangement for seating the members of the House.

It was said on Monday that the War Department was called on for ammunition with reference to the Charlestown affairs.

The hanging of John Brown has become a sort of test question in Virginia. The Hunter men are for mercy, and the Wise men—who include the greatest fools in the State—are for judgement, the execution of which will not show much judgement on their part. The Senator and the Governor aspire to the Presidency, and the Governor is ferociously disposed because he thinks Virginia is for the gallows. So she may be now, but by the time the Charleston Convention shall meet, she may be ashamed of her present conduct and sentiments. Mr. Brown may be regared as "the child of the cord;" and there appears to be no hope for him. It is the very old story, that the successful coward is always cruel. *Manchester American.*

CLERGYMEN.—Churches in the United States kill their clergymen, but death is not all inflicted in the same way. If they are imprudent, they are put aside; if they are independent, they are put down; if they sin, "and there is no man living that sinneth not," the rack and the fagot, in words of censure, are their fate. Air and water are said to be free to all men. Just let a clergyman luxuriate in the open atmosphere, in the dashing wave, and if the congregation don't overhaul the unlucky gymnast or yachtman, all experience fails.—*N. Y. Courier & Enquirer.*

☞ In one of the back numbers of Harper's Magazine (January, 1853) is a picture of Moses giving the law to the Israelites from Mount Sinai, in the foreground, while in the back ground a post and a rail fence is seen running over the mountain.

☞ A bear was seen in Gardiner last week, and caused about as much excitement as old Brown at Harper's Ferry. A boy was attacked by him and had his clothes torn. The next evening old Brain was shot.

There is nothing more ludicrous in the rhyming way, than the apostrophes of poetparents to their offspring.

☞ The Washington correspondent of the Tribune says Mr. Douglas has caused his anti-Lecompton friends to be informed that he desires them to go into the Democratic caucus, and if objection be make to that, to oppose any combination with the Republicans.

"Eras in the world's progress" are so common, that one may be reasonably looked for every week. But who ever reckons errors in the world's progress?

☞ On Saturday evening as the Old Colony and Fairhaven train was near Campello at about sunset, a woman who imprudently attempted to cross the track, was run over by the train and instantly killed.

Bulwer calls a newspaper "the common reservoir into which every stream pours its living waters, and at which every man may come to drink."

☞ A widow woman in Roslin, Canada, aged 62 years, recently starved herself to death under the superstitious belief that God had directed her to do so, in order to save her soul. She lived thirty days without food.

Why are country girls' cheeks like French calico? Because they are "warranted to wash and retain their color.

☞ Prof. Lowe has housed his great balloon for the winter in a gas establishment in New York, the aerial trip to Europe being indefinitely postponed.

Davidge, the avaricious manager of the Surrey Theatre, died early one evening. A friend carried the news to Jerrold. "Hang it," said Jerrold, "I should have thought he would have waited till the half price had come in."

"I'm all heart," said a military officer to his comrades. "Pity you're not part pluck," said his superior in command.

Catarrhal Cough.

This insidious and annoying symptom, so difficult to treat, depends on a subacute inflammation of the air-passages, which is apt to end in chronic ulceration and a form of consumption. The mucous membrane of the air-passages is peculiarly susceptible to the healing influences of the PERUVIAN SYRUP, as the testimonials of some of our first citizens show.

There is no known remedy can exceed in speediness of cure, and certainty of effect, that which has become world famous as DR. HOSTETTER'S STOMACH BITTERS. In all diseases of the stomach, which are of a morbid nature, the Bitters have effected most remarkable cures when many other remedies have failed. Hundreds of certificates have been given by those who have thoroughly tested its efficacy, all of which corroborate its efficiency, when it is administered according to the directions on each bottle.

Some of the worst cases of Dyspepsia, Diarrhea and Costiveness, have been permanently cured by the use of the Bitters.

Sold by druggists and dealers generally, everywhere.

R. R. R.

On the 1st day of September, 1853, Mr. Charles Randolph called at the R. R. R. office, and stated that for ten years he had not enjoyed a single meal. He had not, for five years, had a natural discharge from his bowels; but was obliged to resort to Injections, &c. He was pale, haggard, and thin. We ordered Radway's Regulators, one each night, and Radway's Resolvent, three times per day. On the eighth of September he called upon us.

HE WAS SO ALTERED THAT WE KNEW HIM NOT.

His appetite is good—his digestion easy—his skin moist and healthy—his step elastic and buoyant—his body vigorous, and his eye indicates a man of health and energy.

For Liver Complaint, Dyspepsia, Difficulties of the Urethra and Bladder, Radway's Regulator and Renovating Resolvent are a quick and positive cure. For all Aches and Pains, for Neuralgia and Rheumatism, for Nervous and Bilious Complaints, Radway's Ready Relief is quick and effectual. In five minutes' time after its application, the patient is free from pain.

Sold by Druggists everywhere.

THE OXYGENATED BITTERS.

Nature, in her great laboratory, has stored some remedy adapted to every disease which "flesh is heir to." But it requires the investigation and research of the philosopher to discover and apply this remedy. Such research and investigation has succeeded in discovering a remedy for that most afflictive dispensation, the

DYSPEPSIA!

With all its lesser and numerous evils; and it may be safely asserted that until the appearance of the *Oxygenated Bitters*, a case of Dyspepsia cured was a rare experience in medical practice. Now, under the influence of these Bitters the rule is to *cure*, the rare exception, failure to cure.

Read the following, which the subscriber requests us to publish for the benefit of the afflicted:

Obdurate and Inveterate Case of Dyspepsia cured by the Oxygenated Bitters.

The following from a gentleman well known in the region in which he lives ought to satisfy all those of little faith:

WATERTOWN, N. Y., July 28, 1858.

S. W. FOWLE & CO., Boston.—*Sirs,*—Nine years since I was attacked by that curse of all diseases, *Dyspepsia*, which so affected me as to cause great oppression, fullness, and bloating of the bowels, immediately after eating, accompanied with terrible pains in the stomach, often occasioning nausea, vomiting, acidity, and headache, together with general debility and suffering, altogether rendering life a burthen.

After having tried every known remedy without effect, and despairing of ever regaining my lost health, I was induced to make use of the Oxgenated Bitters, the good effects of which were immediately visible on my health and system. Before using a whole bottle I was entirely cured; and I feel a pleasure inducing all like sufferers as myself to make use of this remedy.

GROVER & BAKER'S

Celebrated Family Sewing Machines

NEW STYLES. — PRICES FROM $50 TO $125.

HEMMERS, $5 EXTRA.

OVER THIRTY THOUSAND IN USE.

These Machines sew from two spools, as purchased from the store, requiring no rewinding the thread, and finishing each seam by their own operation, without recourse to the hand needle, as is required by other machines. On account of their simplicity, durability, ease of management and adaptation to all varieties of family sewing, they execute either heavy or fine work with equal facility, and without special adjustment.

THE NEW MACHINES INTRODUCED BY THE

GROVER & BAKER

SEWING MACHINE COMPANY

Are of elegant finish, and their operation is rapid and very quiet. The EASE with which they can be managed is a distinguishable feature, and the stitch is the strongest, handsomest, and most elastic of any made.

What is specially claimed for the "GROVER & BAKER" machine is—

That it makes a *stronger* and *handsomer* seam than is made by hand or by any other machine.

That it makes a more *elastic* seam, which will withstand the tests of wear, and washing and ironing, better than that made by any other machine.

That the speed at which it can be used is higher than any other, and the power required to operate it is less than that required by any other machine.

That it is nearly noiseless in its operation.

That its construction is more simple, and its liability to disarrangement less than any other.

That it can be quicker learned, more easily kept in order, got ready for use, and changed from one quality or grade of work, than any other.

Its applicability to the entire range of Family Sewing—from the finest and most delicate texture to the heavier and coarser fabrics.

That it uses thread or silk from the original *spools*—no re-winding—no shuttles or bobbins to fill.

That it finishes its work and fastens the end of every seam; each stitch is independent of the neighbor.

Is there a husband, father or brother, who will permit the drudgery of hand-sewing in his family when a GROVER & BAKER Machine will do it better, more expeditiously, and cheaper than can possibly be done by hand?

TESTIMONIALS.

PORTSMOUTH, April 12, 1859.

Having tested the merits of the various popular Sewing Machines, in the manufacture of our Capes and Raglans, we unhesitatingly recommend the Grover & Baker, as far superior to all others.

ALLEN & PAINE.

PORTSMOUTH, July 16, 1858.

If you wish to purchase a machine that will do work handsomely and strongly, and will not be liable to get out of repair, call on Mr. Whittemore, in Daniel street, see the operation of Grover & Baker's machine, and then place one in your family. They will never consent to part with it, after they understand its operation.

MUSIC AT THE LYCEUM.—It was designed to have music each evening, but that was found impracticable, (as it had also been in former years,) partly because of the great expense necessary to procure suitable and satisfactory performances, but chiefly on account of the extreme difficulty of doing so at any rate. Piano-playing seemed to be the only available music, and there was no suitable instrument in the city to be had—since the old Grand got so badly singed in the fire a few years ago.

But we are happy to be able to state, that the managers of the Lyceum have procured a splendid new seven-octave Piano-Forte, which is to be placed in the Temple, for use at the remaining Lyceum lectures, and at other concerts, &c. This instrument is from the celebrated manufactory of Hallet, Davis & Co., and contains their famous "new scale" arrangement—and it is believed, is not excelled by any similar instrument in this city or elsewhere. Owing to the press of orders for these new style Pianos, it has been difficult to procure one; and it is not certain that this will be completed in season for Mr. Pettes' lecture next week, though it is to be hoped it may.

TASTE.—It is a delight to the eye, to see the exquisite arrangement of flowering plants and vines, in shells and other hanging receptacles, in the windows of Mr. Meineth's residence, on Islington street, at the West End of the city.

And it is no less a wonder, if it be less of a delight, to see a house, situated in the same part of the city, with the fences and outbuildings all painted white,—the trimmings of which are all painted

"Deeply, darkly, beautifully blue."

☞ Mr. Shores, of No. 1 Congress Block, has laid on our table a most exquisite Ambrotype of "Studying Together."—He has for sale a large lot of these rich pictures, embracing 50 different subjects. We advise everybody to call and take a look at these beautiful works of art, and at the same time take a peep at the rich goods Mr. Shores is now opening for Christmas and New Year.

☞ An intelligent Western reader and correspondent of the Chronicle, who has lived in New Hampshire and travelled extensively, says, in a late letter to us, "When will you get that little link of railroad with Dover? That and the little bit to Manchester, seem to me more needed than any other in New England."

For the Chronicle.

GYMNASTICS.— We think this subject has been talked about, written and harped upon, long enough. It is a fixed fact in the mind of every sensible man or woman, (for we do not exclude the ladies in this matter,) that to serve God aright, and be a true Christian, we must use and develop our physical as well as our mental capabilities. It is not only right, but a *religious* duty for every man, woman and child to perform. A healthy, vigorous intellect is generally the result of a healthy and well trained physical system. We do not deny that there are many powerful and muscular men who are perfect dolts; and these examples are pointed out by unbelieving fories, as the awful results of too much exercise, thereby producing a preponderance of the animal over the mental.

But this is attributable to a *lack* of mental training, instead of an undue amount of physical exercise. We do not advocate a total neglect of the one, and an undivided attention to the other. This is foolish and absurd. But we maintain that an equal amount of each is necessary to the perfection of the physical and moral system.—One depends on the other; and a man with a lack of either of these natures, is about as perfect as the atmosphere would be with the absence of either oxygen or hydrogen. Some will perhaps consider us ultra in this matter; but we regard it as a perfectly sane view of the case, and believe we should have the support and co-operation of all reasonable men, if they only had their eyes open, and were awake in this matter.

Having considered the subject briefly, we wish to make a suggestion relative to starting a gymnasium, or some means of developing the physical strength. Now the idea of establishing a public gymnasium, (that is, a place free for all, at all times,) is out of the question, unless some modern philanthropist should come forth and immortalize his name by bestowing a sum requisite for the foundation of such an institution, of which there is no probability. Hence, we would suggest that several enterprising young men,—after procuring a suitable building,—visit every store and shop in the city, and find how many are ready to take part in this project. Then find the expense of furnishing a common gymnasium, and if enough names can be procured to warrant a success, we can go on with it; if not, we can let the scheme slide.

Now who will take hold of this matter? The writer will for one; where is the next one?

C.

FROM VIRGINIA.—Charlestown dispatches of Monday say:

On Saturday and Sunday the town was crowded with strangers and soldiers. Extensive preparations are making for the reception of additional military forces, which are hourly expected.

The churches have all been taken possession of for barracks. Sentinels nightly fire at imaginary foes, and a number of citizens have narrowly escaped their bullets.

On Sunday night the military confidently expected an attack, and the sentries were doubled. No disturbers appeared, however.

It is stated on good authority that Gov. Wise has sent spies into Ohio and Pennsylvania,* and it is from their reports that large bodies of men are arming and moving towards Virginia, that the military forces are being so largely augmented.

About 700 additional troops have arrived since Saturday, including two companies from Wheeling, so that there are now about 1500 soldiers under arms.

A letter from Huntington county, Pa.,* states that large bodies of armed men are moving towards Virginia, across the North Mountain, supposed to be on their way to Charlestown.

These rumors cause constant excitement among the people.

Arrangements are making for the gallows.

*The letter is probably from one of the spies, who have gently imbibed a quantity of "old rye," one quality of which is, to make the drinkers thereof see visions and dream dreams.

NEW YORK, Nov. 29.—The Charlestown correspondent of the Herald says the arrangements for Brown's execution are nearly completed. The military lines will enclose a mile around the scaffold. No civilian will be admitted inside these lines under any circumstances. This precaution may prevent any remarks Brown may utter from being heard by the spectators. Gov. Wise states that the cause of this exclusion of spectators from the enclosure is, that in the event of an attempted rescue, an order to fire upon the prisoner will be given; in which case, should there be people within the lines, they would run the risk of sharing Brown's fate.

A special dispatch to the Tribune, from Charlestown, says the town is now guarded by 1000 troops, and the circumspection is closer than ever. No one is admitted to the jail without a written order from Gen. Taliaferro.

Brown is engaged in preparing a long letter, to be published after his death, explaining his course, and correcting certain newspaper statements. He looks to his fate with perfect composure. The other prisoners are all occupied with correspondents. All of them excepting Stevens are chained. Cook alone fails to retain his self possession. The rope to which Brown is to be hung is on exhibition at the Sheriff's office. It is made of South Carolina cotton.

☞ The Philadelphia News gives an account of the murder of George Ritter, a seaman on board the U. S. sloop of war Brooklyn. He was beaten and gagged by petty officers, and died in double irons, with the gag in his mouth. The whole story is a bad looking one for the officers of the ship.

☞ Washington Irving, the graceful and humorous writer of Knickerbocker's New York, the Sketch Book, &c., &c., died Nov. 28, at Irvington, N. Y., aged 76 years. This writer stands high among English classics, and in 1831, the University of Oxford, England, conferred on Mr. Irving the degree of LL. D.

☞ From Texas, Brownsville dates of Nov. 20th are received. Lieut. Tennison, of the cutter Dodge, reports that 290 men were guarding the city, which was closely besieged, although no attack had yet been made upon it.

FROM UTAH.—The Utah mail of Nov. 3d brings accounts of the execution of Thomas R. Ferguson, for the murder of Alexander Carpenter. This is the first judicial execution which has ever taken place in the Territory.

☞ What more beautiful and acceptable present, than a year's subscription to the Cosmopolitan Art Association? See advertisement in another column; and the splendid Engravings at Mr. Cobb's Music Store.

Chesterfield's maxims are out of date.—They answered very well in their day, but the code of manners, like the legal code, is liable to changes. He recognized a gentleman by his hands and boots—mind tells the story just at present.

Perhaps the spirit of prophesy descended upon Walter Savage Landor when he remarked: "There are women from whom teas of anger swell forth at imaginary wrongs; but of contrition for their own delinquencies, not one."

The manufacturing of martyrs is a profitless trade. The times are not prolific of the events which make martyrs; and those who are held up in that light, it is safe to conjecture would never have been heroes.

If there be one thing for which a man should be more grateful than another, it is the possession of *good nature*. I do not consider him good-tempered who has no temper at all.

Upon matters which are affected by feeling and sentiment, the judgement of women surpasses that of man; her more sensitive nature carries her to hights, which his coarser nature cannot reach.

Prof. Lowe has packed up his balloon, pocketed $4000 in money, and is now chuckling over his profit. Probably he will go to Europe—but in a steamer.

The men who are willing "to die for an idea," would be much better employed in living for a reality.

Which he offers for sale at wholesale and retail, at very low prices. He has a great variety of the best and most popular Stoves, among which are:

1. **The Stewart Cook Stove,** with the latest improvements. This is an air-tight Cook Stove, for Wood or Coal; it has moveable coverings, which can confine the heat in the stove, or let it out into the room; has a reservoir of hot water 10 or 20 gallons, and a tin closet beneath;—a top cover, which is a great institution for baking, and will keep a coal fire all night; it has a Dutch Oven for roasting in front of the Stove;—and it is every way a most convenient and durable Stove. There are 4 sizes.

The following recommendation of Stewart's Stove, is from an eminent engineer, and must be satisfactory to all who wish to understand the value of this excellent Stove:

Portsmouth, N. H., Nov. 5, 1859.

Mr. Blaisdell:—Seven years ago I moved to this city, and sold, before I came, a "Stewart's Air Tight Cooking Stove," which I had used about five years. During that time no repairs or expense had been made upon it. Since I have been here I have tried the various Cooking Stoves in use, and I think for economy and durability the "Stewart" excels them all. I wish you would take away the Stove I now have from my house, and set up one of Stewart's as soon as you can. Your ob't servant,

Fousel's Pabulum Vitæ.

☞ THE GREAT FRENCH REMEDY possesses extraordinary properties for the speedy and permanent cure of CONSUMPTION, BRONCHITIS, COUGHS, COLDS, and all PULMONARY DISEASES.

This celebrated specific is now universally acknowledged to be infinitely superior to all other preparations for the cure of Pulmonary Disease, both from its innocent nature and most astonishing curative properties; *it being the only remedy known that will arrest the development of Tubercles in the Lungs or restore the vital functions of the pulmonary organs to their normal condition.* Its invaluable properties have obtained for it the highest recommendation and praise from some of the most eminent physicians and chemists in the country; while the best and surest proofs of its merits are afforded by the numerous testimonials of its great efficacy in conquering disease, which are constantly received from our most respectable citizens. Invalids in all stages of pulmonary disease should not fail to give it a trial, as it can be administered to the most delicate and feeble with perfect safety and certain relief; and we herewith insert a few testimonials for their encouragement, selected from hundreds of like import.

Certificate of Dr. A. A. HAYES, in reference to the unequalled virtues of this great discovery.

This preparation, by chemical analysis, was proved to be free from opium, or any of its compounds; nor were any of the alkaloids present. It does not contain any mercurial or mineral substance, but consists wholly of volatile, diffusible agents, which afford vapors freely at a moderate temperature. Most of the substances present are officinally used in alleviating pulmonary disease; but the device by which they are combined is new and original, and adapts the compound to inhalation, or other modes of administration.

Respectfully,
A. A. HAYES, M. D., State Assayer.

16 Boylston St., Boston, Dec. 1857.

In the Boston Transcript of December 11, 1858, the editor says:—

"We have seen a letter from an eminent physician of this city, in which he says:—'I have used *Fousel's Pabulum Vitæ* in several cases of Bronchial disease, and in some with great benefit. I know of no remedy equal to it for children, where a minute dose is essential; or for adults of irritable stomachs, or having a tendency to reject ordinary medicines given for coughs, etc. I shall continue to use it in my practice.'"

Testimonial from the Sisters of Charity, of the St. Vincent's Orphan Asylum, in Boston.

BOSTON, July 31, 1858.

To Mr. F. LAFORME, Agent:

"The Sisters are happy to state that, having used *Fousel's Pabulum Vitæ*, they have found it efficacious in several instances, for bad coughs and colds. Signed by the SISTERS OF CHARITY.

Testimonial from a well-known Apothecary's Clerk.

BOSTON, March 10, 1859.

J. F. LAFORME, Esq.:

Dear Sir—I had been suffering for a considerable length of time from a severe cough, and had in vain had recourse to nearly all the remedies in use. My cough began to give me much uneasiness from its serious effects on my system, when three days' use of *Fousel's Pabulum Vitæ* restored me to complete health. The medicine being new in this market, I had recourse to it last; but I can now confidently recommend it as the best medicine I know of. Yours, truly,

CHAS. H. FOSTER.

At Fred Brown's, Washington, corner State St.

In the Boston Post, Sept. 24, 1858, the editor says:

"An extraordinary cure of Consumption has recently come to our knowledge, effected through the instrumentality of *Fousel's Pabulum Vitæ*; the evidence of which is in the handwriting of the subject, Mr. Wm. P. Brigham, No. 180 Albany st., in this city. It seems that for eighteen months he had been exhibiting all the usual symptoms of Consumption, and that after having had recourse to the skill of various physicians, without benefit, he had to abandon his business and be confined to his house. Hearing of *Fousel's Pabulum Vitæ*, and of several remarkable cures effected by it, in cases as desperate as his own, he concluded to try it as a forlorn hope. The result has been most happy—he has now entirely recovered, and is engaged in his usual pursuits. It is such well authenticated cases as this that we take pleasure in laying before our readers, since, by so doing, many valuable lives may be saved, and much good effected.

It is sold at the low price of 50 cents, and $1.00 per bottle, thus placing it within the reach of all classes. F. J. LAFORME, sole Agent, Boston. M. S. BURR & CO., General Agents, No. 26 Tremont street, Museum Building, Boston, and for sale by all druggists. Circulars with testimonials of the cure can be had of the Agents nov7 1y

MOTHERS,

In presenting you with DR. EATON'S INFANTILE CORDIAL, we desire to state its superiority over every nostrum that nurse or quack has heretofore offered you.

First—It is the preparation of a regular physician, who is well qualified from much experience in infantile complaints to prescribe for them.—Secondly—It is entirely free from paregoric or opiate of any kind, and consequently relieves by removing the suffering of your child, instead of deadening its sensibilities. Thirdly—It is put up with great care, as a comparison of it with any other article for infantile complaints will show; the very roots from which it is distilled being dug from the forests under the direction of Dr. Eaton, many of them by his own hands. Fourthly—it is perfectly harmless and cannot poison the most delicate infant, and is a certain cure and relief in all the following cases, which is its chief merit over every other preparation.

FOR ALL COMPLAINTS ATTENDING TEETHING; such as DYSENTERY, COLIC, &c.; also, for softening the gums and relieving pain. For regulating the bowels it is unequalled. For Cold in the Head it is a sure relief. For CROUP, the most fatal sickness of infancy or childhood, it can be relied on with perfect confidence; and being a powerful anti-spasmodic in all cases of convulsions or fits, we earnestly recommend you to loose no time in procuring it—Lastly—it costs so much more than other preparations of the kind, that we cannot afford such long advertisements as can those whose whole expense is their advertising; for the same reason, it commends itself as the most reliable to all mothers. In all cases, the directions wrapped around each bottle, must be strictly followed. Price, 25 cents per bottle.

BLOOD FOOD.

Dr. Brandreth, having been so far reduced by consumption, as to be considered beyond all hope of recovery by his most eminent physicians, has at length discovered a remedy which has restored him to health, after a long period of twenty years' practice—as a preventive against the ill effects of NAUSEATING THE PROPERTIES OF MERCURY, and also for the cure of Ulcers, Scrofula, Rheumatism, Gout, Salt Rheum, Erysipelas, Ulcerated Throat, Pimples, Blotches, Tumors, Scald Head, Ringworm, Mercurial Diseases, Dropsy, Neuralgia, Dyspepsia, Costiveness, Female Complaints, Nervous Debility, Fever and Ague, Jaundice, Liver Complaint, Dysentery, Tetter, Tumors and Salt Rheum, Worms, Gout, Neuralgia, as a dinner Pill, and for Purifying the Blood.

They are sugar-coated, so that the most sensitive can take them pleasantly, and they are the best aperient in the world for all the purposes of a family physic.

Price, 25 cents per box; five boxes for $1.

Great numbers of Clergymen, Physicians, Statesmen and eminent personages, have lent their names to certify the unparalleled usefulness of these remedies, but our space here will not permit the insertion of them. The agent below named furnishes gratis our American Almanac, in which they are given; with also full descriptions of the above complaints, and the treatment that should be followed for their cure.

Do not be put off by unprincipled dealers with other preparations they make more profit on.—Demand AYER'S, and take no other. The sick man the best aid there is for them, and they should have it.

AYER'S SARSAPARILLA,

A compound remedy in which we have labored to produce the most effectual alterative that can be made. It is a concentrated extract of Para Sarsaparilla, of combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will a complish their cure must be of immense service to this largeclass of our afflicted fellow citizens. How completely this compound will do it, has been proven by experiment on many of the worst cases to be found in the following complaints:—

SCROFULA AND SCROFULOUS COMPLAINTS, ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUM, SCALD HEAD, SYPHILIS AND SYPHILITIC AFFECTIONS, MERCURIAL DISEASE, DROPSY, NEURALGIA OR TIC DOULOUREUX, DEBILITY, DYSPEPSIA AND INDIGESTION, ERYSIPELAS, ROSE OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD.

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud.—Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions or sores;—cleanse it when you find it is obstructed or sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.

Sarsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it' contain but little of the virtue of Sarsaparilla, or anything else.

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Aence bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly esteemed, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have grounds for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.

Ayer's Cherry Pectoral

Has won for itself such a renown for the cure of every variety of Throat and Lung Complaint, that it is entirely unnecessary for us to recount the evidence of its virtues, wherever it has been employed. As it has long been the common practice throughout this section, we need not do more than assure the people its quality is kept up to the best it ever has been, and that it may be relied on to do for their relief all it has ever been found to do.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

I have no hesitation in assuring inventors they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.

BOSTON, February 8, 1858.

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that one is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART.

From Sept 17, 1857, to June 17, 1858, the subscriber, in the course of his large practice, made on twenty rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in HIS FAVOR, by the Commissioner of Patents.

Boston, Jan. 1, 1859. R. H. EDDY.

DR. J. B. HUGHES,

Knowing that there are at this moment thousands of persons in the surrounding towns, suffering their lives to the insidious inroads of certain dangerous maladies, who still suffer from the reluctance to make known their complaints and consult a physician, he would state that any of his medicines will be sent by express or otherwise, to all who may order them, provided with a true description of the disease be sent by letter and directed as above.

Full and explicit directions will accompany every package, and the most inviolable secrecy preserved.

DR. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of disease which have been improperly treated by empirics have come under his care, and more than three-fourths of this number are inscribed upon his books as perfect cures.

Patients treated by letter by addressing Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed from scrutinizing friends.

Be particular in finding Dr. Hughes. Do not be lured from the right path, or be persuaded to try experiments with false and fictitious remedies at the expense of destroying what is the chief pillar of life, a healthy constitution.

This medicine can only be obtained at the Office of Dr. HUGHES, 13 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE RENOVATING PILLS. These pills are universally lauded in efficacy and superior virtue in regulating all female irregularities. Their action is specific and certain, producing relief in a short space of time. They are acknowledged to be the best in use.

The Dr. cautions the public to beware of impositions that are being practiced by advertising spurious article under some spurious or fictitious name. They are entirely useless, having been got up by miserable pretenders who are entirely ignorant of the efficacy of medicines.

All who are in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.

These pills can be sent to any part of the country with directions. Remember the number—13 Howard street, Boston.

P. S.—The best of accommodations furnished, with kind and attentive nurses if they wish, at a reasonable rate. jy dly

MAURY'S GEOGRAPHY OF THE SEA.

Messrs. Editors:—I know of no better service I can do your readers than occasionally to give a candid and fair description of books that they may or may not wish to read. I never yet wrote a puff. I avoid noticing poor books, unless pernicious; but when I find one in hand, I tell the truth of it and injure its sale, perhaps, even where I wish well to author or publisher or both. And in order that my criticisms may bear a certain weight in them, I have concluded always hereafter, instead of the names I have used as signatures in various papers, to use my own initials uniformly in all communications where I speak of books.

M. F. Maury, LL.D. is a Lieutenant in the U. S. Navy. He has long been the Superintendent in the National Observatory at Washington. You may remember that J. Q. Adams' recommendation for its establishment was one of the great arguments used against his reelection. As it is not the oldest nor the best furnished Observatory of the Union, Maury seems to have cast about for means to make it generally useful. The depth of ocean, not the depths of ether, seemed to offer him the most inviting field; and in the coast-survey service, the officers of the navy, and the more intelligent masters of our merchantmen, he has found a corps of observers that has made our Observatory of greater service to navigation than all others together, Greenwich excepted. Records of winds, currents and whales for each month of the year, for each check of ocean five degrees square, have been accumulated, so that the mariner knows what winds to expect wherever he goes. Chiefly in consequence of this information, diffused from the Observatory with a judicious hand, the average passage from New York to San Francisco has been reduced some 30 days; to Australia 20; and to Rio Janeiro 10: a saving to the shipping of the United States of 2 1-4 millions per annum, as it is estimated.

Maury's Geography of the Sea is chiefly a meteorological work. One principle which underlies all its speculations I must premise. The earth revolves from West to East. A cannon ball shot directly from any point towards the nearer pole goes to a place which revolves fewer miles per hour, and therefore has its course inclined to the east. Bodies moving from the poles towards the equator acquire a westward tendency. The towers of Quito revolve at a rate of more than 1000 miles per hour, while the steeples of St. Petersburg (lat. 60 deg.) move but half as fast. A rock from Chimborazo suddenly transferred to latitude 60 deg. with its original eastward velocity unimpaired, would rush eastward at the rate of 500 miles per hour: and so for all differences of latitude. The two sides of a funnel differ in latitude. This side the equator the fluid approaching the centre of the funnel from the south brings an easterly motion with it, and that from the north side a westerly: this makes the whole fluid rotate in the direction of the hands of a watch. South of the equator the direction of the vortex must be reversed.

Trade winds are winds that started directly from the equator towards the pole. Hence the trades of the Southern hemisphere blow north-west, and those of ours south-west. Maury supposes that the southern trade wind, approaching the equator from the N. E., charged with vapor, meets that from the N. E. near the equator; both rise in the air and pass each other. This place, which varies as the sun is north or south of the equator, is called the doldrums; and is characterized by clouds, rains, calms and baffling winds. Proceeding northward, this wind from the Southern hemisphere descends from above the northern trade winds at the tropic of Cancer and becomes superficial, with a tendency towards the north and the east, to form the prevailing but variable winds of the north temperate and frigid zones. Near the pole it rises again, and in the upper region of the atmosphere commences its southward progress. Near the tropic it descends with the westward tendency due to its change of latitude, and becomes the N. E. trade wind.—This place of descent of the two winds from the upper regions is called the Calms of Cancer or Horse Latitudes. At the Doldrums it again rises over the southern trades, and at the Calms of Capricorn again descends to the surface, to form the southern Variables; moving southward and eastward to the pole, it rises to descend again at the Calms of Capricorn, to become a south-west trade wind as at first.

Why do these winds cross at their places of ascent and descent, rather than turn back on their course? Our author cannot tell. He conjectures that the magnetism of the oxygen causes it. That they do cross, he makes quite probable. He thinks the eastward and westward motion of the winds may cause the magnetism of the earth. He shows that the place of polar ascent should be a place of extreme cold. Independent of these theories, the north polar calm was located by Coffin near 84 degs. N, 105 W. Sir David Brewster locates the pole of maximum cold at 80 degs. N, 100 W. Gauss puts the magnetic pole at 73 degs. 35 min. N., 95 degs. 39 min. W. Here at least is a coincidence.

The trade winds suck up water from the ocean: part they let fall at the Doldrums: the rest falls in rains after the current descends at the tropic. Hence the Mississippi gets its water from the south Pacific. Let a continent rise there, and the sources of the Mississippi would become a dry desert, just as a desert in Asia lies to the leeward of South Africa, and as Southern Australia is kept in perpetual dryness by the continent of Asia.

Concluded to-morrow.

☞ At the Police Court in Concord last week, Abraham Burgess, arraigned on four complaints for selling intoxicating liquors, waived an examination and recognized to appear at the higher court.

Jeremiah Smith, arraigned on two complaints for selling liquor, waived examination and was bound over.

Jeremiah H. Nute and James M. Bean of Epsom, were bound over and went to jail upon a complaint that on the 11th inst., at Allenstown, they robbed Gorham D. Lang of his horse.

Lang and one Bede, residents of Allenstown, went on the evening of the day alleged to Epsom to purchase rum. While on their way home with two gallons of rum in their wagon, between the hours of ten and eleven, they heard the report of a gun in the bushes, and Nute came out, seized the bridle of the horse and told them they must surrender or he would take their lives. They resisted, and Nute struck Lang three times with a club, knocked him down, and went off with the horse and wagon and rum. Bean came out of the bushes with a gun, and went off with Nute. On the next day the horse and wagon were recovered, but not the bottles of rum.

AMERICAN PASSPORTS.—The Baltimore and Ohio railroad report that the statement that their cars are invaded and their passengers searched for arms is entirely fabulous. Passengers are *not taken* for Harper's Ferry unless they previously satisfy the President and officers of the company that they have a legitimate business there, and, by an arrangement with the Governor of Virginia, they are furnished with passports.

Americans in Europe always look on the passports *there* as if they were signs that tyrants and despots were afraid of some impending and insidious evil.

They judge rightly—"conscience makes cowards of us all," every tyrant, every oppressor and every criminal may say,—even the boldest of them all.

☞ Mr. Gaillardet writes to the Courier des Etats Unis, the death of a charming actress named Laurentine, formerly of the Gymnase, but lately of the Turin theatre. He said she died of consumption and virtue. She repulsed the homage of the King of Piedmont, preferring a broker's clerk, who, a short time since, died of grief because his parents would not let him marry her.

ANOTHER STEAM FIRE ENGINE FROM MANCHESTER, N. H.—The Amoskeag Company at Manchester, N. H., have now nearly completed another steam fire engine for Boston, which is to be of the same size, style and cost of the Eagle, built by the same company, and now in commission in Boston. It will be delivered next week and is to be stationed at East Boston. The Amoskeag Company have applied for a patent on the boiler peculiar to their steam engines; its issue has been ordered.

What's good for one, 's good all around, in the long run. I'm no friend to young fellers marrying afore they know the difference between a crab an' an apple; but they may wait o'er long. "To be sure," said Mrs. Poyser, "if you go past your dinner-time, there'll be little relish o' your meat. You turn o'er and o'er yi' your fork, and don't eat it after all. You find faut wi' your meat, and the faut's all i' your own stomach."

☞ The Richmond Dispatch says that Anthony Sedgwick of that city, was sent to the Penitentiary for grand larceny on Thursday last, was pardoned on Friday, stole a shawl on Saturday, was arrested on Sunday, examined on Monday, tried and sentenced on Tuesday to one year's imprisonment in jail.

A baker in England stole a tombstone for the hearth of his oven. One of his customers, finding a death's-head on the bottom of his loaf of bread, ran in dismay to his deacon, fearing the end of the world was approaching. The latter was in equal trepidation, when on examining his own loaf, he found the marrow-bones. In their alarm they had recourse to the parson, who could afford them no consolation, inasmuch as "Resurgam" was legibly set forth in bold relief upon his own loaf.

☞ Mr. George Devereaux of Lowell was killed at the Appleton Mills on Saturday. He was standing on a load on the elevator, when a link in the chain parted and the elevator fell through four or five stories to the cellar. Besides breaking two or three ribs, Mr. D. was injured internally, and survived but two hours.

It is common to esteem most, what is most unknown.

☞ A cornfield hoe, pocket bibles, an ear-trumpet, false teeth, nipple glasses, cigar cases, night caps, chemises, under sleeves, and catechisms are among the articles advertised in the Washington Dead Lettter Office sale.

☞ What more beautiful and acceptable present, than a year's subscription to the Cosmopolitan Art Association? See advertisement in another column; and the splendid Engravings at Mr. Cobb's Music Store.

Catarrhal Cough.

This insidious and annoying symptom, so difficult to treat, depends on a subacute inflammation of the air-passages, which is apt to end in chronic ulceration and a form of consumption. The mucous membrane of the air-passages is peculiarly susceptible to the healing influences of the PERUVIAN SYRUP, as the testimonials of some of our first citizens show.

There is no known remedy can exceed in speediness of cure, and certainty of effect, that which has become world famous as DR. HOSTETTER'S STOMACH BITTERS. In all diseases of the stomach, which are of a morbid nature, the Bitters have effected most remarkable cures when many other remedies have failed. Hundreds of certificates have been given by those who have thoroughly tested its efficacy, all of which corroborate its efficiency, when it is administered according to the directions on each bottle.

Some of the worst cases of Dyspepsia, Diarrhea and Costiveness, have been permanently cured by the use of the Bitters.

Sold by druggists and dealers generally, everywhere.

R. R. R.

On the 1st day of September, 1853, Mr. Charles Randolph called at the R. R. R. office, and stated that for ten years he had not enjoyed a single meal. He had not, for five years, had a natural discharge from his bowels; but was obliged to resort to Injections, &c. He was pale, haggard, and thin. We ordered Radway's Regulators, one each night, and Radway's Resolvent, three times per day. On the eighth of September he called upon us.

HE WAS SO ALTERED THAT WE KNEW HIM NOT.

His appetite is good—his digestion easy—his skin moist and healthy—his step elastic and buoyant—his body vigorous, and his eye indicates a man of health and energy.

For Liver Complaint, Dyspepsia, Difficulties of the Urethra and Bladder, Radway's Regulator and Renovating Resolvent are a quick and positive cure. For all Aches and Pains, for Neuralgia and Rheumatism, for Nervous and Bilious Complaints, Radway's Ready Relief is quick and effectual. In five minutes' time after its application, the patient is free from pain.

Sold by Druggists everywhere.

THE OXYGENATED BITTERS.

Nature, in her great laboratory, has stored some remedy adapted to every disease which "flesh is heir to." But it requires the investigation and research of the philosopher to discover and apply this remedy. Such research and investigation has succeeded in discovering a remedy for that most afflictive dispensation, the

DYSPEPSIA!

With all its lesser and numerous evils; and it may be safely asserted that until the appearance of the *Oxygenated Bitters*, a case of Dyspepsia cured was a rare experience in medical practice. Now, under the influence of these Bitters the rule is to *cure*, the rare exception, failure to cure.

Read the following, which the subscriber requests us to publish for the benefit of the afflicted:

Obdurate and Inveterate Case of Dyspepsia cured by the Oxygenated Bitters.

The following from a gentleman well known in the region in which he lives ought to satisfy all those of little faith:

WATERTOWN, N. Y., July 28, 1858.

S. W. FOWLE & Co., Boston.—*Sirs;*—Nine years since I was attacked by that curse of all diseases, *Dyspepsia*, which so affected me as to cause great oppression, fullness, and bloating of the bowels, immediately after eating, accompanied with terrible pains in the stomach, often occasioning nausea, vomiting, acidity, and headache, together with general debility and suffering, altogether rendering life a burthen.

After having tried every known remedy without effect, and despairing of ever regaining my lost health, I was induced to make use of the Oxgenated Bitters, the good effects of which were immediately visible on my health and system. Before using a whole bottle I was entirely cured; and I feel a pleasure inducing all like sufferers as myself to make use of this remedy.

GROVER & BAKER'S

Celebrated Family Sewing Machines.

NEW STYLES.—PRICES FROM $50 TO $125.

HEMMERS, $5 EXTRA.

OVER THIRTY THOUSAND IN USE.

These Machines sew from two spools, as purchased from the store, requiring no rewinding the thread, and finishing each seam by their own operation, without recourse to the hand needle, as is required by other machines. On account of their simplicity, durability, ease of management, and adaptation to all varieties of family sewing, they execute either heavy or fine work with equal facility, and without special adjustment.

THE NEW MACHINES INTRODUCED BY THE

GROVER & BAKER

SEWING MACHINE COMPANY

Are of elegant finish, and their operation is rapid and very quiet. The EASE with which they can be managed is a distinguishable feature, and the stitch is the strongest, handsomest, and most elastic of any made.

What is specially claimed for the "GROVER & BAKER" machine is—

That it makes a *stronger* and *handsomer* seam than is made by hand or by any other machine.

That it makes a more *elastic* seam, which will withstand the tests of wear, and washing and ironing, better than that made by any other machine.

That the speed at which it can be used is higher than any other, and the power required to operate it is less than that required by any other machine.

That it is nearly noiseless in its operation.

That its construction is more simple, and its liability to disarrangement less than any other.

That it can be quicker learned, more easily kept in order, got ready for use, and changed from one quality or grade of work, than any other.

Its applicability to the entire range of Family Sewing—from the finest and most delicate texture to the heavier and coarser fabrics.

That it uses thread or silk from the *original spools*—no re-winding—no shuttles or bobbins to fill.

That it finishes its work and fastens the end of every seam; each stitch is independent of its neighbor.

Is there a husband, father or brother, who will permit the drudgery of hand-sewing in his family when a GROVER & BAKER Machine will do it better, more expeditiously, and cheaper than can possibly be done by hand?

TESTIMONIALS.

PORTSMOUTH, April 12, 1859.

Having tested the merits of the various popular Sewing Machines, in the manufacture of our Capes and Raglans, we unhesitatingly recommend the Grover & Baker, as far superior to all others. ALLEN & PAINE.

PORTSMOUTH, July 16, 1859.

If you wish to purchase a machine that will do work handsomely and strongly, and will not be liable to get out of repair, call on Mr. Whittemore in Daniel street, see the operation of Grover & Baker's machine, and then place one in your family. They will never consent to part with it, after they understand its operation.

☞ Geo. W. Pettes, Esq., of Boston, is to read his beautiful and popular Poem, "The Silver Lining," at the Lyceum, next Tuesday evening.

Rev. J. G. Adams, of Worcester, one of the most talented and eloquent of the absent sons of Portsmouth, is to lecture, on Monday Evening, Dec. 12th. Of his subject we are not informed.

"Grace Greenwood," of Philadelphia, is to deliver her celebrated lecture on "The Heroic in Common Life," on Tuesday Evening, Dec. 13th.

There will probably be good music at each of these entertainments; and it is the design of the managers to close the Course with a grand Concert, if possible.

It had been arranged for Rev. Mr. Adams to occupy Tuesday evening, 13th, but on account of Grace Greenwood's other engagements, he resigned in her favor on that evening; and to meet his own appointments elsewhere, could not select any other evening save Monday.

Tickets for the rest of the Course, only 50 cents; for each evening, 25 cents.

☞ The neat Vestry of the State Street Methodist Society, recently erected on Daniel Street, is nearly completed, and is designed to be dedicated on Tuesday next, Dec. 6th.

☞ We hear that some gentlemen in this city, who are connected with or interested in the mystical Order of the Sons of Malta, are making arrangements for the institution of a Lodge here.

NEW ORLEANS, Nov. 21.

Mr. William H. Senter of Portsmouth, died in this city this morning of inflamation of the bowels, at lodging rooms on Gravier street, and was buried this evening in Cypress Cemetery. He was followed to the grave by Rev. Mr. Thomas, (an adopted son of Portsmouth) who made the prayer at the grave; by Messrs. James Hickey, Henry Townsend, Frank Laighton, another Portsmouth man unknown to me, and myself. Mr. Senter was a native of Portsmouth, and about 35 years old. He was formerly in the dry goods business in Boston, afterwards one of the landlords of Cape Cottage, near Portland; but was best known as the husband of Anne Senter, the actress and reader.

Yours, ION.

☞ Any person subscribing for the Daily or Weekly Chronicle for the year 1860, (and paying in advance of course,) will be furnished with the paper for the rest of this year, gratis. Daily $4 per year; — Weekly only $1.

MR. GEORGE W. PETTES, who resides in Boston, the Post says, "is well known as a gentleman of culture and talent; and the praises of the Press are undoubtedly justly bestowed. We notice that all the papers speak highly of his Poem":

Those who did not hear Mr. Pettes' Lecture Poem, before a crowded audience, missed a rare treat.

His song was entitled "The Silver Lining," and he wove into a rich and beautiful fabric the sunny, perhaps we ought to say the silver, hues of life. Shunning the sombre and gloomy, he aimed to entertain and cheer, and inspire a lively desire for the beautiful, the lovely, the true, the holy and everlasting.

In glancing at the frivolities and evils of life, he applied the knife of satire and ridicule, cunningly sharpened on the wheel of verse, with decided effect; while he gracefully and impressively praised the noble and the good.

We can hardly find words to express our appreciation of his eloquent and glowing tribute to nature and the seasons; his enchanting description of the Northern Lights, and his apostrophe to Rhode Island and Liberty. Certainly the Muse lavished her rarest blessings and most brilliant gems upon the author in the composition of this poem, which he as lavishly poured out upon his excited, thirsting hearers.

Judging from our feelings and the appearance of those around us, the audience were too much enchained by the silvery tones that rang for more than an hour in their hours, to be boisterous, and manifested their enthusiasm by murmurs rather than bursts of applause, for it was very evident that this fine production, by far the best that we have yet heard from Mr. Pettes, was received with immeasurable delight.—*Providence Press.*

Professor B——, the eminent electrician, was lately travelling in the cars, when a man came up and asked for his fare.

"Who are you?" asked B——,

"I? my name is Wood, and I'm the conductor."

"Oh," said the professor very quietly, "that can't be, for *wood* is a non-conductor."

☞ The ladies of the French Court are in open rebellion against the Empress. It is said they do not at all like the "dethronement of crinoline" or short delaine dresses.

Two gentlemen were lately examining the breast of a plough on a stall in a market place.

"I'll bet you a guinea," said one, "you don't know what this is for."

"Done," said the other, "it is for sale."—The bet was won, and the wager paid.

It may sound like a paradox, yet the breaking of both an army's wings is a pretty sure way to make it fly.

☞ The approaching execution of John Brown, occupies all the power of Virginia, and fills the telegraph with reports. From Charlestown Nov. 29, we hear that Gov. Wise has issued a proclamation, that the State has taken possession of Winchester and Potomac Railroads, and on the first three days of December they will be used entirely for military purposes. He also warns the people of the State to remain at *home* on *patrol* duty on the day of execution, to protect their *own property*.

Women and children will not be permitted to approach the scene of execution.

Gen. Taliafero has issued a proclamation that all strangers who cannot give account of themselves will be arrested;—that *all strangers* approaching Charlestown by railroad, or otherwise, under the pretext of witnessing the execution of John Brown, will be met by the military and turned back or be arrested. He also emphatically warns the people of the country to stay at home, and protect their property, assuring them that information from reliable sources indicates, that by so doing, they will best consult their own interests.

It is said that Brown stated to a gentleman yesterday that he had now no hopes of a rescue, on account of the extent of the military preparations, but that his boys would never have permitted his execution if there was any prospect of an attempt proving successful.

The millitary now in Charlestown numbers over 1500, and several more companies will be there to-day, swelling the number to 2000. There are besides, four companies of U. S. Artillery from fortress Monroe. Two of these companies will take position at Fort Henry, and the other two at Harper's Ferry, in the Armory Grounds. They take with them guns and camp equipage, and remain until all the executions are over.

MR. BUCHANAN'S OPINION.—The Washington correspondent of the Philadelphia Inquirer says that Mr. Buchanan has expressed his opinion of the Virginia military display thus:

Mr. Buchanan remarked to a gentleman on Saturday, that all this fuss and parade, this marching of troops to and fro through the country, and this continual rub-a-dub of drum and fife, was the sheerest nonsense in the world; that with eight marines he could have kept everything quiet at Charlestown, and in fact there never had been any danger of a disturbance there, and there was none now.

We give this as we find it, with no assurance of its accuracy.

☞ The Boston Journal mentions that Rev. Dr. Pomroy, one of the Secretaries of the American Board of Commissioners for Foreign Missions, has just resigned his office, in consequence of the discovery that he had paid $1500 as hush money to three different women or their pretended husbands, $500 to each. The Prudential Committee promptly accepted his resignation.

☞ A second letter received at Baltimore, from Mr. Perham, announces that he has made arrangements to take 2000 visitors as far as Baltimore, on their way to see the execution.

☞ Aloin Allen, Esq., of Worcester, Mass., was killed in the street there at 6 P. M. Tuesday, by a railroad train. He was somewhat deaf.

NEW YORK, Nov. 30.—A dispatch from Charlestown to the Tribune says, at Brown's request, but few persons were admitted to see him yesterday. Rev. Mr. Waugh, a Methodist clergyman, was with him some time on Monday and visited him again yesterday. Brown is reported to have said that he should make no speech from the scaffold, and also that he has nothing in the way of confession to offer.

STOVE STORE REMOVED.

URIAH BLAISDELL

Has removed his Stove and Furnishing Establishment one door north, to the spacious and convenient store

Nos. 43 & 45 Market Street,

where he is receiving and arranging a large and valuable Stock of

STOVES, TIN WARE, &c.,

Which he offers for sale at wholesale and retail, at very low prices. He has a great variety of the best and most popular Stoves, among which are:

1. **The Stewart Cook Stove,** with the latest improvements. This is an air-tight Cook Stove, for Wood or Coal; it has moveable coverings, which can confine the heat in the stove, or let it out into the room; has a reservoir of hot water 10 or 20 gallons, and a tin closet beneath;—a top cover, which is a great institution for baking, and will keep a coal fire all night; it has a Dutch Oven for roasting in front of the Stove;—and it is every way a most convenient and durable Stove. There are 4 sizes.

The following recommendation of Stewart's Stove, is from an eminent engineer, and must be satisfactory to all who wish to understand the value of this excellent Stove:

Portsmouth, N. H., Nov. 5, 1859.

Mr. Blaisdell:—Seven years ago I moved to this city, and sold, before I came, a "Stewart's Air Tight Cooking Stove," which I had used about five years. During that time no repairs or expense had been made upon it. Since I have been here I have tried the various Cooking Stoves in use, and I think for economy and durability the "Stewart" excels them all. I wish you would take away the Stove I now have from my house, and set up one of Stewart's as soon as you can. Your ob't servant,

B. F. CHANDLER.

Fousel's Pabulum Vitæ.

☞ THE GREAT FRENCH REMEDY possesses extraordinary properties for the speedy and permanent cure of CONSUMPTION, BRONCHITIS, COYGHS, COLDS, and all PULMONARY DISEASE.

This celebrated specific is now universally acknowledged to be infinitely superior to all other preparations for the cure of Pulmonary Disease, both from its innocent nature and most astonishing curative properties; *it being the only remedy known that will arrest the development of Tubercles in the Lungs or restore the vital functions of the pulmonary organs to their normal condition.* Its invaluable properties have obtained for it the highest recommendation and praise from some of the most eminent physicians and chemists in the country; while the best and surest proofs of its merits are afforded by the numerous testimonials of its great efficacy in conquering disease, which are constantly received from our most respectable citizens. Invalids in all stages of pulmonary disease should not fail to give it a trial, as it can be administered to the most delicate and feeble with perfect safety and certain relief, and we herewith insert a few testimonials for their encouragement, selected from hundreds of like import.

Certificate of Dr. A. A. HAYES, in reference to the unequalled virtues of this great discovery.

This preparation, by chemical analysis, was proved to be free from opium, or any of its compounds; nor were any of the alkaloids present. It does not contain any mercurial or mineral substance, but consists wholly of volatile, diffusible agents, which afford vapors freely at a moderate temperature. Most of the substances present are officinally used in alleviating pulmonary disease; but the device by which they are combined is new and original, and adapts the compound to inhalation, or other modes of administration

Respectfully,
A. A. HAYES, M. D., State Assayer.
16 Boylston St., Boston, Dec. 1857.

In the Boston Transcript of December 11, 1858, the editor says:—

"We have seen a letter from an eminent physician of this city, in which he says:—'I have used *Fousel's Pabulum Vitæ* in several cases of Bronchial disease, and in some with great benefit. I know of no remedy equal to it for children, where a minute dose is essential; or for adults of irritable stomachs, or having a tendency to reject ordinary medicines given for coughs, etc. I shall continue to use it in my practice.'"

Testimonial from the Sisters of Charity, of the St. Vincent's Orphan Asylum, in Boston.

BOSTON, July 31, 1858.

To Mr. F. LAFORME, Agent:

"The Sisters are happy to state that, having used *Fousel's Pabulum Vitæ,* they have found it efficacious in several instances, for bad coughs and colds. Signed by the SISTERS OF CHARITY.

Testimonial from a well-known Apothecary's Clerk.

BOSTON, March 10, 1859.

J. F. LAFORME, Esq.:

Dear Sir—I had been suffering for a considerable length of time from a severe cough, and had in vain had recourse to nearly all the remedies in use. My cough began to give me much uneasiness from its serious effects on my system, when three days' use of *Fousel's Pabulum Vitæ* restored me to complete health. The medicine being new in this market, I had recourse to it last; but I can now confidently recommend it as the best medicine I know of. Yours, truly,

CHAS. H. FOSTER.

At Fred Brown's, Washington, corner State St.

In the Boston Post, Sept. 24, 1858, the editor says:

"An extraordinary cure of Consumption has recently come to our knowledge, effected through the instrumentality of *Fousel's Pabulum Vitæ*; the evidence of which is in the handwriting of the subject, Mr. Wm. P. Brigham, No. 180 Albany st., in this city. It seems that for eighteen months he had been exhibiting all the usual symptoms of Consumption, and that after having had recourse to the skill of various physicians, without benefit, he had to abandon his business and be confined to his house. Hearing of *Fousel's Pabulum Vitæ,* and of several remarkable cures effected by it, in cases as desperate as his own, he concluded to try it as a forlorn hope. The result has been most happy—he has now entirely recovered, and is engaged in his usual pursuits. It is such well authenticated cases as this that we take pleasure in laying before our readers, since, by so doing, many valuable lives may be saved, and much good effected.

It is sold at the low price of 50 cents, and $1.00 per bottle, thus placing it within the reach of all classes. F. J. LAFORME, sole Agent, Boston. M. S. BURR & CO., General Agents, No. 26 Tremont street, Museum Building, Boston, and for sale by all druggists. Circulars with testimonials of these can be had of the Agents now7 1y

A SEDITIOUS SIGN.—I have gazed with wonder upon a shop sign that stares from over a provision store in "Jefferson Hall"—the same building in which two of the local newspapers are published. It is merely the names of the store keepers, and it reads thus—"Brown and Washington." Why this appalling conjunction of names is permitted to remain in full public view, I am incapable of understanding. It is a very bad sign—an incendiary sign, and should be deposed, for the sake of a show of consistency, at least.—*Charlestown, Va., cor. N. Y. Trib.*

☞ A New York Sunday paper talks about some forth-coming "Lilliputian nuptials," and thus unfolds itself:

General Thomas Thumb, who, although barely knee-high to a grasshopper, made a very tall fortune for P. T. Barnum and a snug one for himself, is about to unite himself in the bands of holy wedlock with a lady of youth and beauty. The authorities differ about her height, and it is variously stated as three feet six and six feet three!

MOTHERS.

In presenting you with DR. EATON'S INFANTILE CORDIAL, we desire to state its superiority over every nostrum that nurse or quack has heretofore offered you.

First—It is the preparation of a regular physician, who is well qualified from much experience in infantile complaints to prescribe for them.—Secondly—It is entirely free from paregoric or opiate of any kind, and consequently relieves by removing the suffering of your child, instead of deadening its sensibilities. Thirdly—It is put up with great care, as a comparison of it with any other article for infantile complaints will show: the very roots from which it is distilled being dug from the forests under the direction of Dr. Eaton, many of them by his own hands. Fourthly—it is perfectly harmless and cannot injure the most delicate infant, and is a certain cure and relief in all the following cases, which is its chief merit over every other preparation.

FOR ALL COMPLAINTS ATTENDING TEETHING, such as DIARRHEA, COLIC, &c.; also, for softening the gums and relieving pain. For regulating the bowels it is unequalled. For Cold in the Head it is a sure relief. For CROUP, the most fatal and trying of diseases, it can be relied on with perfect confidence; and being a powerful anti-spasmodic in all cases of convulsions or fits, we earnestly recommend you to loose no time in procuring it—Lastly—it costs so much more than other preparations of the kind, that we cannot afford such long advertisements as can those whose whole expense is their advertising; for the same reason, it commends itself as the most reliable to all mothers. In all cases, the directions wrapped around each bottle, must be strictly followed. Price, 25 cents per bottle.

Sold by CHURCH & DUPONT, Druggists, No. 55 Maiden Lane, New York.

And by all respectable Druggists throughout the country.

AYER'S SARSAPARILLA,

A compound remedy in which we have labored to produce the most effectual alterative that can be made. It is a concentrated extract of Para Sarsaparilla, of combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will a complish their cure must be of immense service to this large class of our afflicted fellow citizens. How completely this compound will do it, has been proven by experiment on many of the worst cases to be found in the following complaints:—

SCROFULA AND SCROFULOUS COMPLAINTS, ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUMS, SCALD HEAD, SYPHILIS AND SYPHILITIC AFFECTIONS, MERCURIAL DISEASES, DROPSY, NEURALGIA OR THE DOULOUREUX, DEBILITY, DYSPEPSIA AND INDIGESTION, ERYSIPELAS, ROSE OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD.

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud. Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions or sores; cleanse it when you find it is obstructed and sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live live longer, for cleansing the blood keeps the blood healthy, healthy, but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.

Sarsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it' contain but little of the virtue of Sarsaparilla, or anything else.

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Hence bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justlyd espised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have grounds for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.

AMERICAN & FOREIGN PATENTS.

R. H. EDDY, Solicitor of Patents,

Late Agent of U. S. Patent Office, Washington, 8 years, since 1837.

76 STATE, OPPOSITE KILBY ST., BOSTON.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States, also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superio to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

I have no hesitation in assuring inventors they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,

Late Commissioner of Patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,

Commissioner of Patents.

BOSTON, February 8, 1858.

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that one is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART.

From Sept 17, 1857, to June 17, 1858, the subscriber, in the course of his large practice, made on TWICE rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in HIS FAVOR, by the Commissioner of Patents.

Boston, Jan. 1, 1859. R. H. EDDY.

MRS. WINSLOW,

An experienced Nurse and Female Physician,

presents to the attention of Mothers, her

SOOTHING SYRUP,

For Children Teething.

Which greatly facilitates the process of teething by softening the gums, reducing all inflammation—will allay ALL PAIN and spasmodic action, and is

SURE TO REGULATE THE BOWELS.

Depend upon it, mothers, it will give rest to yourselves, and

RELIEF AND HEALTH TO YOUR INFANTS.

We have put up and sold this article for over ten years, and *can say, in confidence and truth,* of it, what we have never been able to say of any other medicine, —NEVER HAS IT FAILED, IN A SINGLE INSTANCE, to EFFECT A CURE, when timely used. Never did we know an instance of dissatisfaction by any one who trary, all are delighted to speak in terms of highest encomendation of its magical effects and medical virtues. We speak, in this matter, *"what we do know,"* after ten years experience, and *pledge our reputation for the fulfilment of what we here declare.* In almost every instance where the infant is suffering from pain and exhaustion it will relieve it in fifteen or twenty minutes after the syrup is administered.

This valuable preparation is the prescription of one of the MOST EXPERIENCED and SKILFUL NURSES in New England and has been used with *never-failing success,* in THOUSANDS OF CASES.

It not only relieves the child from pain, but invigorates the stomach and bowels, corrects acidity, and gives tone and energy to the whole system. It will almost instantly relieve GRIPING IN THE BOWELS, AND WIND COLIC.

and overcome convulsions, which, if not speedily remedied, end in death. We believe it the BEST and surest REMEDY IN THE WORLD in all cases of DYSENTERY AND DIARRHEA IN CHILDREN, whether it arises from teething, or from any other cause. We would say to every mother who has a child suffering from any of the foregoing complaints—*Do not let your own prejudices, or the prejudices of others stand in the way,* and the relief that will be SURE—yes, ABSOLUTELY SURE to follow the use of this medicine, if timely used. Full directions for using will accompany each bottle. None genuine unless the fac simile of CURTIS & PERKINS, New York, is on the outside wrapper. Sold by Druggists throughout the world. Principal Office, No. 13 Cedar st. New York

Price only 25 cents per bottle.

DYE YOUR HAIR AND WHISKERS

By using Hutchins' Liquid HAIR DYE, you can color Red or Gray Hair to a beautiful Brown or Black. This is the best article in use. A lady says it is cheaper to use it than to buy caps to cover her head with.

DR. J. B. HUGHES,

Knowing that there are at this moment thousands of persons in the surrounding towns, who rendering their lives to the insidious ministry of certain dangerous maladies, who still suffer from the reluctance to make known their complaints and consult a physician, he would state that some of his medicines will be sent by express or otherwise, to all who may order them, provided a true description of the disease be sent by letter and directed as above.

Full and explicit directions will accompany every package, and the most inviolable secrecy observed.

DR. HUGHES can with safety say during the last year of his practice in Boston, more than two hundred cases of disease which have been improperly treated by empyrics have come under his care and more than three-fourths of this number were inscribed upon his books as perfect cures.

Patients treated by letter by addressing Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed from scrutinizing friends.

Be particular in finding Dr. Hughes. Do not be lured from the right path, or be persuaded to make experiments with false and fictitious remedies at the expense of health, and perhaps, what is the great jewel of life, a healthy constitution.

This medicine can only be obtained at the office of Dr. HUGHES, 13 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE RENOVATING PILLS. These pills are unrivalled in efficacy and superior virtue in regulating female irregularities. Their action is specific and certain, producing relief in a short space of time. They are acknowledged to be the best in use.

The Dr. cautions the public to beware of imitations that are being practiced by adventurers, spurious article under some spurious or fictitious name. They are entirely useless, have been put up by miserable pretenders who are entirely ignorant of the efficacy of medicines.

All who are in pursuit of the genuine article will have better call on the Dr. at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.

These pills can be sent to any part of the country with directions. Remember the number, 13 Howard street, Boston.

P. S.—The best of accommodations furnished with kind and attentive nurses if they wish, at reasonable rate.

Morning Chronicle.

Portsmouth, N. H.

FRIDAY, DEC. 2, 1859.

☞ To-day, Friday, Dec. 2, 1859, John Brown is doomed by the Courts and Statutes of Virginia to die on the scaffold—as a victim to slave power, which would be really unsafe if such men could go unpunished, —and as a martyr to his own views of liberty carried out in action.

He is recorded on the Courts of Virginia as a convicted murderer and traitor—and neither that great State nor her wise Governor dare to let him live.

But we remember, says Uncle Toby, that Hunter, who dragged an unarmed helpless prisoner out of doors and murdered him at Harper's Ferry, is not hung, though his father was the prosecutor of John Brown, and heard his son testify to his own murderous deed.

And we remember also the part which Gov. Wise himself took in relation to the death of the murdered Cilley, who fell in the well known duel with Graves, twenty years ago.

Hunter and Wise call for justice, and hang John Brown. The blood of their victims, too, cries to God from the ground—and though human tribunals wink at their crimes, and though governments and people may applaud their present acts as *necessary*, nay, *indispensable*,—yet they set Uncle Toby to thinking on an old text ascribed to Solomon, and found in Ecclesiastes, chap. 5, v. 8:

If thou seest the oppression of the poor, and violent perverting of judgment and justice in a province, marvel not at the matter: for he that is higher than the highest regardeth; and there be higher than they.

But we hear some one ask a very proper question. Is not every "*freedom shrieker*" in some measure responsible for John Brown's rash adventure, for the lives he took, for the life he is to lose, and for the lives of those yet to fall?

And Uncle Toby answers, Yes! Watt Tyler in England, the blacksmith, who broke the tax-gatherer's skull with a hammer because of insult offered to his daughter; John Rogers, who rebelled against ecclesiastical tyranny, and was burnt by Queen Mary; Patrick Henry, who was was charged with treason in Virginia, and who said, Give me liberty or give me death; La Fayette, who aided the American rebels against the mother country; Wesley, who said American slavery is the vilest under the sun; Garrison, who said it is a sin; and everybody who has claimed his own freedom as a right; all have helped John Brown to feel, to dare, and die.

Not one in ten of all these would do as he has done, or even approve it all—but yet they are in a great measure responsible for their share in the "irrepressible conflict," which began ages before Senator Seward was born—and will not be closed when he dies.

JOHN BROWN'S REMAINS.—The New York Tribune says that Gov. Wise has written a letter to Mrs. Brown, in reply to one from her begging for her husband's remains, assuring her that they shall be placed at her disposal. An order was enclosed for a safe conduct for her messenger to Charlestown, and that the remains, unmutilated, should be decently committed to his care.

THE GALLOWS.—It has often struck us with much force that the loudest defenders of the gallows are to be found among the class of people who are the most prominent candidates for its honors. But how is it that other men—men who are neither ruffians or bullies—men calling themselves Christians even—go in for the same thing? Somehow or other the cowardly old Jewish idea of an "eye for an eye" and "a tooth for a tooth," has got so deeply rooted into men's minds, that it cannot be got out.—*New York Saturday Press.*

☞ The arrival at the Hotel du Louvre, in Paris, of the Russian Grand Duchess Mary de Leuchtenberg, caused an immense sensation. No fewer than fifty-one rooms had been engaged for her and suite, and the police officers who had charge of her luggage from the railroad terminus to the Hotel were heard to say, on delivering it over to the people of the Hotel, "*One hundred and ten pieces!*"

☞ The "Massachusetts Old Folks" (not Father Kemp's) Concert Troupe has been disbanded at Milwaukie, in consequence of jealousy among the ladies. Miss Jenny Twitchell, the leading contralto, received the most applause, and the rest of the crinoline rose up and smashed the company.—So says a Chicago paper.

☞ The threats of southern fire-eaters to secede from the Union if Seward is elected President, are doing more to injure the South and to help Seward, than half the abolitionists in the country. The people of the North feel that they have a right to vote for any man who is constitutionally eligible, and the South must respect the democratic right if she wishes to command respect herself.—*Bath Times.*

☞ Matters in Italy at the last accounts were more complicated than ever.

☞ At the Superior Court for Essex Co. sitting in Salem—John Griffiths of Salem, violation of the liquor law, retracted his plea of not guilty, and took sentence—$20 and costs, 40 days in the House of Correction, and to recognize in the sum of $1000 not to violate the law for one year.

Martin Molane of Haverhill, violation of the liquor law—guilty.

Ralph Slater of Lawrence, who was convicted of keeping a rum nuisance, was discharged on his own recognition, in consequence of his having been imprisoned for five months, awaiting trial, provided he remove from the Commonwealth.

Thomas Hurley of Salem, for maintaining a rum shop—verdict guilty.

☞ Mr R. Baker read a paper at the Social Science Conference "On the Physical Effects of Diminished Labor." He adduced a variety of facts to prove that disease among factory workers has been on the decline. Prior to the passing of the Factory Act, such diseases as intense flat foot, curvature of spine, etc., prevailed in the factory districts; and up to 1832 there was a great physical deterioration among the workers. But since that period his evidence went to show that there was nothing in the Factory labor to induce an excessive mortality. The change in factory life was specially noticeable in the case of females, among whom deformity was now seldom to be seen.

☞ The Bangor Times states that although the potato crop has not returned to its former abundant yield, there is cheering encouragement that the scourge of the potato rot has died out. This year there have been no indications of it in Maine, and the large planting has returned a very handsome profit to the farmers. The shipment of potatoes from Bangor is somewhere between one hundred thousand and two hundred thousand bushels. Chas. Herrick, Esq., of Corinth, states that a careful estimate has been made in that town, and that the crop amounts to 80,000 bushels, which, at 35 cents per bushel, gives $28,000 as the value of the crop.

☞ The Leeds Mercury, England, says that if we will not be our brother's keeper, our brother will be a perpetual torment and disgrace to us. The Rev. Mr. Jackson mentioned at the meeting on Monday, a case in which a boy of only fourteen had been ten times in prison, and had cost the public £400 in prosecuting and punishing him, leaving him just as bad, or rather, we fear, worse than ever. Had that lad been introduced early into a Ragged-School, he might have become a useful member of the community, instead of turning out as he did, a nuisance and a pest. A few ten-pound notes spent in Ragged-Schools would save us thousands of pounds in poor-rates, gaol-rates, police-rates, and the expenses of criminal prosecutions.

☞ The Tri-Weekly Publisher, Haverhill, tells the following story:—

A few nights ago one of our well-known citizens, thinking he had important business at the railroad depot about the time the cars arrived, went hastily to that point. The cars were not in, and he did not observe that they were approaching, and was in the act of crossing the track to speak with a person on the opposite side, when some one called to him that "the cars are coming!" Turning partly around he saw with amazement that they were close upon him. Almost paralyzed with fright, he made an effort to reach the platform he had but a second before left. The bell was rung violently, and the people shouted to him. The engineer reversed speed, and also screamed to him, almost in his ear, to jump for his life! and putting every muscle and nerve to its utmost tension, he *did jump*, and—landed with a jar that shook the house, *on the floor of his sleep-room!* The fact is, he had dreamed all: but it was so much of a reality to him, that he made the leap, and did not escape without quite a bruise on one of his knees, besides considerably surprising his wife, who was not familiar with accidents on the night train!

☞ In Turkey, it is a law that no male child born of any daughter of the Sultan shall be allowed to live. This barbarous custom is still in full force at the Seragalio, and a son recently born to the Sultan's daughter, the wife of Mammound Pasha, was pitilessly strangled after its birth.

☞ On the statue erected in Stafford, England, to the memory of Joseph Brotherton, are inscribed the following words, uttered by him in the House of Commons, of which he was for many years a member:—"My riches consist not in the extent of my possessions, but in the fewness of my wants."

☞ A serious mutiny had prevailed on board the ship-of-the-line Princess Royal, at Portsmouth, Eng. Over one hundred of her men were taken prisoners and placed in irons.

AN OLD NEGRESS.—An old colored woman named Manetta, a native of Louisiana, died the other day in the Asylum for the Insane, at the advanced age of 120 years. She had been insane for many years.

The old perplexing query "How many children had John Rogers?" has at last been definitely and historically settled. He had eleven.

☞ The Dover Enquirer says Mr. John Ransom of Strafford was found on Thursday morning last in the road leading from Strafford Centre to Strafford Corner, in a state of insensibility, and apparently in a dying state. He died on Saturday night. It is said that he and two other men procured a gallon of rum on Wednesday night, and this was one of the consequences. He had probably lain where he was nearly all Wednesday night, as the snow had melted under him to the ground.

AUGUSTA, Ga., Nov. 30.—The South Carolina Legislature met on Monday. The Governor's message relates chiefly to State affairs. He recommends, in case of the election of a Republican President, the co-operation of the Southern institutions.

We suppose this may mean, "the co-operation of the Southern [States to secure their] institutions." Or, in other words, secession, nullification, and the other South Carolina talk.

☞ The latest news from Europe, is from Liverpool Nov. 19th.

Ratifications of the treaties lately concluded between France, Austria and Sardinia, are to be exchanged at Zurich by the representatives of those Powers on the 21st of November.

France has issued letters of invitation to the European Congress, to those Powers who signed the Vienna treaties, and the Italian rulers.

The attitude of the English and French newspaper press is daily becoming more warlike.

The London Times calls on the Emperor Napoleon to put an end to the suspense felt by the English nation.

The Loudon Society of Art has inaugurated a movement for a Great Exhibition, to be held in 1862.

A report is in circulation that Garibaldi has resigned the command of the forces of Central Italy, and joined the Sardinian army.

FALL AND WINTER MODES.—No prospect of any expansion of ladies' bonnets, or contraction of their skirts. Their dear little heads are determined, we fear, to brave the storms of another winter almost unsheltered. Phrenologically speaking, the entire "coronal region" is to be left bare, and no part of the female cranium covered save the cluster of anterior organs designated by Combe as the "family group." Among these is "adhesiveness," which, with the assistance of a big pin through the top-knot, will, we hope, enable the ladies to make their bird-nest bonnets stick on, in blustering weather. If not, we would advise the milliners to introduce the self-sealing envelope principle, and line their winter head-gear with diachylon plaster.

Something might very well be spared from the press of sail "alow" to make up for the shortcomings "aloft;" but this is not to be permitted. On the contrary, the "eight breadths" is to be increased to *nine*. The double skirt is going out, and a circular staircase of small flounces from the waist down, is coming in.—*N. Y. Ledger.*

THE SOUTHWICK TRAGEDY.—Holcomb, the wife murderer, has returned to his home in Southwick, and is now engaged in taking care of his wife. When recently asked why he committed the terrible deed, he said "there is a mystery about it that will never be explained." Mrs. Holcomb is no better, and the chances of her recovery are still very doubtful.—*Springfield Republican.*

Fousel's Pabulum Vitæ.

☞ THE GREAT FRENCH REMEDY possesses extraordinary properties for the speedy and permanent cure of CONSUMPTION, BRONCHITIS, COUGHS, COLDS, and all PULMONARY DISEASES.

This celebrated specific is now universally acknowledged to be infinitely superior to all other preparations for the cure of Pulmonary Disease, both from its innocent nature and most astonishing curative properties; *it being the only remedy known that will arrest the development of Tubercles in the Lungs or restore the vital functions of the pulmonary organs to their normal condition.* Its invaluable properties have obtained for it the highest recommendation and praise from some of the most eminent physicians and chemists in the country: while the best and surest proofs of its merits are afforded by the numerous testimonials of its great efficacy in conquering disease, which are constantly received from our most respectable citizens. Invalids in all stages of pulmonary disease should not fail to give it a trial, as it can be administered to the most delicate and feeble with perfect safety and certain relief; and we herewith insert a few testimonials for their encouragement, selected from hundreds of like import.

Certificate of Dr. A. A. HAYES, in reference to the unequalled virtues of this great discovery.

This preparation, by chemical analysis, was proved to be free from opium, or any of its compounds; nor were any of the alkaloids present. It does not contain any mercurial or mineral substance, but consists wholly of volatile, diffusible agents, which afford vapors freely at a moderate temperature. Most of the substances present are officially used in alleviating pulmonary disease; but the device by which they are combined is new and original, and adapts the compound to inhalation, or other modes of administration

Respectfully,

A. A. HAYES, M. D., State Assayer.

16 Boylston St., Boston, Dec. 1857.

In the Boston Transcript of December 11, 1858, the editor says:—

"We have seen a letter from an eminent physician of this city, in which he says:—'I have used *Fousel's Pabulum Vitæ* in several cases of Bronchial disease, and in some with great benefit. I know of no remedy equal to it for children, where a minute dose is essential; or for adults of irritable stomachs, or having a tendency to reject ordinary medicines given for coughs, etc. I shall continue to use it in my practice.'"

Testimonial from the Sisters of Charity, of the St. Vincent's Orphan Asylum, in Boston.

BOSTON, July 31, 1858.

To Mr. F. LAFORME, Agent:

"The Sisters are happy to state that, having used *Fousel's Pabulum Vitæ*, they have found it efficacious in several instances, for bad coughs and colds. Signed by the SISTERS OF CHARITY."

Testimonial from a well-known Apothecary's Clerk.

BOSTON, March 10, 1859.

J. F. LAFORME, Esq.:

Dear Sir—I had been suffering for a considerable length of time from a severe cough, and had in vain had recourse to nearly all the remedies in use. My cough began to give me much uneasiness from its serious effects on my system, when three days' use of *Fousel's Pabulum Vitæ* restored me to complete health. The medicine being new in this market, I had recourse to it last; but I can now confidently recommend it as the best medicine I know of. Yours, truly,

CHAS. H. FOSTER.

At Fred Brown's, Washington, corner State St.

In the Boston Post, Sept. 24, 1858, the editor says:

"An extraordinary cure of Consumption has recently come to our knowledge, effected through the instrumentality of *Fousel's Pabulum Vitæ*; the evidence of which is in the handwriting of the subject, Mr. Wm. P. Brigham, No. 130 Albany st., in this city. It seems that for eighteen months he had been exhibiting all the usual symptoms of Consumption, and that after having had recourse to the skill of various physicians, without benefit, he had to abandon his business and be confined to his house. Hearing of *Fousel's Pabulum Vitæ*, and of several remarkable cures effected by it, in cases as desperate as his own, he concluded to try it as a forlorn hope. The result has been most happy—he has now entirely recovered, and is engaged in his usual pursuits. It is such well authenticated cases as this that we take pleasure in laying before our readers, since, by so doing, many valuable lives may be saved, and much good effected.

It is sold at the low price of 50 cents, and $1.00 per bottle, thus placing it within the reach of all classes. F. J. LAFORME, sole Agent, Boston. M. S. Catarrhal Cough.

This insidious and annoying symptom, so difficult to treat, depends on a subacute inflammation of the air-passages, which is apt to end in chronic ulceration and a form of consumption. The mucous membrane of the air-passages is peculiarly susceptible to the healing influences of the PERUVIAN SYRUP, as the testimonials of some of our first citizens show.

There is no known remedy can exceed in speediness of cure, and certainty of effect, that which has become world famous as DR. HOSTETTER'S STOMACH BITTERS. In all diseases of the stomach, which are of a morbid nature, the Bitters have effected most remarkable cures when many other remedies have failed. Hundreds of certificates have been given by those who have thoroughly tested its efficacy, all of which corroborate its efficiency, when it is administered according to the directions on each bottle.

Some of the worst cases of Dyspepsia, Diarrhea and Costiveness, have been permanently cured by the use of the Bitters.

Sold by druggists and dealers generally, everywhere.

R. R. R.

On the 1st day of September, 1853, Mr. Charles Randolph called at the R. R. R. office, and stated that for ten years he had not enjoyed a single meal. He had not, for five years, had a natural discharge from his bowels; but was obliged to resort to Injections, &c. He was pale, haggard, and thin. We ordered Radway's Regulators, one each night, and Radway's Resolvent, three times per day. On the eighth of September he called upon us.

HE WAS SO ALTERED THAT WE KNEW HIM NOT.

His appetite is good—his digestion easy—his skin moist and healthy—his step elastic and buoyant—his body vigorous, and his eye indicates a man of health and energy.

For Liver Complaint, Dyspepsia, Difficulties of the Urethra and Bladder, Radway's Regulator and Renovating Resolvent are a quick and positive cure. For all Aches and Pains, for Neuralgia and Rheumatism, for Nervous and Bilious Complaints, Radway's Ready Relief is quick and effectual. In five minutes' time after its application, the patient is free from pain.

Sold by Druggists everywhere.

THE OXYGENATED BITTERS.

Nature, in her great laboratory, has stored some remedy adapted to every disease which "flesh is heir to." But it requires the investigation and research of the philosopher to discover and apply this remedy. Such research and investigation has succeeded in discovering a remedy for that most afflictive dispensation, the

DYSPEPSIA!

With all its lesser and numerous evils; and it may be safely asserted that until the appearance of the *Oxygenated Bitters*, a case of Dyspepsia cured was a rare experience in medical practice. Now, under the influence of these Bitters the rule is to *cure*, the rare exception, failure to cure.

Read the following, which the subscriber requests us to publish for the benefit of the afflicted:

Obdurate and Inveterate Case of Dyspepsia cured by the Oxygenated Bitters.

The following from a gentleman well known in the region in which he lives ought to satisfy all those of little faith:

WATERTOWN, N. Y., July 28, 1858.

S. W. FOWLE & Co., Boston,—*Sirs;*—Nine years since I was attacked by that curse of all diseases, *Dyspepsia*, which so affected me as to cause great oppression, fullness, and bloating of the bowels, immediately after eating, accompanied with terrible pains in the stomach, often occasioning nausea, vomiting, acidity, and headache, together with general debility and suffering, altogether rendering life a burthen.

After having tried every known remedy without effect, and despairing of ever regaining my lost health, I was induced to make use of the Oxgenated Bitters, the good effects of which were immediately visible on my health and system. Before using a whole bottle I was entirely cured; and I feel a pleasure inducing all like sufferers as myself to make use of this remedy.

☞ December, taking the first day as a sample, begins with weather more like May day than like Christmas.

☞ We take the liberty of suggesting to our friends, that perhaps as acceptable a Christmas or New Year's present, in its way, as they could select, would be a *year's subscription* to the DAILY or WEEKLY CHRONICLE. An obvious advantage of such a present is, that the recipient would be pleasantly reminded of the donor every day or week during the year.

PRIMITIVE INNOCENCE.—A paper published in Portsmouth, N. H., is greatly incensed that the Saturday Press should make a distinction between politicians and patriots, or between sectarians and Christians.

Evidently in Portsmouth they have nothing but high-minded lovers of their country, and self-sacrificing lovers of Christianity, who would be as much shocked at anything like political or religious intrigue, as so many young girls just out of the High school.

We wouldn't destroy their illusion for the world, but we cannot help saying they had better not leave New Hampshire.—*Sat. Press.*

THE PRESIDENT'S MESSAGE.—Letters from Washington intimate that if there should be indications of a protracted contest for Speaker, the President will not defer the transmission of his Message until the organization of the House. It is said that it will contain a recommendation to return to the tariff of 1846, until the whole subject can be arranged on a more stable basis. It is expected that he will advise the dropping of the slavery question, as within five years there will be no more territories on which to agitate it. The Harper's Ferry affair will be alluded to, as a text, on the danger of organizing geographical parties. The affair of the San Juan Island will occupy a prominent place, on account of the ill-advised despatch of Lord John Russell to Lord Lyons.—*Boston Courier.*

NEW YORK, Nov. 30.—The carpet factory of Higgins & Co., 43d street, was entirely destroyed by fire to-day. Loss $100,000. Twelve hundred hands thrown out of employment.

There was a collision this morning on the Erie Railroad at Jersey City. One passenger and two freight cars were demolished, but no one was injured.

☞ The Virginia news of Dec. 1 is, that at Charlestown, Mr. Edgerton, member of Congress from Ohio, came on Monday with a petition from Brown's son for the dead body of his father. This was refused, and two hours later Mr. Edgerton went out of town in an open wagon, guarded by four of the Black Horse Rangers.

Three passengers on the Baltimore and Ohio Railroad were taken out of the cars at Harper's Ferry and imprisoned. They are merchants of Cincinnati, on the way to Baltimore. At Grafton they talked very freely in relation to John Brown and his family, expressing sympathy for him and them. The conversation was heard by a spy of Gov. Wise's, who telegraphed to Harper's Ferry an account of the matter and a description of the parties. When the cars arrived, the soldiers entered with loaded muskets and carried the men away, notwithstanding they protested their innocence.

A brother of Coppie in disguise was arrested at a place 30 miles distant. He was taken to jail and identified by Cook. The other prisoners refused to recognize him.

Mr. Hoyt's efforts to procure delay on the ground of Brown's insanity, are ridiculed.

WASHINGTON, Nov. 30.—There are now about 80 members of Congress in Washington. The Caucuses of respective parties will be held on Saturday night.

Judge Douglas and his wife design leaving this city on the 12th of December for Florida, on the recommendation of their physicians.

MAURY'S GEOGRAPHY OF THE SEA.

Concluded.

As to the currents of the ocean, Maury ascribes less agency to the winds than we should expect. Given a wind beating from the N. W. against the north coast of South America for a thousand years without intermission, and we should quite naturally expect a Gulf Stream to make its escape wherever the Calms of Cancer touched the continent. To this most obvious cause our author adds evaporation in one part and rain in another; saltness and greater specific gravity in one part and freshness and lightness in another; and lastly, heat and cold. These causes tend to keep up exactly such currents in the ocean as heat and cold do in the air; but the shape of the continents modifies them still more. The Gulf Stream is whirled eastward by the rotation of the earth, just as winds from the poles are deflected to the west.

He estimates a rain of one inch over a fifth part of the Atlantic to contain 360,000,000,000 tons of water, and to convert it into sea water requires 16,000,000 tons of salt. The water would equal all that flows in the Mississippi in a year; and the salt would twice load all the vessels in the world. The evaporation of the ocean is much greater than its rains. This takes place most in the tropics, and the salter water glides under the colder and fresher waters of the Polar seas, where it rains most. This probably occasions an open sea near the North Pole. Our author does not state how many cubic yards of ocean are set in rapid motion by each drop of rain, nor how many tons of sea-water are carried off five thousand miles by the weight of an ounce of salt, but the result seems rather hard to believe. We cannot but think he has under-rated the power of the wind. We do not believe Maury ever *saw* "fresh water dipped up from rain puddles on the surface of the ocean."

But the amount of motion in a vast ocean current that has been flowing for a thousand years passes our first anticipation. In a river it takes a rapid fall to give a current of four miles an hour. But if just in the middle of that river ran another, having its sides and bottom of moving water, instead of motionless sand, a much less fall would suffice. Now take a river 32 miles wide and nearly a quarter of a mile deep, and a very few feet of fall would suffice to send it across the Atlantic with a current of four knots in the narrowest place. Nor should we be surprised to learn that the Trade Wind alone was capable of making a difference of 50 feet between the coast of Africa and that of Mexico. Careful observations on the alteration of level made by a wind of a fortnight blowing the length of one of our great lakes would throw light on that point. The breadth of the lake and the duration and steadiness of the wind are elements in this calculation; but if these were infinite, the effect would be proportioned directly to the length. Now I suppose that the Atlantic, from the coast of Africa to that of Mexico, is about twenty times the length of Lake Erie. The parallel shores of the lake interfere about as much with the effects of the wind as the Lesser Antilles. I count the effects of centuries of Trade Wind equal to those of any S. W. prolonged wind at Buffalo. Now multiply the greatest rise of water at Buffalo by twenty, and you have the probable difference of level between the African coast and the Caribbean sea—the foot and the head of the Gulf Stream.

The Gulf Stream is of importance in the history of transatlantic navigation. Franklin knew, at the commencement of the revolutionary war, that vessels bound for America could find the longitude with far more accuracy than by any instruments then known. Had he published that fact, our shores would have been far more accessible to the fleets of the enemy; and even the result of the war might have been the reverse of what it was. His discovery was ultimately fatal to Southern commerce. In 1769 the commerce of the Carolinas was about equal to that of New England; and far exceeded that of Pennsylvania or New York. Franklin's discovery shortened by nearly one-half the voyages to the Northern ports, but left those at the South nearly as they were.

The Gulf Stream is the most important and striking of the almost innumerable currents of the sea. There is a remarkably similar one on the coast of Asia. The Indian Ocean here corresponds to the Gulf of Mexico, Malacca to Florida, Sumatra to Cuba, Borneo to the Bahamas, China to the United States, the Phillippines to the Bermudas, Japan to Newfoundland, the North Pacific to the North Atlantic, the Aleutian Islands to the British Isles, and North America to Europe.

But those who wish this article longer will procure the book. It is published by the Harpers; a handsome octavo of 350 pages, with maps and engravings. I am sorry I had not known more of the work earlier, and I have wished to announce it now, not so much as a Geography of the Sea, as a Meteorology of the Earth. When this science comes to occupy the place it deserves, observers will be multiplied by thousands, and we shall hear less of the "inconsistency of the wind." Yours, I. F. H.

What is that, which if I had it I would not wish to lose; if I have not, I do not wish to have it; but if I gain it I no longer have it? A lawsuit.

Universal Confidence and Patronage.
FOR STATESMEN, JUDGES, CLERGYMEN.

Ladies and Gentlemen, in all parts of the world testify to the efficacy of Prof. O. J. Wood's Hair Restorative, and gentlemen of the Press are unanimous in its praise. A few testimonials only can be here given; see circular for more, and it will be impossible for you to doubt.

47 Wall Street, New York, Dec. 20, 1858.

GENTLEMEN:—Your note of the 15th inst., has been received, saying that you had heard that I had been benefitted by the use of Wood's Hair Restorative, and requesting my certificate of the fact if I had no objection to give it.

I award it to you cheerfully, because I think it due. My age is about 50 years; the color of my hair auburn, and inclined to curl. Some five or six years since it began to turn gray, and the scalp on the crown of my head to lose its sensibility and dandruff to form upon it. Each of these disagreeabilities increased with time, and about four months since a fourth was added to them, by hair falling off the top of my head and threatening to make me bald.

In this unpleasant predicament, I was induced to try Wood's Hair Restorative, mainly to arrest the falling off of my hair, for I had really no expectation that gray hair could ever be restored to its original color except from dyes. I was, however, greatly surprised to find after the use of two bottles only, that not only was the falling off arrested, but the color was restored to the gray hairs and sensibility to the scalp, and dandruff ceased to form on my head, very much to the gratification of my wife, at whose solicitation I was induced to try it.

For this, among the many obligations I owe to her sex, I strongly recommend all husbands who value the admiration of their wives to profit by my example, and use it if growing gray or getting bald. Very Respectfully,
BENJ. A. LAVENDER.

To O. J. Wood & Co, 444 Broadway, N. Y.

Siamaston, Ala., July 20th, 1589.

To Prof. O. J. Wood: Dear Sir: Your "Hair Restorative" has done my hair so much good since I commenced the use of it, that I wish to make known to the PUBLIC its effects on the hair, which are great. A man or woman may be nearly deprived of hair, and by a resort to your "Hair Restorative," the hair will return more beautiful than ever; at least this is my experience. Believe it all! Yours truly,
WM. H. KENEDY.

P. S.—You can publish the above if you like.—By publishing in our Southern papers you will get more patronage south. I see several of your certificates in the Mobile Mercury, a strong Southern paper. W. H. K.

WOOD'S HAIR RESTORATIVE.

Professor O. J. Wood:—Dear Sir:—Having had the misfortune to lose the best portion of my hair, from the effects of the yellow fever, in New Orleans in 1851, I was induced to make a trial of your preparation, and found it to be the very thing needed. My hair is now thick and glossy, and no words can express my obligations to you in giving to the afflicted such a treasure.
FINLEY JOHNSON.

The Restorative is put up in bottles of three sizes, viz: large, medium, and small; the small holds half a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent. more in proportion, and retails for $3 a bottle.

STOVES, TIN WARE, &c.,
Which he offers for sale at wholesale and retail, at very low prices. He has a great variety of the best and most popular Stoves, among which are:

1. **The Stewart Cook Stove,** with the latest improvements. This is an air-tight Cook Stove, for Wood or Coal; it has moveable coverings, which can confine the heat in the stove, or let it out into the room; has a reservoir of hot water 10 or 20 gallons, and a tin closet beneath;—a top cover, which is a great institution for baking, and will keep a coal fire all night; it has a Dutch Oven for roasting in front of the Stove;—and it is every way a most convenient and durable Stove. There are 4 sizes.

The following recommendation of Stewart's Stove, is from an eminent engineer, and must be satisfactory to all who wish to understand the value of this excellent Stove:

Portsmouth, N. H., Nov. 5, 1859.

Mr. Blaisdell:—Seven years ago I moved to this city, and sold, before I came, a "Stewart's Air Tight Cooking Stove," which I had used about five years. During that time no repairs or expense had been made upon it. Since I have been here I have tried the various Cooking Stoves in use, and I think for economy and durability the "Stewart" excels them all. I wish you would take away the Stove I now have from my house, and set up one of Stewart's as soon as you can. Your ob't servant,
B. F. CHANDLER.

MOTHERS,

In presenting you with DR. EATON'S INFANTILE CORDIAL, we desire to state its superiority over every nostrum that name or quack has heretofore offered you.

First—It is the preparation of a regular physician, who is well qualified from much experience in infantile complaints to prescribe for them.—Secondly—It is entirely free from paregoric or opiate of any kind, and consequently relieves by removing the suffering of your child, instead of deadening its sensibilities. Thirdly—It is put up with great care, as a comparison of it with any other article for infants' complaints will show: the very roots from which it is distilled being dug from the forests under the direction of Dr. Eaton, many of them by his own hands. Fourthly—It is perfectly harmless and cannot injure the most delicate infant, and is a certain cure and relief in all the following cases, which is its chief merit over every other preparation.

FOR ALL COMPLAINTS ATTENDING TEETHING; such as DYSENTERY, COLIC, &c.; also, for softening the gums and relieving pain. For regulating the bowels it is unequalled. For Cold in the Head it is a sure relief. For CROUP, the most fatal and trying of diseases, it can be relied on with perfect confidence, and being a powerful anti-spasmodic in all cases of convulsions or fits, we earnestly recommend you to loose no time in procuring it—Lastly—it costs so much more than other preparations of the kind, that we cannot afford such long advertisements as can those whose whole expense is their advertising; for the same reason, it commends itself as the most reliable to all mothers. In all cases, the directions wrapped around each bottle, must be strictly followed. Price, 25 cents per bottle.

AYER'S SARSAPARILLA,

A compound remedy in which we have labored to produce the most effectual alterative that can be made. It is a concentrated extract of Pars Sarsaparilla, of combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will a complish this cure must be of immense service to this large class of our afflicted fellow citizens. How completely this compound will do it, has been proven by experiment on many of the worst cases to be found in the following complaints:—

SCROFULA AND SCROFULOUS COMPLAINTS, ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUMM, SCALD HEAD, SYPHILIS AND SYPHILITIC AFFECTIONS, MERCURIAL DISEASES, DROPSY, NEURALGIA OR TIC DOULOUREUX, DEBILITY, DYSPEPSIA AND INDIGESTION, ERYSIPELAS, ROSE OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD.

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud.—Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions or sores;—cleanse it when you find it is obstructed or sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live live longer, for cleansing the blood. Keep the blood healthy, and all will go well with this pabulum of life disordered, there can be no lasting ealth. Sooner or later something must go wrong, and the great machinery of life is discovered or overthrown.

Sarsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it contain but little of the virtue of Sarsaparilla, or anything else.

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Aence bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justlyd espised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall induce the name from the load of obloquy which rests upon it. And we think we have grounds for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.

AMERICAN & FOREIGN PATENTS.

R. H. EDDY, Solicitor of Patents,
Late Agent of U. S. Patent Office, Washington,
n a practice of 13 years.
76 STATE, OPPOSITE KILBY ST., BOSTON.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superio. to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him t. accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

I have no hesitation in assuring inventors they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.

BOSTON, February 8, 1858.

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that one is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART.

From Sept 17, 1857, to June 17, 1858, the subscriber, in the course of his large practice, made on TWICE rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in HIS FAVOR, by the Commissioner of Patents.

Boston, Jan. 1, 1859. R. H. EDDY.

MRS. WINSLOW,

An experienced Nurse and Female Physician, presents to the attention of Mothers, her

SOOTHING SYRUP,
For Children Teething.

Which greatly facilitates the process of teething by softening the gums, reducing all inflammation—will allay ALL PAIN and spasmodic action, and is

SURE TO REGULATE THE BOWELS.

Depend upon it, mothers, it will give rest to yourselves, and

RELIEF AND HEALTH TO YOUR INFANTS.

We have put up and sold this article for over ten years, and *can say, in confidence and truth,* of it, what we have never been able to say of any other medicine,—NEVER HAS IT FAILED, IN A SINGLE INSTANCE, TO EFFECT A CURE, when timely used. Never did we know an instance of dissatisfaction by any one who used it. On the contrary, all are delighted to speak in terms of highest praise of its wonderful effects and medical virtues. We speak, in this matter, *"what we do know,"* after ten years experience, and *pledge our reputation for the fulfilment of what we here declare.* In almost every instance where the child is suffering from pain and exhaustion from the effects of teething, relief will be found in fifteen or twenty minutes after the syrup is administered.

This valuable preparation is the prescription of one of the MOST EXPERIENCED AND SKILLFUL NURSES in New England and has been used with *never-failing success,* in THOUSANDS OF CASES.

It not only relieves the child from pain, but invigorates the stomach and bowels, corrects, acidity, and gives tone and energy to the whole system. It will almost instantly relieve

GRIPING IN THE BOWELS, AND WIND COLIC,

and overcome convulsions, which, if not speedily remedied, end in death. We believe it the BEST and surest remedy AND DIARRHEA IN CHILDREN, whether it arises from teething, or from any other cause. We would say to every mother who has a child suffering from any of the foregoing complaints—*Do not let your prejudices, or the prejudices of others,* stand in the way of your child's relief that ABSOLUTELY SURE and PLEASANT remedy is offered you. Full directions to each bottle. None genuine unless the *fac-simile* of CURTIS & PERKINS, New York, is on the outside wrapper. Sold by Druggists throughout the world. Principal Office, No. 13 Cedar st. New York.

Price only 25 cents per bottle.

What is Mrs. Winslow's Soothing Syrup?

DYE YOUR HAIR AND WHISKERS

DR. J. B. HUGHES,

Knowing that there are at this moment thousands of persons in the surrounding towns, surrendering their lives to the insiduous inroads of certain dangerous maladies, who still suffer from the reluctance to make known their complaints and consult a physician, he would state that any of his medicines will be sent by express or otherwise, to all who may order them, provided the true description of the disease be sent by letter and directed as above.

Full and explicit directions will accompany every package, and the most inviolable secresy preserved.

DR. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of disease which have been improperly treated by empyrics have come under his care and more than three-fourths of this number are inscribed upon his books as perfect cures.

Patients treated by letter by addressing Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed from scrutinizing friends.

Be particular in finding Dr. Hughes. Do not be lured from the right path, or be persuaded to try experiments with false and fictitious remedies at the expense of destroying what is the great pillar of life, a healthy constitution.

This medicine can only be obtained at the Office of Dr. HUGHES, 13 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE RENOVATING PILLS. These pills are universally led in efficacy and superior virtue in regulating all female irregularities. Their action is specific and certain, producing relief in a short space of time. They are acknowledged to be the best in use.

The Dr. cautions the public to beware of impositions that are being practiced by advertising a spurious article under some spurious or fictitious name. They are entirely useless, having been got up by miserable pretenders who are entirely ignorant of the efficacy of medicines.

All who are in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.

These pills can be sent to any part of the country with directions. Remember the number—13 Howard street, Boston.

P. S.—The best of accommodations furnished, with kind and attentive nurses if they wish, at a reasonable rate. jl dly

FUGITIVE SLAVES.—Five fugitive slaves arrived at Greenfield from Springfield on Thanksgiving Day. The party consisted of a mother about 40 years of age, three children from three to eight years, and the mother's brother, 16 or 18 years. The party escaped from a plantation near Richmond, about two months ago. Their first stopping place was New Haven, but they were advised to keep travelling until they reached Canada. Charles C. Carpenter, of Bernardston, took pity upon them at Springfield and forwarded them to Greenfield.—The mother says that her husband and oldest child were sold and sent to New Orleans. Two of the children she had with her are nearly white, and the mother states that her master was the father of them.—Money was raised, and they were also provisioned and sent to Albany.—*Bost. Courier.*

THE HEAD OF THE HOUSE.—A faithful minister of the Gospel being one day engaged in visiting some members of his flock, came to the door of a house where his gentle tapping could not be heard for the noise of contention within. After waiting a little he opened the door and walked in, saying with an authoritative voice, "I should like to know who is the head of this house." "Weel, sir," said the husband and father, "if ye sit doon a wee, we'll may be able to tell ye, for we're just tryin' to settle that point."—*Dean Ramsay's Reminiscences.*

POLITICAL JOKE.—A gentleman not a thousand miles from Boston gave a great party and invited the leading men of the vicinity. Some wag gave him the names of all his political opponents in the smallest town of his district, instead of a list of his friends and supporters, and the former were invited to the banquet while the latter were left out in the cold. The joke was so good that no one took offence, and both Democrats and Republicans had a merry time over the affair.—*Transcript.*

THE PANIC at the South still continues, and we have numerous reports of arrests of suspected persons in the slave States.—Northerners who do not desire to be molested, are compelled to "think twice before speaking once," while they remain within the shadow of the "peculiar institution."—*Boston Transcript.*

A little ragged urchin, begging in the city the other day, was asked by a lady who had filled his basket, if his parents were living?

"Only dad, marm," say the boy.

"Then you've enough in your basket now to feed the family for some time." said the lady.

"Oh, no, I haven't neither." said the lad, "for dad and me keeps five boarders; he does the housework, and I does the market'n.

ERA AND PERIOD.—Much confusion frequently occurs in the use of the terms era and period among chronologers. Era is any indefinite time, period is a time included between two dates. The beginning and ends of the periods are epochs, though, generally speaking, epoch is confined to events of some distinction.

Emerson says:—"Every man *alone* is honest; when a second person enters, hypocrisy begins." We do not wish to be deceitful, but we have not courage to be sincere.—We are afraid to be ourselves, lest Mr. Overtop, or Mrs. Carryall, whom we very much wish to please, will not like us.

LEARN TO LIVE BY THE DAY.—We pass our lives in sighing about the past and fretting about the future. To-day, which is of so much more importance to us than either, we suffer to slip by without an effort to crowd it with good deeds, and to enjoy it.—*N.Y. Ledger.*

God be thanked that the ages have passed when the whole world could be held, with bated breath, as spectators of the puerile drama of feudal aristocracy. Man is fast coming to his estate—to be considered for what he is, and not for what his forefathers were.

Many persons, when they find themselves in danger of shipwreck in the voyage of life, throw away their darling vices, as other mariners their treasures, only to fish them up again when the storm is over.

A New York paper states that a celebrated writing master taught a lawyer, in a course of twelve lessons, to read his own hand writing.

Teach your children to help themselves—but not to what doesn't belong to them.—*Prentice.*

From present indications, it is probable that the press will be supplied with copies of the President's message and accompanying documents as heretofore.

LIVING IN HOUSES.

The manners and customs of one nation differ widely from those of another,—and so do those of one class of people differ from another class in the same country and neighborhood.

Not long ago Uncle Toby was walking, as he often does, through a flourishing town, not a great distance from the ocean, where he observed that every house in one fruitful district, had an L attached to it, and that there was a cheerful looking smoke curling upwards from the L chimney in every house, but generally no smoke from any other.

Most of these houses were large, some very large, some were old and some modern, and with a single exception, all in good repair. The occupants of one of the best, said the families all lived in the Ls.

Passing on a few miles, the traveller came to another house, small, low and very black, where the owner kept his hay in a stack, his cow in a hovel, and his pigs in the highway. This man, too, was in the fashion; his house had an *L*, a sorry affair to be sure, but then the family lived in it; for though the main body of the house had a chimney, there was no smoke in it, but the smoke poured out of an old elbow of stove funnel which just barely peeped through the roof of the L. The people here aped their richer neighbors, and we suppose they had their reward, though we can hardly guess what it was.

This reminds us of a piece seen a few days ago, from the New England Farmer, in which the writer speaks thus of farmhouse architecture.

The interior of our dwelling is somewhat deficient. First—a small apartment often serves as wash, cook, eating, library and living room. Here are assembled a steaming wash-tub, seething cook-stove, cupboard, tables, chairs, sink and wood box. Various articles of clothing, files of newspapers, almanacs and shelves of books are hanging on the wall—dried apple and pumpkin depending from the ceiling. Here the family take their meals and pass their leisure time.

Second—the larger and more pleasant portion of the dwelling is divided into two or three well papered, painted, carpeted and curtained rooms. Here are costly mirrors, paintings, tables, chairs, gifts, gilt-covered books, artificial flowers, an ornamented stove, polished shovel and tongs, and the family ambrotypes. But alas, these rooms are Holy of Holies, to the family. The mother alone, as high priest, enters there semi-annually to overturn and then re-adjust their contents.

Now here are two great evils—first, confining the family to so small an apartment, and allowing papers, books and clothing to become injured by steam and smoke; second, expending so much time, labor and money in furnishing those spacious but useless apartments—the parlors.

The remedy is simple and inexpensive. Convert the most spacious of these rooms into a well-lighted, ventilated and warmed living apartment—render it free from vapor and smoke, and exchange that costly but useless furniture for a globe, maps, a variety of engravings, scientific and other works. Have these tastefully and conveniently arranged.

Fashion is the great obstacle. All are pecuniarily able to have such an apartment, if they have parlors. Now shall an injurious, inconvenient and expensive habit be cultivated, because, forsooth, we must imitate our wealty city friends? Shall we expend time, labor and money for that which can be of no possible benefit to any one?

That is good, in that direction. In another class of families the advice would be, as in winter you keep but one fire, keep it in the most spacious and pleasant room you have. *Live* there, in comfort while you live.

THREATS OF DISUNION.—When John Quincy Adams was about to be elected President, the Richmond papers declared that if it was done there would be a break down. The following from a paper called the Marylander, published in Baltimore in 1828, sounds as fresh as if it had been uttered since the capture of Harper's Ferry by seventeen white men and five negroes:

"A few days since, we stated on the authority of the Richmond Whig, that Mr. Andrew Stevenson, Speaker of the House of Representatives, had within a few weeks asserted 'that if Mr. Adams should be reelected, the Union would be dissolved.'

"On the same authority we stated that a Judge of the General Court of Virginia had made the declaration at Norfolk that 'if Mr. Adams was not put out by the voice of the people, they (the Jackson men) would be willing to put him out by force.'

"Both these statements are coroborated by responsible names, who certify to their truth."

☞ The Christian Inquirer, the Unitarian paper of New York city, has a long editorial article on the reported change of Prof. Huntington to the Trinitarian faith. It is a tender and noble spirited article, such as seldom is connected with the announcement of a change of faith. The article is eminently christian. So says "Burleigh"—and it is eminently true of liberal christians, so called, that they can afford to treat, and do treat, a dissent or difference in opinion with more kindness and calmness than others, chiefly because they consider God as the father and friend of all.

A DIRTY MESS.—The New York correspondent of the Boston Journal says:

The Mayor Wood part of the Democratic party met at the Cooper Institute last night to ratify the nomination of its chief.—He himself was the chief speaker. To say the hall was full, would be a feeble expression. "It was rammed, crammed, jammed full." But such a crowd! The great hall was a sight on the next morning. The elegant seats were broken down, and whole rows were demolished. The carpets, all new this season, were so saturated with tobacco and other filth, that to clean them is not possible. The paint is soiled and the clean walls blacked. Several hundred dollars will be needed to repair the damages and harm of last evening. It was Mayor Wood's *own party* who ratified his nomination, and who alone must elect him.

The writers generally think Mr. Wood's chance the best for election. He is the favorite candidate of the Irish voters and of the groggeries.

THE HOME JOURNAL FOR 1858—Morris and Willis, Editors.—A new year of this popular family newspaper will be commenced on the first day of January next—printed on fine paper and clear type. With the January number will begin a new and beautiful work of fact and fiction, written expressly for the Home Journal, entitled "Jenty Proudfoot"—a Romance of American History, by a distinguished author.—This charming story will be succeeded by a brilliant Venetian tale, by Octave Feuillet. It is translated from the French by Mrs. Marian M. Pullan, expressly for the Home Journal. All the former peculiar features of the paper, which have given it a world-wide reputation, will be continued; while several new ones will give an infinite variety to its ever diversified pages.

Terms.—For one copy, $2; for three copies, 5—or one copy for three years, $5; for a club of seven copies, $10; for a club of fifteen copies, $20; and that rate for a larger club—always in advance. Address Morris & Willis, 107 Fulton street, N. Y.

☞ Washington Irving, who has just died at the age of 76, has for more than half a century been esteemed and honored, not only for his literary attainments, but for the purity of his life, his sunny temper and sterling qualities. He was born in New York in 1783; his father a Scotch emigrant, and his mother an English woman.—His devotion to his kindred has been such that he was never married. His nephews and nieces were adopted as his children.

☞ The pay of the Massachusetts Legislature is fixed at $300 for each member, deducting $3 a day for absence, except for illness, whether leave of absence was granted or not. The Clerks of the Senate and House have $2000 each per session, out of which they have to pay their assistants. The chaplains to have $200 each for the the session.

☞ In order to protect travellers from bandits, Surreya Pasha, Governor of Palestine, has ordered that thirty blockhouses, to be occupied by troops, shall be constructed at intervals on the roads from Jaffa to Jerusalem, from Jerusalem to Ebron, and from Ramleh to Gaza. The foreign consuls have thanked him for the measure.

☞ The First Universalist Society in Salem, have extended an invitation to Rev. Willard Spaulding of Newburyport, to become their pastor, at fifteen hundred dollars a year. Mr. Spaulding now has twelve hundred dollars—the largest salary paid in Newburyport, the Herald says.

☞ It is reported that on arriving at San Juan Island, Gen. Scott gave Gen. Harney to understand that if he wanted a command in some other place, the President would be very happy to relieve him of his responsibilities there. The information had a very bad effect on the General's temper.

FUGITIVES.—The Claremont Advocate learns that five fugitive slaves passed up over the Sullivan railroad on their way to Canada. "The family consisted of a healthy, robust father and mother, with their three children, worth, according to the last prices current, at least five thousand dollars."

☞ The store of Thomas S. Waters, in Salem, was burglariously entered on Monday night last, and four of Grover & Baker's sewing machines were stolen. Well the fellow appreciated value, at any rate—and stole something worth the having.

An old fogy, who don't believe the world is growing better, says the time may come when the lion and the lamb shall lie down together, but if it does the lamb will be inside of the lion!

☞ They are having glorious sleighing all over the northern portion of this State. In Grafton, Carroll and Coos counties the snow is from 12 to 14 inches deep, the most of it having fallen on Friday night.

What strange creatures girls are. Offer one of them good wages to work for you, and ten chances to one if the old woman can spare any of her girls; but just propose matrimony, and see if they don't jump at the chance of working a life-time for their rituals and clothes.

A pedagogue was about to flog a pupil for having said he was a fool, when the boy cried out, "Oh, don't! don't! I won't call you so any more—I'll never *say what I think* again in all the days of my life."

The accusation against Dr. J. C. Ayer, of Lowell, for stabbing R. S. Fay, Jr., the Treasurer of the Middlesex Mills, has been withdrawn because the prosecutor found that no complaint against him could be sustained. The fact is that Dr. Ayer merely defended himself as best he might, with a penknife he happened to have in his hand, against a cowardly assault made on him from behind, with the premeditated intention to dishonor and punish him for the exposure he has made and is making of the wrongs practiced by the officers upon our manufacturing corporations. This community not only upholds the Doctor's successful defence of his person, but it heartily approves his course in publicly denouncing the Tite-Barnacle Family management—that abuses our public property for private ends. Dr. Ayer's medicines, however valuable, are not all for which the masses of our people hold him in regard.—*Boston Herald.*

A SOUTHERN CONFEDERACY.—*Columbia, S. C., Nov. 30.*—The following resolutions were offered in the House to-day:—

Resolved, That the State of South Carolina is ready to enter, together with the other slaveholding States or such as may desire present action, into the formation of a Southern Confederacy.

Resolved, That the Governor be requested to forward this resolution to the various Southern executives.

Another resolution was offered asking official information as to the condition of the State arsenals, arms, ammunition, number of men enrolled in the State, militia, style of the arms, etc.

Washington, Dec. 1.—The Governor of South Carolina, in his message, showing the advantage of a United South, says:—"If, as I solemnly believe, we can no longer live in peace and harmony in the Union, we can form a confederacy with ability to protect itself against any enemy, and which will command the respect and admiration of the world."

He then recommends such measures as will obtain the cooperation of the Southern States in concerted action in defence of the institutions, whenever they may be put in jeopardy by all the departments of the government passing into the hands of their enemies. The election of a Republican President, he says, will settle the question of their safety in the Union.

The merchants of Richmond held a meeting on Wednesday to take the necessary steps to effect a direct trade between Europe and Richmond. They pledged themselves from and after the 1st of January not to give an order for foreign goods to any party without an understanding that such goods should be shipped to James River when practicable.

Catarrhal Cough.

This insidious and annoying symptom, so difficult to treat, depends on a subacute inflammation of the air-passages, which is apt to end in chronic ulceration and a form of consumption. The mucous membrane of the air-passages is peculiarly susceptible to the healing influences of the PERUVIAN SYRUP, as the testimonials of some of our first citizens show.

There is no known remedy can exceed in speediness of cure, and certainty of effect, that which has become world famous as DR. HOSTETTER'S STOMACH BITTERS. In all diseases of the stomach, which are of a morbid nature, the Bitters have effected most remarkable cures when many other remedies have failed. Hundreds of certificates have been given by those who have thoroughly tested its efficacy, all of which corroborate its efficiency, when it is administered according to the directions on each bottle.

Some of the worst cases of Dyspepsia, Diarrhea and Costiveness, have been permanently cured by the use of the Bitters.

Sold by druggists and dealers generally, everywhere.

R. R. R.

On the 1st day of September, 1853, Mr. Charles Randolph called at the R. R. R. office, and stated that for ten years he had not enjoyed a single meal. He had not, for five years, had a natural discharge from his bowels; but was obliged to resort to Injections, &c. He was pale, haggard, and thin. We ordered Radway's Regulators, one each night, and Radway's Resolvent, three times per day. On the eighth of September he called upon us.

HE WAS SO ALTERED THAT WE KNEW HIM NOT.

His appetite is good—his digestion easy—his skin moist and healthy—his step elastic and buoyant—his body vigorous, and his eye indicates a man of health and energy.

For Liver Complaint, Dyspepsia, Difficulties of the Urethra and Bladder, Radway's Regulator and Renovating Resolvent are a quick and positive cure. For all Aches and Pains, for Neuralgia and Rheumatism, for Nervous and Bilious Complaints, Radway's Ready Relief is quick and effectual. In five minutes' time after its application, the patient is free from pain.

Sold by Druggists everywhere.

THE OXYGENATED BITTERS.

Nature, in her great laboratory, has stored some remedy adapted to every disease which "flesh is heir to." But it requires the investigation and research of the philosopher to discover and apply this remedy. Such research and investigation has succeeded in discovering a remedy for that most afflictive dispensation, the

DYSPEPSIA!

With all its lesser and numerous evils; and it may be safely asserted that until the appearance of the *Oxygenated Bitters*, a case of Dyspepsia cured was a rare experience in medical practice. Now, under the influence of these Bitters the rule is to *cure*, the rare exception, failure to cure.

Read the following, which the subscriber requests us to publish for the benefit of the afflicted:

Obdurate and Inveterate Case of Dyspepsia cured by the Oxygenated Bitters.

The following from a gentleman well known in the region in which he lives ought to satisfy all those of little faith:

WATERTOWN, N. Y., July 28, 1858.

S. W. FOWLE & CO., Boston.—*Sirs*:—Nine years since I was attacked by that curse of all diseases, *Dyspepsia*, which so affected me as to cause great oppression, fullness, and bloating of the bowels, immediately after eating, accompanied with terrible pains in the stomach, often occasioning nausea, vomiting, acidity, and headache, together with general debility and suffering, altogether rendering life a burthen.

After having tried every known remedy without effect, and despairing of ever regaining my lost health, I was induced to make use of the Oxgenated Bitters, the good effects of which were immediately visible on my health and system. Before using a whole bottle I was entirely cured; and I feel a pleasure inducing all like sufferers as myself to make use of this remedy.

☞ On Friday, at noon, three bells were tolled an hour in this city, on account of the death of John Brown in Virginia. This was done by sympathisers with Brown;—and with the permission of the proprietor of the Temple and the wardens of the Middle St. Church, and without the consent or authority of anybody in particular as to the Old South Church bell, which is City property—the owner of the house hrving no objection, and the custodian of the key of course delivering it at any responsible call, as usual, in case of fire, &c. From 12 to 1 these three bells named were to toll; but ere the hour had expired, somebody suddenly discovered that the peace of the city or the Union was disturbed by the doleful sound; perhaps a complaint was made;—at any rate, the Mayor and City Marshal posted to the Middle St. Church, and commanded the toller to cease, which he did, a few minutes before the hour was out. The Mayor and Marshal then hasted to the Temple; but here it was no go—the doors were fastened inside by the young men in the belfry tolling; and they heeded not the orders to hold up, but rung out their time.—So the officials started with haste for the Old South; but 1 o'clock caught them, and the bell ceased, before they could get to the church—and thus their troubles were over.

Now, while we are not partial to bell-tolling, at any time, we can't see the harm it did in this particular case, more than in other cases which usage has sanctioned; and we are not so sure of the officers' right or power to stop it, within the reasonable limits assigned.

REMARKABLE.—The Chronicle of Friday does not announce an omission of its issue of Saturday, notwithstanding John Brown is to be hung to-day. The publishers usually make a holiday on all great occasions.—*N. H. Gazette.*

Yes, no doubt—but so long as an oligarchy in the home of Washington, Jefferson and Patrick Henry is allowed to string up honest lovers of liberty, for putting in practice the theory of equal human rights—neither the Chronicle nor any other friend of equality can afford to bate their breath one jot.

☞ Rev. Wm. Lamson, D. D., closed his labors as pastor of the Middle street Baptist Church in this city, on Sunday last—having accepted the call of the Baptist Church, Brookline, Mass., to become their pastor. His feelings would not allow of his preaching a "farewell" sermon. At the close of the afternoon service, a note from him was read, asking for his dismissal.—The happiest relations have always existed between him and his people; and he leaves reluctantly, and to the regret of his parishioners—for what he deems a wider field of usefulness, and where he can enjoy the greater clerical and literary advantages of a large metropolis.

GOVERNOR'S GUARDS.—All the equestrian patriots interested in the establishment of this corps in New Hampshire, will remember that the second meeting, for organization, &c., is appointed for Thursday afternoon, Dec. 8th, at 2 o'clock, at the Council Chamber in Concord. To arrive there in season, it is necessary for all who go from this region to start the day previous, as the cars run up only in the afternoon.

☞ Among the passengers on board the ship Mastiff, which was recently burnt in the Pacific ocean, and rescued by the English ship Achilles, was C. Coffin Harris, Esq., formerly of this city, eldest son of the late Wm. C. Harris. Mr. Harris had been a resident of Honolulu for several years past, and this was his first absence from the island for five years. He lost everything except the clothes he had on.

☞ It is rumored that the dry goods dealers in this city think of closing their several places of business on Tuesday, Thursday, and Friday evenings of each week, during the winter months.

☞ Geo. W. Pettes, Esq., of Boston, is to read his beautiful and popular Poem, "The Silver Lining," at the Lyceum, next Tuesday evening.

Rev. J. G. Adams, of Worcester, one of the most talented and eloquent of the absent sons of Portsmouth, is to lecture, on Monday Evening, Dec. 12th. Of his subject we are not informed.

"Grace Greenwood," of Philadelphia, is to deliver her celebrated lecture on "The Heroic in Common Life," on Tuesday Evening, Dec. 13th.

There will probably be good music at each of these entertainments; and it is the design of the managers to close the Course with a grand Concert, if possible.

Tickets for the rest of the Course, only 50 cents; for each evening, 25 cents.

☞ Any person subscribing for the Daily or Weekly Chronicle for the year 1860, (and paying in advance of course,) will be furnished with the paper for the rest of this year, gratis. Daily $4 per year;—Weekly only $1.

The Matrimonial Code.—The husband reigns, but it is the wife who governs.

BALTIMORE, Dec. 1.—The arrest of the three persons at Martinsburg, on the Baltimore and Ohio Railroad, was made on explicit information sent to Gen. Taliaferro, by Virginia detectives from Grafton and other places West. Two of the three were thus arraigned, and the third was arrested for declaring that there would be men enough on the next train to take Virginia.

The Ohio merchants arrested at Harper's Ferry were discharged after a short detention. Brown, it is said, admits his participation in the Kansas massacre, but offers various excuses in palliation of it. The feeling produced here against him by Mrs. Doyle's letter is very intense.

To-day, several persons, editors of the abolition newspapers published at the North, were ejected from the cars for Harper's Ferry. They had purchased tickets, and were very anxious to proceed, but were refused on account of the arrangement entered into between Gov. Wise and the President of the road.

CHARLESTOWN, VA., (Nov. 29th) Corr. Balt. Sun.—The following is a copy of a genuine letter received at our post office.—The letter is authentic beyond question, as the main facts can be corroborated by a number of persons now here. I received it but a moment ago, and hasten to lay it before your readers. It will be read to John Brown this morning:—

To John Brown, Commander of the Army at Harper's Ferry, Charlestown, Jefferson Co., Va. Care of Jailor, Charlestown.

CHATTANOGA, TENN. Nov. 20, '59.

John Brown:—Sir—Although vengeance is not mine, I confess that I do feel gratified to hear that you were stopped in your fiendish career at Harper's Ferry, with the loss of your two sons. You can now appreciate my distress in Kansas, when you then and there entered my house at midnight, and arrested my husband and two boys, and took them out of the yard, and in cold blood shot them dead in my hearing. You can't say you done it to free our slaves; we had none and never expected to own one; but it only made me a poor disconsolate widow, with helpless children.—While I feel for your folly, I do hope and trust you will meet your just reward. Oh, how it pained my heart to hear the dying groans of my husband and children. If this scrawl gives you any consolation, you are welcome to it. MAHALA DOYLE.

N. B.—My son, John Doyle, whose life I begged of you, is now grown up, and is very desirous to be at Charlestown on the day of your execution; would certainly be there if his means would permit it, that he might adjust the rope around your neck, if Gov. Wise would permit. M. D.

A party of gentlemen at once subscribed the amount, but the letter being detained, it was ascertained young Doyle could not arrive in time.

CHARLESTOWN, VA., Dec. 1.—The Agent of the Associated Press here has been refused by Gov. Wise permission to attend the execution. No facilities will be extended to reporters. The day has passed quietly.

Mrs. Brown was escorted over from the Ferry at 3 o'clock, when the entire military were brought out to make a demonstration. She was received with full military honors, but her companions were not allowed to accompany her from the Ferry. After remaining 4 hours with her husband, she was escorted back to the Ferry at 9 o'clock, there to await the reception of her husband's body.

No one will be allowed within ear of the execution.

BROWN'S EXECUTION.

By an Extra Traveller, forwarded from W. H. Brewster Esq. we get the following particulars.

JOHN BROWN EXECUTED. — *Charlestown*, Dec. 2.—Brown was taken to the scaffold in a furniture wagon at about 11 o'clock. He spoke freely to the soldiers around him. He was hung at quarter past 11 o'clock. There was no unusual excitement.

The body hung about 35 minutes. He died apparently very easy.

The body will be sent to Harper's Ferry at 4 o'clock.

Brown remained firm and dignified to the last; and having declined all religious ceremonies no clergyman was present. The jailer, sheriff and deputies were his suite; his coffin, a plain white pine box, was in the cart with him: as an escort he had six companies of infantry, one of riflemen, and one of horse. There were two hollow squares formed, one inside the other, of soldiers. Between these lines stood the spectators: in the centre were the scaffold, the prisoner and the guards: outside no one was allowed. Mounted and picket guards were posted at all points as in a siege—and in all this military pomp, John Brown was brought to the scaffold,—whenlooking for a moment calmly round on the people, he mounted with a firm step, and in a few moments his body was lifeless, and the spirit returned to God who gave it.

☞ Funeral bells for John Brown, were tolled in Concord, N. H., Biddeford, Me., Plymouth and New Bedford, Mass., and other places, at 11 or 12 o'clock on Friday. Flags were put at half mast in some places. The colored christians of Boston, held a prayer meeting in Mr. Grimes' church,—and some white people, ministers and others, joined in the solemnities. Motions to adjourn were offered in the Massachusetts Legislature, but negatived in both branches.

Brown was hung in effigy in Concord, Mass., Thursday night, but the figure was discovered and cut down at an early hour Friday morning.

In Watertown, a meeting was held to raise something to aid Brown's family.

STOVE STORE REMOVED.

URIAH BLAISDELL

Has removed his Stove and Furnishing Establishment one door north, to the spacious and convenient store

Nos. 43 & 45 Market Street,

where he is receiving and arranging a large and valuable Stock of

STOVES, TIN WARE, &c.,

Which he offers for sale at wholesale and retail, at very low prices. He has a great variety of the best and most popular Stoves, among which are:

1. **The Stewart Cook Stove,** with the latest improvements. This is an air-tight Cook Stove, for Wood or Coal; it has moveable coverings, which can confine the heat in the stove, or let it out into the room; has a reservoir of hot water 10 or 20 gallons, and a tin closet beneath;—a top cover, which is a great institution for baking, and will keep a coal fire all night; it has a Dutch Oven for roasting in front of the Stove;—and it is every way a most convenient and durable Stove. There are 4 sizes.

The following recommendation of Stewart's Stove, is from an eminent engineer, and must be satisfactory to all who wish to understand the value of this excellent Stove:

Portsmouth, N. H., Nov. 5, 1859.

Mr. Blaisdell:—Seven years ago I moved to this city, and sold, before I came, a "Stewart's Air Tight Cooking Stove," which I had used about five years. During that time no repairs or expense had been made upon it. Since I have been here I have tried the various Cooking Stoves in use, and I think for economy and durability the "Stewart" excels them all. I wish you would take away the Stove I now have from my house, and set up one of Stewart's as soon as you can. Your ob't servant,

B. F. CHANDLER.

2. **Boston & Maine Cook Stove;**
3. **White Mountain;**
4. **Empire State;**
5. **Enterprise;**
6. **Exchange;**
7. **Dining Room Cook Stoves,** and others.
